THE ALL-NEW 1985 VOLKSWAGEN GTI

The 1985 Volkswagen GTI has been chosen *Motor Trend's* "Car of the Year."

The Volkswagen GTI received this prestigious award for its outstanding design, engineering excellence, and innovative features. But perhaps most significantly, because it offered more fun for the money than any other performance car.

Volkswagen GTI's enormous success is fitting tribute to our German engineers. In fact, when they first introduced the GTI three years ago,

they created a whole new class of cars—affordable, high performance automobiles. A rare combination that *Motor Trend* and driving enthusiasts have come to recognize and appreciate.

The Volkswagen GTI provides the kind of power, performance and handling that could embarrass sports cars costing much, much more.

Yet, all this driving excitement is delivered with astonishing efficiency.*

That's because, even with all of

its honors, the GTI never forgets that it is a Volkswagen.

We still travel our own road

Although the 1985 Volkswagen GTI is all new, the philosophy upon which it was built goes back to the legendary Beetle. Today, we still design the Beetle's basic virtues—efficiency, reliability, common sense—into every Volkswagen we build. And we still believe in the continual process of improvement and refinement in the pursuit of perfection.

The Volkswagen 2-year Unlimited Mileage Protection Plan

Our new Protection Plan is as simple and straightforward as a Volkswagen itself.

Your new Volkswagen GTI is protected by a 2-year unlimited mileage limited warranty on the entire vehicle (except tires), and a 3-year unlimited mileage limited warranty on rust perforation. See your U.S. Volkswagen dealer for details.

*"...the Volkswagen GTI delivers a combination of talents that exists nowhere else in the marketplace."
—Motor Trend*

IT'S NOT A CAR IT'S A VOLKSWAGEN

*See EPA mileage figures.

Fun in the fast lane

The Volkswagen GTI constantly beckons you to go for a drive, even though you have no particular place to go. Who can resist? The 100-horsepower 1.8-liter fuel-injected engine is coupled with a close-ratio 5-speed transmission. GTI is capable of reaching 116 miles per hour. 0 to 50 is achieved in an astonishing 6.7 seconds.

You'll complain that roads don't have enough curves, now that you're

sitting atop a 4-wheel independent sports suspension with stabilizer bars. Rack and pinion steering. And 4-wheel power assisted disc brakes.

Just sitting in the cockpit is a driver's dream. The fully reclining sport bucket seats cradle you with lateral support. A sports steering wheel and leather shift knob await your commands. And the full analog instrumentation is mounted squarely before you for easy monitoring.

But don't just sit there. Let the

Volkswagen GTI do what it does best. Take you for the ride of your life.

Equipped for comfort and convenience

Aerodynamic headlights. Front and rear spoilers. Stylish alloy wheels. The very design of the Volkswagen GTI exudes excitement.

But even in their quest to achieve maximum style and performance, Volkswagen engineers are ever mindful of comfort and convenience.

Consider the plush bucket seating in a

"It makes a positive impression right from the start. The GTI's seats, driving position, and overall ergonomics are top-flight. It supports you in an upright, businesslike attitude, and presents all the major controls at comfortable angles."

—Motor Trend

handsome grey fabric with a choice of contrasting red or grey striping. Or the split rear seat which can accommodate three adults. A fold-and-tumble feature allows the cargo area to be expanded in one easy motion.

Now the Volkswagen GTI is smarter than ever

Since an informed driver is a better driver, a multi-function computer is standard. A touch of a button displays engine oil or outside air temperatures, elapsed trip time,

miles travelled, average speed, average miles per gallon and even the time of day. A memory switch records trip information and data on trip segments.

Also standard are such convenience and safety features as an electric rear window defroster. Rear window wiper and washer. And both left and right remote outside mirrors.

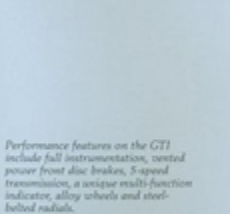

Personalize your Volkswagen GTI
Since everyone's driving needs differ, we offer a selection of options that

will help equip your Volkswagen GTI to meet your personal preferences.

If you can't stand the heat, choose air-conditioning. To get more sun and fresh air, there's a manual sunroof.

If you'd like your Volkswagen GTI to do some of the driving work, quick-ratio power steering and cruise control are available. To surround yourself with beautiful sounds, we suggest the electronic AM/FM stereo cassette radio. And to add even more sparkle, select Diamond Silver metallic paint.

Performance features on the GTI include full instrumentation, vented power front disc brakes, 5-speed transmission, a unique multi-function indicator, alloy wheels and steel-belted radials.

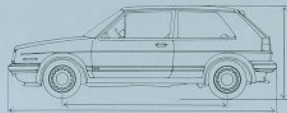

Features and options shown below include: sport bucket seats, split rear seat, alloy wheels, sunroof, AM/FM stereo cassette, multi-function computer, rear spoiler and rear window wiper and washer.

"...nobody does it all in this class the way Volkswagen does. And no other new 1985 American car dominates a market segment so effectively."
—Motor Trend

An optional manual sunroof and AM/FM stereo cassette radio add to GTI's driving excitement.

TECHNICAL DATA/SPECIFICATIONS

FEATURES AND OPTIONS

	GTI 2-Door
S=Standard O=Optional	
MECHANICAL	
1.8 liter high performance 4-cylinder fuel-injected engine	S
Digital electronic ignition with knock sensor	S
Class-ratio 5-speed transmission	S
Tachometer	S
MacPherson strut front suspension	S
Independent torsion beam rear axle	S
Front and rear stabilizer bars	S
Rack and pinion steering	S
Power assisted disc brakes front and rear (front vented)	S

THE 1985 VOLKSWAGEN TRANSPORTATION SYSTEM

If the Jetta doesn't meet your particular driving needs, consider one of the other members of the Volkswagen family.

The Golf sets new standards of versatility, performance, roominess and efficiency for hatchbacks.

The Cabriolet combines open air touring with exhilarating performance.

The Scirocco is a true German sports coupe featuring brilliant performance at a practical price.

The Quantum Wagon is a European family wagon offering versatility, precise German engineering and outstanding driver control at an exceptionally affordable price.

The Quantum GL Sedan provides the sophisticated handling and elegant comfort of a German grand touring sedan in the classic European tradition.

The Vanagon combines the roominess and versatility of a full-size passenger van with the comfort, ease of handling and economy of a mini-van.

The Volkswagen Camper offers the camping enthusiast outstanding flexibility, comfort and convenience in a truly unique recreational vehicle.

Whichever you choose, your Volkswagen will be the single smartest purchase you can make to meet your transportation needs.
