BRONZE RABBIT

**An extra measure of
good looks and good value.**

Hosted by

A2Resource.com

A sparkling bronze metallic exterior.

You'll know a Bronze Rabbit when you see one. It comes on gleaming bright, with its coat of special metallic paint. And zooms off like a shot, with its 1.5 liter overhead cam engine.

In fact, Bronze Rabbit can hop from 0 to 50 mph in a mere 10.5 seconds.

And like all our Rabbits, its compact 155.3" overall length gives it maximum maneuverability plus quick, easy parkability.

But the real beauty of Bronze Rabbit is most apparent when you open the door and look inside. Because—while Rabbit may be short on exterior length, it's surprisingly long on interior space.

A spacious interior accented by luxurious leatherette upholstery.

An amazing 87% of the Rabbit is devoted to people and luggage space. Which explains why you can get so many and so much inside without cramping your style.

And in Bronze Rabbit, the big spacious passenger compartment features fully reclining front bucket seats, upholstered in luxurious leatherette that feels as good as it looks.

For your comfort and convenience, every door has armrests, the steering wheel is foam-padded, the center console has a handy tray, and the air outlets on the dash are individually adjustable. To keep things clear while you drive, there's an electric windshield washer, side window defroster, and electric rear window defogger.

All that plus an efficient carburetor for good gas mileage and simple maintenance.

Under the hood of the Bronze Rabbit, you'll find a newly engineered single-stage carburetor.

Which means you'll go a little further on a gallon of gas. (EPA estimates 40 mpg highway, 26 mpg city with standard transmission. Actual mileage you may get will vary depending on where and how you drive, your car's condition and optional equipment.) What's more, like all our Rabbits this car is designed for high reliability and low maintenance. So any adjustments should be few, far between, and easy on your pocketbook.

As you can see, Bronze Rabbit offers you a lot of nice extras. But there is one catch.

Because Bronze Rabbit is so special, a lot of people will want one. If you think that might include you, come in now.

Before there's nothing left but a gleaming memory.

BRONZE RABBIT

It even sparkles when you look at it in black and white...

1978 BRONZE RABBIT SPECIFICATIONS

ENGINE:

Type	Water-cooled, front mounted, transverse, overhead cam
