

EuroVan camper specifications

ENGINE	
Type	Water-cooled, transverse front-mounted
No. of cylinders	5 cylinders in line
Bore & stroke (mm)	81/95.5
Displacement (cc)	2459
SAE net HP @ rpm	110 @ 4500
SAE net torque ft-lb @ rpm	190 @ 2200
Compression ratio	8.5:1
Fuel system	Diesel
Fuel requirement	Regular unleaded
Fuel capacity	80 L
Oil capacity (inc. filter)	5 L (5.5 L)
Battery	12V, 63 Ah
Alternator	14V, 90 A
Type of ignition	Digital Electronic with knock sensor

DRIVE TRAIN	
Type	Front-wheel drive
Clutch	Hydraulic actuation, single plate, dry
Manual transmission	Fully synchronized 5-speed
Automatic transmission	4-speed automatic with torque converter
Transmission gear ratios	Manual - 5 Automatic - 4
1st	3.778 2.714
2nd	2.118 1.581
3rd	1.429 1.0
4th	1.029 0.679
5th	0.837 -
Reverse	3.8 2.111
Final Drive	4.811 4.933

BODY	
Type	Aerodynamic unitary all-steel body
Front suspension	Independent suspension on double wishbones with longitudinal torsion bars and telescopic shock absorbers
Rear suspension	Independent suspension with diagonal trailing arms, miniblock coil springs and telescopic shock absorbers
Braking system	Hydraulic dual circuit, front disc and rear (drum) brake servo pressure and load dependent brake pressure-reducer
Parking brake	Mechanical effective on rear wheels
Rim size	6J x 15
Tire type/code	205/65 SR 15
Steering system	Power-assisted rack and pinion
Turning circle	11.7 m (ICV); 12.9 (RV)

DIMENSIONS (mm)			
Wheelbase	2020 (ICV); 2320 (RV)	Overall height (EuroVan CV undated)	1970
Track front	1557	Overall height (EuroVan RV undated)	2070
Track rear	1557	Ground clearance (laden)	180
Overall length	4655 (ICV); 5140 (RV)	Curb weight (EuroVan CV)	2140
Overall width	1840	Curb weight (EuroVan RV)	2290

FUEL CONSUMPTION	
City L/100 km	N/A
Highway L/100 km	N/A

EuroVan camper

EuroVan CV

Make yourself at home.

At Volkswagen, we've always preferred that our customers feel like a part of the family. And we couldn't think of a better way to make you feel at home than by introducing two versatile camper models

of our brand new EuroVan. Available in two versions - the standard wheelbase CV and the extended wheelbase RV - the EuroVan camper is truly unique. Unlike any other factory-built vehicle on the road today,

it is capable of fulfilling the dual roles of camper and mini-van; being as useful for daily errands as it is for annual vacations.

In fact, this front-engined, front-wheel-drive example of German engineering is

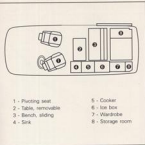

already Europe's number one choice in recreational camping vehicles.

With its all-new independent suspension system, excellent visibility and ergonomic design, the Westfalia-built EuroVan

camper offers the smooth ride and driveability of our internationally successful road sedans. No small consideration when one is contemplating a trek across this vast country of ours.

But whether your excursion

take you near or far, the EuroVan camper is a traveller's dream. Packed with numerous amenities (but not so many there's no room for you to pack), it offers the comforts of home, away from home.

Both pages: EuroVan CV interior.

Rough it with dignity.

Every exploration of the great outdoors invariably ends with a retreat indoors. And it is certainly no tale of woe if those indoors are equally as pleasing. The EuroVan camper's exceptional use of space and ergonomic design

includes all the elements that make a get-away everything it should be.

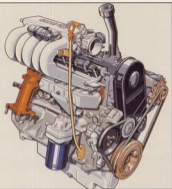

Features like 1.4 cubic metres of cargo space and sleeping accommodations for two adults and two children in the EuroVan CV or four adults in the EuroVan

RV are quite phenomenal when you consider EuroVan campers are equipped with swivelling front seats, a stove, a fridge and plenty of storage compartments. And yes, we even throw in the kitchen sink.

Over head, the pop-up

roof goes up in a flash, providing sleeping accommodation for the kids. In addition, the folding rear bench seat converts to a double bed. Mosquito nets surround both sliding windows for extra sleeping comfort, and all windows

feature privacy curtains - a definite plus for those who take the term "getting back to nature" literally.

Engineered for performance.

For those who believe getting there is half the fun, a bit more on the EuroVan's technical side. Power is supplied by a 110 hp 2.5 L 5-cylinder engine with digital fuel injection system. The power-assisted rack and pinion steering boasts a

turning circle of just 12.9 metres. And coupled with the all-new independent suspension system and power-assisted front disc brakes, it provides the superb handling and control you've come to expect from German engineering.

A myriad of other features including ABS brakes (optional), halogen head-lights and intermittent wipers front and rear, round out a well-rounded vehicle.

Test drive a EuroVan today. You'll be one happy camper.

Note: For detailed specifications, please see your Volkswagen dealer.

Volkswagen warranty protection.

Volkswagen EuroVan is the product of the latest technological innovations, solid engineering and superb craftsmanship. And because Volkswagen believes in what they build, they back it with a 3-year or 60,000 km (whichever comes first) bumper-to-bumper warranty. Ask your Volkswagen dealer for full details.

6-year corrosion protection.

Your new EuroVan is covered by a 6-year corrosion perforation warranty no matter how far you drive. This warranty covers any repair or replacement of body sheet metal parts that have become perforated by rust. Repairs under this warranty are made free of charge. Your Volkswagen dealer will repair any defective part or replace it with a new genuine Volkswagen part. Because your EuroVan is corrosion-protected at the factory, there is no need to purchase additional rustproofing. You may not be thinking 6 years ahead, but it's good to know Volkswagen is.
