

Nash Presents

*The Smartest, Safest Convertible
in the World*

*The Rambler Convertible Landau
Newest Member of the Nash Airflyte Family*

SOMETHING ABSOLUTELY NEW

It goes like a Blue Streak!

A new beauty for the young in heart!

It steers like a dream, parks in a pocket!

Five ride in truly custom-car comfort!

It's Airflyte Construction that's lastingly rattle-proof!

All the thrill of an open car with the comfort and safety of a sedan!

It's custom-tailored to your order at no extra cost!

Weather Eye, radio and other Custom "Extras" are standard equipment!

And the low, low price is NEWS!

*Many Valuable "Custom" Extras

- ★ **Custom-Type Steering Wheel**
- ★ **Cigar Lighter**
- ★ **Custom Two-Tone Upholstery**
- ★ **Courtesy Light**

Here is the amazing car that you have read about, talked about, hoped someday to see.

Think of having—in one car—the comfort, luxury and safety of a sedan—with all the thrill and flair of a sports convertible—all in an instant's button touch—and all at lowest price.

Think of getting up to 30 miles to a gallon—in a five-passenger car that goes like a blue streak—that's quickest in traffic—easiest to handle, easiest to park. That day is here!

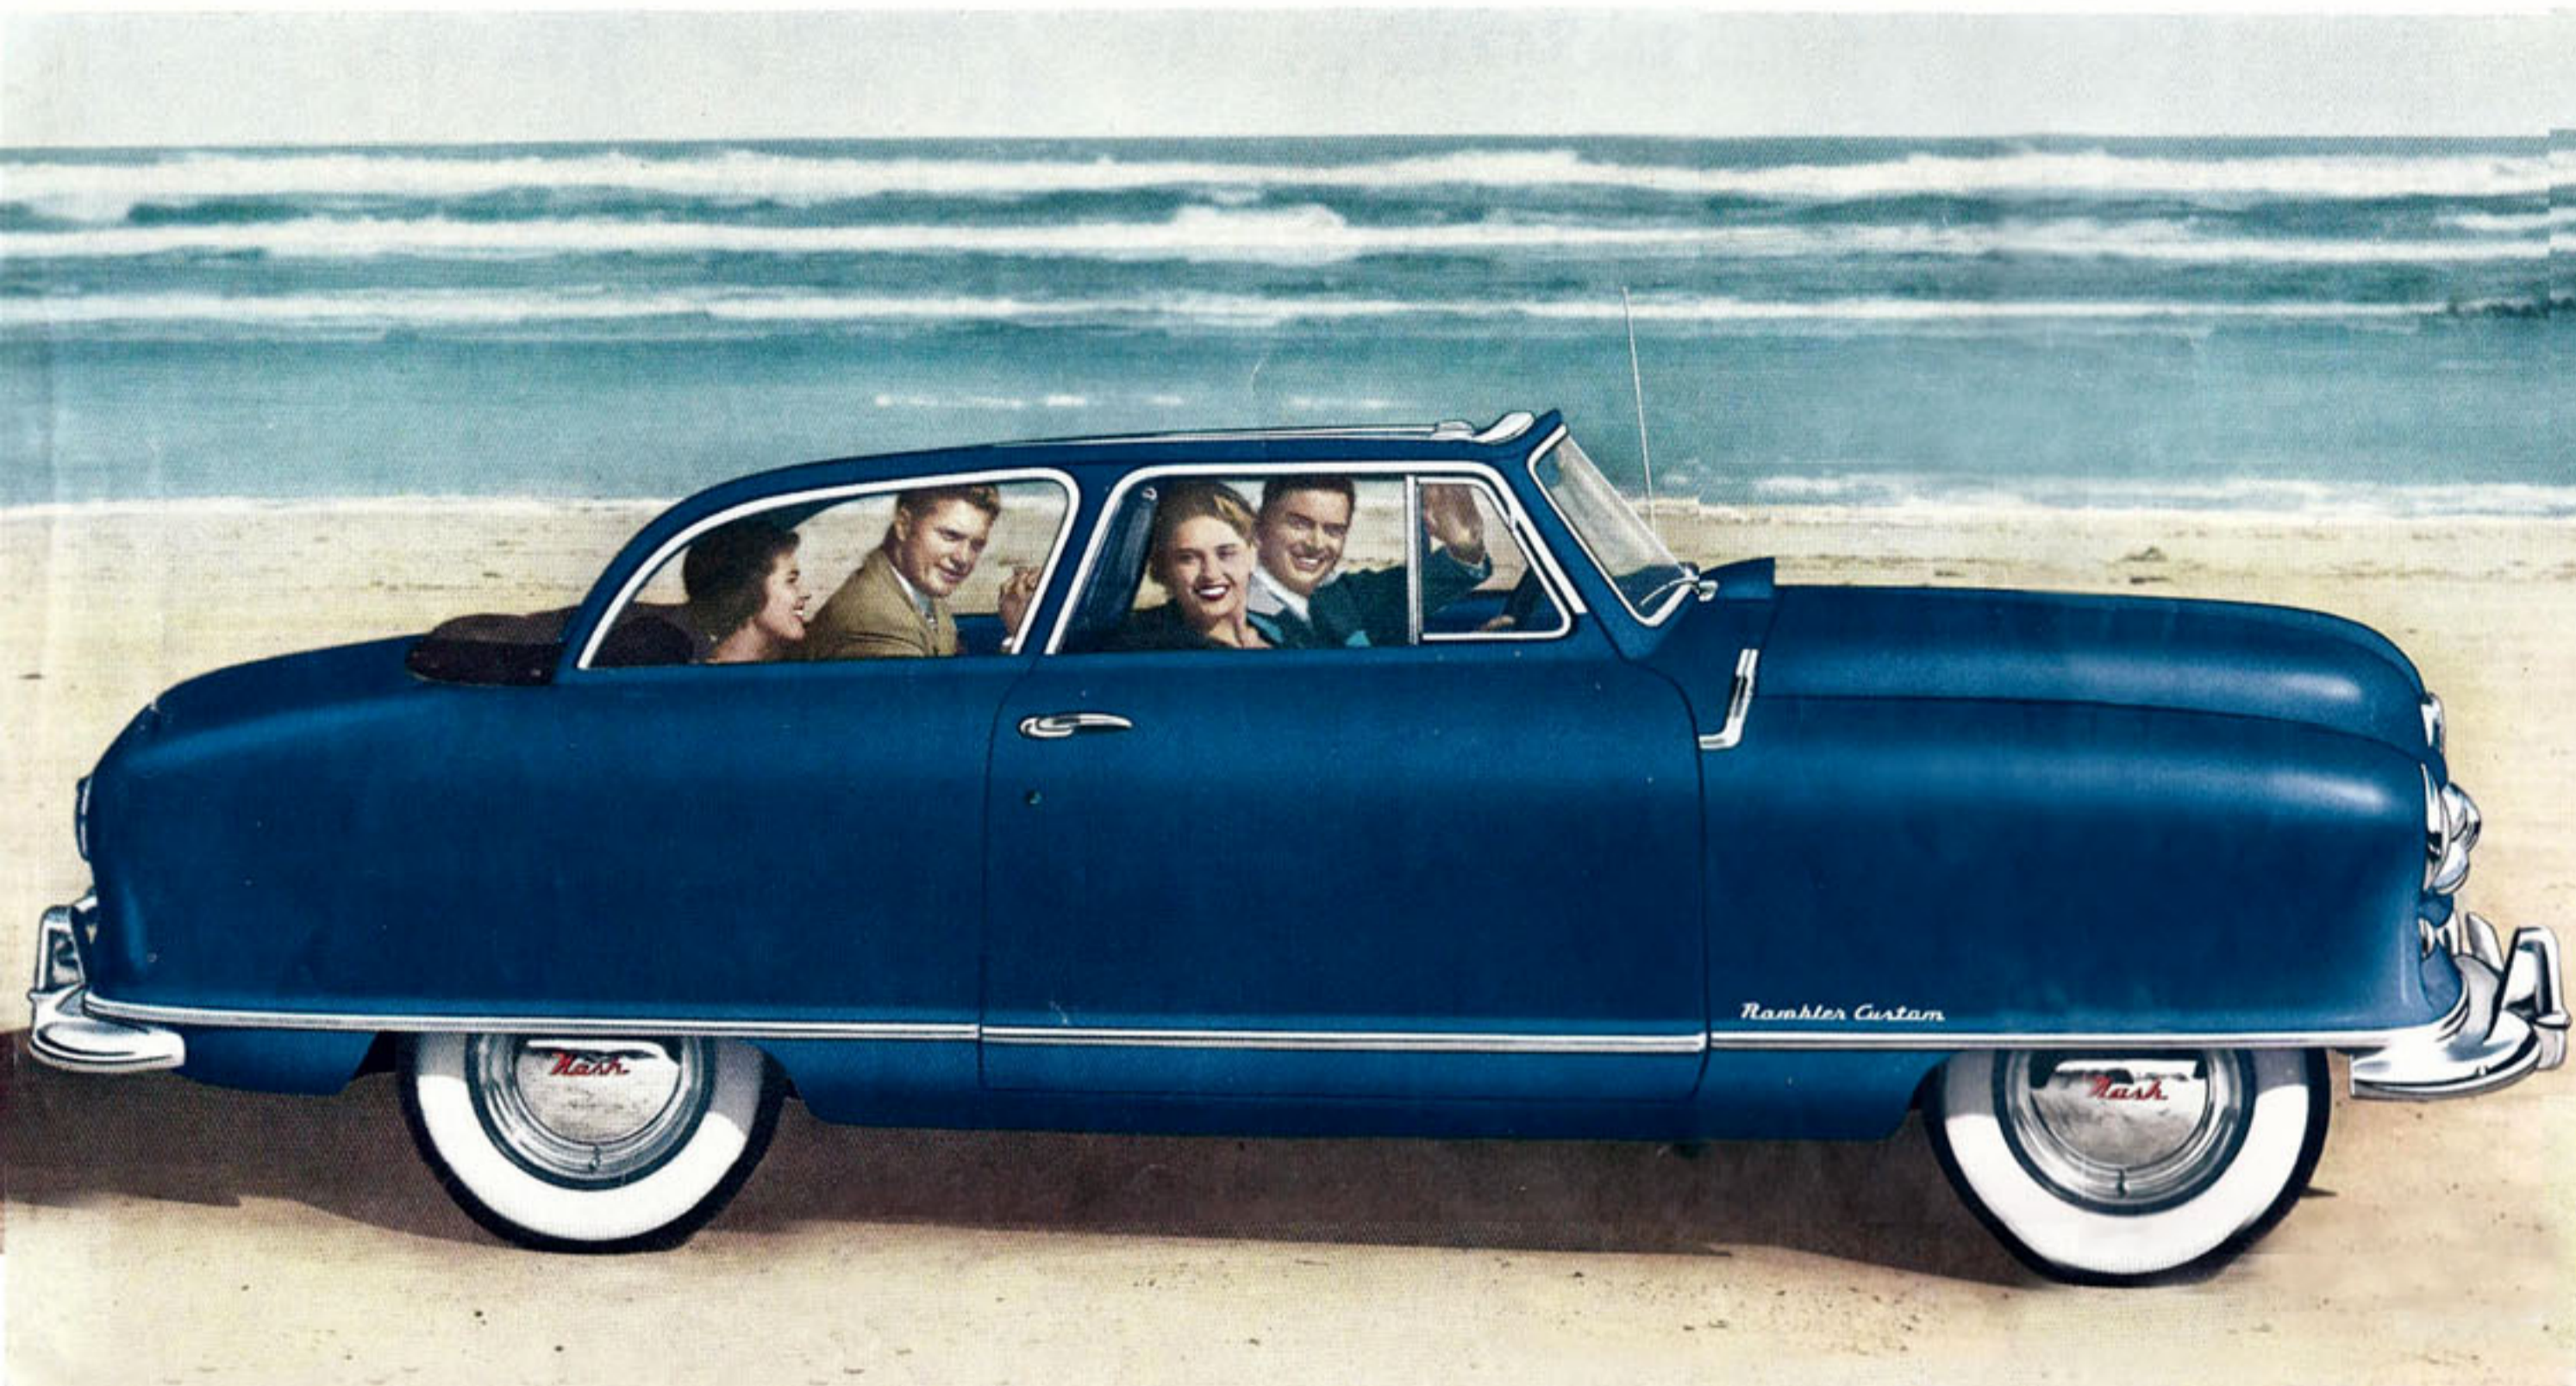

Think of having Airflyte stability. Airflyte rattleproof quiet. Airflyte safety with steel overhead—in a Convertible.

Think of owning the *smartest custom-built* convertible in the whole wide world . . . a car that comes complete with Weather Eye Conditioned Air System, a radio, and all custom fittings at *no added cost*.

Think of owning all this for *less* than any other 5-passenger convertible of ordinary construction would cost you! A car to dream of . . . a car to own . . . a car to compare with anything you've ever known on the road!

It's the new Rambler, newest member of the Nash family. Don't just dream about it. Don't just read about it. Come see and drive the new Airflyte that's got all America talking Nash.

ALL THE THRILL OF AN OPEN CAR WITH THE COMFORT AND SAFETY OF A SEDAN !!!

It's Cozy and Safe With a Steel-Ribbed Top

It's a family sedan for cozy warmth and safety when the weather's cold. The exclusive Rambler steel beam over-structure forms a weather-tight seal for both motor-driven sliding top and sedan-type doors. The Weather Eye Conditioned Air System supplies fresh, exactly-heated, filtered air without drafts.

Click! And the Top Silently Slides Back

Want to enjoy the sun? Unsnap two latches, and a powerful electric motor silently, instantly slides the top back. Here you can see the neat steel overhead rails in the top that contribute to Rambler safety.

It's a Safe Convertible With Overhead Protection

All the fun and sun of a convertible with the safety of husky steel rails overhead. The top entirely disappears, as you can see. Because of its safety and rattle-proof Airflyte Construction, the Convertible Landau becomes the ideal and practical family car.

*It's Custom styled with Continental Flair * It's big inside!*
Engine proved by
Ten Billion Driving Miles

While you're in to see the new Nash Rambler take a look at the whole Nash Airflyte family.

The Ambassador and Statesman, too, are the cars acclaimed as America's most modern—cars of Airflyte Construction.

The only cars with Super-Compression engines that thrive on regular gasoline . . . that deliver more miles to the gallon than other cars of their size.

The only cars with Sky-Lounge Safety Interiors . . . offering the Airliner Reclining Seat . . . Uniscope Safety . . . Twin Beds . . . the unmatched Weather Eye Conditioned Air System.

And this year, you can have the thrill of Hydra-Matic Drive in the Nash Ambassador—with exclusive Nash Selecto-Lift Starting. Just lift a lever and go—go all day without shifting gears. There's not even a clutch pedal!

Yes—drive an Airflyte and know the difference. Then compare prices, and discover that—again—Nash leads in value!

***Come in and see
the newest
member of the**

Nash family
Airflyte

**Rambler price includes
Weather Eye, radio and
other deluxe equipment
at no extra cost
—nothing else to buy!**

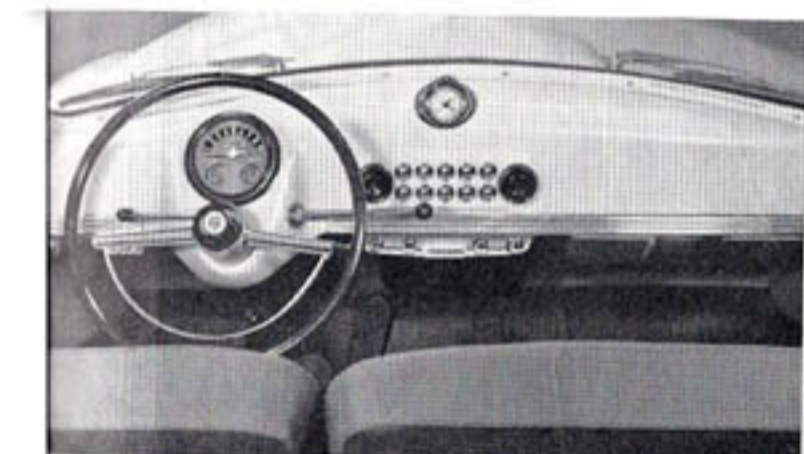

*The Rambler * The Statesman * The Ambassador*

***It's
custom tailored
to your
order!**

There's Much of Tomorrow in all Nash Does Today!

Every refinement you would expect in the finest custom cars, plus smart Rambler styling. Note the deluxe ebony wheel . . . the centralized instruments . . . the clock centered over the radio panel.

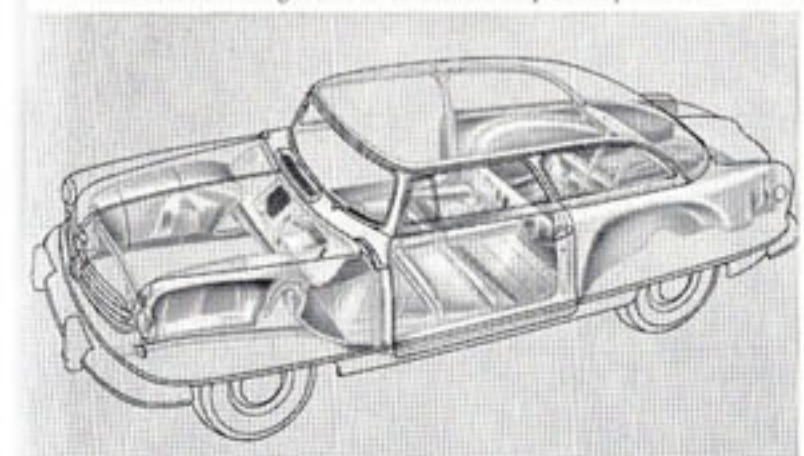

56 inches wide! This front seat is sofa-wide, and ever so much softer with its foam rubber cushions. Here's seating for three big people, with ample head-room, leg-room, elbow-room.

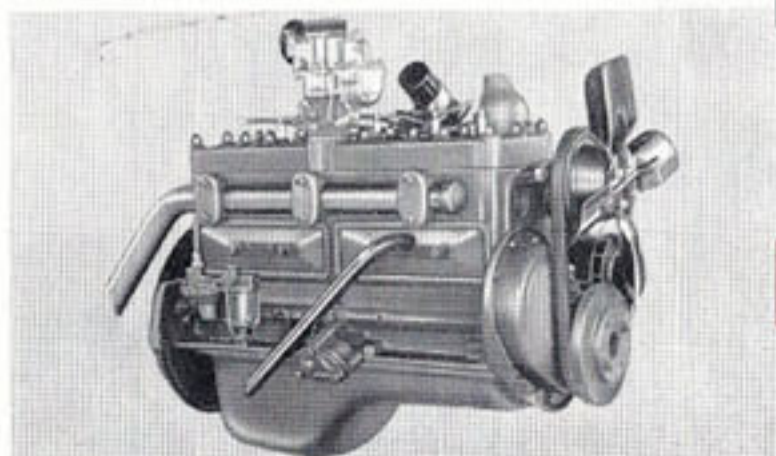

Two more passengers ride in back in roomy comfort. Convenient arm rests, handy ash trays, exquisite interior trim combinations including rich two-tone custom upholstery choices.

Wide-Spread Tread and the lowest roofline of any five passenger car hold you safe and level on turns as a streamline train on track. This Nash is more than a foot wider overall than its 59-inch low height.

Airflyte Construction stays new years longer because it's a single, welded unit—twice as rigid as ordinary separate body and frame construction. It is free of the usual squeaks and rattles.

More power per pound than you probably ever commanded before! It's the famous Nash Flying Scot engine (7.25 to 1 high compression!) proved, like Airflyte Construction, by ten billion driving miles.
