

THE 2012 ES

Sound dampeners, intelligent sensors and other painstaking refinements. By themselves, just parts on a list. But when combined with the kinds of luxurious amenities you've grown to expect from Lexus, the result is more than just a vehicle. It's an experience.

UNCOMPROMISING LUXURY. DOWN TO THE FINEST DETAIL.

CRAFTED SO THAT EVERY MOMENT YOU SPEND INSIDE IS AS REMARKABLE AS THE FIRST.

The average person will spend more than 40,000 hours behind the wheel over their lifetime. Fortunately, with luxurious leather-trimmed seating and thoughtful innovations like dual-zone climate control and available navigation assistance, the ES ensures that you'll enjoy every second.

Optional equipment shown.

ECS

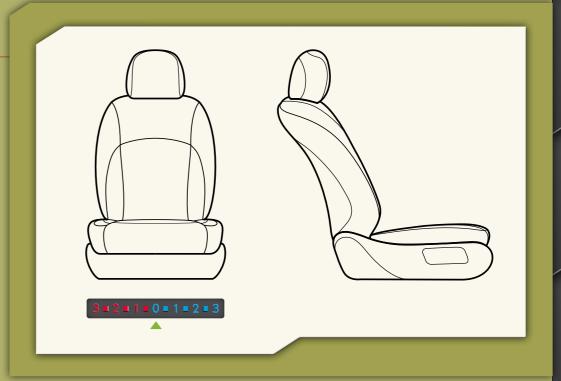

Heated and ventilated seating

THIS CASE, THE SURROUNDINGS GET TO KNOW YOU.

As we see it, comfort should only come in one variety: yours. To that end, the ES features available heated and ventilated front seats that can be modified to your desired temperature. As well as your desired position—both power front seats can be adjusted in 10 individual ways. And, to ensure your efforts aren't in vain, the Lexus Memory System can recall the driver's (and, should you opt for it, the front-passenger's) settings at the press of a button.

LUXURY, FROM FLOOR TO CEILING.

Who says that luxury should be limited to traditional areas like dashboards and seating? The ES is the only Lexus to offer the exquisite option of a panorama glass roof. In addition to providing fresh air to the front passengers and natural sunlight to all occupants, its striking exterior glass fits seamlessly into the metal roof frame so no molding is visible. And, should the fresh air entering the cabin threaten to become anything but, the automatic dual-zone climate-control system uses a carbon filter designed to trap pollutants like odors, pollen and dust

Available panorama glass roof

Available power rear sunshade

Dual-zone automatic climate control

Available wood- and leather-trimmed steering wheel and shift knob

YEARS OF RESEARCH. YOU RECEIVE THE DIVIDENDS.

When it comes to acoustics, the smallest adjustments can have the greatest impact. Take the windshield. To help reduce exterior noise, a layer of film was developed and placed between two layers of glass. And in the front wheel wells, a lining of ThinsulateTM is used to help dampen the sounds of the road below. Relatively minor modifications until you realize there are 112 more examples just like it. And vibrations? The ES has 88 ways to help minimize those as well. Like a computer-controlled engine mount that can detect the frequency of the engine's vibration and counter it with the opposite frequency, negating the effect. Why go to such rigorous lengths? The results speak for themselves. Very quietly.

INNOVATION
LEXUS ENFORM®
VOICE COMMAND/
NAVIGATION
SMARTACCESS
AUDIO

Who says courtesy can't be cutting-edge? If anything, one of the reasons the ES is so accommodating is precisely because of its advanced technology. Consider just a few of the thoughtful innovations you'll find inside. Like an available voice-recognition system that responds to casual speech; available NavWeather,^{TM2,3} NavTraffic^{TM2,3} and Sports and Stock,^{2,3} and an available 24-hour service that connects you to a live agent for navigation and emergency assistance with the push of a button.

Optional equipment shown. See disclaimers on page 56.

LEXUS ENFORM®

DESIGNED TO HELP SIMPLIFY YOUR LIFE.

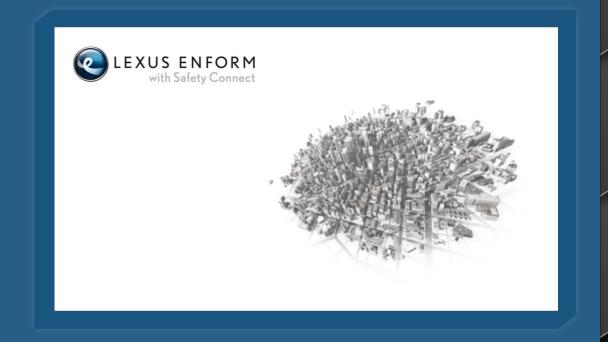

With the available Lexus Enform^{4,5} system, you can speak to a live service agent, 24 hours a day, seven days a week. You don't have to memorize any numbers, navigate through seemingly endless screens—or even have your cell phone with you.

Need an address? Simply select Destination Assist on the ES's available navigation screen for live assistance. Once you've decided on a location, your agent can send the turn-by-turn directions straight to your vehicle's Navigation System.² Planning a trip? You also have the option of pre-selecting up to 200 destinations yourself online and having them all sent to your vehicle.

SAFETY CONNECT®

DESIGNED TO HELP SAFEGUARD YOUR LIFE.

With Safety Connect^{4,6} you can receive emergency help at a moment's notice, whether that means assisting the police with locating your stolen vehicle or requesting Enhanced Roadside Assistance⁷ for a flat tire. The Safety Connect^{4,6} service (one-year subscription included) also features Automatic Collision Notification, which automatically sends a call for help the moment the system senses the vehicle has been in a severe rear-end collision or the airbags⁸ have been deployed.

Available voice command is designed to understand the way people actually speak—no need for awkward robotic catchphrases. To raise the temperature, for instance, you need only say, "It's too cold," and the interior will warm by 4 degrees. And, from the destination menu, if you say, "I need an ATM," the closest locations will be displayed.

YOUR VOICE:

OUR MOST INNOVATIVE NAVIGATION FEATURE TO DATE.

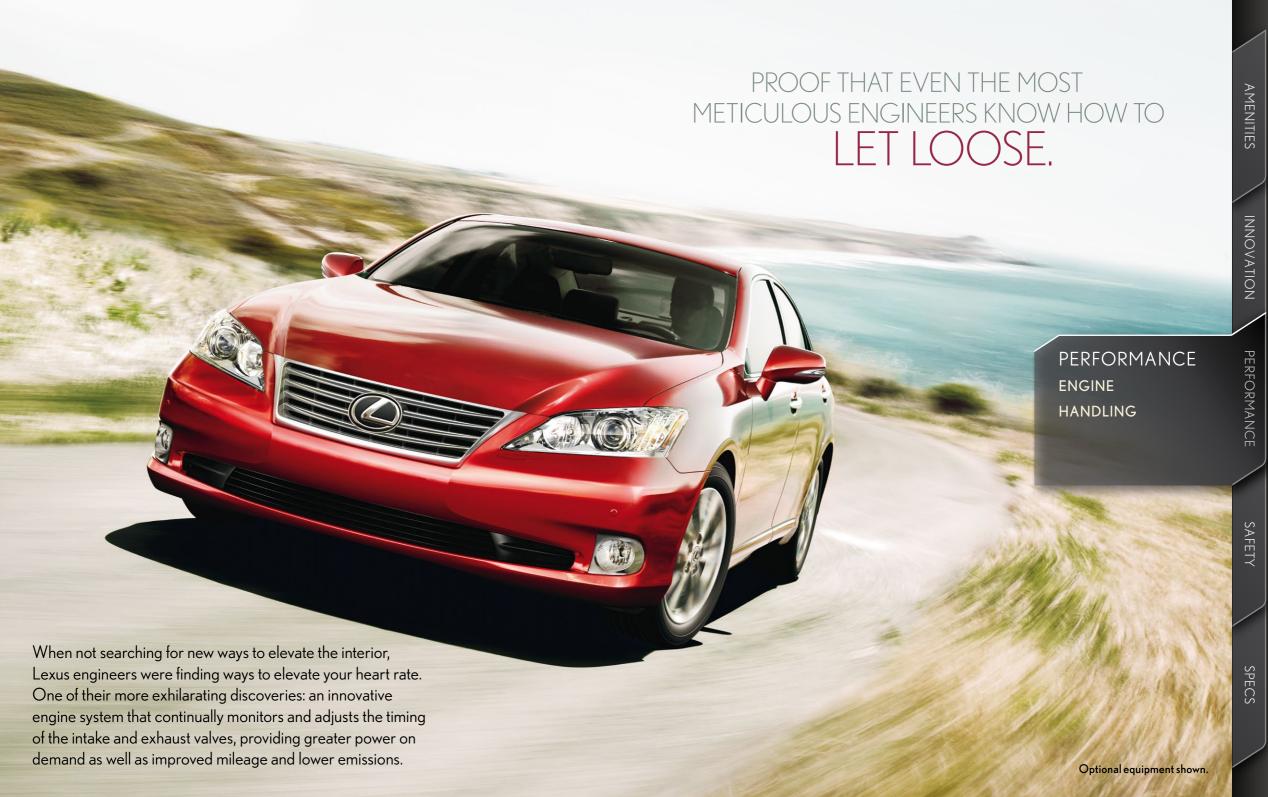

Offering fully discrete
5.1-channel playback in a
7.1-channel speaker
architecture, the available
Mark Levinson® Premium
Surround Sound Audio
System¹¹ in the ES uses 14
strategically placed speakers
to create a "sweet spot" of
sound that envelops the
entire cabin. The result is a
listening experience that's
virtually unrivaled by other
automobiles in its category.

AUDIO SYSTEMS ARE KNOWN TO CREATE A "SWEET SPOT" OF SOUND. ON THE ES-IT'S CALLED THE INTERIOR.

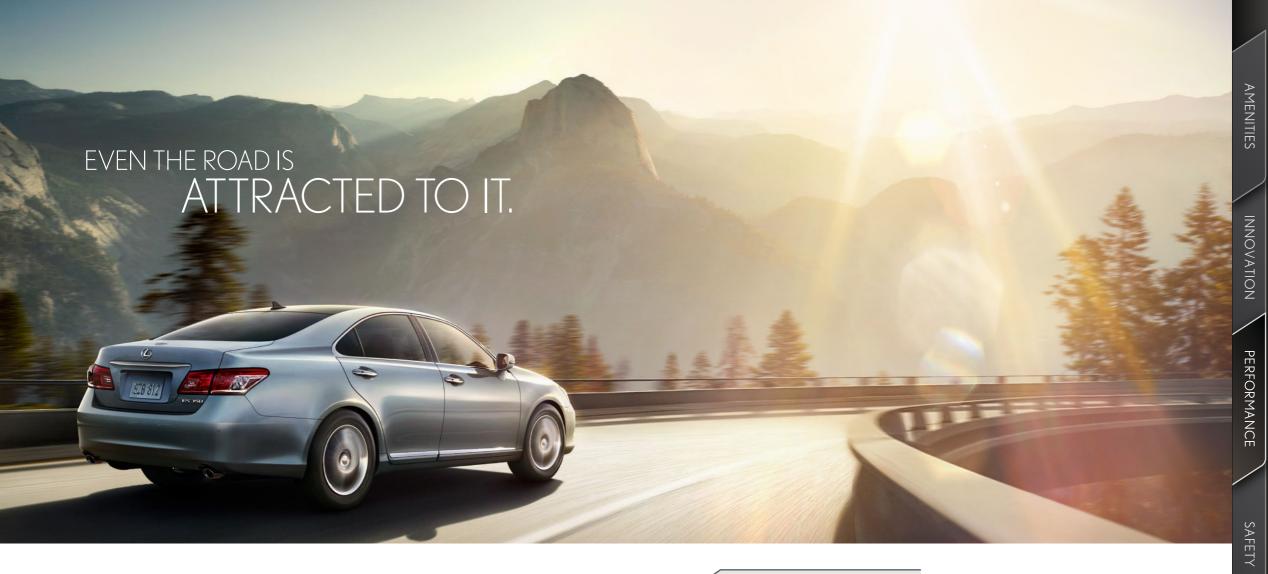

THE GOOD NEWS: YOU'LL ARRIVE SOONER. THE BAD NEWS: YOU'LL ARRIVE SOONER.

While you'll never be in a hurry to exit the ES, odds are you'll find yourself in a hurry of some sort. For those unfortunate times, the ES offers performance technology that's up to the task. Its 268-horsepower V6 engine gives the ES a 0-to-60 time of 7.0 seconds. And, its six-speed automatic transmission offers the driver exceptional performance as well as the ability to manually shift gears for a more engaged driving experience.

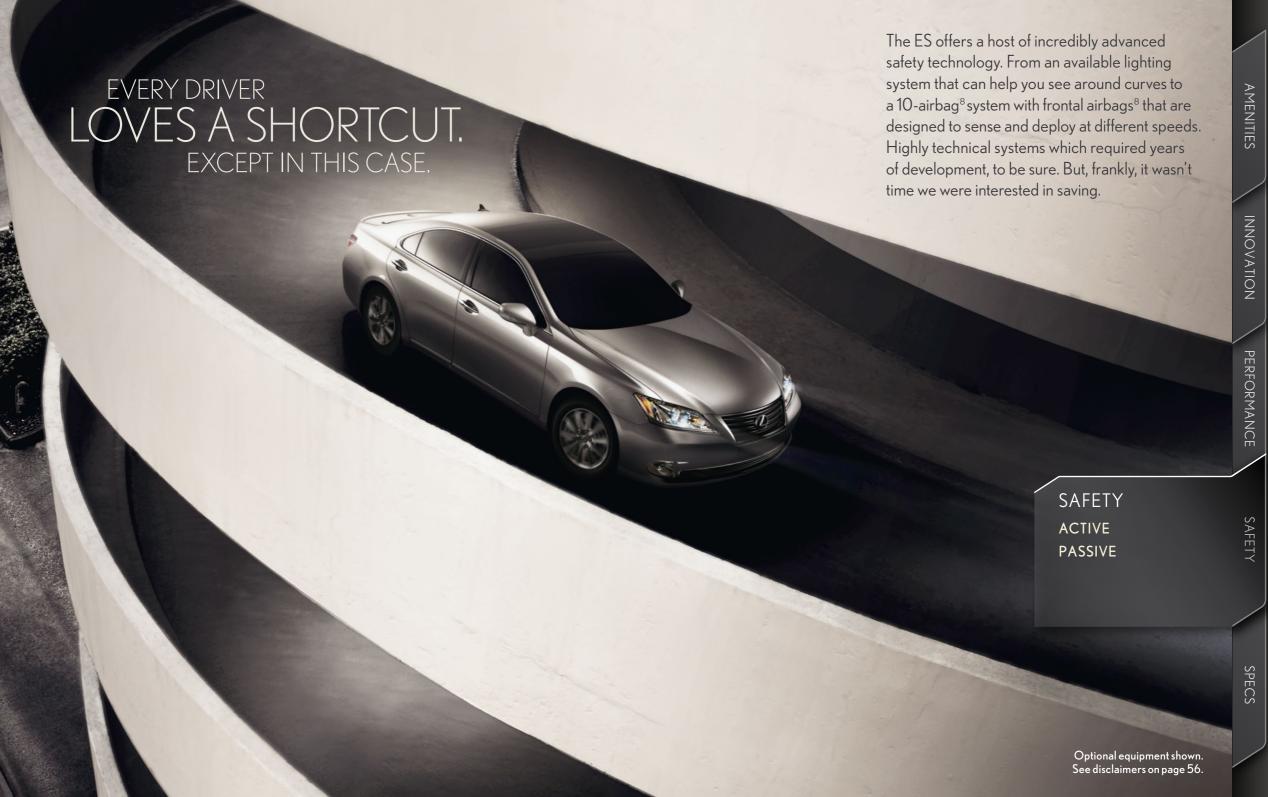

While we'd love to say emotion is the main reason the road and ES are so inseparable, it's really more a matter of engineering. A uniquely designed rear subframe helps provide improved handling and rigidity. Its front suspension geometry is specifically engineered for greater control and steering feel. And, with traction control technology that can respond to wheel slippage, even rain and snow may not be able to keep the two apart.

Vehicle Stability Control (VSC)¹³ uses sensors to identify when there is a loss of traction during cornering.

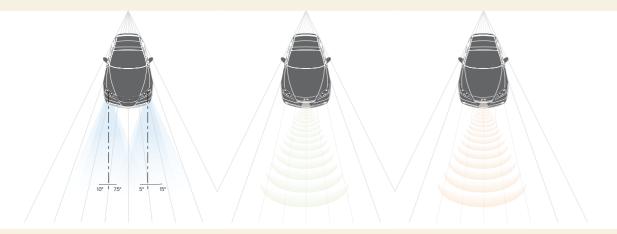

If a loss of traction occurs, the system responds by applying the brakes and reducing the throttle to help you keep on track.* *possible scenario SPECS

Optional equipment shown. See disclaimers on page 56.

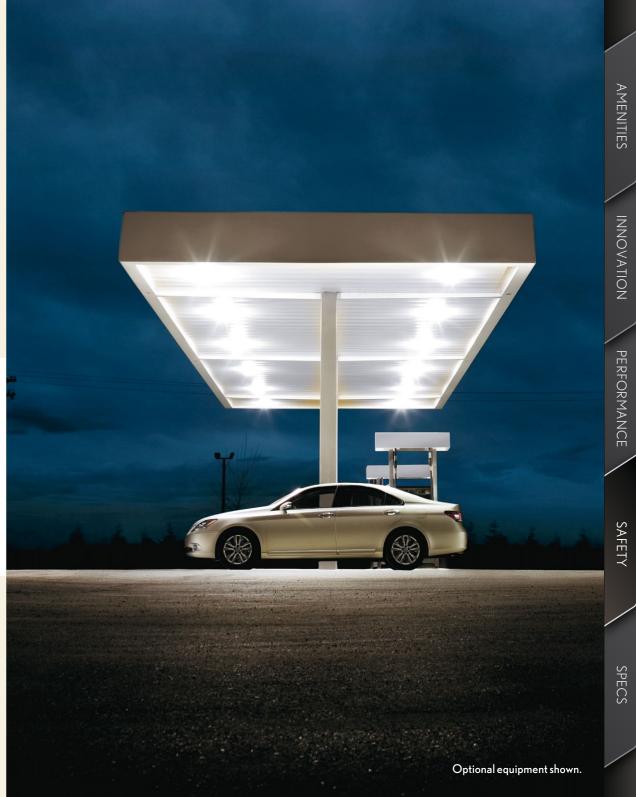

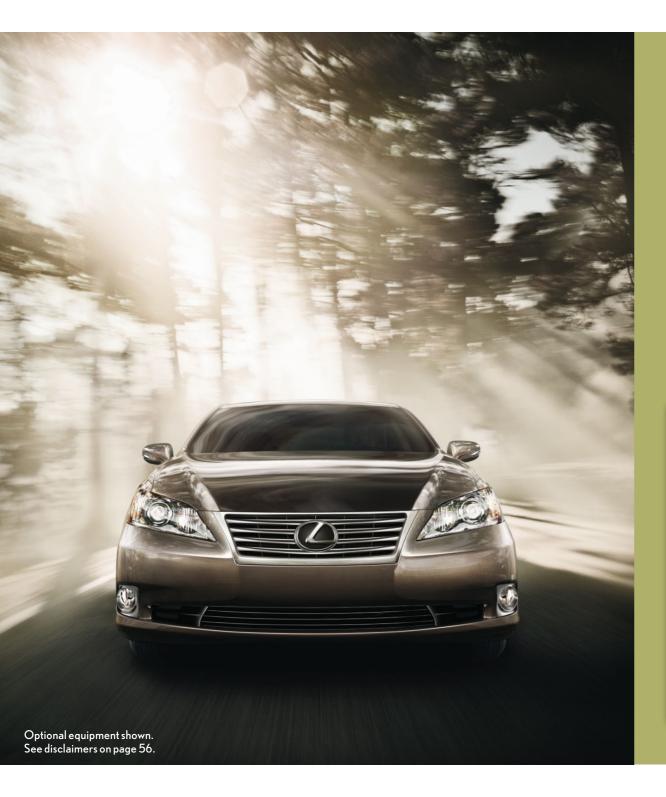

SO FOCUSED ON DRIVERS, IT EVEN MONITORS OTHER ONES ON THE ROAD.

An available Dual-swivel Adaptive Front Lighting System (AFS)¹⁶ can help illuminate curves by rotating the right or left headlamp up to 15 degrees into a turn at speeds below 19 mph and both headlamps together at speeds above 19 mph. Available Dynamic Radar Cruise Control¹⁴ uses radar technology to help you maintain a pre-set following distance from a car traveling in front of you, reducing the throttle and applying the brakes, if necessary.

An available Pre-Collision System (PCS)¹⁵ can help determine when a frontal collision is unavoidable and automatically retracts the driver's seatbelt to help prepare for impact while simultaneously delivering the maximum braking force once you press the brake pedal.

DRIVERS VARY. SHOULDN'T THEIR AIRBAGS?

Not every driver—or collision for that matter—is the same. To help address these differences, the ES includes 10 airbags. The front airbags feature a sophisticated dual-stage airbag system. Depending on several factors, such as crash severity and driver's seat-track position, the driver's airbag is designed to deploy at different speeds. To view these and the remaining eight airbags in action, click below.

2009 ES 350 shown.

WE CREATE A NEW BROCHURE EVERY YEAR, BUT WE'RE MAKING NEWS EVERY MONTH.

With so much happening at Lexus, it's hard to keep up. That's why we created the Lexus Pursuit newsletter. This monthly e-mail provides subscribers with exclusive information about upcoming model launches and events, as well as news, innovations and offers. Sign up today and stay informed of all things Lexus.

NAVIGATION SYSTEM/MARK LEVINSON AUDIO PACKAGE INCLUDES NAVIGATION SYSTEM, PLUS:

Mark Levinson® 14-speaker 300-watt @ less than 0.1% THD 20-20,000 Hz²⁸ Premium Surround Sound Audio System¹¹ with 7.1 architecture and in-dash, single-feed, six-disc DVD/CD auto-changer featuring DVD-audio and DVD-video playback

ULTRA-LUXURY PACKAGE

Semi-aniline perforated leather-trimmed interior (Black Leather with Saddle Tan accent, Parchment or Light Gray)

Wood- and leather-trimmed steering wheel and shift knob

Heated and ventilated front seats

Driver's seat power cushion extender

Lexus Memory System to control power driver's and front passenger's seats (except lumbar), outside mirrors and steering wheel

Panorama glass roof

Power rear sunshade

High-Intensity Discharge (HID) headlamps

Dual-swivel Adaptive Front Lighting System (AFS)¹⁶

17 x 7.0-in 10-spoke alloy wheels¹⁷ with Liquid Graphite finish and matching spare tire

OPTIONS

Full-size spare tire with 17-in alloy wheel¹⁷

Power rear sunshade

Intuitive Parking Assist

Rear spoiler

Heated and ventilated front seats

Wood- and leather-trimmed steering wheel and shift knob

Pre-Collision System (PCS)¹⁵ and Dynamic Radar Cruise Control¹⁴

High-Intensity Discharge (HID) headlamps and Dual-swivel Adaptive Front Lighting System (AFS)¹⁶

WARRANTY

Four-year/50,000-mile Lexus Limited Warranty. Six-year/70,000-mile Powertrain Warranty. Six-year/unlimited-mileage Corrosion Perforation Warranty. All warranties with zero deductible. See the ES Warranty and Services Guide at your Lexus dealer for details.

1. Comfort sensors include relays and receivers. 2. Availability and accuracy of the information provided by the Navigation System or any Sirius XM services mentioned (if installed) are dependent upon many factors. Use common sense when relying on information provided. Services not available in every city or roadway. Periodic Navigation updates available at additional cost. Please see your Navigation System Owner's Manual or contact Sirius XM for details. 3. Sirius XM services require a subscription after trial period. Subscriptions governed by SiriusXM Customer Agreement available at siriusxmradio.com. If you decide to continue your SiriusXM service at the end of your complimentary trial, the plan you choose will automatically renew and bill at then-current rates unless you call 1-800-967-2346 to cancel. Fees and programming subject to change. Available only to those at least 18 years of age in the 48 contiguous United States and D.C. 4. Lexus Enform® and Safety Connect® are available. Contact with the Lexus Enform and/or Safety Connect response center is dependent upon the telematics device being in operative condition, cellular connection availability, navigation map data and GPS satellite signal reception, which can limit the ability to reach the response center or receive emergency support. Enrollment and Telematics Subscription Service Agreement required. One-year trial subscription available only with new vehicle purchase of Lexus Enform- and Safety Connect-equipped vehicles. Additional subscription terms available; charges vary by subscription term selected. 5. Lexus Enform® premium services Destination Assist and eDestination will function in the contiguous United States. These services may also function in Hawaii and limited areas of Alaska for vehicles that contain map data for those states. They will not function in Canada or in other countries outside the United States, 6. The Safety Connect® services Automatic Collision Notification, Emergency Assistance and Stolen Vehicle Location will function in the United States, including Hawaii and Alaska, and in Canada. Enhanced Roadside Assistance will function in the United States (except for Hawaii) and in Canada. No Safety Connect services will function outside of the United States in countries other than Canada. 7. Coverage only available in the continental U.S. and Canada. Please see your Lexus dealer for details. 8. All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. Please see your Owner's Manual for further information/warnings. 9. The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. 10. The engine immobilizer is a state-of-the-art antitheft system. When you insert your key into the ignition switch or bring a SmartAccess fob into the vehicle, the key transmits an electronic code to the vehicle. The engine will only start if the code in the transponder chip inside the key or Smart Access fob matches the code in the vehicle's immobilizer. Because the transponder chip is embedded in the key or SmartAccess fob, it can be costly to replace. If you lose a key or SmartAccess fob, your Lexus dealer can help. Alternatively, you can find a qualified independent locksmith to perform high-security key services by consulting your local Yellow Pages or by contacting www.aloa.org. 11. Mark Levinson® is a registered trademark of Harman International Industries, Inc. 12. Performance figures are for comparison only and were obtained with prototype vehicles by professional drivers using special safety equipment and procedures. Do not attempt. 13. Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further details. 14. Dynamic Radar Cruise Control is designed to assist the driver and is not a substitute for safe and attentive driving practices. Please see your Owner's Manual for important instructions and cautions. 15. The Pre-Collision System is designed to help reduce the crash speed and damage in certain frontal collisions only. It is not a collision-avoidance system and is not a substitute for safe and attentive driving. System effectiveness depends on many factors, such as speed, driver input and road $conditions. Please see your \\ \underbrace{Owner's \, Manual \, for \, further \, information. \, \textbf{16.} \, The \, Adaptive \, Front \, Lighting \, System \, can help improve \, vision \, \textbf{at \, night.} \, However, \, conditions \, such \, \textbf{as a \, dirty}}$ windshield, rapidly changing light conditions or hilly terrain will limit effectiveness so the driver may need to manually change the high beams from on to off. Please see your Owner's Manual for details. 17. 17-in performance tires are expected to experience greater tire wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending upon driving conditions. 18. 2012 EPA MPG Estimates. Actual mileage will vary. 19. Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. 20. iPod® is a registered trademark of Apple Inc. All rights reserved. 21. Bluetooth® technology phones listed on lexus com have been tested for compatibility with Lexus vehicles. Performance will vary based on phone software version, coverage and your wireless carrier. Phones are warranted by their manufacturer, not Lexus. The Bluetooth work mark and logos are registered trademarks owned by Bluetooth SIG, Inc. and any use of such marks by Lexus is under licensed. Other trademarks and trade names are those of their respective owners. 22. Bluetooth audio device must be enabled with A 2DP and AVRCP. 23. The Lexus Personalized Settings (LPS) can be programmed in two ways: For most models equipped with the available Navigation System, the driver can modify the settings themselves; for other models, including those without a Navigation System, programming is done by your Lexus dealer via a one-time, complimentary offer during the first 12 months from the date the vehicle is sold. Please see your Lexus dealer for more information. 24. Smart Stop Technology operates only in the event of certain simultaneous brake and gas pedal applications. When engaged, the system will reduce engine power to help the brakes bring the vehicle to a stop. Factors including speed, road conditions and driver input can all impact stopping distance. Smart Stop Technology is not a substitute for safe and attentive driving and does not guarantee instant stopping. Please see your Owner's Manual for further details. 25. The Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your Owner's Manual for details. 26. To avoid interference with pedal operation, do not install a floor mat on top of an existing floor mat, and each mat must be secured with retention hooks (clips). This floor mat was designed specifically for use in this model and model year vehicle and SHOULD NOT be used in any other vehicle. 27. Currently only available pre-installed on select vehicles. Ask your Dealer Sales Consultant for vehicle application. 28. Continuous average power, all channels driven, at less than 0.1% THD; 20-20,000 Hz.

*Lexus strives to build vehicles to match customer interest, and thus they typically are built with popular options and option packages. Not all options/packages are available separately, and some may not be available in all regions of the country. See lexus.com for information about options/packages commonly available in your area. If you would prefer a vehicle without any or with different options, contact your dealer to check for current availability or the possibility of placing a special order. Specifications, features, equipment, technical data, performance figures, options, and color and trim are based upon information available at time of printing, are subject to change without notice, are for mainland U.S.A. vehicles only. Some vehicles shown with available equipment. See your Lexus dealer for details. Lexus reminds you to wear seatbelts, secure children in rear seat, obey all traffic laws and drive responsibly. For more information, call 800-USA-LEXUS (872-5398) or visit lexus.com. To learn more about your financing options, contact your Lexus dealer for all lexus Financial Services at 800-874-7050
