

09 HYUNDAI\_AZERA

# ARE WE THERE YET?

It's a common sentiment among children riding in the back seat, but you may be surprised to learn it's also the way we approach making cars here at Hyundai. We're always asking ourselves if our vehicles are as good as they can possibly be. Are the engines smooth enough? Is the design stylish enough? Is the performance inspiring enough? Are the emissions low enough? Is the vehicle safe enough? In the end, the answer is yes. And no. Because as proud as we are of our vehicles, as impressively as they perform, as handsomely as they're styled and as safe as they unquestionably are, we're simply never satisfied. As a driver, you deserve nothing less. Think about it.

LIMITED IN SMOKY GRAY PEARL

## MORE INTERIOR VOLUME THAN THE BMW 7 SERIES

---

We're winning the space race – with our Bavarian friends at least. That's because the Azera features a gargantuan 123.5 cubic feet of total interior volume. More than a BMW 750i, even more than their long-wheelbase 750Li. Feel free to chuckle to yourself the next time you pull up next to one at a red light.

LIMITED IN BEIGE LEATHER

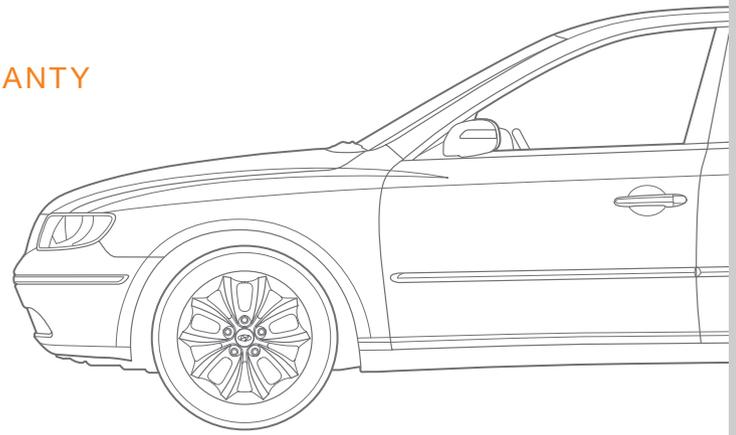

# AMERICA'S

# BEST

What does a warranty say about a car? Well to us, it says we have the utmost confidence in its quality, so much so that we're willing to stand behind our cars long after you've driven off the dealer's lot. Long enough, in fact, for your kids to go from second grade to high school graduation.

# WARRANTY

09 AZERA \_WARRANTY

	POWERTRAIN	NEW VEHICLE LIMITED WARRANTY	ANTI-PERFORATION	ROADSIDE ASSISTANCE

## WHAT DOES THE WORD “BEST” MEAN, AGAIN?

It’s difficult to know these days, with car makers claiming to have “The Best Coverage in America” or “The Best Warranty Coverage in the Business.” Fact is, there is no manufacturer that offers a standard warranty matching Hyundai’s (and we’ve had it for 10 years), which means when we say we have America’s Best Warranty,<sup>1</sup> the word “best” means, well, best.

- Best ≠ Good
- Best ≠ Kind of impressive
- Best ≠ Better than my neighbor’s

Best = Best

<sup>1</sup>See dealer for LIMITED WARRANTY details.

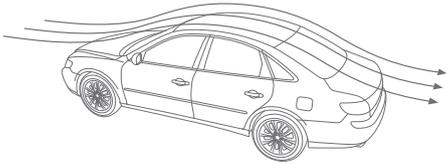

LIMITED IN SILVER FROST METALLIC

## PUT YOUR FOOT DOWN

---

Continuously Variable Valve Timing. All-aluminum construction. Double overhead camshafts. These terms may not mean much to you, but they're a few of the reasons the Azera's silky-smooth 3.8-liter V6 delivers an impressive 263 horsepower and 257 pound-feet of torque. That's enough to best the Buick LaCrosse CXL and the Chrysler 300 Limited. It's also enough to put a big grin on your face as you pass that semi blocking you in the slow lane.

## IT'S DEFINITELY NOT A DRAG

---

Azera's slippery 0.29 coefficient of drag not only improves fuel economy, it improves stability at highway speeds and helps quiet the interior. It also makes the Azera one sleek driving machine.

### 4-WHEEL INDEPENDENT SUSPENSION

This advanced design features a double-wishbone layout in front and a multi-link set-up in the rear, with gas-charged hydraulic shocks all around. The result is a supple and refined ride that's remarkably well controlled to inspire driving confidence.

### 5-SPEED SHIFTRONIC TRANSMISSION

Smooth shifts are the order of the day with this advanced 5-speed automatic transmission. It features a lock-up torque converter for improved highway mileage and SHIFTRONIC® manual shifting for personal control and a more spirited driving performance.

### POTENCY MEETS RESPONSIBILITY

Both of Azera's V6 powerplants give you a surge of horsepower while doing their best to protect the environment – both engines boast ULEV ratings and achieve an impressive 26 miles per gallon on the highway. How's that for a responsible exercise of power?

# V6

The Azera offers you a choice of two advanced V6 powerplants to propel you effortlessly on your way to your destination. Featuring all-aluminum construction and a variety of state-of-the-art technologies, they make every trip you take in your Azera an event to be relished.

# REFINEMENT

LIMITED IN SILVER FROST METALLIC

NEVER ASK FOR DIRECTIONS AGAIN. Azera's LG® in-dash navigation system features a bright, full-color, 6.5-inch touch-screen display, convenient turn-by-turn voice prompts and an integrated address book with a 125-destination memory. You can also search from a comprehensive database of five million points of interest across the U.S. and Canada, allowing you to easily locate such things as restaurants, ATMs, government offices, gas stations and other stores and services which may be nearby.

INTERIOR

LIMITED IN BEIGE LEATHER

ENJOY 170 CHANNELS OF CHOICE digital content with crystal-clear sound coast-to-coast. Standard XM® radio with a complimentary 3-month subscription lets you experience a huge variety of commercial-free music channels as well as exclusive news, weather, talk and specialty programming available nowhere else.<sup>1</sup>

#### INFINITY LOGIC 7 SURROUND SOUND

With 605 watts of power, the Infinity® premium 12-speaker audio system with Logic 7® surround-sound processing delivers such an immersive audio experience, your morning commute will feel more like you've got the best seats in the house at the nearest concert hall.

<sup>1</sup>See specifications section for subscription details. The *Bluetooth*® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc., and any use of such marks by Hyundai is under license. Other trademarks and trade names are those of their respective owners. iPod is a registered trademark of Apple, Inc. Infinity is a registered trademark of Harman International, Inc.

#### INPUT JACKS

Your favorite music is never far away. The Azera is equipped with not just one, but two auxiliary input jacks to connect portable music players such as an iPod® to the audio system. One is a mini jack which connects through your player's headphone jack. The other is a USB port, which transmits artist and track information and even charges the device as it plays when used with an available accessory cable.

#### BLUETOOTH

Many states have mandated the use of hands-free systems while driving and talking on your mobile phone. Luckily, Azera is available with integrated Bluetooth®, featuring a built-in speaker and microphone as well as the ability to recognize several unique cell phones.

#### SPEED-SENSING VOLUME CONTROL

This convenient feature automatically adjusts the audio system's volume to compensate for changes in road noise at various speeds. So your media is always precisely at the level you want it to be. Just don't use your accelerator to adjust the volume.

## 09 AZERA \_ INTERIOR FEATURES

### DUAL AUTOMATIC CLIMATE CONTROL

The Cold War may be over, but there's still a battle to set the A/C. Now you can set separate temperatures for both driver and front passenger, so if one likes it hot while the other runs a little cooler, everybody can be happy. It's kind of a climatological détente.

### POWER REAR SUNSHADE

The greenhouse effect stops here. This ingenious automatic rear sunshade remains elegantly tucked away until you're ready to deploy it. It's perfect for keeping your Azera's interior, not to mention your rear-seat passengers, cool and comfortable.

### INTEGRATED MEMORY SYSTEM

You're 6'2" with long arms. The valet is 5'4" with short legs. No problem. Use this system to set your preferred seat, steering wheel and side-mirror positions, then recall them at a moment's notice with just the touch of a button. No matter who's been driving your car, you quickly return to your favorite driving position.

### HOMELINK®

Getting home is great; fumbling for the garage remote, slightly less so. Control multiple house functions with this transceiver integrated into the rearview mirror. Open the garage, turn on the lights, even deactivate your security system – all from your driver's seat.

#### 60/40 SPLIT REAR SEATBACK

Exceptional interior volume meets exceptional versatility. Make the most of the Azera's expansive cargo volume with convenient 60/40 split fold-down rear seats. It's perfect for stashing oversized items, oddly shaped cargo or simply your latest flea market find.

#### ENGINE IMMOBILIZER

This advanced security feature uses a unique key transponder code that must match the code programmed into the automobile's electronic system. If the two codes don't match, the engine is automatically disabled, preventing a potential thief from starting the car.

#### POWER-FOLDING SIDE MIRRORS

Keep your mirrors out of harm's way when you're parked on the street or in a narrow parking space with this convenient feature. Both mirrors are also heated so they stay clear in cold weather, and have integrated turn signals for increased visibility in traffic.

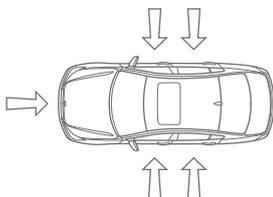

#### RAIN-SENSING WINDSHIELD WIPERS

An infrared beam mounted behind the rearview mirror is directed toward the windshield, then reflects back to a sensor. When rain hits the windshield, it interrupts the light beam, activating the wipers. This system even adjusts to compensate for the level of rainfall.

●/● = STANDARD EQUIPMENT ON BASE MODEL

22,000 LIVES SAVED

NHTSA estimates that, thanks to airbags, over 22,000 people who were involved in automobile accidents are living today.

# STATE OF-THE-ART SAFETY

A reinforced body structure, eight airbags and a wealth of advanced safety technology including standard Electronic Stability Control are the reasons why Azera is one of the safest cars in its class.

SAFETY

LIMITED IN BLACK ONYX PEARL

# ESC

Because you never know when an emergency situation is around the bend, every Azera comes equipped with Electronic Stability Control! It constantly monitors vehicle dynamics such as wheel speed, steering angle and lateral g-forces. When it senses a skid is imminent, it adjusts brake and throttle input to help keep you safely on your intended path.

# SAVES LIVES

LIMITED IN MYSTIC BLUE PEARL

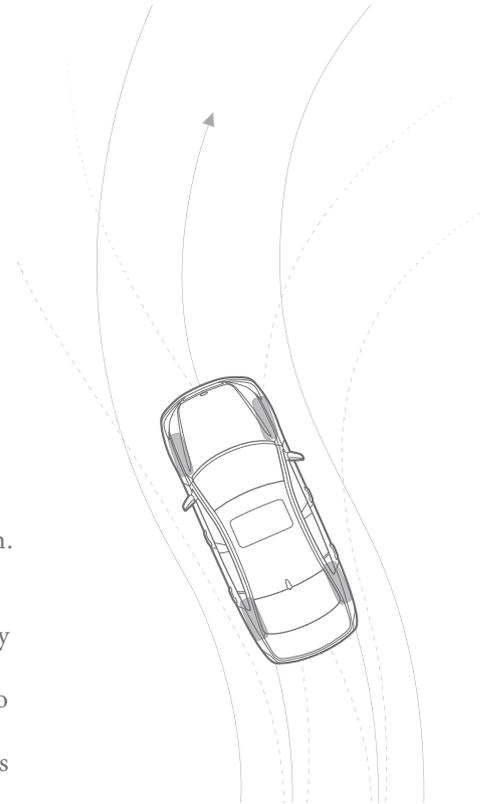

ANTI-LOCK BRAKES WITH EBD

Unfortunately, wet roads and sudden stops are an unavoidable part of everyday driving. Enter ABS. It prevents wheel lock-up and helps you maintain steering control during emergency braking situations by rapidly pulsing the brakes so you can maneuver yourself out of harm's way. But we didn't stop there. We also incorporated Electronic Brake-force Distribution (EBD), which uses a network of sensors to provide the proper amount of brake pressure at each wheel – based on load dynamics, speed and road condition – to deliver maximum braking performance.

TRACTION CONTROL

Wet pavement may have met its match. Azera's advanced Traction Control System senses unexpected wheelspin during acceleration, then automatically applies the appropriate combination of brakes and throttle, routing power to the tire with the most traction. This helps you maintain control in treacherous driving conditions.<sup>2</sup>

BRAKE ASSIST

Statistics show that drivers frequently fail to brake hard enough in emergency situations. Brake Assist senses when you're in a panic stop and immediately applies the maximum braking pressure to help you stop in a shorter distance. Because sometimes a few extra feet can make all the difference.

<sup>1</sup>Electronic Stability Control (ESC) cannot control your vehicle's stability under all driving situations. ESC is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether ESC can help prevent loss of control. See Owner's Manual for details. <sup>2</sup>The Traction Control System (TCS) is meant to enhance conscientious driving habits and is not a substitute for safe driving practices.

SEATBELT PRETENSIONERS

Pretensioners tighten the belts in certain accidents to limit the front occupants' forward movement. Force limiters then release slack to reduce the load across the body to help minimize injury.

TIRE PRESSURE MONITORING SYSTEM

Each of the Azera's wheels is equipped with an air-pressure sensor located at the valve stem. When the pressure of any tire falls below its optimal level, a warning light on the instrument panel alerts you, helping you avoid dangerous situations that could arise from driving on an underinflated tire.<sup>1</sup>

ACTIVE FRONT HEAD RESTRAINTS

Whiplash is one of the most common injuries in a rear collision. This feature allows the head restraints to move forward on impact, reducing the likelihood of a neck injury.

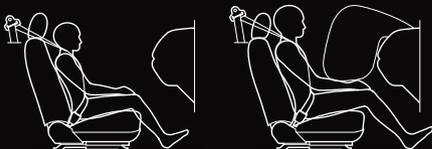

You wouldn't build a house on a shaky foundation. Same goes for cars. That's why we build the Azera with a reinforced unibody construction made from high-tensile steel to effectively absorb collision energy. We've also engineered it with rear crumple zones, bodyside reinforcements and hood-buckling creases to protect you in an impact from any direction.

<sup>1</sup>TPMS is not a substitute for proper maintenance. See Owner's Manual for details. Spare tire does not include TPMS sensor. <sup>2</sup>The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag.

## AIRBAGS THAT THINK

---

Advanced front airbags adjust their deployment based on impact speed and seat position, and use the Occupant Classification System to prevent deployment when the front passenger is under a certain weight.<sup>2</sup>

# BUILT TO LAST

Ever wonder how we can afford to offer America's Best Warranty? Well, it's because the Hyundai you buy today is among the most painstakingly manufactured automobiles in the world. Read on below and you'll learn just a few of the reasons why we have so much confidence in the cars we build.

## LARGE AND IN CHARGE

Our Ulsan plant is part of the largest automotive manufacturing facility in the world. It has five assembly plants and seven engine facilities, and employs 34,000 people. It also boasts an environmentally friendly wastewater and sewage-treatment plant.

## LASER FIT & FINISH TESTS

In our Asan plant, specially designed lasers slowly pass over and scan car body panels, searching for flaws and inconsistencies in either panel gaps or alignment that are invisible to the human eye. This ensures perfect fit and finish before any car leaves the factory.

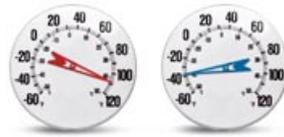

## HANDS-ON QUALITY CHECKS

We hand check nuts, bolts, cables, wiring and power components before any Hyundai ever leaves the plant. Then every vehicle is road tested to eliminate squeaks and rattles that can't be detected on the factory floor. The result? A flawless car delivered to you.

## ROBOTS AND PEOPLE

Generally, our robots handle repetitive, physical tasks, like welding and painting. People, on the other hand, inspect the robots' work for things they may overlook. Which means we always pick the best person for the job, even when that person isn't one.

## TESTED TO THE EXTREMES

From the scorching heat of Death Valley's deserts to the frozen tundra of Central Canada, our automobiles are tested in the most extreme conditions on the planet Earth to ensure their performance never wavers, because you never know what life will throw your way.

## SIX SIGMAS=FEWER DEFECTS

The Six Sigma Process is a manufacturing practice designed to improve processes by eliminating defects. Originally designed for the electronics industry, we adapted it for use in automobile manufacturing. The result? Less than 3.4 defects per 1 million units.

## STATE-OF-THE-ART PLANTS WORLDWIDE

An R&D center in South Korea. An award-winning plant in Alabama. An engineering center in Michigan. A Southern California design facility. What do they have in common? Each uses state-of-the-art technology to ensure that every Hyundai is as good as it can be.

# TURNING DREAMS INTO REALITY

At our design centers and R&D facilities around the world, Hyundai is developing technologies that will carry you down the road more safely, more reliably and more beautifully than ever before.

WE'RE COMMITTED TO BEING GREEN. That's why we built a \$58 million environmental technology research and development center. Two hundred researchers are working day and night, developing a new generation of clean-running, fuel-cell electric vehicles.

HYUNDAI HOPE ON WHEELS is the united effort of Hyundai and its dealers to fund pediatric cancer research and celebrate the courage of children fighting the disease, like Sammy Heim, Hope on Wheels National Youth Ambassador. Visit [www.hopeonwheels.com](http://www.hopeonwheels.com)

## WHERE NEW HYUNDAIS ARE BORN

---

At our 90,000-square-foot Southern California design facility, over 150 designers, engineers, model makers and technicians utilize the most advanced visualization, clay-modeling and graphics technologies to ensure that the next generation of Hyundais represents the leading edge of automotive technology and design.

## GLS

### STANDARD FEATURES INCLUDE:

- 234hp, 3.3-liter, DOHC V6 engine with CVVT
- 5-speed automatic transmission with SHIFTRONIC®
- Chrome-tipped dual exhaust
- Electronic Stability Control
- Traction Control System
- Anti-lock Braking System with Electronic Brake-force Distribution and Brake Assist
- Tire Pressure Monitoring System
- Advanced dual front airbags with Occupant Classification System, front and rear side-impact airbags, front and rear side-curtain airbags
- Active front head restraints
- 17-inch, 10-spoke Euroflange alloy wheels
- Automatic headlights
- Front fog lights
- LED tail lights
- Dual-folding heated power side mirrors
- Windshield wiper de-icer
- Premium cloth seats
- Power front seats
- 60/40 split fold-down rear seatback
- Dual front automatic climate control
- Electroluminescent gauges
- Leather-wrapped steering wheel and shift knob
- 172-watt AM/FM/CD/MP3 six-speaker audio system
- XM® Satellite Radio¹
- iPod®/USB and auxiliary input jacks
- Steering-wheel-mounted audio and cruise controls
- Electrochromic auto-dimming rearview mirror with compass
- HomeLink® integrated transceiver
- Multi-function trip computer
- Tilt-and-telescopic steering wheel
- Solar control glass
- Remote keyless entry system with anti-theft system and engine immobilizer

### OPTIONAL GLS PACKAGE:

- Premium Package (P): Power tilt-and-slide sunroof, leather seating surfaces, heated front seats

## LIMITED

### INCLUDES ALL STANDARD GLS FEATURES PLUS:

- 263hp, 3.8-liter, DOHC V6 engine with CVVT
- Power tilt-and-slide sunroof
- Power-folding side mirrors with turn signal indicators
- 17-inch, 10-spoke Hyper Silver Euroflange alloy wheels
- Leather seating surfaces
- Heated front seats
- 315-watt Infinity® audio system with in-dash 6-disc CD changer
- Power rear sunshade
- "Limited" badging

### OPTIONAL LIMITED PACKAGES:

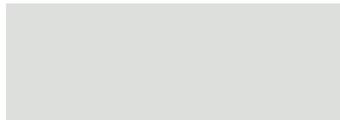

- Ultimate Package (U): 605-watt Infinity Logic 7® surround sound audio system, power tilt-and-telescopic steering wheel, power-adjustable foot pedals, integrated memory system, rain-sensing windshield wipers, woodgrain-trimmed steering wheel and door pulls, premium door sill scuff plates
- Ultimate Navigation Package (UN): Ultimate Package, LG® touch-screen DVD navigation system²
