A WORD ABOUT UPDATED SERVICE INFORMATION: Volkswagen regularly sends its dealers useful service information about our products. Volkswagen monitors product performance in the field. We then prepare bulletins for servicing our products better and helping to avoid costly repairs. Now you can get these bulletins, too. To get ordering information, see a local Volkswagen dealer.

Volkswagen (United States, Inc.) believes the specifications in this brochure to be correct at time of printing. However, specifications, standard equipment and options are subject to change without notice. Some options may be unavailable when your vehicle is built. Please ask your dealer for advice concerning current availability of options and verify that your vehicle includes the optional equipment you ordered. Tires are supplied by various manufacturers. Tig, Golf, GTI, Jetta, Vanagon and Volkswagen are registered trademarks of Volkswagen AG. Seatbelts save lives. Don't drink and drive.

German engineering. The Volkswagen way.

The Volkswagen Jetta features front wheel drive for increased traction and better directional control.

These words are what set us apart from every other carmaker in the world.

These words explain why our cars look, feel and drive the way they do.

And these words underscore the worth of a Volkswagen. For the Volkswagen "way" is a very personal point of view—its take in designing, engineering and

manufacturing every product we sell.

By employing contemporary German technology, we create a unique, harmonious relationship between car and driver. Our heritage of engineering enables us to produce cars that provide an ergonomically sensitive environment for driver and passenger of enduring design

that offer the unique benefit of German engineering, at prices you can afford.

As we enter into our 40th year of selling Volkswagens in the United States, the 250,000 people in the worldwide Volkswagen organization still share in the same common goal: to provide you with a more gratifying driving and owner-

ship experience. To this end, we will continue to build our cars the Volkswagen way.

To contribute to the rewarding experience of owning a Volkswagen, your new Jetta is protected by a 2-year/24,000-mile limited warranty against defects in materials and workmanship. A 6-year limited warranty is provided against

corrosion and rust perforation.

Our national network of over 800 Volkswagen dealers can supply you with warranty parts and service details. Ask about the Volkswagen-endorsed "MasterGuard" extended service plan at participating dealers, which offers cost-efficient mechanical protection for up to 5 years or 100,000 miles.

**A true German road car
as affordable as a Volkswagen.**

An ignition timing map programmed into the Jetta's electronic control unit provides proper engine timing under varying engine loads and speeds.

The underlying concept of a true German road car is that it must perform all driving tasks equally well. The Jetta passes this driving test admirably. Its handling is responsive and reassuring. It can cruise the Autobahn or interstate for hours on end. And it provides you with a high degree of personal comfort.

The Jetta's overall balance greatly enhances your driving experience. Engine and engineering work in concert to produce exciting performance, while the comfort features are engineered so that they don't intrude upon the driving task at hand. The Jetta is also a road car that inspires confidence. Our engineers carefully consider

your needs as well as your wants and incorporate them into the design. They are acutely aware that you must be in control of this machine, not the other way around. The Jetta is a true German road car, but it is also a Volkswagen. So it not only offers practicality and value, it carries a genuinely affordable price.

**The kind of driving
confidence that inspires
a command performance.**

The Jetta's remarkable driveability is achieved by maintaining a precise balance between power and performance.

Its power emanates from a 1.8 liter Digifant fuel-injected engine coupled to a 5-speed transmission. Jetta's performance is a result of the contemporary automotive technology that is incorporated into its design.

There's a 4-wheel independent suspension to smooth out rough roads. Rack and pinion steering to assure crisp, responsive maneuverability. And power front disc brakes, part of a dual-diagonal braking system, to provide sure, straightline stops. Driving the Jetta inspires confidence because it is engineered to help you be prepared

for just about any driving eventuality. During hard cornering, for example, its patented track-correcting rear axle design helps provide a smoother track while reducing "rear steer." Should one of the front wheels happen to stray off the road onto a soft surface, the negative steering roll radius of the front suspension assists in keeping the car on

line. And to help you combat the vagaries of the road and weather conditions, Jetta's front wheel drive and steel belted radials improve traction and directional control.

The Jetta not only raises the level of your driving enjoyment, it also heightens your sense of control. You are in command of the car and the road. Its experi-

ence-glass area helps provide all-around visibility, so should a difficult driving situation arise, you have a definite edge in meeting the challenge.

The Volkswagen Jetta's comfortable, fully-reclining front bucket seats offer a wide range of tilt and tilt adjustment.

The Volkswagen Jetta offers one of the largest trunks in its class, providing a full 35.6 cu. ft. of cargo space.

Jetta GL features a standard passive restraint seat belt system that encourages you to buckle up for safety whenever you enter the car.

Whether cross town or cross country, you'll never run out of comfort.

The interior of the Jetta is designed to increase your feeling of well-being without diminishing your command of the road. Consider the placement of the instrumentation and vital controls. All are properly positioned so that they can be easily read and activated quickly.

The fully reclining front bucket seats do more than just provide

essential comfort. They also offer firm support during brisk cornering. A ventilation system that minimizes the effect of road speed changes keeps everyone refreshed and alert. And other standard convenience features like a rear window defogger, dual remote controlled mirrors, intermittent wipers and brood glass serve to make your

as distraction-free as possible.

If you prefer even greater comfort, the Jetta GL obdies by adding power steering, velour upholstery and a rear seat center arm rest. Standard equipment also includes a passive restraint seat belt system that encourages you to buckle up by including a shoulder belt for the driver and

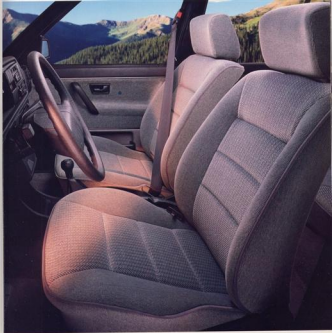

automatically fits into place when the front doors are closed.

The Jetta's spacious interior invites you to share the driving experience with your family and friends. Five adults will find that they have enough head room and leg room to please everyone. And if you have to take a lot of luggage along, the Jetta is most accommodating: its 35.6

cubic feet of cargo space makes its trunk one of the largest in its class.

The interior of the Jetta has been carefully designed to make driving a pleasure and not a chore. Personal comfort is assured. Space is utilized to the maximum. And many standard convenience features make driving less worrisome.

So whether you take a long, grueling trip or simply a quick jaunt into town, the Jetta will keep your mind and body at ease.

Jetta Carat: heightening the pleasures of personal luxury.

Jetta Carat features sporty 14" cast alloy wheels and low profile steel belted radial tires.

The Jetta Carat will appeal to the driver who wants performance combined with an elevated standard of driving comfort. 14" alloy wheels and sparkling metallic paint are just the first clues to its distinctive character.

Inside, you'll relax in fully reclining bucket seats upholstered in velour. They're as supportive

Standard luxury features in the Jetta Carat include an AM/FM stereo cassette radio with illuminated cassette storage box. A leather wrapped steering wheel awaits your grasp.

The Jetta Carat features a standard multi-function computer that displays the time of day, elapsed driving time, distance to next average driving speed, average fuel consumption, engine oil service time and ambient air temperature. A memory recall switch records information and data on trip segments.

as they are comfortable, and are height adjustable for both driver and front passenger. Air conditioning will keep you cool and refreshed. And an AM/FM stereo cassette with six speakers and anti-theft coding will surround you with music. Additional standard convenience features include power windows and door locks, power mirrors and an-

tennis, even rear seat headrests. The ergonomics of the driving environment add reassurance to all this comfort. The instrumentation can be quickly read. A leather wrapped 4-spoke steering wheel is positioned within your grasp. And cruise control makes long trips less tiresome. To keep you informed of vital travel data, a multi-function computer relays

specific driving information such as distance travelled, average driving speed and average fuel consumption.

The real pleasure of the Jetta Carat begins when you experience its power and performance. A 1.8 liter Digifant fuel-injected engine with 5-speed transmission supplies the energy. Contemporary automotive technology

adds the engineering features to increase the performance. An independent sport suspension with front and rear stabilizer bars, power rack and pinion steering and front vented 4-wheel disc brakes let you take those winding roads in stride.

Power and performance to overwhelm a road.

The Jetta GLI 16V is a powerful example of Volkswagen's engineering expertise. To enable it to move from 0 to 60 in just 8.4 seconds, the Jetta GLI 16V utilizes the thrust of a 1.8 liter, 123 horsepower, fuel-injected 16-valve engine coupled with a close-ratio 5-speed transmission. Each cylinder of this dual-overhead cam engine has four valves

instead of two, producing a dramatic increase in energy output. This higher fuel/air mixture translates into breath-taking responsive power.

Matching the Jetta GLI 16V's performance to its power is the task of such contemporary automotive technology as quick-ratio power rack and pinion steering, front-vented 4-wheel

disc brakes, and an independent sport suspension with front and rear stabilizer bars. An optional Anti-lock Brake System (ABS) can provide an added measure of braking control under extreme conditions. ABS automatically pumps your brakes faster than is humanly possible, effectively reducing wheel lock-up. This is the kind of engineering that puts

you in command of the road.

Driving the Jetta GLI 16V is a lesson in precision control. The leather-wrapped steering wheel, strategically positioned instrumentation and a multi-function computer that reports pertinent driving data all help to keep you in charge. And when the driving becomes spirited, world-famous Recaro® sport seats up front,

each with electric height adjustment, provide solid support.

Everything from its drag-reducing front and rear spoilers and roof-mounted antenna, to its 14" alloy wheels and dual outlet exhaust marks the Jetta GLI 16V as a performance car that is equally adept in cross town traffic as it is on the open road.

Standard Features

	Jetta	Jetta GL	Jetta Carat	Jetta GLI 16V
Mechanical				
1.6 liter 152 HP 4-cylinder diesel engine	•			
3.0 liter 300 HP 4-cylinder fuel injected engine (N/A California)	•			
1.8 liter 105 HP 4-cylinder fuel injected engine	•		•	
3.0 liter 123 HP 16 valve 4-cylinder fuel injected engine	•		•	•
5-speed transmission (close-ratio on Carat, GLI 16V)	•		•	•
MacPherson strut front suspension; independent torsion beam axle rear suspension	•		•	•
front and rear stabilizer bars; sport suspension on Carat, GLI 16V	•		•	•
rack and pinion steering (power on GL, Carat, GLI 16V)	•		•	•
Power assisted brakes (front disc/rear drum)	•		•	•
Power assisted 4-wheel disc brakes, front vented	•		•	•
Corcotype halogen headlights	•		•	•
Steel belted radial tires (low profile on Carat, GLI 16V)	•		•	•
Exterior				
Front spoiler (with brake cooling ducts on GLI 16V)	•		•	•
Body color rear decklid spoiler	•		•	•
Wide body side moldings	•		•	•
Black rubber panel moldings; black wheelhouse flares	•		•	•
Dual remote mirrors, RH convex (power on Carat)	•		•	•
Power antenna; roof mounted antenna on GLI 16V	•		•	•
Metallic paint	•		•	•
6ix x 16 cast alloy wheels (hardtop design on GLI 16V)	•		•	•
Interior				
Full instrumentation including speedometer, trip odometer	•		•	•
Digital clock, fuel gauge, water temperature gauge	•		•	•
tachometer, warning chimes and lights	•		•	•
Onboard multi-function computer	•		•	•
Passive restraint system	•		•	•
6-ly reclining upholstered seats (velour on GL, Carat)	•		•	•
Height adjustable driver seat (passenger side also on Carat)	•		•	•
Velour upholstered "Reclac®" seats with electric height adjustment	•		•	•
Rear seat headrests	•		•	•
Leather wrapped 4 spoke steering wheel	•		•	•
Power windows, mirrors and door locks	•		•	•
Air conditioning	•		•	•
Cruise control	•		•	•
AM/FM stereo cassette radio with 6 speakers, additional amplifier power, cassette storage box, anti-theft coding	•		•	•
Steak	•		•	•
Tinted glass	•		•	•
Full out pile carpeting, luggage compartment carpeting on GL, Carat, GLI 16V	•		•	•
Right and left hand vanity mirrors (RH illuminated)	•		•	•
Darker rear armrest (with integrated tray on GL)	•		•	•
Rear window defroster	•		•	•
Door lock with time delay feature	•		•	•

The Volkswagen Jetta's front suspension geometry features negative steering roll radius which acts to "counter steer" the car should you inadvertently stray off the road, creating an unequal force between the front wheels. This brings the car back on line to help maintain directional control.

Jetta's V-shaped independent torsion beam rear axle functions as an integral stabilizer bar to minimize body lean on sharp curves. Asymmetrical track-correcting rear bushings help eliminate "rear steer" during hard cornering, and helps to keep the car on line.

Specifications

Specifications		Jetta
Engine Type (Jetta, GL, Carat)	4-cylinder, in-line, SOHC, fuel injected	
Engine Type (GLI 16V)	4-cylinder, in-line, DOHC, 16-valve, fuel injected	
Displacement	1.8 liter, 103 cu. in.	
Horsepower @ RPM (SAE net)	105 @ 5,400; 123 @ 5,400 (GL, Carat) 123 @ 5,800 (GLI 16V)	
Torque @ RPM	** 107.8 lb. @ 3,400; 110 @ 3,400 (GL, Carat) 130 ft. lbs. @ 4,250 (GLI 16V)	
Front Suspension	Independent MacPherson struts, coil springs, 30mm stabilizer bar, telescopic shock absorbers	
Rear Suspension	Independent torsion beam axle, coil springs, telescopic shock absorbers (20mm stabilizer bar on GL, Carat, GLI 16V)	
Brakes	Dual diagonal circuits with power assist, 9.4" front discs (ventilated on Carat, GLI 16V); 11" rear drums (Jetta, GL), 9.4" solid rear discs on Carat, GLI 16V; self adjusting. Mechanical parking brake.

Option Packages

	P02	P03	P04	P14	P16	P19	P26	P52	P53	P54	P56	P58	P57
4 speaker radio prep	•												
Air conditioning	•												
Sunroof with air deflector													
Power steering													
Water package: windows, mirrors, door locks													
Cruise control													
Forged alloy wheels													
Alloy wheels													

Other available options: Automatic transmission, passive restraints, ABS brakes, AM/FM stereo cassette with 6 speakers, anti-theft coding, cassette storage box (GLI 16V only), AM/FM stereo cassette with 4 speakers, anti-theft coding, California emissions kit (all other packages are available on all models. See your dealer for details.)

Volkswagen offers a complete selection of options and dealer installed accessories to let you personalize your new Jetta to suit your driving needs. The optional equipment pictured above includes a sunroof with air deflector, AM/FM stereo cassette radio with anti-theft coding, cruise control (standard on Jetta Carat), power windows

(part of a power package that includes power windows, door locks and mirrors), automatic transmission (N/A on GLI 16V), and Jetta GL 14" alloy wheels. See your authorized Volkswagen dealer for a complete selection of dealer installed parts and accessories to further enhance your driving fun.
