2013 HYUNDAI

SANTA FE
S P O R T

THE 2013 SANTA FE SPORT: PURSUE HAPPINESS, ONE ADVENTURE AT A TIME.

If you're like most families these days, you live, work and play in a lot of different places. And a lot of your time is spent living outside of the place you call home.

Which is why the all-new Hyundai Santa Fe Sport is designed and engineered to take a tribe of five on those everyday adventures that are anything but ordinary.

One look tells you we've thought way outside the conventional sport utility box. It's a design concept we call Storm Edge, where fluid lines set off by a roof spoiler, chrome grille and chrome door handles create a powerfully sculpted shape.

One drive will make it clear that we've named it Santa Fe Sport for a reason. Thanks to technologies like an available 264-horsepower turbocharged 2.0-liter engine, Active Cornering Control AWD and Driver Selectable Steering Mode, it responds with the quick reflexes you might expect from a sporty sedan, not a crossover utility vehicle. And with its heated rear seats, rear side window sunshades and panoramic roof, passengers can have as much fun as the driver.

SANTA FE SPORT in Moonstone Silver

SANTA FE SPORT in Saddle Leather

DESIGNED TO MAKE YOU FEEL COMFORTABLE. NOT COMPLACENT.

Santa Fe Sport is filled with ways to help you get where you're going. Need to juggle the demands of your day? Sliding and reclining 40/20/40 split-fold rear seats easily create whatever configuration works best for passengers and cargo. Connections to the world beyond your windshield are just as easy, thanks to Hyundai's innovative Blue Link® wireless connectivity. Amazing information, entertainment, technology and safety features are one touch away – from advanced Voice Text Messaging to location sharing, traffic alerts, SOS Emergency Assistance, gas price comparisons and more.¹

YES ESSENTIALS® SEAT FABRIC

New for 2013 – and standard on every model with cloth seating – is a YES Essentials seat fabric treatment that provides stain-resistant, anti-odor and anti-static properties for the added longevity of your upholstery.²

ALL-ACCESS PASS

Santa Fe Sport offers a variety of audio sensations – from a standard AM/FM/SiriusXM®/CD/MP3 system to an available 4.3-inch color touchscreen audio system or 550-Watt Infinity® premium audio with Logic 7® surround sound and 12 speakers. You can also plug in your iPod® or stream audio from your Bluetooth® smartphone using voice commands.³

SECURE STORAGE

In addition to its flexible cargo space configurations, Santa Fe Sport features more storage space hidden under the floor, allowing you to stow your valuable gear out of sight.

NAVIGATION YOU CAN NAVIGATE

The available 8-inch touchscreen navigation system with enhanced voice recognition understands street addresses and cities all in one sentence. The route displays speed limits and the next three maneuvers ahead, while NavTraffic® offers information on traffic speed, accidents, construction and road closings.

ENJOY THE CLIMATE

An available panoramic sunroof stretches over the second row of seats to reveal a huge swath of sky overhead. Automatic climate control with CleanAir ionizer and auto-defogging lets you set the desired cabin temperature, and it does the rest.

REARVIEW CAMERA

Available navigation and 4.3-inch touchscreen audio systems feature a rearview camera that displays views from behind the vehicle on a central in-dash screen. Guidelines on the screen help direct you into tight parking spaces and take the guesswork out of backing up your Santa Fe Sport.

¹Blue Link subscription service agreement required. A Complimentary Blue Link Trial Period is available to the original owner within 90 days of the date of the Retail Delivery Record. Features vary by subscription plan. Blue Link service works using CDMA based cellular networks in the 50 United States. Blue Link service is not available where there is no cellular coverage particularly in enclosed or remote areas. Service availability may be affected by signal strength, foliage, weather, topographical conditions (mountains) and nearby structures (tall buildings, tunnels) and other factors. For additional details and system limitations visit HyundaiBlueLink.com. Blue Link is a registered trademark of Hyundai Motor Company. All rights reserved. ©2012 Hyundai Motor America. ²Yes Essentials® is a trademark of Sage Automotive Interiors. ³SiriusXM® Satellite Radio and NavTraffic® require a SiriusXM subscription, sold separately after a 90-day complimentary introductory period. All fees and programming are subject to change. Traffic and weather channels only available in select markets, and SiriusXM service is only available in the 48 contiguous United States. See your dealer for details. The SiriusXM name is a registered trademark of SiriusXM Satellite Radio Inc. All other trademarks are property of their respective owners. **THE ALTERNATE ROUTE IS
THERE FOR THE TAKING.**

SANTA FE SPORT 2.0T in Twilight Black

YOUR 264-HORSEPOWER HALL PASS

Take a close look at the performance and safety engineering features of the all-new Santa Fe Sport, and you'll see there's plenty of substance to back up its style. Santa Fe Sport features a choice of potent four-cylinder engines. Standard is a 190-horsepower direct-injection 2.4-liter powerplant that's so efficient, it's got the highest highway fuel economy (33 MPG) among its competitors.¹ There's also an available 2.0-liter turbocharged engine that cranks out 264 horsepower with an impressive 31 MPG highway rating. It's power that Santa Fe Sport 2.0T pours onto the pavement through stylish 19-inch Hyper Silver wheels that help turn every road into an escape route. Class dismissed.

DRIVER SELECTABLE STEERING MODE

Santa Fe Sport is the first compact CUV with Driver Selectable Steering Mode, which lets you choose your preferred power steering mode – Comfort, Normal & Sport – using a button on the steering wheel for a customized driving experience.

SEVEN-AIRBAG SAFETY SYSTEM

Santa Fe Sport comes standard with seven airbags, including side curtain airbags and a driver's knee airbag. That's more standard airbags than Chevy Equinox, Ford Edge and Toyota RAV4.²

VEHICLE STABILITY MANAGEMENT

Should surface conditions be slippery wet on one side and dry on the other, maintaining acceleration or braking stability can be a problem. VSM helps maintain stability by automatically counter-steering if the vehicle pulls to one side. It reacts the same way during sudden lane changes or when cornering.³

STOPPING POWER

Four-wheel disc brakes come standard with an Anti-lock Braking System including Brake Assist (providing maximum braking force when a panic stop is detected) and Electronic Brake-force Distribution, which automatically adjust braking force to front and rear axles based on vehicle load conditions.

ACTIVE CORNERING CONTROL AWD

Choose your new Santa Fe Sport with optional All Wheel Drive, and you'll be putting another intelligent technology to work. Active Cornering Control anticipates understeer and transfers torque to the rear axle while applying braking force to the inside wheel for improved stability.

HILLSTART ASSIST/DOWNHILL BRAKE CONTROL

For added help on the hills, Santa Fe's Hillstart Assist Control minimizes backwards rolling on steep ascents, while Downhill Brake Control helps you maintain control and speed when you're headed down steep hills.

¹Compact crossover utility competitors include Toyota RAV4, Ford Edge and Chevrolet Equinox. EPA estimates for comparison only. Mileage may vary. If EPA estimates are not available at the time of printing, Hyundai estimates based on internal testing are cited. Your actual mileage will vary with options, driving conditions, driving habits and vehicle's condition. ²The Supplemental Restraint System (SRS) is designed to work with the 3-point seatbelt system. The SRS deploys in certain frontal and/or side-impact conditions where significant injury is likely. The SRS is not a substitute for seatbelts, which should be worn at all times. Children under the age of 13 should be restrained securely in the rear seat. NEVER place a rear-facing child seat in the front seat of a vehicle that has a passenger-side airbag. ³Vehicle Stability Management (VSM) cannot control your vehicle's stability under all driving situations. VSM is not a substitute for safe driving practices. No system, no matter how advanced, can overcome physics or correct poor driving. The driver is always responsible for controlling the vehicle and must use caution to avoid loss of control in all driving conditions. Speed, road conditions and driver steering input will affect whether VSM can help prevent loss of control. See Owner's Manual for details.

GATHER THE TRIBE.

YOUR 264-HORSEPOWER HALL PASS

Take a close look at the performance and safety engineering features of the all-new Santa Fe Sport, and you'll see there's plenty of substance to back up its style. Santa Fe Sport features a choice of potent four-cylinder engines. Standard is a 190-horsepower direct-injection 2.4L powerplant with an EPA-estimated 29 MPG highway rating that is as pleasing to your pocketbook as the throttle's quick response is to your right foot.¹ There's also an available 2.0L turbocharged engine that cranks out 264 horsepower with an impressive 27 MPG highway rating. It's power that Santa Fe Sport 2.0T pours onto the pavement through stylish 19-inch Hyper Silver wheels that help turn every road into an escape route.
