STEP IN THE RIGHT DIRECTION.

When you have an impressive 73.4 cu. ft. of cargo space with the rear 60/40 split seat folded flat, there's a good chance your hands are going to be full when you're loading the cargo area. So with the Intelligent Access key fob on you, just kick your foot under the rear bumper and let the hands-free foot-activated liftgate¹ do the work. This flexible accessibility can serve you well whether you're stowing gear or impulse shopping. It allows Edge to be as versatile as you are.

PREPARE FOR THE UNEXPECTED.

Adaptive Cruise Control

Helps maintain your choice of speed and preset gap from the vehicle in front of you. It can also alert you to a potential frontal collision. If one is detected, adaptive cruise control & forward collision warning with brake support¹ flashes a warning via a heads-up display on the windshield, sounds an alarm, and can pre-charge the brake system to provide full responsiveness when you do brake.

Lane-Keeping System

Can detect lane markings and apply torque to the steering wheel if it senses your vehicle drifting unintentionally out of its lane. If needed, the Lane-Keeping System¹ can also send gentle vibration pulses to the wheel to prompt you to steer back toward center.² A Driver Alert System¹ also monitors your driving behavior – including the crossing of lane markings and other factors – and warns you in the message center if you could use a break from driving.

BLIS (Blind Spot Information System)

Notifies you with a light in either sideview mirror³ if its radar sensors detect a vehicle in the corresponding blind spot. Cross-traffic alert, part of the system, warns you with a beep and a warning light in your sideview mirror if it detects a vehicle approaching either side as you slowly back Edge out of a parking space. Either way, BLIS[®] with cross-traffic alert¹ helps keep you aware of things that may be just out of your line of view.

PREVAIL OVER PARKING LOTS. With help from its Enhanced Active Park Assist System,¹ Edge makes parking easy so you can move on to more important things. Whether you're backing into a perpendicular spot or slowing down to parallel park, ultrasonic sensors can identify a parking space that is the right size, then the system steers the vehicle into it. All you do is follow on-screen prompts, and operate the accelerator, brake and gear shifter as needed. The front 180-degree camera¹ also helps out with visibility and allows you to see around corners. A spritz of the lens washer and your view is clear. Ford Edge has mastered the parking lot. Time to get out and have some fun.

VENTURE OUT WITH CONFIDENCE.

Edge helps you maintain your peace of mind with many standard safety features, including 8 airbags, the patented Safety Canopy® System with rollover sensing, side-curtain airbags that deploy when needed, and a rear view camera that helps you see what's behind your vehicle. Plus, AdvanceTrac® with RSC® (Roll Stability Control™)¹ provides enhanced vehicle stability in a range of conditions by selectively applying individual brakes and modifying engine power to help keep all 4 wheels firmly planted. Also available are industry-first inflatable rear safety belts for outboard passengers,² and a Reverse Sensing System.² And to help the driver stay focused, class-exclusive MyKey® technology allows you to program ignition keys with reminders to drive at appropriate speeds, keep the audio volume low, and much more.
