

**It's never been easier
to put your family
in a Volkswagen.**

Introducing Passat GL. It's the biggest news from Volkswagen in years.

Today's drivers are making bigger demands on their family cars. They want increased room, greater comfort, stronger performance and better value.

Which is why Volkswagen is proud to bring you the all-new

Passat GL Sedan and Wagon. These new European family cars are the biggest ever offered by Volkswagen. And each features the advanced technology needed to lead in the 1990's.

The new Passat's attractive,

aerodynamic lines help define an interior that easily accommodates five adults. In fact, the new Passat offers passenger room and cargo space that's greater than most cars in its price class.

The performance you'd expect from a European sedan, at a price you'd expect from Volkswagen.

Passat GL is more than just a family car—it's a European family car. Its multi-valve, 134 hp fuel-injected engine delivers more horsepower than competitive models from Honda, Toyota and Mazda. And with standard power-assisted rack-

and-pinion steering and front and rear disc brakes, Passat brings you a level of responsiveness that is uniquely European.

Now, before you begin to think all this European comfort and performance may be beyond your family budget, remember,

this is a Volkswagen. So pricing for Passat GL Sedan and Wagon is very attractive. Ask your dealer for complete details.

The all-new Passat. The biggest news from Volkswagen in years is very good news for you and your family.

There's a wagon, too. And it's even bigger.

The Passat GL Sedan offers more interior room than most cars in its price class. More even than so-called "roomy" competitors like Mitsubishi Galant and Acura Legend. And Passat's 14.2 cubic feet of luggage space is

also impressive—exceeding that of Toyota Camry, Mitsubishi Galant and Volvo DL models.

But should your family need even more room, even more versatility, there's the new Passat GL Wagon.

Passat Wagon takes aboard an amazing 34.2 cubic feet of cargo. Fold down one or both sides of the 60/40 split rear seat and you have even greater convenience and carrying capacity.

Bring your family in and try one on for size.

The more your family appreciates room, the more you'll come to value Passat GL Sedan and Wagon.

Passat simply makes better use of space than most of its mid-size competitors. By employing technologies such as

transverse engine mounting and front-wheel drive, Passat adds precious extra inches where you need them most—for your head, shoulders, hips, legs . . . and luggage.

It's exactly this kind of thinking that has earned Passat

the title of "Raumwunder" in the year it has been available in Europe. "Raumwunder" translates to "space utilization miracle."

Discover this "miracle" for yourself. Bring in your family and try one on for size.

Few cars in its price class offer this much space. Or this much comfort.

The new Passat welcomes you with an interior that's larger than most competitors in its price class, yet its many smaller features may impress you the most.

For example, the steering

column is height adjustable while all instruments and controls are optimally positioned. Both the front and rear seats are large, orthopedically designed, and adjustable for individual comfort.

Rear seats fold forward for ready access to the luggage compartment. And in the back, the low lift-over height of the Passat Sedan and large tailgate of the Wagon enable easy loading.

The new Passat GL has room for all these standard features.

Standard: Power steering • Power brakes • Air conditioning • Height adjustable steering column • Height adjustable front seats with adjustable thigh and lumbar support • Sedan 60/40 split rear seat, fold down backrest for trunk access,

adjustable seatback and bottom • Wagon 60/40 split rear seat, fold and tumble forward for flat cargo floor; adjustable seatback • 5-speed manual transmission • Electric automatic shoulder belt system with lap belt
Options: Anti-lock braking

system • Convenience Group: cruise control, power windows, power mirrors, central locking, stereo AM/FM cassette sound system with 6 speakers • Leather/leatherette interior • 4-speed automatic transmission • Forged alloy wheels
