THE BEAUTY OF A VOLKSWAGEN — INSIDE AND OUT

At Volkswagen, we like to "finish" what we start. That's why we focus so much attention on interior and exterior finishes as we do on function.

Our interior trims provide true comfort in a subtle, refined atmosphere. And, a variety of smart and contemporary exterior finishes are available to reflect your individual personality.

Yet, there's more to our exterior finishes than you can see on the surface. Our 26-step paint process includes zinc-rich primers which help retain the original finish for many years. We are also careful to use only paints that are free of toxic lead and cadmium, reflecting our concern for the environment.

And, with our unprecedented 6-year, unlimited mileage Corrosion Perforation warranty, you can be confident your Volkswagen will maintain its appearance for years to come.

Volkswagen — The most loved car in the world.
