BLOOD, SWEAT,

AND GEARS.

The Freightliner Vans story.

What do you do if you're a long-distance hauling company, but all the heavy trucks available at the time don't have the power to climb steep hills? Answer: you build your own. The Freightliner brand was born out of that "lead or get out of the way" spirit, and that spirit is as strong as ever today in The new Sprinter Vans. While these vans continue to push the envelope for innovation and technology, they still hold true to our core values: to create vans that deliver an extraordinary level of safety, performance, and cost efficiency to every owner.

BUMPER-TO-BUMPER PRODUCTIVITY.

At Freightliner, we don't do anything halfway. When we tell you that The new Sprinter is built for you, we mean it. The building starts with you choosing a tough, durable body in the configuration you need, with all the features and benefits that have made Sprinter Vans leaders for two decades. Now, for the first time, a turbocharged gasoline engine with a Best-in-Class 9G-TRONIC 9-speed automatic transmission is standard equipment.* From there, pick from a wide range of options and features to customize The new Sprinter to your specifications. The result is a van that's all work and no slack. Built for you. The new Sprinter. Built in the USA.

*Gasoline engine not available on all models.

ADVANCED CONNECTIVITY

BOLD DESIGN

INNOVATIVE CONCEPT

OUR ROOTS ARE DEEP. OUR FUTURE IS LIMITLESS.

The Freightliner brand began in the 1930s, with heavy trucks produced at the Consolidated Freightways plant in Salt Lake City, UT. From there, manufacturing moved to Portland, OR, and then to Cleveland, OH. Now, The new Sprinter will be built at our new state-of-the-art facility in North Charleston, SC. This factory has the capacity to meet the need for The new Sprinter now, and the technology to take The new Sprinter into the future.

WE'RE SERIOUS ABOUT SAFETY.

Other manufacturers build vans with safety features they think are good enough. We're not other van manufacturers. When it comes to your safety, we're never satisfied. For example, The new Sprinter now has features you'd expect to find only in the latest passenger vehicles. We've also enhanced some of the Sprinter's current features to make them even more effective. That's in addition to the list of standard and optional safety innovations that made Sprinter Vans a leader in safety in the first place.

NEW FEATURES

ACTIVE BRAKE ASSIST¹

This advanced system senses the likelihood of a collision with a vehicle ahead and sends both a visual and audible warning followed by initiating autonomous braking.

ACTIVE DISTANCE ASSIST DISTRONIC⁰²

This intelligent cruise control system senses traffic conditions and actively controls your speed to keep you at a safe distance.

360° CAMERA³

When the Reverse gear is selected, this visual parking aid uses four digital cameras to generate various views of the vehicle's surroundings and show them in real time on the multimedia display.

ATTENTION ASSIST⁰⁴

Helps prevent drowsy driving by monitoring your driving patterns and providing an early warning in case fatigue is detected.

TRAFFIC SIGN ASSIST

Uses a camera to give drivers additional help with identifying speed restriction signs, No Passing Zones, and No Entry signs.

ENHANCED EXISTING FEATURES

BLIND SPOT ASSIST⁵

Blind Spot Assist⁵ now has Rear Cross-Traffic Alert (RCTA)⁶, which employs automatic braking to avoid a collision with traffic crossing the vehicle's path (e.g., vehicles or pedestrians) when reversing.

ACTIVE LANE KEEPING ASSIST⁷

Can provide you with visual and audible warnings if your van leaves its lane unintentionally. A camera in the windshield monitors the road ahead and helps detect when you may have veered away from lane markings.

EXISTING FEATURES

CROSSWIND ASSIST⁸

Helps stabilize your van and boosts safety in strong, gusting crosswinds. This standard feature helps ensure that your vehicle remains in its lane at highway speeds.

LOAD-ADAPTIVE ELECTRONIC STABILITY PROGRAM (ESP)⁹

This dynamic handling system actively intervenes to help keep the van firmly under control and safe by automatically braking individual wheels, and reducing engine power to help stabilize the vehicle if wheelspin, understeer, or oversteer is detected.

HIGHBEAM ASSISTSM

Adjusts the high- and low-beam headlamps automatically, allowing for continuous adaptation to the prevailing traffic situation. The system helps ensure better and earlier recognition of the course of the road.

RESCUE ASSISTSM

With Rescue AssistSM, first responders to an accident can scan a QR code in a van to quickly see where batteries, airbags, and other structural elements are located in order to safely perform the rescue.

HILL START ASSIST

Briefly stops the vehicle from rolling backward or forward, giving you an extra level of safety and confidence when making a hill start. Hill Start Assist maintains brake pressure for approximately two seconds, so you can remove your foot from the brake pedal without rolling.

DRIVER AND PASSENGER AIRBAGS¹⁰

The driver and passenger front, thorax, and window airbags¹⁰ help protect you and your passengers in the event of a collision.

Sprinter airbags shown are from model year 2014.

MUSCLE THROUGH

THE TOUGH JOBS.

**CHOOSE BETWEEN DIESEL OR GAS,
WITH THE SAME FREIGHTLINER DURABILITY.**

3.0L 6-CYLINDER TURBO DIESEL¹¹

- Configuration: DOHC
- Induction System: Common-Rail-Direct-Injection (CDI)
- Bore/Stroke: 83.0mm/92.0mm
- Horsepower @ rpm: 188 hp @ 3,800 rpm
- Torque: lb-ft @ rpm: 325 lb-ft @ 1,400–2,400 rpm
- Transmission: Automatic Transmission, 7G-TRONIC Plus

2.0L 4-CYLINDER TURBO GASOLINE

- Configuration: DOHC
- Induction System: Bosch injection (200 bar)
- Bore/Stroke: 83.0mm/92.0mm
- Horsepower @ rpm: 188 hp @ 5,000 rpm
- Torque: lb-ft @ rpm: 258 lb-ft @ 2,500–3,500 rpm
- Transmission: Automatic Transmission, 9G-TRONIC

WE'RE TALKING TORQUE.

Horsepower numbers are fine, but torque is what your van needs to get up to speed. What's also important is the rpm at which the peak torque numbers come in. Notice how The new Sprinter's peak torque comes in at 1,400 rpm — just above an idle. This means that you'll be at peak torque quickly — and moving from a standing stop efficiently.

When you're knee-deep in a big job, you shouldn't be wondering if your van can handle the load you're packing in it. The new Sprinter's drivetrains can take what you dish out — and save you money along the way.

For the first time, a 4-cylinder turbocharged gasoline engine mated to a Best-in-Class 9G-TRONIC 9-speed automatic transmission is the standard drivetrain.* A 3.0L 6-cylinder turbo diesel engine¹¹ with a 7G-TRONIC Plus 7-speed automatic transmission is also available. Plus, the optional 4x4 drivetrain with on-demand 4-wheel drive will keep you going when weather or road conditions get tough.

*Gasoline engine not available on all models.

THE REAL COST OF OWNERSHIP.

If your van is down for maintenance or repairs, you're not making any money. Worse yet, you could be losing jobs to your competition. With their lengthy service intervals and, for the first time, a turbocharged 4-cylinder gasoline engine with Direct Injection and 258 lb-ft of torque as standard equipment,* The new Sprinter Vans keep your total cost of ownership low and your productivity high. So you stay on the road — and ahead of your competition.

In addition to lowering your total cost of ownership, The new Sprinter helps keep drivers efficient and productive with amenities such as:

- Ergonomic seats with lowered sides and lumbar supports
- Comfortable pedal position
- Elimination of display reflections in windshield
- Optimized noise reduction
- Increased steering wheel adjustability for tall/short drivers
- Multiple rear-step variations

Efficient Diesel Engine¹¹ With turbocharged power, 325 lb-ft of torque, and diesel fuel economy, The new Sprinter's impressive 6-cylinder engine delivers power and durability in one compact package.

7G-TRONIC Plus 7-Speed Automatic Transmission
The low first gear and overdrive high gear in The new Sprinter's 7-speed automatic transmission help you accelerate from a stop, and conserve fuel on the highway.

9G-TRONIC 9-Speed Automatic Transmission
This transmission is a first for the segment and features rapid response, a smooth transition between gears, and efficient highway driving.

Gasoline Engine For the first time, The new Sprinter offers an available turbocharged 4-cylinder gasoline engine with Direct Injection and 258 lb-ft of torque as standard equipment.*

Up to a 20,000-Mile Service Interval¹² The new Sprinter's Best-in-Class service intervals of up to 20,000 miles¹² for diesel and up to 15,000 miles¹² for gas keep you on the road, raising productivity and lowering the total cost of ownership.

Sustainable Cost Efficiency Fuel consumption optimization, reduced internal engine friction, and a new, more efficient belt drive system will help keep your costs down and productivity up.

TECHNOLOGY THAT MAKES YOUR JOB EASIER.

Mercedes PRO¹³ connect is the first of several Mercedes PRO solutions. It works harder to make your job easier — intelligently connecting fleet managers, drivers, and vehicles to increase the efficiency and productivity of your company in the long run.

Mercedes PRO connect is standard on every new Sprinter.

Vehicle Management Tool — the control center.¹⁴
The fleet manager’s customized hub of connectivity that provides a comprehensive overview of fleet resources — simplifying logistics and increasing productivity.

Communication Module¹⁵ — standard in every new Sprinter.
This is the central point of contact that ensures the broadest range of connectivity, quickly transmitting data with the permanently installed 4G LTE SIM card.

MERCEDES PRO CONNECT IS MADE UP OF THESE 3 ELEMENTS

Mercedes PRO connect App — the direct line to the driver.¹⁶
The driver can now easily access valuable vehicle and job-related information.

3 BUNDLES FOR EVERY CONNECTIVITY NEED.

- SERVICES INCLUDED:**
- Accident and Breakdown Management
 - Emergency Call System¹⁷
 - Live Traffic Information¹⁸
 - Car-to-X Communication¹⁹
 - Software Updates²⁰
 - Internet in the Car²¹
 - Maintenance and Repair Management²²
 - Online Map Update²³
 - Navigation Functions²⁴
 - Multimedia Functions²⁵

- SERVICES INCLUDED:**
- Remote Control²⁶
 - Vehicle Supervision²⁷
 - Eco Monitor
 - Vehicle Operations²⁸
 - Fleet Communication incl. Send2Car²⁹
 - Digital Driver’s Log³⁰
 - Digital Trip Management
 - Theft Warning³¹

- SERVICES INCLUDED:**
- Vehicle Data Interface extended
 - Vehicle Data Interface light

- FOR THE BUSINESS OWNER**
- Increase overall business efficiency
 - Easy location of a stolen vehicle through the Vehicle Management Tool, which shows the vehicle’s current position
 - Potential for a reduction in fuel consumption and, therefore, lower fuel costs

BENEFITS AT A GLANCE

- FOR THE FLEET MANAGER**
- Integration into multi-brand vehicle management systems
 - Clear overview of the fleet as each vehicle’s information is clearly shown in the Vehicle Management Tool
 - Trips can be planned more efficiently and at shorter notice as the fleet manager has all the current data available at a glance
- FOR THE DRIVER**
- Effective assistance in case of an emergency
 - Makes work easier as vehicle remote control also works when the vehicle key is not available
 - More efficient working procedures as addresses can be directly adopted into the vehicle’s navigation system for faster arrival

ACCELERATE YOUR EFFICIENCY.

Wasted time is wasted money. The new Sprinter's advanced infotainment system will help keep you connected and productive while you're on the road. All the features of the infotainment system are incorporated into the overall design of the cabin and easy to reach, thereby minimizing wasted motion and increasing functionality. It's just our way of helping you make every minute count.

Charging options are strategically located on the dashboard and include USB-C ports, wireless, and 12V chargers.

Smartphone integration for Apple CarPlay^{®32} and Android[™] Auto as well as Bluetooth[®] capability are now available in The new Sprinter.

The wireless Internet access²¹ is a highly stable connection that allows for the use of mobile devices in the vehicle.

7" and 10.25" Touchscreens

For the first time, display screens that are activated via touch, voice control, or touch buttons on the steering wheel are available on The new Sprinter.

The innovative MBUX (Mercedes-Benz User Experience) delivers content from navigation to entertainment and includes optional LINGUATRONIC "Hey Mercedes" voice control and what3words, our geocoded map system.

Live Traffic Information¹⁸ provides traffic data in real time for more efficient traveling to and from work.

Mercedes-Benz Emergency Call System¹⁷ sends out an automatic emergency call for faster arrival of rescue services.

TIME TO STEP UP.

When you're done with compromising, you're ready for The new Sprinter. It's built for you, with thousands of features, options, and upfit solutions designed to raise productivity and lower costs. From straight-up hauling cargo to carrying crew or passengers, creating your own box truck, or even handling rough terrain with a 4x4 option, we have the configuration you need. That's because we're dedicated, focused, and committed to building the most capable vans on the road.

Take a look at the full lineup of The new Sprinter Vans, and let us show you what we're made of.

YOU'VE GOT THIS.

Available on the Single tire models, this wheel arch covering's square shape and flat top provide extra storage opportunities, as well as protection for the wheel arch.

The rear doors feature new hinges with self-locking mechanisms.

LED strip lighting improves cargo-loading vision.

New pallet bracing and tie-downs³³ help when hauling cargo with unusual sizes and shapes.

The new Sprinter 4500 model sets a new benchmark for payload capacity of up to 6,735 lbs.

4500

1500. 4500. Two new numbers in The new Sprinter line that can change the way you work. The 1500 is a lighter-duty model that delivers big-time productivity. For serious hauling capability, the 4500 model will handle your heaviest jobs. There's also a 2500, a 3500, and a 3500XD model. Whichever you choose, the service intervals of up to 20,000 miles¹² for diesel and up to 15,000 miles¹² for gasoline will keep your productivity high and your cost of ownership low.

SPRINTER CARGO

AVAILABLE IN 1500, 2500, 3500, 3500XD, & 4500 SERIES

MORE WAYS TO GET MORE DONE.

The removable 3-seat bench is covered in durable upholstery and gives your crew a roomy, safe, and comfortable ride.

In addition to seating for up to five people, The new Sprinter Crew Van features ample cargo space.

Is every job the same? No. That's why you need a van that can roll with the changes. If the job calls for manpower, The new Sprinter is the only factory crew configuration in its class and can easily carry up to five people while still leaving you plenty of cargo room. And for the first time, you can have turbocharged power and the convenience of gasoline in one package with a 4-cylinder turbocharged gasoline engine with a Best-in-Class 9G-TRONIC 9-speed automatic transmission as standard equipment.* A V6 turbo diesel engine¹¹ with a 7G-TRONIC Plus 7-speed automatic transmission is also available.

SPRINTER CREW

ENGINES: 2.0L 4-cylinder turbo gasoline,* 3.0L 6-cylinder turbo diesel¹¹

TRANSMISSIONS: 9G-TRONIC 9-speed Automatic Transmission, 7G-TRONIC Plus 7-speed Automatic Transmission

MAXIMUM CARGO VOLUME: 370.8 cu. ft.

MAXIMUM CARGO FLOOR LENGTH: TBD

MAXIMUM INTERIOR STANDING HEIGHT: 76.7"

SEATING CAPACITY: Up to five

*Gasoline engine not available on all models.

YOUR PASSENGERS DESERVE THIS.

Looking to carry more passengers? The new Sprinter accomplishes that in a big way with totally new seating for **up to 15 people**, and provides an experience every one of them will enjoy. That means room to sit, stretch out, and stand. The new Sprinter Passenger Van delivers on all three, along with a level of protection only the technologically advanced Freightliner safety features can deliver.

SPRINTER PASSENGER

AVAILABLE IN 1500 & 2500 SERIES

ONE ROOF HEIGHT

HIGH ROOF

TWO LENGTHS

144" WHEELBASE

- STANDARD FRONT + REAR A/C
- SEATING CAPACITY: Up to 15

*Gasoline engine not available on all models.

Don't let your business plans stall because you can't find the right vehicle. The new Sprinter Cab Chassis/Cutaway is the place to make it happen. With a flat, unobstructed frame and two available wheelbases, it's the foundation you're looking for. To get your plans up and moving, a powerful and efficient V6 turbo diesel engine¹¹ with a 7G-TRONIC Plus 7-speed automatic transmission is standard equipment.

Choose between the standard 3500XD model (GVWR of 11,030 lbs.) or the new 4500 model (GVWR of 12,125 lbs.) and build The new Sprinter Cab Chassis/Cutaway that works best for you.

The new Sprinter's flat, unobstructed frame rails are the perfect place to bring your vision of the ideal business vehicle to life.

LET'S BUILD IT.

AVAILABLE IN 2500 SERIES

All measurements in inches. All width measurements include mirrors. A complete listing of models and specifications begins on page 40.

GET YOUR CONCEPT UP AND RUNNING.

You have a concept in mind — let a Freightliner Vans MasterUpfitter build it for you. Our job is to manufacture a van that is ready to fit your ultimate conversion needs. With the Best-in-Class cargo volume of The new Sprinter and the impressive 7,430 lbs. of payload of The new Sprinter 4500 Cab Chassis/Cutaway, each Freightliner Van is a blank canvas on which you can create a design to meet your specific needs. Whether you are in need of a simple work van interior, a mobile veterinarian clinic, or the ultimate RV, Freightliner Vans is making you mobile and taking your business to new places.

Qualified Upfitters adhere to the Upfitting Guidelines to become part of the Freightliner Vans MasterUpfitter network. These masters of their trade are committed to the highest engineering standards and levels of customer satisfaction. Working with a MasterUpfitter gives you the flexibility to be creative and the assurance that Freightliner Vans is here to support your needs.

Find your MasterUpfitter today: www.upfitterportal.com/en-us/upfitters/locator

OTHERS DREAM IT. WE DO IT.

You're the expert in your trade, and your van is the tool with which to get the job done. MasterSolutions™³⁵ allows you to quickly configure your van and order directly via your Freightliner Vans dealer to get you exactly the van you want right when you need it. It's time to start producing. Build your van now or get inspired by visiting: www.freightlinersprinterusa.com/freightliner/master-solutions/customize

MasterSolutions™³⁵ providers Auto Truck, Knapheide, and TransitWorks bring you a portfolio of turnkey solutions for your specific line of business — HVAC, Plumbing, Electrical, Telecommunication, Contracting, Delivery, Refrigeration, Food Services, and People Moving — all at a preferred price. These preconfigured solutions from industry-leading manufacturers are customized to fit your Freightliner Sprinter. The ordering process is streamlined, and installation is simple: all MasterSolutions™³⁵ can be fitted directly as Ship-Thru, right next to our factory in South Carolina, which saves you time and ensures seamless integration, quick delivery, and consistent quality.

FINANCE SOLUTIONS.

Through Daimler Truck Financial, we offer a variety of financing products and solutions with flexible benefits tailored specifically to meet the needs of your business.³⁶

For more information, visit www.freightlinersprinterusa.com/freightliner/shopping-tools/finance-solutions

WE HAVE YOUR BACK.

VanCARE is a promise to our customers to deliver genuine parts, superior service, and unparalleled commitment to getting you back on the road as quickly as possible. We know that for you, it isn't a van — it's a tool you need to make a living.

RETAIL LOAN

These simple-interest, fixed-payment packages lock in interest rates and can include van and upfit equipment, as well as aftermarket products, in one contract.

FMV LEASE

A closed-end lease agreement is also known as a “walkaway lease,” since the lessee can simply turn in the vehicle and walk away at lease maturity after meeting all contractual obligations, subject to certain return conditions and mileage restrictions.

TRAC LEASE³⁷

A Terminal Rental Adjustment Clause (TRAC) lease doesn't require any acquisition fee, up-front payment, or excess mileage charges, and lease payments may be expensed against income. Owners are responsible for the residual value of the vehicle.

ROADSIDE ASSISTANCE³⁸

All Freightliner Sprinters come standard with our 24-hour Roadside Assistance Program³⁸ and expert advice 24/7 through the Daimler Customer Assistance Center, providing you with peace of mind and help when you need it most.

ServiceCARE — Service solutions built for you

Whether it's a maintenance service, unexpected warranty work, or now a wear and tear repair, our ServiceCARE products are customized solutions for you. You can now focus on your business with your vehicles always in top shape, minimizing your downtime and maximizing your financial cost control.

Complete
The all-inclusive service package

☒ Service ☒ Repair ☒ Wear & Tear

If you require comprehensive additional protection for your van, look no further than our Complete product. This package covers all workshop work, including wear and tear repairs. The vehicle is ready for action when you need it, and you keep costs safely under control.

Extended Limited Warranty (ELW) ☐ Service ☒ Repair ☐ Wear & Tear
More warranty. More certainty.

The Extended Limited Warranty product offers you greater coverage for mechanical, electrical, and electronic components. It protects you against unforeseen repair costs, and without any deductibles, you get the benefit of predictable and attractive conditions.

Maintenance (PPM) ☒ Service ☐ Repair ☐ Wear & Tear
Keeping your van in top shape

Regular and accurate checking of the most important vehicle parts and functions ensures that your van continues to deliver outstanding performance and reliability. Maintenance prevents unnecessary repair costs and keeps downtime minimal.

SPRINTER PASSENGER

ADDITIONAL STANDARD FEATURES (PASSENGER)	1500	2500		1500	2500		1500	2500
MECHANICAL								
• Additional bar for driveshaft & exhaust extension	X	X				• Suspension for comfort & load protection	X	X
• Axle ratio 3.923*		X	• Rear spring vibration absorbers	X	X	• Tire pressure monitoring lamp	X	X
• Axle ratio 4.182 (standard on 2500 gas models only)	X	X	• Stabilization Level I	X	X			

SEATING								
• Aisle-side armrest	X	X	• Storage net, driver seat backrest	X	X	• Three-seater bench in passenger compartment, third row (narrow)**	X	X
• Four-seater bench in passenger compartment, third row**	X	X	• Storage net, passenger seat backrest	X	X			
• Four-seater bench in passenger compartment, fourth row***	X	X	• Three-seater bench in passenger compartment, first row (narrow); includes ISOFIX	X	X	• Wall-side armrest	X	X
• Luxury interior trim with USB-sockets	X	X	• Three-seater bench in passenger compartment, second row (narrow)	X	X	• Window pillar trim	X	X

INTERIOR								
• 12V power outlet, rear compartment	X	X	• Front-to-rear outlet in instrument panel	X	X	• Rear window defroster	X	X
• Air conditioning rear, roof-mounted	X	X	• Fuel-fired heater booster (17,000 BTU)*	X	X	• Sliding door, passenger side	X	X
• Assist handle, B-pillar	X	X	• Heat insulation, front compartment	X	X	• Storage compartment with net in rear doors	X	X
• Audio systems speakers, 5 front, 8 rear	X	X	• Heat insulation, rear compartment	X	X	• Warm/cool air duct to rear compartment	X	X
• Coat hooks in passenger compartment	X	X	• Hinged lid for storage compartment	X	X	• Weight-optimized plastic floor	X	X
• Cupholders, front	X	X	• Illuminated front exits	X	X	• Window pillar trim	X	X
• FMVSS 217 emergency exit	X	X	• Rear cabin heater & vents	X	X			

EXTERIOR						TIRES & WHEELS		
• 2nd row, fixed window, passenger side	X	X	• High roof	X	X	• 6.5 J x 16 steel wheels	X	X
• 3rd brake light	X	X	• Laminated glass rear	X	X	• Spare wheel	X	X
• Black tinting (90%) for rear windows	X	X	• Rear doors 180° opening	X	X	• Spare wheel bracket below frame	X	X
• Fixed window, center left***	X	X	• Rear mudflaps	X	X	• Tires LT 245/75 R16	X	X
• Fixed window, center right***	X	X	• Roof trim	X	X	• Wheelhouse covering	X	X
• Fixed window, rear left	X	X	• Tow hook rear	X	X			
• Fixed window, rear right	X	X	• Windows in rear doors	X	X			

SAFETY & SECURITY					
• Longitudinal member reinforcement	X	X	• Rearview camera (rearview mirror display)	X	X

OPTIONAL FEATURES (PASSENGER)	1500	2500		1500	2500		1500	2500
MECHANICAL								
• Additional battery for retrofit consumers, co-driver seat base**	X	X	• Cruise control	X	X	• Misfueling prevention for diesel		X
			• Cutoff relay for additional battery	X	X	• Parametric Special Module (PSM)	X	X
• Additional battery for retrofit consumers, engine compartment**	X	X	• Deactivation lamp monitoring failure	X	X	• Speed limitation, 65 mph	X	X
• Additional DIN-slots	X	X	• Electric parking brake	X	X	• Top speed limitation, 75 mph	X	X
• Axle ratio 4.182 (standard on 1500 & 2500 Gas Models)		X	• Engine oil level display at cold start*		X			
			• Fuel gauge, optimized for aux. fuel tap*		X			

SEATING					
• Artico Man-made Leather Black	X	X	• Heated driver seat	X	X
• Fabric, Caluma Black	X	X	• Heated front passenger seat	X	X

INTERIOR								
• 115V socket	X	X	• Electrically folding exterior mirrors	X	X	• Optional 3-button keys	X	X
• Acoustic Package	X	X	• Electrically heated windshield	X	X	• Overhead storage slot, front center	X	X
• Assist handle, left rear door	X	X	• Fuel-fired pre-heater/booster (17,000 BTU)*		X	• Rear doors, opening to side-wall	X	X
• Assist handle, right rear door	X	X	• Instrument cluster with color display	X	X	• Rear heater prep	X	X
• Charging Package, dashboard	X	X	• Keys, two additional masters	X	X	• Satellite radio	X	X
• Cigarette lighter & ash cup, front	X	X	• Leather steering wheel	X	X	• THERMOTRONIC automatic climate control	X	X
• Door-mounted assist handle, driver & passenger (standard on 4x4)	X	X	• Multifunction steering wheel	X	X	• Tray for smartphones incl. wireless charging	X	X
			• Navigation	X	X			

EXTERIOR						TIRES & WHEELS		
• Bumpers front/rear primed	X	X	• Heated & electrically adjustable exterior mirrors	X	X	• Light-alloy wheels 6.5 J x 16	X	X
• Bumper step, rear, Grey	X	X	• Heated rear window(s) with washers/wipers	X	X	• M+S winter tires	X	X
• DEF fluid filler cap - lockable	X	X	• Mounting rails for roof rack	X	X	• Rims painted Arctic White	X	X
• Deletion of "model" badge, right rear door	X	X	• Opening limiter, electrically operated sliding door	X	X	• Rims painted Jet Black	X	X
• Deletion of Sprinter badge, left rear door	X	X	• Painted metallic front & rear bumper	X	X	• Spare tire carrier deletion	X	X
• Elec. closing assist right sliding door (soft close)	X	X	• Primed side moldings	X	X	• Spare wheel deletion	X	X
• Half-sided step rear (for trailer hitch)	X	X	• Sliding door two-stage opening	X	X	• Tire Brand Continental	X	X
			• Trailer hitch, 5,000 lbs.	X	X	• Tire Brand Kumho	X	X
						• Tire Brand Michelin	X	X

SAFETY & SECURITY								
• Active Distance Assist DISTRONIC ^{®2}	X	X	• Emergency flashlight	X	X	• Parking Package	X	X
• Backup alarm	X	X	• First-aid kit	X	X	• Parking Package with 360° camera	X	X
• Blind Spot Assist ⁵	X	X	• Fog lamp with cornering light function	X	X	• Security alarm with interior motion sensor	X	X

OPTIONAL PACKAGES					
• Comfort Package	X	X	• Passenger Accessibility Package	X	X
• Comfort Plus Package	X	X	• Premium Package	X	X
• Driver Convenience Package	X	X	• Premium Plus Package	X	X
• Exterior Lighting Package	X	X	• Rear Comfort Package	X	X
• High-Performance Rear Air Conditioning Package		X			

*Not available with gasoline engine.
**12-seater model only.
***15-seater model only.

ACCESSORIES HIGHLIGHTS

- All-season floor mats
- Loading roller (for basic carrier bars)
- Roof rack basic carrier
- Trailer hitch
- Wind deflectors for front windows, set
- Roof box
- Folding table (requires base module)

Contact dealer for full list of accessories.

ENDNOTES

TBD values to be updated at a later date.

Gas engine models available in early 2019. 4x4 models available in early 2019. 170" extended models available in early 2019.

1. Active Brake Assist may not be sufficient to avoid an accident. It does not react to certain stationary objects, nor recognize or predict the curvature and/or lane layout of the road or every movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. See Operator's Manual for system's operating speeds and additional information and warnings.

2. Active Distance Assist DISTRONIC® is no substitute for active driving involvement. It does not adapt cruising speed in response to stationary objects, nor does it predict the curvature and lane layout of the road ahead or the movement of vehicles ahead. It is the driver's responsibility at all times to be attentive to traffic and road conditions, and to provide the steering, braking and other driving inputs necessary to retain control of the vehicle. Drivers are cautioned not to wait for the system's alerts before braking, as that may not afford sufficient time and distance to brake safely. Braking effectiveness also depends on proper brake maintenance, and tire and road conditions. See Operator's Manual for system's operating speeds and additional information and warnings.

3. Rearview camera does not audibly notify driver of nearby objects and is not a substitute for actively checking around the vehicle for any obstacles or people. Images displayed may be limited by camera field of view, weather, lighting conditions, and the presence of dirt, ice, or snow on the camera.

4. Driving while drowsy or distracted is dangerous and must be avoided. ATTENTION ASSIST® may be insufficient to alert a fatigued or distracted driver and cannot be relied on to avoid an accident or serious injury.

5. Blind Spot Assist is a warning system only, and may not be sufficient to avoid all accidents involving vehicles in your blind spot and does not estimate the speed of approaching vehicles. It should not be used as a substitute for driver awareness and checking of surrounding traffic conditions. See Operator's Manual for system's operating speeds and additional information and warnings.

6. Rear Cross-Traffic Alert is not a substitute for actively checking around the vehicle for any obstacles or people. It may not detect certain objects based on their size, path, proximity or speed and angle of approach, or due to sensor obstruction, and does not control steering angle. See Operator's Manual for additional information, tips and warnings.

7. Active Lane Keeping Assist may be insufficient to alert a fatigued or distracted driver of lane drift and cannot be relied on to avoid an accident or serious injury.

8. Crosswind Assist can engage automatically when sensing dangerous wind gusts at highway speeds exceeding 50 mph. Performance is limited by wind severity and available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions.

9. No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice, and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires.

10. Warning: the forces of a deploying airbag can cause serious or fatal injuries to a child under age 13. The safest seating position for your child is in a rear seat, belted into an appropriate, properly installed child seat, or correctly wearing a seat belt if too large for a child seat. See Operator's Manual for additional warnings and information on airbags, seat belts, and child seats.

11. Requires the use of ultra-low-sulfur diesel fuel. Freightliner Sprinters are approved to use B5 biodiesel (approved diesel fuel with a maximum 5% biodiesel content). The only approved biodiesel content is one that both meets ASTM D6751 specifications and has the oxidation stability necessary to prevent deposit-/corrosion-related damages to the system (min. 6h, proven by EN14112 method). Please see your service station for further information. If the B5 biodiesel blend does not clearly indicate that it meets the above standards, please do not use it. The Freightliner Sprinter New Vehicle Limited Warranty does not cover damage caused by fuel standards not approved by Freightliner.

12. Driver is responsible for monitoring fluid levels and tire pressure between service visits. See Maintenance Booklet for details.

13. Mercedes PRO is available for the contiguous U.S., Hawaii, and Alaska with The new Sprinter (as of MY19). Contact an authorized Mercedes-Benz Vans dealership for more information.

14. After the Mercedes PRO connect go-live in The new Sprinter, there will be a Vehicle Management Tool for the factory equipped solution and Communication Module.

15. The availability of services in addition to the integrated Communication Module depends on the network coverage of the mobile network provider. The Communication Module (LTE) is not available in the U.S. Virgin Islands or Puerto Rico.

16. In order to prevent distracted driving, the use of the Mercedes PRO connect App is not permitted while operating a motor vehicle in order to prevent distracted driving. If used while operating a motor vehicle, there is an increased risk of endangering oneself and others. Please follow your local laws and restrictions.

17. When the Emergency Call System is triggered, the following data are automatically transmitted: vehicle identification number, GPS position, direction of travel, time of the emergency call, language setting, and number of occupants in the cab. The Emergency Call System is activated from the moment the vehicle is delivered to the customer following a sale. No separate terms of use have to be accepted. The Communication Module for Digital Services and the emergency call button are necessary for use of the Emergency Call System service.

18. The information from this service is shown on the touchscreen of the multimedia system. Live Traffic Information can only be used in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the MBUX multimedia system with 10.25-inch touchscreen.

19. A valid subscription to Live Traffic Information is necessary to use Car-to-X Communication. Car-to-X Communication can only be used in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the MBUX multimedia system with 10.25-inch touchscreen. Only the data of vehicles directly affected by the event and equipped with Car-to-X Communication are processed, therefore you may not always receive a timely warning of hazards through this system.

20. Update times, content, and installation times can vary. These are activated when the vehicle is delivered. Updates to the Communication Module (LTE) are automatic, as otherwise certain applications might no longer work. You can access the current status of the software versions in your vehicle via the Mercedes PRO Portal.

21. The wireless Internet in the Car is provided by AT&T and created via an integrated SIM card. A contract must be made with AT&T in order to access data services, and this contract can be made via the Mercedes PRO Portal or infotainment system. In addition to a data contract with AT&T, either an MBUX multimedia system with 7-inch touchscreen and navigation or satellite radio or the MBUX multimedia system with 10.25-inch touchscreen is required for the Internet in the Car service. Additional costs may apply depending on the amount of data used.

22. In order for us to offer you this service, data is transferred from the vehicle to Mercedes-Benz/Freightliner Sprinter. This data includes the vehicle identification number, mileage, service code (A or B), as well as remaining time and mileage until the next service is due and information on the brake system and coolant.

23. The Online Map Update service is only available in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the MBUX multimedia system with 10.25-inch touchscreen. The service must first be activated and the region for the map update selected in the Mercedes PRO Portal.

24. You can only use the Navigation Functions service in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the MBUX multimedia system with 10.25-inch touchscreen. Before use, some of the applications must first be activated via the Mercedes PRO Portal.

25. You can only use the Multimedia Functions service in conjunction with the MBUX multimedia system with 7-inch touchscreen and navigation or the satellite radio or with the MBUX multimedia system with 10.25-inch touchscreen. Before use, some of the applications must first be activated via the Mercedes PRO Portal. For various functions (Internet Radio and Browser), additional data volume is necessary which can be purchased via the Internet in the Car service.

26. The Remote Control function via the Mercedes PRO connect App makes it possible for you to view the status of the doors and windows. The driver is also able to unlock the vehicle using a code via the Mercedes PRO connect App and also check the status of and operate the auxiliary heater. This function is only available in conjunction with an optional auxiliary heater (hot-water heater).

27. The available data can vary according to the vehicle model. The tire pressure can only be shown on certain model configurations. Display of the AdBlue® level is only available in conjunction with the optional SCR Generation 3 emissions control and only available with diesel models.

28. To safeguard the driver's privacy, he/she can switch off the vehicle tracking function via the Mercedes PRO connect App when making private journeys or traveling to and from work.

29. Messages from all drivers are visible to the fleet manager. Using the Vehicle Management Tool, he/she can, in turn, contact any driver individually with a message. If the Send2Car function is included in the subscription, a POI can be sent directly to the vehicle's navigation system. The Vehicle Operations service is additionally required to send POIs directly from the Vehicle Management Tool.

30. If you wish to use the Digital Driver's Log for your tax documentation, be sure to verify in advance whether the form and the information provided meet the fiscal requirements of your local tax authority. It provides three categories in which to categorize journeys: business journey, private journey, or commute.

31. The Theft Warning is shown in the chosen communication channel if the vehicle crosses preset geofences in a certain time period or if the optional Security alarm with interior motion sensor system sounds the alarm. Only in conjunction with the optional Security alarm with interior motion sensor.

32. Apple CarPlay® is a product of Apple Inc. Android™ Auto is a product of Google Inc. Device and app providers' terms and privacy statements apply. Requires connected compatible device and data plan. Apps, content and features are selected solely by their providers. Connection to apps and streaming services may be limited by the device's network connection. Data usage is routed through device and subject to fees, charges and restrictions in user's wireless plan. The vehicle's factory audio/information interface, including COMAND® navigation, may not be used simultaneously with Apple CarPlay or Android Auto. When Apple CarPlay or Android Auto is in use, the steering-wheel voice control button accesses Siri® or Google voice recognition software for voice commands.

33. Unsecured cargo can become hazardous in a collision. Always secure cargo.

34. Maximum permissible gross weight of the trailer, if the trailer is equipped with a separate functional braking system. Please make sure to comply with local trailer load regulations.

35. MasterSolutions™ program vehicles are custom, special-order only vehicles modified by the MasterSolutions™ Provider chosen by you. Although the Daimler Vans warranty does not apply to the modifications, separate warranties, offered by the MasterSolutions™ Provider, may apply. Details are available from your local dealer.

36. Actual rates, terms, down payment, and program eligibility will be determined by the Daimler Truck Financial Credit Team based upon creditworthiness of customer.

37. TRAC leases are limited to motor vehicles leased to businesses and used at least 50% of the time for business purposes. Consult your tax or financial advisor for tax and accounting treatments.

38. The Mercedes-Benz Vans Roadside Assistance Program is available for vehicles covered under warranty and includes such services as towing, jump-start in the event of a dead battery, and assistance with the installation of a spare tire. Service charges apply for out-of-warranty vehicles.
