CORRADO SLC

In 1988, automotive history was made when the first Volkswagen Jetta was sold in America. It was an experience that forever led to an entire generation of car buyers. It became a symbol of history, value and reliability.

But Volkswagen brought more than just a new kind of car to America; we introduced an entire philosophy of transportation. Since then, we've designed cars for the way people live and drive. Some wanted sportiness. Others needed plenty of room. Still others required versatility. We met all these demands, Volkswagen style.

We powered the first car and the performance-oriented "jetta rocket." We created a convertible that embodies the essence of open-air driving.

And we produced a true European road car that was affordable. Today, we also offer family-size sedans and wagons, versatile hatchbacks and a technologically advanced sports coupe.

Jetta is designed to fit a particular lifestyle, yet each is a Volkswagen to the core. Efficient. Durable. And fun to drive. In a word, each offers you Volkswagen. The distinctly European driving experience you can appreciate only when you drive a Volkswagen.

We invite you to experience this personal driving philosophy for yourself. Take a Volkswagen Jetta for a test drive. You'll find that it feels good and feels right. And it's a sensation you'll enjoy for as long as you own it.

From the classic Beetle to the Jetta, Volkswagen has always been a leader in the automotive industry.

Available in a variety of colors, the Jetta is a true symbol of reliability, value and fun. And the space, standard features and options.

From all types of driving, road conditions, a Jetta is the car you'll want to drive. It's the car you'll want to drive. It's the car you'll want to drive. It's the car you'll want to drive.

I never really knew what the term "world-class performance" meant until I got behind the wheel of a Corrado SLC. Then it became very clear. The Corrado SLC is powerful and quick, but that's only part of its appeal. The way it handles is amazing. All of a sudden I'm looking for twisting, curving roads. I've never driven a car so agile and sure-footed, on one that gives me such a feeling of confidence and control. I guess it shouldn't be surprising, since Corrado SLC is designed to tackle the Autobahn as well as Europe's mountainous roads. "World-class performance" may sound serious, but what it really means is pure driving pleasure. Volkswagen calls it *Fahrvergnügen*. I never knew what that meant, either. Until I drove the new Corrado SLC.

"When it comes to pure, exhilarated driving pleasure, my Corrado SLC leaves the competition in its wake!"

Corrado SLC is standard four wheel power windows, power windows with driver's side "integrated" door, "integrated" door, "integrated" door, "integrated" door, "integrated" door.

The heart of a true sports coupe is its engine, and the Corrado SLC is no exception. Nestled beneath the hood is a dynamic 2.0 liter 16V six-cylinder that inspired perceptions borned to a new era. 5-speed transmission. Output is prodigious 178 horsepower. Acceleration is silky smooth, and engine response is instantaneous when you need it.

Corrado SLC not only delivers the power you demand, it also provides the driving confidence to go with it.
