

Drive your new Golf with confidence. It's built to withstand the challenges of the road, and designed to enhance the level of your driving satisfaction for as long as you own it. Our confidence in our products has led us to provide a Protection Plan that's as simple and straightforward as a Volkswagen truck.

Every Golf is protected by a comprehensive 3-year/30,000-mile powertrain warranty, a 5-year/unlimited-mileage warranty against corrosion and rust perforation, and a 2-year/24,000-mile bumper-to-bumper warranty that covers virtually all components against defects in materials and workmanship, including light bulbs, adjustments, even windshield wiper blades. See your authorized Volkswagen dealer for details of these limited warranties.

**3-YEAR/30,000-MILE POWERTRAIN WARRANTY:** Volkswagen warrants, under certain conditions, the engine, transmission, and drive shafts for 3 years or 30,000 miles, whichever comes first. This warranty covers defects in materials and workmanship. It does not cover wear and tear, or damage caused by misuse, accidents, or other causes. See your authorized Volkswagen dealer for details. **5-YEAR/UNLIMITED-MILEAGE WARRANTY AGAINST CORROSION AND RUST PERFORATION:** Volkswagen warrants, under certain conditions, the body panels of your Golf for 5 years or unlimited mileage, whichever comes first. This warranty covers defects in materials and workmanship. It does not cover damage caused by misuse, accidents, or other causes. See your authorized Volkswagen dealer for details. **2-YEAR/24,000-MILE BUMPER-TO-BUMPER WARRANTY:** Volkswagen warrants, under certain conditions, virtually all components of your Golf for 2 years or 24,000 miles, whichever comes first. This warranty covers defects in materials and workmanship. It does not cover wear and tear, or damage caused by misuse, accidents, or other causes. See your authorized Volkswagen dealer for details. **SEE YOUR AUTHORIZED VOLKSWAGEN DEALER FOR DETAILS OF THESE LIMITED WARRANTIES.**

1992

GOLF

In 1949, automotive history was made when the first Volkswagen Beetle was introduced. It was an experiment, but proved our need to an entire generation of car buyers. It became a symbol of lasting value and reliability.

But Volkswagen brought more than just a new kind of car to America; we introduced an entire philosophy of transportation. Some chose us for the way people live and drive. Some wanted sports cars. Others needed plenty of room. All others required versatility. We met all these demands, Volkswagen style.

We pioneered the first car and the performance-oriented "pocket rocket." We created a convertible that combines the essence of open air driving

and our production line European road car that was affordable. Today, we also offer family size sedans and wagons, versatile hatchbacks and a technologically advanced sports coupe.

Each is designed to fit a particular lifestyle, yet each is a Volkswagen to the core. Efficient. Durable. And fun to drive. In a word, each offers you Volkswagen. The distinctly European driving experience you can appreciate only when you drive a Volkswagen.

We invite you to experience the personal driving philosophy for yourself. Take a Volkswagen out for a test drive. You'll find that it feels good and feels right. And it's a sensation you'll enjoy for as long as you own it.

I expect a lot from my car. During the week I use it to take the kids to school, to go shopping and to run errands. On weekends we visit our family and friends, or simply take a ride. So for me, the Golf is ideal all-around transportation. It does all these things so well. The Golf has comfortable seating for five adults. Plus loads of cargo space—space that I can expand by folding down the rear seat. And it's not only versatile, it's a pleasure to drive. I can maneuver deftly in and out of traffic. Take passing situations in stride. And it's great fun on winding country roads. Golf's performance engineering delivers the kind of nimble handling I never expected in such a practical car. Now I know what they mean by Fahrvergnügen.

"With a young family you have to be practical. And the most versatile car I know is a Volkswagen Golf."

Standard on Golf are a fully automatic 4-speed power window and door locks with remote locking and anti-rattle.

Golf is powered by a 1.8 liter fuel-injected engine that's teamed with a 5 speed manual transmission. An electronic control system ensures proper timing and smooth, steady air flow throughout the engine's entire operating range.

When you're in the city, Golf is spirited enough to maneuver through traffic quickly and easily. On the highway, it's powerful enough to overtake steadily for hours on end. Its performance is designed to be as versatile as the rest of the car.

In whatever the road or driving conditions, Golf is ready to meet the challenge.

A standard rear window wiper/washer and light are  
available as an optional extra.

Golf is not just designed to be  
practical and versatile, it's also  
meant to be fun to drive.

To achieve this, Golf is equipped  
with a wide array of cutting-  
edge technology to enhance its  
performance and control.

Golf's patented front connecting  
rod-beam rear suspension,  
for example, helps eliminate rear  
wheel steering effort during hard  
cornering. It also functions as an  
integral stabilizer to provide  
a smoother, more controlled ride.

Golf is unique for a car in  
this class. It doesn't make you  
sacrifice performance for  
practicality.

As soon as you get behind the wheel of a GOLF, the relationship between the car and driver is evident. Its ergonomics and driving environment get you ready to control.

The instrumentation is arranged conveniently and logically within your line of sight. A tachometer lets you coordinate your shifting to get maximum engine response in each gear. Analog gauges and side-illuminated console readings. And vital controls can be easily reached and adjusted.

Everything is in its proper place and there are no distractions. GOLF's uniquely adjustable front bucket seats let you assume your most comfortable driving position. Near the steering wheel, shift lever and brake pedal have just the right weight and feel, so you enjoy a greater sense of confidence and control.

Communication between you and the car is complete. GOLF is ready to respond to your driving commands as quickly as you utter them.

GOLF's uniquely adjustable front bucket seats let you assume your most comfortable driving position. Near the steering wheel, shift lever and brake pedal have just the right weight and feel, so you enjoy a greater sense of confidence and control.

GOLF's analog instrumentation, switches and controls are designed to be easily readable in night.

Odyssey is extremely generous in its allotment of space for both people and cargo. There's seating for five adults, with plenty of headroom, legroom and shoulder room for all.

Odyssey's fully reclining front bucket seats are equipped with adjustable head restraints. The seats are fully contoured to keep you in place and provide ample thigh and lumbar support during spirited driving or on long distance trips. Its folding rear seat dramatically enlarges your carrying capacity from 33.9 cubic feet to nearly 63 cubic feet, while its large

hatch door and low lip make loading and unloading easy. Outside, dual remote-controlled mirrors, entertainment system and rear wiper/washer improve driving security. Inside, amenities such as an illuminated glove box, eight touch-sensory mirrors and map pockets in the front doors add to your driving pleasure.

With the best of thoughtful new car technology, Odyssey shows how comfort and room in space.

Odyssey's seat system includes unique features to provide both the maximum safety for the driver when the driver is seated. Headed restraints are included for added security.

The comfort of Odyssey is augmented with reclining front bucket seats and adjustable head restraints. For added leg support, the standard "rally seat" design of both front seats, combined with a knee-bar support under the seat, helps you relax. Outside, dual remote-controlled mirrors and wiper/washer improve driving security. Inside, amenities such as an illuminated glove box, eight touch-sensory mirrors and map pockets in the front doors add to your driving pleasure.

Golf can do so many things well because its versatility is an integral part of its design. So are its performance, comfort and security.

Golf's passenger compartment is constructed as a sturdy safety cell with front and rear crush zones for an extra measure of security. Engineering features like its patented lock connecting rear axle and a self-stabilizing steering system help improve handling and driver control. Antilock Braking System (ABS) technology provides outstanding weather finesse.

Golf is designed to meet the needs of the driver as well as the demands of the road. This dedication to engineering excellence not only improves comfort, it makes your Golf a thorough pleasure to drive.

Volkswagen's commitment to reliability and durability helps ensure that you'll continue to enjoy driving your Golf for many years to come.

Golf's independent rear suspension system helps absorb bumps and road noise, while the self-steering front suspension system helps improve handling and driver control. Both systems are designed to provide a smooth, comfortable ride.

Golf is equipped with a 1.4 liter fuel injected 4-cylinder engine that produces 100 horse power at 5400 rpm. This highly refined powerplant provides smooth, reliable performance under varying driving conditions. Its Digifant™ electronic management system includes ignition, fuel distribution and idle speed control for efficient engine response.

For a more comfortable ride, Golf's independent rear suspension is constructed with coil springs, shock absorbers and a self-steering front suspension system.
