PERFORMANCE

ALL-WHEEL CONTROL

Mitsubishi's revolutionary electronically controlled All-Wheel Control (AWC) system continually monitors the road. By intelligently transferring power to the wheels with the most traction, the Outlander Sport provides improved handling and performance. Through rain, snow and gravel, you can rely on All-Wheel Control to help keep your adventure on the right track.

UNDER THE HOOD

The Outlander Sport offers two Mitsubishi Innovative Valve-timing Electronic Control (MIVEC) engines. The MIVEC 2.0-liter boasts a combination of 148 horsepower and 30 mpg highway,¹ while the GT model offers a 2.4-liter MIVEC engine that produces 168 horsepower at 6,000 rpm and 167 lb.-ft. of torque at 4,100 rpm.

SAFETY

LED LIGHTING

The Outlander Sport's redesigned, sleek daytime running LED headlights and available LED fog lights offer better visibility when inclement weather descends. In fog, rain or snow, navigate safely with a clear view of the road ahead.

FORWARD COLLISION MITIGATION WITH PEDESTRIAN DETECTION

The Forward Collision Mitigation with Pedestrian Detection (FCM) system utilizes radar and camera technology to determine if a frontal collision with a vehicle or pedestrian is imminent. If so, it warns the driver with audible and visual signals, and automatically applies moderate to emergency braking to reduce the severity of the collision and, if possible, prevent the collision.⁴

LANE DEPARTURE WARNING

The Lane Departure Warning (LDW) system uses an onboard camera to monitor lane position in front of the vehicle and alert the driver audibly and visually if it detects the vehicle leaving its lane unintentionally.⁶

BLIND SPOT WARNING AND LANE CHANGE ASSIST

Together, the Blind Spot Warning (BSW) and Lane Change Assist (LCA) systems alert you when a vehicle is in or approaching your blind spot. When a vehicle is traveling in the detection areas, a warning light will illuminate in the corresponding side mirror. If your turn signal is on, the warning light on the corresponding mirror will blink and the system will beep three times to alert you that it is unsafe to change lanes.⁵

REAR CROSS TRAFFIC ALERT

The Rear Cross Traffic Alert (RCTA) system detects a vehicle approaching from either side while you're backing up. The warning lights on both side mirrors will blink, a buzzer will sound to alert you, and a warning message will appear on the information screen.⁵

TECHNOLOGY

FAST-KEY ENTRY WITH PUSH START BUTTON

Available FAST-Key (Free-hand Advanced Security Transmitter) makes vehicle entry easy. To unlock the doors, simply press the button on either front door or the tailgate. Starting the engine is also push-button easy with the keys tucked safely away in a pocket or purse.

SMARTPHONE-LINK DISPLAY AUDIO

The new 8-inch HD Smartphone-link Display Audio system is compatible with Apple CarPlay® and Android Auto™. CarPlay® is the smarter, safer way to use your iPhone® to access Apple Music® and Maps, send messages and make calls with Siri® or the car's touchscreen. Utilize Android Auto™ by pressing the Push To Talk button, allowing you to talk to Google and access all the most commonly used features on the Android™ platform, such as Google Play Music, Google Maps and Hangouts.^{2,3}
