When Precision Crafted
Performance is at the heart
of everything you create,
you build the car you want
to drive. You don't make
assumptions; you make
a sedan your way. The
RLX does more than just
express Precision Crafted
Performance—it defines it.

Personality matters. The RLX embodies sophistication with attitude, style with substance, and an impressive presence. This is an invitation to make your own rules.

LOW, LEAN & MEAN Modern design meets machine. Both artistic and muscular in nature, with bold sculpted lines, the RLX blends all-new styling and sophistication with Acura performance. The 2018 RLX has a low, athletic stance, a new sculpted hood and fenders, a Diamond Pentagon Grille, an integrated rear diffuser, and exposed exhaust finishers.

RLX Sport Hybrid SH-AWD with Advance Package shown in Brilliant Red Metallic.

JEWEL EYE LED HEADLIGHTS

Jewel Eye® LED headlights provide intense light without blinding oncoming traffic and offer you excellent visibility—not just in overall distance, but in width and consistency. The light's color mimics sunlight, for less eye fatigue while driving at night, and allows you to see colors more vividly.

GREAT DESIGN ISN'T A LOOK, IT'S AN EXPERIENCE

Each layer of detail reflects Acura's human-centered design philosophy. The RLX offers an ergonomic cockpit design, where everything is centered on the driver's needs. Sink into the luxe seat with high-contrast stitching and piping and enjoy the tri-zone climate control.

The meticulously tailored interior affords both driver and passengers the ultimate in personal space, as the RLX is among the top of its class for rear legroom.

RLX SHAWD SUPERCAR DNA For thirty years, we've pushed the confines of what's possible to extract every last drop of performance out of our cars, and Sport Hybrid Super Handling All-Wheel Drive is the latest result of that ambition. The system, which contains the same technology found in the NSX, supplies supercar-inspired performance, and while other manufacturers are still dreaming about it, it's in the reimagined Acura RLX. RLX Sport Hybrid SH-AWD with Advance Package shown in Fathom Blue Pearl with accessory rear decklid spoiler.

When cornering, the rear Twin Motor Unit (TMU) allows for instant torque transfer side to side in the rear, independently applying positive or negative torque to each wheel. This torquevectoring effect directly controls the yaw (rotation around a vertical axis), twisting the RLX through corners, tightening its line, and precisely tracing the driver's desired path.

Acceleration

From a standstill, Sport Hybrid SH-AWD® uses the rear electric motors to deliver torque instantly, translating to dramatic acceleration off the line. During light acceleration, only the rear twin electric motors operate; under more aggressive acceleration, the gasoline engine and all three electric motors kick in simultaneously to maximize performance.

Sport Hybrid SH-AWD monitors speed, wheelspin, driver input, and more to actively and instantly distribute power to the wheels with the most traction or send negative torque to a specific wheel to act as a stabilizing force.

Regeneration

When braking, coasting, or cornering, the everefficient system captures kinetic energy and uses it to recharge its advanced lithium-ion battery.

Highway Cruise

At low cruising speeds, the system can operate in electric-only mode, with power being sent to only the rear wheels. At higher speeds, up to 100 percent of the power is sent to the front wheels when cruising in a straight line.

NOT ALL AWD IS CREATED EQUAL

Sport Hybrid SH-AWD is a groundbreaking, electric-torque-vectoring, all-wheeldrive system we'd argue is the world's most advanced. In fact, the RLX system uses some of the same technology we developed for the NSX.

The Sport Hybrid SH-AWD system consists of a powerful V-6 engine and three electric motors: a high-output electric front motor paired with a rapid-shifting 7-speed Dual-Clutch Transmission and an electric rear Twin Motor Unit for individual, instant torque vectoring. The vehicle is tuned to supply torque instinctively based on driving conditions and the driver's input, resulting in dynamic acceleration, direct response, and precise handling in all conditions.

Electric Front Motor: Paired with a 7-speed Dual-Clutch Transmission, this motor puts out 109 lb-ft of torque starting from 500 rpm.

Electric Rear Twin Motor Unit: Gives individual instant torque vectoring, adding up to 54 lb-ft of torque to each rear wheel from zero rpm.

Intelligent Power Unit: Contains the lightweight lithium-ion battery pack, junction board, DC converter for 12V systems, and ECUs for the electric motor and battery.

three electric motors.

AcuraWatch

AcuraWatch™ combines a network of next-level sensing technologies designed to increase awareness and help prevent, avoid, and mitigate impacts.* Sensors continuously monitor the vehicle's surroundings and can recognize not only cars, but also the shapes of motorcyclists and pedestrians—even shrubbery and mailboxes. AcuraWatch senses potential threats and can provide driving input to keep you in the center of a lane or at a set interval from cars detected ahead and can also provide emergency braking to help avoid collisions. The new Traffic-Jam Assist can activate from a complete stop, supporting the driver with steering, throttle, and brake inputs in stop-and-go traffic.

In addition, our available Surround-View Camera system creates a 360-degree view of the space around the RLX. With six unique camera views, parking sensor information, and dynamic guidelines that show your expected path, you'll feel more connected to your surroundings than ever before.¹

- a. Collision Mitigation Braking System[™] (CMBS[™])²
 Forward Collision Warning (FCW) System²
- b. Lane Departure Warning (LDW) System³ Lane Keeping Assist System (LKAS)⁴ Road Departure Mitigation (RDM) System³
- c. Adaptive Cruise Control (ACC) with Low-Speed Follow⁵
- d. Traffic-Jam Assist (TJA)6
- e. Blind spot information (BSI) System⁷
- f. Rear Cross Traffic Monitor¹
- g. Multi-View Rear Camera with Dynamic Guidelines⁸ Surround-View Camera System

ACE BODY STRUCTURE

Acura's next-generation Advanced Compatibility Engineering™ (ACE™) body structure is designed to absorb and disperse frontal impact energy in a collision, so less force is transferred to what really matters: the people inside. But we didn't stop there. Crash compatibility is designed into the structure as well, so in the event of a collision with another vehicle, the occupants of all vehicles involved are more protected.

The RLX received the highest possible overall safety rating from the National Highway Traffic Safety Administration (NHTSA), a 5-Star Overall Vehicle Score.9

HEAR MUSIC THE WAY S MUSICIANS INTENDED

Eight-time Grammy® award-winning recording engineer and producer Elliot Scheiner helped design the critically acclaimed ELS Studio® Premium Audio System. It reproduces music exactly as it's heard in the recording studio. Whether it's on the air, online, or from your own music library, even the most familiar music will become an all-new listening experience.

midbass drivers are made from Zylon, the world's strongest superfiber, which moves quickly to musical input and stops when the musical signal stops, resulting in less vibration.

OWNER BENEFITS

When you purchase a vehicle with the exceptional quality of an Acura, you expect service and support to be of the same caliber. After all, a premium automobile is only part of the ownership experience. With Acura, you also get a commitment: to personalized care, to attentive service. This commitment is apparent the moment you first enter an Acura dealership and for years down the road. It comes from a belief that every aspect of owning an Acura should be an enjoyable and rewarding experience.

Acura Limited Warranties

All Acura vehicles and any Acura Genuine Accessories installed by the dealer at the time of vehicle purchase have a four-year/50,000-mile limited warranty. Acura vehicles are also covered by a six-year/70,000-mile limited powertrain warranty. In addition, outer-body rust-through is covered by a five-year/unlimited-mile limited warranty.¹⁹

Acura Financial Services

ACURAFinancialServices

From leasing and financing to protecting your vehicle after your warranty expires to helping you determine which Acura fits your budget, Acura Financial Services® (AFS) provides you with the convenience, options, and service to complement your life. For more information, go to www.acurafinancialservices.com.²⁰

Acura Care

Additional peace of mind can be had with the Acura Care® program—comprehensive vehicle and travel protection beyond the initial warranty period. See your Acura dealer for all the features and benefits available with this program.

Total Luxury Care® (TLC)®

Acura's commitment to your satisfaction doesn't end with the delivery of a world-class vehicle. As an Acura owner, you'll enjoy an array of services, like the Acura Concierge,™ for 24-hour weather information, insurance claims assistance, or to help you plan a trip; trip-interruption benefits, like alternative transportation, lodging, and meals; and a 24-Hour Roadside Assistance program.²¹
