Niro Hybrid

- 1.6L Gasoline Direct Injection (GDI) engine + electric motor (32 kW)
- 6-speed dual-clutch automatic transmission w/Sport mode
- 16" alloy wheels w/full covers
- UVO eServices³ Infotainment System w/Apple CarPlay^{TM4} & Android Auto^{TM5}
- Cloth seat trim

Designed for exceptional crossover capability

Meet the 2018 Niro Hybrid (HEV) and the all-new Niro Plug-In Hybrid (PHEV), two incredibly intelligent and well-adapted crossovers. Both feature considerable versatility, comfort, and driving enjoyment, along with some truly forward-thinking engineering. Behind their inviting profile, you'll find an artful orchestration of systems that define modern driving, including available driver-assistance technologies.* Road time should be quality time, so both models deliver an engaging driving experience in a spacious and comfortable interior. Niro HEV and PHEV take you farther too, with a hybrid powertrain designed to work seamlessly and help maximize operating efficiency. Like all Kia models, Niro comes with an industry-leading 10-year/100,000-mile warranty program² — a testament to its outstanding quality and reliability.

1.6L Gasoline Direct Injection (GDI) engine + electric motor (32 kW)

- Push-button start w/Smart Ke
- LED rear combination lights
- Roof rails
- Cloth seat trim

EX

- 1.6L Gasoline Direct Injection (GDI) engine + electric motor (32 kW)
- Power-folding outside mirrors
- Blind Spot Detection
- w/Lane Change Assist⁶
- Rear Cross Traffic Alert⁶
- Cloth & leather seat trim

TOURING

- Apple CarPlay^{TM4} & Android Auto^{TM!}
- Premium Navigation³
- Harman Kardon®7 premium audio
- Leather seat trim

See a more extensive list of features and choose your ideal trim level on the Features pages in the back of the brochure.

1. SPACIOUS CARGO AREA8

Niro has an impressive amount of cargo capacity with its flat-folding rear seats. This is a result of the compact design of Niro's hybrid battery, which is located beneath the rear seat.

2. 60/40 SPLIT-FOLDING SEATS

The rear seats' 60/40 split-folding design allows you to expand the cargo area⁸ when you need to and still accommodate rear passengers.

3. NIRO HEV CONCEALED STORAGE

Store items out of sight in a spacious compartment hidden beneath the cargo floor.8 An available sectioned storage tray* lets you keep emergency supplies and personal items neatly organized.

4. NIRO PHEV CHARGE CORD STORAGE

Niro Plug-In Hybrid's 120-volt charge cord stores neatly away in the concealed storage area.

AN EXCEPTIONALLY QUIET RIDE

For a peacefully quiet drive, the windshield features sound-insulating glass, while sound-absorbing insulation throughout the vehicle helps reduce the intrusion of outside noise.

POWER SUNROOF*

The available sunroof powers open and shut, letting in fresh air and sunshine at the press of a button. A retractable sunshade helps you stay cool on hot days.

1. HEATED & VENTILATED SEATS*

For comfortable driving in cold weather, Niro features available heated front seats. To help you stay cooler on hot summer days, available ventilated front seats circulate cool air through subtle perforations in the seat leather.

2. POWER-ADJUSTABLE DRIVER'S SEAT*

Select just the right seating position using the convenient controls for the available 10-way power-adjustable driver's seat. Lumbar support can also be adjusted for maximum comfort.

3. DRIVER'S MEMORY SEAT & MIRROR SYSTEM*

An available memory system remembers seating preferences for two drivers. It recalls stored positions for the driver's seat and outside mirrors with the simple push of a button.

4. DUAL-ZONE AUTOMATIC TEMPERATURE CONTROL

To create personalized climate zones for both the driver and front passenger, the dual-zone automatic temperature control offers individual temperature settings. There is also an available rear-seat vent, which combines the airflow from both temperature settings.

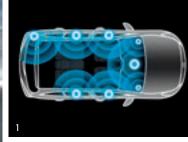

5. DRIVER-ONLY AIRFLOW CONTROL

When you drive alone in Niro, push the driver-only airflow button to reduce the fan speed and direct ventilation exclusively to the driver's side. This step can help reduce fuel consumption!

AUTO DEFOG SYSTEM

For convenience and visibility, the dual-zone automatic temperature control includes an auto defogger system to help keep the windshield free of condensation.

VOICE-COMMAND NAVIGATION3*

An available advanced voice-command navigation system features a vivid 8-inch color touch screen and, to help you choose your optimum route, delivers updated highway conditions with available SiriusXM Traffic^{TM9*}

1. HARMAN KARDON®7 PREMIUM AUDIO*

An available premium 8-speaker
Harman Kardon audio system includes
a subwoofer, an external amplifier,
and Clari-Fi^{TM7} technology, which
instantly improves the quality of
compressed, digitized music for
crisp, clear, dynamic sound.

2. HEATED STEERING WHEEL*

To help keep the drive enjoyable all year round, the premium features available on Niro include a heated steering wheel that is particularly welcoming and comforting when starting out on cold winter days.

3. WIRELESS PHONE-CHARGING SYSTEM*

An available integrated cordless charger allows you to fully charge a Qi-compatible smartphone¹⁰ by simply placing it on a convenient tray in the front console, eliminating the need for accessory cables or wires.

4. PUSH-BUTTON START WITH SMART KEY*

For everyday driving convenience, this available feature lets you start or stop the engine with the push of a button, and open a locked door just by pressing the door button if the available Smart Key remote is in your pocket or purse.

5. SUPERVISION METER CLUSTER

An advanced Thin-Film Transistor (TFT) coating brings high-contrast graphics and outstanding readability to the supervision meter cluster's color LCD. It displays trip computer, audio, service, user settings, and hybrid-system energy-flow status.

BLUETOOTH® WIRELESS TECHNOLOGY11

You can listen to streaming audio when using a compatible *Bluetooth*® wireless technology–enabled device. Once you pair a compatible cell phone, you can access a variety of your phone's functions with the touch of a button and straightforward voice commands.

SIRIIISXM®

Enjoy over 150 channels, including commercial-free music, plus sports, news, and entertainment, during a 3-month SiriusXM All Access trial subscription.9
Listening on the app and online is included in the trial, so you'll hear the best of SiriusXM at home and on the go.

Advanced technology at your command

Niro connects you to life-enriching conveniences of modern driving, including communication, data, and entertainment. All this intuitive technology is efficiently organized and designed to make sure you are connected and informed, enhancing your confidence while driving and helping to keep you focused on the road.

1. UV0³

This system provides you with exceptional in-vehicle hands-free connectivity, and has a large suite of features meant to enrich your everyday driving experience. UVO can set up Curfew, Speed, and available Geo Fence[†] alerts with **My Car Zone**, access **911 Connect**¹² or **Enhanced Roadside Assist**,³ and check maintenance requirements with **Vehicle Diagnostics**¹⁴ on the touch screen.

4. APPLE CarPlay^{TM4} 5. ANDROID AUTO^{TM5}

UVO3 lets you take advantage of Apple CarPlay and Android Auto by simply connecting your compatible smartphone¹⁵ with a USB cable. You can then use it to navigate to your destination, make phone calls and retrieve voice mail, receive text messages and respond to them verbally, and more.

2. UVO eSERVICES APP3 (HEV)

UVO eServices app includes a variety of features for your HEV. You can keep track of your vehicle's parking location with **Parking Minder**,¹⁶ and it allows you to save destinations with available **My Points of Interest**.[†] You can then sync your saved **My Pols**[†] with your UVO Infotainment System when your smartphone¹⁵ is connected with a USB cord.

6. REAR-CAMERA DISPLAY⁶

To help you see things behind your vehicle that you might not see by looking over your shoulder, Niro features a Rear-Camera Display with Dynamic Guidelines to assist with backup maneuvers.

3. UVO eco APP³ (PHEV)

UVO eco app lets you access a range of remote functions for your PHEV. Keep track of your vehicle's location, speed, and estimated driving range with **Find My Car**,¹⁷ and remotely operate the climate control system to warm or cool the vehicle!⁷ It also features **Valet Alert**,¹⁷ which can alert you if your vehicle is driven outside of a one-mile radius, and **Vehicle Alarm Notification**¹⁷ can alert you if the alarm is triggered.

7. SMART WELCOME*

This available feature greets you as you approach Niro with the Smart Key.* The side mirrors fold out as LEDs flash, and the door-handle pocket lights illuminate softly.

A wiser state of mind

The driver's state of mind was essential in the development of Kia Drive Wise — a suite of available driver-assistance technologies.* Its features are intended to help keep you alert and aware of surrounding traffic, and intervene if necessary to help you avoid collisions.

8. AUTONOMOUS EMERGENCY BRAKING6*

This available system is designed to monitor vehicles and pedestrians traveling ahead of you. If the system determines a crash might be imminent, it works to automatically apply the brakes, helping to avoid a collision or mitigate the effects if it cannot be avoided.

10. LANE KEEP ASSIST6*

The available Lane Keep Assist System helps prevent the vehicle from drifting into another lane. If the system detects that you are starting to get close to the lane markers, it can apply corrective steering assistance to help keep you in your lane.

13. FRONT & REAR PARK ASSIST6*

An available sonar-sensor system is concealed in both the front and rear bumpers. When parking, an audible warning is given if the system detects certain objects close to your vehicle.

11. REAR CROSS TRAFFIC ALERT6*

When in reverse, available Rear Cross Traffic Alert warns the driver of cross traffic that it detects, with audible and visual alerts, helping reduce the likelihood of a collision.

14. FORWARD COLLISION WARNING SYSTEM^{6*}

Available Forward Collision Warning System activates alerts when the vehicle detects objects ahead that may cause a potential impact, encouraging the driver to decelerate.

9. LANE DEPARTURE WARNING6*

This available system is designed to detect the vehicle moving out of its lane without the turn signal being used. When it does, it helps alert you with a combination of audible and visual warnings.

12. SMART CRUISE CONTROL6*

Using advanced radar technology, available Smart Cruise Control automatically helps to maintain a predetermined distance from the vehicle directly ahead, holding a constant speed or slowing or accelerating your Niro when appropriate.

15. BLIND SPOT DETECTION WITH LANE CHANGE ASSIST6*

An available radar system helps detect vehicles in the driver's blind spot, and then provides audible and visual alerts. Lane Change Assist helps detect vehicles in adjacent lanes approaching from behind.

PERFORMANCE AND EFFICIENCY

Niro's 1.6L Gasoline Direct Injection (GDI) engine and powerful electric motor provide a blend of spirited performance and outstanding efficiency.¹ They combine to deliver 139 total horsepower.

SPORT MODE

Just flick the shifter to the left to enter Sport mode, and the transmission will switch to a more dynamic shift pattern. Suddenly Niro transforms into a more responsive, engaging vehicle.

6-SPEED DUAL-CLUTCH **AUTOMATIC TRANSMISSION**

Niro features a 6-speed dual-clutch automatic transmission engineered for operating with a gasoline engine/electric motor combination. It optimizes the engine's responsiveness for a sporty feel and instantly switches between gears, improving efficiency¹ and acceleration.

A SMOOTH RIDE AND AGILE HANDLING

A refined four-wheel independent suspension features front MacPherson struts and a rear, independent multi-link design for a smooth ride and precise handling.

STREAMLINED AERODYNAMICS

For outstanding aerodynamics, Niro features an active air flap behind the front grille that closes at higher speeds to reduce drag. Meanwhile, air vents ahead of the front wheels provide an air curtain to help manage airflow around the front wheels.

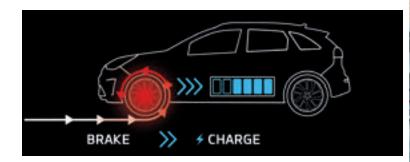

ISO-STRUCTURE™ CONSTRUCTION

Niro features a uniquely engineered body that combines various high-tensile strength steel alloys. This body structure helps provide crash protection, improves driving dynamics, and lays the foundation for a quiet ride overall.

Powerfully efficient

Niro Hybrid (HEV) and Niro Plug-In Hybrid (PHEV) feature Kia's full parallel hybrid system, a cuttingedge design that allows both the gasoline engine and electric motor to simultaneously provide power directly to the wheels for optimum efficiency¹ and superb performance in a variety of driving situations. PHEV also allows you to choose all-electric operation on demand, and plug right into a household outlet to conveniently recharge the lithium-ion polymer battery that powers the electric motor.

EFFICIENT ELECTRIC MOTOR

HEV and PHEV use an electric motor — called a Transmission Mounted Electric Device (TMED) — to power them in all-electric mode. The motor works in combination with the gasoline engine to provide the ideal amount of power from both. HEV uses a 32 kW motor and PHEV features a powerful 44.5 kW motor.

LITHIUM-ION POLYMER BATTERY

The energy-dense, compact lithium-ion polymer battery powers the electric motor and is recharged through regenerative braking. In addition, PHEV features a high-capacity 8.9 kWh unit that gives it an EPA-estimated range of up to 26 miles in all-electric mode.1 Best of all, PHEV automatically switches to hybrid operation after exceeding its all-electric range

REGENERATIVE BRAKING

Kinetic energy is captured when the brakes are applied. The regenerative braking system converts this energy to help charge the lithium-ion polymer battery.

HYBRID STARTER-GENERATOR (HSG)

Designed to decrease fuel consumption, the gasoline engine can turn off at a complete stop. HSG then automatically and smoothly restarts the engine when the accelerator is pressed to resume driving.

COASTING GUIDE*

Niro features an available technologically advanced Coasting Guide, which is included with the available Premium Navigation.3* This feature coaches you on how to help maximize fuel efficiency¹ by taking advantage of opportunities to coast.

PLUG-IN CHARGING

PHEV's high-capacity battery system recharges in less than two and a half hours with a 240V power outlet, and less than nine hours using a standard household electrical outlet so you can recharge it overnight.

REAL-TIME INFORMATION ALL-ELECTRIC DRIVING RANGE

Niro has a display that lets you see when your vehicle is operating with either the electric motor, the gas engine, or both. It also tracks the status of the regenerative battery-charging system.

REMOTE CHARGING¹⁷

PHEV's embedded modem provides you with the capability to use the UVO eco app³ to remotely start or stop charging your vehicle's battery when it's plugged in. You can also set a schedule to take advantage of cost-efficient off-peak charging.

PHEV features a map¹⁸ displayed on

the large touch screen that is designed to show the approximate distance you can travel in all-electric mode.

ELECTRONIC STABILITY CONTROL (ESC)

ESC provides improved directional stability to help maintain better control in difficult driving situations. During emergency maneuvers, it works to control the engine and brakes to help keep your Niro on course.

ELECTRONIC BRAKE-FORCE DISTRIBUTION (EBD)

To help maintain more consistent braking as vehicle loads and weight distribution change, the EBD system is designed to automatically adjust the front-to-rear balance of brake pressure.

BRAKE ASSIST SYSTEM (BAS)

If BAS detects emergency braking, based on how quickly you step on the brake pedal, it is designed to apply full braking force instantly, which can help shorten your overall stopping distance.

Dedicated to making safety a top priority

At Kia, the process of improving all aspects of safety is relentless. Continual engineering advances and breakthroughs in material design have led to vehicles with exceptionally strong body construction, strategically placed airbags, and advanced sensors, complemented by a variety of active safety systems.

HILL-START ASSIST CONTROL (HAC)

When starting off on a steep hill, HAC automatically holds the brake pressure for two seconds after you take your foot off the brake pedal.

VEHICLE STABILITY MANAGEMENT (VSM)

For additional steering-directioncontrol capability, the VSM system is designed to intervene in appropriate situations to help the driver regain control of the vehicle.

TRACTION CONTROL SYSTEM (TCS)

When TCS senses wheelspin during acceleration, it is designed to use a combination of both engine power and brake force to help transfer power to the wheel that has more traction.

An advanced airbag system helps protect by a driver's knee airbag.19

AIRBAG & SEAT-BELT SENSORS

This advanced system monitors the severity of certain impacts, the presence of a front passenger and seat-belt use, and then helps control airbag inflation accordingly.¹⁹

FRONT SEAT-BELT PRETENSIONERS & HEIGHT-ADJUSTABLE ANCHORS

Pretensioners are designed to tighten the front seat belts in certain collisions, helping to reduce the likelihood of injuries. Front seatbelt anchors are height-adjustable to allow a proper fit, helping ensure effective operation.

FRONT & REAR CRUMPLE ZONES

Both front and rear crumple zones are engineered to help absorb and dissipate impact energy, helping to preserve the basic structural integrity of the passenger compartment in certain collisions.

SIDE-IMPACT DOOR BEAMS

All doors are reinforced with steel beams to help absorb impact energy help strengthen the body of the vehicle.

ADVANCED AIRBAG SYSTEM

Discover new possibilities

Kia's lineup features a growing number of advanced EcoDynamics models with cutting-edge technology to help reduce fuel consumption[†] and cut emissions. They join Kia's full line of world-class vehicles, each one engineered for superb quality and reliability, and designed to suit most every driving need. Whichever model you choose, from the impressive new hybrids to a variety of premium sedans, Kia is dedicated to delivering a combination of striking styling, dynamic performance, and a wealth of technologically advanced features.

The Bluetooth® word mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Kia is under license. A compatible Bluetooth®-enabled cell phone is required to use Bluetooth® wireless technology. 12. 911 Connect activates after airbag deployment and requires a cell phone connected via Bluetooth® wireless technology and a wireless signal for HEV. Call will be made through the vehicle modem on PHEV. 13. 24-hour Roadside Assistance is a service plan provided by Kia Motors America, Inc. Limitations apply. See Kia Warranty and Consumer Information Manual for details. Requires a cell phone connected via Bluetooth® wireless technology and a wireless signal. 14. Vehicle Diagnostics checks powertrain, chassis, and airbag systems, and is not a substitute for maintenance. See UVO eServices Maintenance Feature or Owner's Manual for maintenance schedule. 15. Apple iPhone® and select Android™ devices only are UVO eServices-compatible. iPhone® is a registered trademark of Apple Inc. Android™ is a trademark of Google Inc. 16. Parking Minder operates on GPS with certain smartphones and UVO eServices app. Cellular service rates apply. 17. Remote features require a wireless signal with good coverage to function, and normal cellular service rates may apply. Do not use remote climate control if vehicle is in an enclosed environment (e.g., closed garage). 18. The estimated range is based on a number of factors and assumes optimal
