

ORIVEN TO LOWER THE COST OF OWNERSHIP.

RAM PROMASTER® DELIVERS WHAT YOU NEED. While you're counting assets, count on exceptional quality with engineering focused on reducing cost of operation. Factors that substantiate the built-in efficiency of ProMaster encompass literally every area from powertrains to front-wheel-drive engineering. Standard maintenance—like oil change intervals—are wallet-friendly: up to 18,500 miles between changes with the available 3.0L EcoDiesel I-4 and its class-exclusive¹ Dual Active Drive 6-speed clutchless manual transmission. The final touch? This powertrain delivers some of the best coverage in the business, an unsurpassed 5-Year/100,000-Mile Diesel Powertrain Limited Warranty? For more, visit us at RAMTRUCKS.COM/PROMASTER

BY ANY MEASURE, THIS MUCH CAPABILITY TOTALLY RULES.

BEST-IN-CLASS WHERE IT COUNTS THE MOST. Ram ProMaster[®] Cargo Van stands out by delivering the top-tier capability demanded by a wide variety of commercial segments. Whether you're using this capacious space for deliveries or a mobile workshop, the **best-in-class¹ standard cargo height** assures total convenience. Opt for the available High Roof, and tall workers up to 6'3" can easily stand without stooping.

No matter what your business is, this space serves all equally. It's because we rigorously adhere to SAE J1100 protocols that compel manufacturers to measure volume and width from each wheel well inside the cargo area. This mandate is win-win all around, thanks to two more ruling features—best-in-class¹ maximum cargo width and best-in-class¹ cargo width between the wheel wells. Custom shelving can extend from inside wall to wheel-well lip; those generous cubic-foot volumes stay virtually the same

Hauling capability and towing excellence derive from outstanding powertrains. The 3.6L Pentastar® V6 delivers **best-in-class¹ standard V6 horsepower**—exactly what's needed for confident acceleration and hauling. No matter which powertrain you choose, road manners and maneuvering—especially in smaller spaces in cities and suburbs—are assured. In fact, the 118-inch wheelbase Ram ProMaster models all give you a very street-friendly **best-in-class¹ turning diameter**.

TRANSFORM YOUR VAN INTO THE IDEAL TOOLBOX.

THE CAVERNOUS INTERIOR OF CARGO VAN reflects an intelligently designed space you'll make better through a wide variety of upfits and options. Why does Ram ProMaster® Cargo Van work so well? Multiple reasons. Dash-to-front-axle lengths are kept short to maximize interior volume. Side walls flirt with a practical 90 degrees, enabling easy shelf installation. Side doors (up to 49.2 inches wide) and rear doors (61.5 inches wide; up to 70.5 inches high; and opening to 260 degrees) are huge; both accommodate standard-size pallets. Three wheelbases and four workable lengths (that max out with the extended version reaching 250.5 inches) supply abundant space and a work-ready floor length. Finally, factor in two roof heights, depending on model: the Standard Roof with a 65.4-inch interior height, or the available High Roof, offering 76-inch floor-to-ceiling convenience, and which is standard on all ProMaster Windowed Van models.

BEST-IN-CLASS ASSETS ABOUND. Van models feature the lowest load floor height in the class¹-it's an easy-in 21 inches, with a best-in-class¹ cargo width between the wheel wells and a best-in-class¹ turning diameter: on 118-inch wheelbase models, it's a streetfriendly 36.3 feet. Maneuverability and handling are exemplary. Front-wheel-drive engineering pays off by lowering the platform and eliminating the characteristic "hump" so typical of rear-wheel-drive vehicles. Loading is easy from the get-go, and the worker-friendly low step-in height dispenses with the need for an intermediate step.

AN OPEN-AND-SHUT CASE FOR PARTITIONS. This comprehensive urban package offers surprisingly large options, starting with available partitions for the interior of Cargo Van. The standard layout gives you unimpeded access to the rear from the front compartment. For the many business and industrial purposes where greater privacy or security is needed, we've engineered two solutions. Both the solid partition and the partition with sliding window are constructed of steel, and both fit flush with the flat floor, the side panel and the roof interfaces. The rear-facing side is painted White, while the cab side of the wall is covered with sound-deadening material to provide a comfortable front cabin. It's a working combination of aesthetics and functional purpose.

- ▶ Wood floor
- ▶ Rear-door windows
- ▶ Lower side-wall panels ▶ Driver-side cargo door with window

- ▶ Full cab/cargo partition
- Full side-wall panels
- ▶ Wood floor
- ▶ Solid rear doors (no windows)

- with sliding window
- ▶ Full cab/cargo partition ▶ Driver-side cargo door with window
- Rear-door windows

CHASSIS CAB/CUTAWAY. WHERE VERSATILITY IS KEY.

THESE TOUGH RAM PROMASTER* MODELS BUILD ON LONG-ESTABLISHED STRENGTHS. The wind-tunnel-tested aerodynamic exterior is sculpted art, but the chassis that supports it is industrial-grade from the get-go. Even better: new for 2017 Ram ProMaster Chassis Cab/Cutaway models is a wider and beefier rear axle that has real-world advantages: it helps enable a robust GCWR that offers remarkable capability.

Here's where functionality works hand-in-hand with comfort and versatility. Start with a super-low frame height that's a mere 24.4 inches from the ground; it enables easy access without a step and invites minimal-angle ramp attachments—design parameters that offer nearly unlimited upfit potential. Built to the specifications of the 3500 weight class, these powerhouses come in 136- and 159-inch wheelbases, and feature a maximum 244-inch overall length. Chassis Cab and Cutaway models are rated at 9,350-lb GVWR, with towing up to 5,100 lb* across the board. Payload varies by wheelbase, but maxes out at a no-nonsense 5,200 lb. Standard suspension is a premium heavy-duty design that features a MacPherson strut front unit; it is a specifically designed suspension that includes a rear heavy-duty stabilizer bar, making Ram ProMaster an ideal choice for a custom camper. Upshot? From vocation to vacation, Ram ProMaster is ready to take it all on. Get more at **RAMTRUCKS.COM/PROMASTER**

Properly secure all cargo

Illustrated to show Cutaway.

ON COURSE FOR THE PERFECT DRIVE. EVERY TIME.

YOU VALUE COMFORT, VERSATILITY AND ROOMINESS. WELL, JOIN THE CLUB. Your municipality, business, church or family needs a roomy shuttle. Rest assured, you've come to the right place: Windowed Van. Engineered only for the 2500 and 3500 weight classes, with bodies built only on the expansive 159-inch wheelbase with the convenience of a High Roof, this Ram ProMaster® can deliver generous seating with ample cargo room. Require a Special Needs upfit? Count on the built-in flexibility to customize the interior. Looking to power ancillary devices required by ambulances, on-the-go medical clinics and Automobility uses? The available Auxiliary Power Connector is the answer. You've got the drive to employ the best. Ram ProMaster Windowed Van is the way to go.

- Available **PARKVIEW REAR BACK-UP CAMERA** is high-mounted for optimal views. Automatically engaging in Reverse, it displays the rear scene on the optional five-inch radio screen. The on-screen grid lines enhance the ease of backing up, while the view—even with rear doors open—helps boost the safety factor. Also available: the **PARKSENSE REAR PARK ASSIST SYSTEM** is activated by engaging Reverse. It operates below 8 mph, using audible warnings to alert the driver of obstacles to the rear.
- B TOP-LEVEL CARGO MANAGEMENT. Cargo Vans offer roof strength to handle up to 330 lb, with six roof rail mounts (three per side).
- Utilizing HIGH-PERFORMANCE BREMBO* BRAKES, Ram ProMaster® employs a robust FOUR-CHANNEL ANTILOCK BRAKE SYSTEM (ABS) that features independent control and monitoring of each wheel. Our advanced version of the Electronic Stability Control (ESC)⁴ System (standard on all models) integrates ABS with a variety of full-function All-Speed Traction Control technologies. ESC⁴ helps maintain control under common adverse conditions—like wet, icy or snow- covered roads, and during tight turns and evasive maneuvers. Our ESC⁴ System is comprehensive, with a Brake-Lock Differential, Brake Assist, Hill Start Assist, Engine Drag Control, Trailer Sway Control⁴ and Electronic Roll Mitigation.
- CARGO TIE-DOWNS. Cargo Van models feature up to ten in-floor D-rings to help secure interior cargo, with up to 17 total side and floor tie-downs available.
- The class-exclusive¹ front-wheel drive lets us employ an ingenious rear suspension: a light yet robust beam axle/leaf spring design that's equally as tough as those found on rear-wheel-drive vehicles. Engineering that dispenses with the bothersome "hump" inherent in rear-wheel-drive vehicles

gives you a load floor that's a BEST-IN-CLASS¹ LOWEST LOAD FLOOR HEIGHT OF 21 INCHES.

- A **SOLID BACKBONE** is a designed-in advantage to the body-frame integral (unibody) engineering. The chassis for each Ram ProMaster model is mass-optimized and tuned for ideal performance. It utilizes a strong, integrated frame structure with strategically boxed frame components and multiple crossrails and longitudinal rails—all crucially welded together.
- Depending on wheelbase length, we use up to **EIGHT STRUCTURAL CROSSMEMBERS**, giving Ram ProMaster the ladder-frame integrity that ensures proper stiffness and long-term durability.
- CLASS-EXCLUSIVE¹ FRONT-WHEEL DRIVE (FWD). See full story on page 13.
- **RACK AND PINION STEERING.** Our hydraulic-assist system uses a premium steering gear, engineered and tuned to meet long-term service. Curb-to-curb turning—even on longer wheelbase models—is impressive. The telescoping steering column is standard.
- FRONT CRUMPLE ZONES are engineered to absorb energy. Our goal is to create a vehicle applauded for its Safety and Security features. Ram ProMaster models were subjected to some of the most extensive crash and safety testing in the history of the company.
- In front, a **MACPHERSON STRUT** front suspension utilizes large, 62-mm twin-tube shock absorbers for solid support of cargo. This system is enhanced with GVW-tuned cast-iron control arms, which offer remarkable durability and superb ride, handling and road manners, even under heavy loads.
- **THREE PARTS, ONE SIMPLE DESIGN.** The modular three-piece rear and front ends allow higher positions for the oversized headlamps and taillamps—a design that significantly helps reduce both time and expenses for service or needed repairs.

TOUGH EXTERIOR ARCHITECTURE enables long-lasting conveniences on a daily time frame. On that modular front fascia, Ram ProMaster models employ handy step-in footholds that make access to the engine compartment simple; cleaning a windshield or changing a wiper blade is fast and secure. It's one more example of how this smart commercial design specifically makes life—and work—easier.

BEST-IN-CLASS' TURNING DIAMETER.

 ${\bf MANEUVERABILITY, \, ROAD \,\, MANNERS, \, HANDLING: \, THIS \,\, IS \,\, SO \,\, NOT \,\, YOUR \,\, FATHER'S \,\, VAN.}$

It was a mandate from the moment our designers sketched the first outline of Ram ProMaster®: create industrial-grade commercial vehicles that will stand up to both professional critiques and the toughest tasks—and then give them unprecedented performance attributes. The upshot? Exemplary capability in limited spaces. By utilizing a premium steering gear that enhances drive quality and reliability, the engineering also helps contribute to a conveniently tight turning diameter—best-in-class¹ 36.3 feet on our 118-inch wheelbase models. Factor in those performance-grade Brembo® brakes, and you've got behavior more typically associated with luxury sedans.

WHEN IT COMES TO PUNISHMENT, IT'S BEEN THERE ... AND BACK. In a vehicle as sophisticated as Ram ProMaster, durability and reliability are paramount. Our focus on quality was achieved through pre- and post-production testing in conditions that ranged from the arctic-like -40°F roads of northern Sweden to the scorching 125°F heat of Nevadan deserts. No surprise: Ram ProMaster surpassed with flying colors. This tough commercial vehicle is designed to perform under everchanging loads and widely varying climates.

COMPLETE ROAD CONTROL.

SMART ENGINEERING FOR THE CENTER LINE. AND YOUR BOTTOM LINE.

Ram ProMaster utilizes front-wheel-drive (FWD) engineering for good reasons: FWD has consistently proven itself, offering outstanding road manners in snow and on ice, and helping lower the step-in height—a real boost in convenience when loading and unloading.

Created with every real-world strength you need to support your business, Ram ProMaster is the go-to commercial vehicle that combines nimble and agile maneuverability with total occupant comfort.

SPACIOUS, SECURE AND WORKER-FRIENDLY. WELCOME TO AN OFFICE YOU CAN LIVE WITH. From the expansive solar-glass windshield to the pallet-friendly rear doors, this interior addresses the most valuable cargo: the driver and passengers. High-positioned seats (with optional two-passenger bench seat, swivel seats and driver suspension seat) offer outstanding outward visibility, with soft-touch materials for armrest surfaces. Instrumentation is ergonomic and intuitive, with a standard telescoping steering column and easy-to-access controls. Storage is abundant: look for oversized door pockets, triple cup holders below the center stack, glove boxes with upper instrument panel storage, and an available overhead shelf system so robust, the 2.5-liter area can hold 44 lb of materials. Given all the standard features backed with a long list of options, this is how you hold the highest office.

IN THE FOREFRONT OF STATE-OF-THE-ART TECHNOLOGY.

SEATING CONFIGURATIONS

Standard tubular-structured four-way bucket seats feature spring suspension and woven cloth. Available: six-way adjustable seats in cloth or vinyl with manual lumbar support and heated seat surfaces.

The available premium driver's suspension seat adds a pneumatic suspension and a weight/size-conformity adjustment knob.

Here, the single driver's bucket seat is joined by an integrated two-person bench seat; in-cab capability is also enhanced: the middle seatback insert folds down to become a convenient writing surface.

SWIVEL SEATING

Need to access the rear compartment with ease? Available swivel bucket seats in long-wearing cloth are the answer, with 180° inboard swivel range, 35° outboard swivel, 58° recliner and a continuous height adjuster.

WE KNOW. YOUR MOST VALUABLE CARGO might not be building materials, equipment or power tools. That's why we designed this cabin to be comprehensive, convenient and operator- and passenger-friendly. Built to meet the tough demands of the commercial sector, Ram ProMaster® takes its ergonomics and creature comforts seriously. The expansive windshield features solar-filter glass. Seats are high-positioned for superb outward visibility and driving comfort. Instrumentation is crisp and readable, with easy-to-access controls augmented with a vibrant LED-illuminated cluster with Driver Information Display.

Storage needs are critical, and in Ram ProMaster, storage is abundant, with multiple compartments in each door, huge in-door pockets, triple center-stack cup holders, an upper instrument panel bin, oversized and available lockable glove boxes ... and much more. You need your space. It's right here.

Electronics are the finishing touch. Standard on all models: AM/FM/MP3 audio system, with 2.5-amp fast-charging USB port and 12-volt power outlet. Also available are auxiliary switches to accommodate upfits and ancillary electronics. Telematics culminate in one of the best systems in the market: the multifaceted Uconnect® delivers key information and access to entertainment features, further separating 2017 Ram ProMaster from the pack.

OUR SMARTEST CALL WAS TO STUDY THE SMARTPHONE. Today's smartphones go far beyond merely making phone calls. Our colleagues at Uconnect applied the same concept to the radio. More than a receiver or MP3 player, Uconnect offers the onboard computing power that makes your ProMaster an Internet-accessible workstation.

The standard AM/FM/MP3 system does its job with outstanding fidelity. But business demands expanded capabilityand readily accessed information. You'll find it in the new Uconnect 3.0—and upwards. The available Uconnect 5.0 system includes a CD player, Bluetooth® technology and 5-inch color touchscreen. At the top, the recently improved Uconnect 5.0 with Navigation brings full-color clarity with exacting web-based, GPS Navigation to work. Available SiriusXM® Satellite Radio⁵ includes a one-year trial subscription. Staying in touch is imperative. Welcome to the integrated world of Uconnect-telematics at their best.

STANDARD RADIO

- AM/FM stereo
- ▶ MP3 capability with auxiliary input
- Four-speaker sound system

UCONNECT 3.0

- AM/FM stereo
- ▶ MP3 capability with auxiliary input
- Media hub with USB and auxiliary inputs

A LEADER: 3.0L ECODIESEL 1-4

TORQUE-FRIENDLY, AND TOUGH AS NAILS. As part of an engine family developed for higher weight classes (Class IV use is typical), the 3.0L EcoDiesel in-line four cylinder in front-wheel-drive Ram ProMaster® delivers reams of towing and takeoff capability, with convenient 18,500-mile oil change intervals. Offering a standout performance, the EcoDiesel I-4 is mated to the class-exclusive¹ 6-speed clutchless manual transmission with Dual Active Drive technology, combining the best between an automatic and a manual.

174 HORSEPOWER 295 LB-FT OF TORQUE

3.	.0L ECODIESEL I-4
HORSEPOWER	174 hp @ 3,600 rpm
TORQUE	295 lb-ft @ 1,400 rpm
CONFIGURATION	In-line four cylinder
DISPLACEMENT	183 cu in / 2998 cc
BORE x STROKE	3.78 x 4.09 in / 95.8 x 104.0 mm
BLOCK MATERIAL	Cast-iron
CYLINDER HEAD MATERIAL	Aluminum alloy
AIR INDUCTION	Variable Geometry Turbocharger
VALVE TRAIN	DOHC
FUEL DELIVERY	Electronically controlled Common Rail MultiJet direct injection
RECOMMENDED FUEL	Diesel (includes B5 capability)
COMPRESSION RATIO	17.5:1
ALTERNATOR	220-amp
OIL CAPACITY	9.5 qt
MAXIMUM RECOMMENDED OIL CHANGE INTERVAL	18,500 mi

A STAR: 3.6L PENTASTAR' V6

A STELLAR PERFORMER IN THE RAM COMMERCIAL ARSENAL. It's got it all: impressive takeoff and acceleration. Fuel-sipping performance. An enviable resumé of multiple awards. 10,000-mile oil change intervals. And it's long-proven in the commercial sector. The 3.6L Pentastar V6, with advanced multiport fuel injection, electronic throttle control and available integrated cruise control, comes to work with best-in-class¹ standard V6 horsepower. The available Trailer Tow Group ensures towing up to 5,100 lb when properly equipped.

280 HORSEPOWER 260 LB-FT OF TORQUE

3.	6L PENTASTAR V6
HORSEPOWER	280 hp @ 6,400 rpm
TORQUE	260 lb-ft @ 4,175 rpm
CONFIGURATION	60-degree V6
DISPLACEMENT	220 cu in / 3604 cc
BORE x STROKE	3.78 x 3.27 in / 96.0 x 83.0 mm
BLOCK MATERIAL	Aluminum
CYLINDER HEAD MATERIAL	Aluminum alloy
AIR INDUCTION	Naturally aspirated
VALVE TRAIN	Chain-drive DOHC, 24-valve
FUEL DELIVERY	Sequential, multiport injection
RECOMMENDED FUEL	Unleaded regular (87 octane)
COMPRESSION RATIO	10.2:1
ALTERNATOR	180-amp, 220-amp (available)
OIL CAPACITY	6.0 qt
MAXIMUM RECOMMENDED OIL CHANGE INTERVAL	10,000 mi

THE DEALER NETWORK FOR YOUR BUSINESS.

Your **Business**Link dealer is committed to providing you, the small business owner, with the vehicle support you need for your business, from servicing all makes and models of your existing vehicles, to selling you the right vehicles needed to perform the work that you do. Your **Business**Link dealer provides next-bay-up available service because we know downtime is costing you money. Your **Business**Link

dealer has sales professionals trained to properly "job-rate" the right vehicle for your work application along with providing commercial finance options. New vehicle sales to qualified small business owners also receive a free alternate transportation contract, in the event your vehicle is in for service.

Membership in the **BusinessLink** program is complimentary. Membership helps us identify you as a small business owner so we can provide you with both the service you deserve and update you with offers to help reduce the costs of doing business. See your **BusinessLink** dealer to register today.

BusinessLink has you covered.

- ▶ Next-Bay-Up Service (all makes and models)
- ▶ A Dedicated Business Link Staff
- ▶ Commercial Vehicles in Stock
- ▶ Free Loaners* for Selected Vehicles
- ▶ Extended Service Hours
- **▶** Convenient Shuttle Services

For more information, log on to

FCAWORKVEHICLESUS.com or call us toll-free at 877-2THELINK (877-284-3546).

*Some restrictions apply. See dealer for details.

INCENTIVES FOR SMALL BUSINESSES.

Running a business presents plenty of challenges. Like

cutting costs, not corners. Like saving time and money and eliminating hassles. The **ON THE JOB¹º** commercial incentive program provides assistance in customizing and servicing your business vehicles.

Our most popular ON THE JOB10 incentives are:

- ► COMMERCIAL EQUIPMENT/UPGRADES. \$500/\$1,000 Allowances for Upfits.
- ► COMMERCIAL GRAPHICS ALLOWANCES, \$250/\$500/\$1,000 Commercial Graphics Allowances.
- ▶ BOSCH® TOOL OFFER. Select one of five current Bosch Power Tool Packages.
- ▶ TWO-YEAR LUBE/OIL/FILTER. For all Chrysler, Jeep, Dodge and Ram vehicles (includes gas and diesel engines).
- ▶ MOPAR® SERVICE CONTRACTS. \$500/\$1,000 and Oil Change options available.

See your dealer for specific program rules and details or call us toll-free at 877-ONTHEJOB (877-668-4356).

A commercial line of credit from Chrysler Capital is ideal for qualified business customers looking for a flexible, easy way to manage growing vehicle needs. Chrysler Capital streamlines the process—and, with prequalification, you're ready to buy a vehicle when you need it. Ask your **Business**Link dealer for details.

Based on latest available competitive information. Class is based on Large Commercial Van segment (Class 2). 2 Transferable. See your dealer for complete details and a copy of the 5-Year/100,000-Mile Diesel Powertrain Limited Warranty. 3 Always look before proceeding, electronic drive aid is not a substitute for conscientious driving; always be aware of your surroundings. 4 No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. 5 SiriusXM subscriptions for audio and data services are sold by SiriusXM to follow your trial subscription. If you decide to continue listening after your trial, the subscription plan you choose will automatically renew thereafter and you will be charged according to your chosen payment method at then-current rates. Fees and taxes apply. To cancel, you must call SiriusXM at 1-866-635-2349. See the SiriusXM Customer Agreement for complete terms and more information at siriusxm.com. All fees and programming subject to change. Your equipment and features for SiriusXM services will vary depending upon the vehicle you select and may be limited in select markets. 6 Requires a mobile phone equipped with the Bluetooth Hands-Free Profile. Visit UconnectPhone.com for system and device compatibility. 7 WiFi subscription required. This feature is not intended for use by the driver while the vehicle is in motion. Always drive carefully. 8 The Advanced Front Air Bags in this vehicle are certified to the new U.S. Federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger
