

# INTRODUCTION

Phantom Series II is the latest addition to the Rolls-Royce Motor Cars product range. Designed without compromise, the latest expression of the Phantom family has once again redefined the luxury car market.

Joining Ghost and Ghost Extended Wheelbase, each model has a personality of its own.

But all share the same powerful presence you expect from Rolls-Royce, and are the result of our desire to build the best cars in the world, in an ever-changing world.

make it better." The result: Phantom Series II.

"Take the best that exists and" Spurred on by the inspiring words of our founder, we set ourselves a challenge: "How can we take what many consider to be the best cars in the world, and make them even better?"

#### Sir Henry Royce.

Each one features new design details, enhanced engineering and state-of-the-art infotainment systems.

By embracing technology and blending it with the traditional skills of our master craftspeople, we continue to produce iconic motor cars that are perfectly in tune with our times.

world stands still."

# PHANTOM

"When a Phantom Wherever you go in the latest drives by, the never go unnoticed.

> Instantly noticeable are the Ian Cameron, elegant Adaptive LED Headlamps, Chief Designer. which feature a continuously lit bar running through their centre. As are the forged alloy wheels with a new fully-polished finish.

> > While the new eight-speed gearbox, coupled to the 6.75-litre V12 engine, offers acceleration so smooth it feels as if you have an infinite first gear.

With its powerful stance, classic proportions and physical presence Phantom is the very essence of the Phantom family.

One look is all it takes to confirm that this is a car of immense beauty and authority. It's no wonder then, that when a Phantom drives by, heads still turn.

### PHANTOM INTERIOR

"No effort has been The clear and uncluttered dashboard The rear coach doors are an spared to make technology you now have at your Phantom effortless fingertips with Phantom Series II.

> to drive." Only those controls required for Helmut Riedl, Additional functions such as the Director of Engineering. new satellite navigation and infotainment system with its new 8.8 inch Control Centre Display, remain hidden until required.

facia belies the amount of the latest extraordinary feat of engineering. Together with the virtually flat floor, they enable you to enter and exit the rear compartment with grace and ease.

> Once settled into one of the seats, which feature a new contemporary three flute design, you can listen to your favourite CD on the LOGIC7 audio system, which surrounds you with some of the most acoustically perfect sound you will hear outside of a concert hall.

#### GHOST BESPOKE

Programme you that's as individual as you are."

Manager, Bespoke Sales.

"With the With the Bespoke Programme, you can complement the Ghost Bespoke contemporary exterior and interior styling of your car with many personal touches and can create a car embellishments that showcase the extraordinary skills of the craftspeople at Goodwood.

For the exterior, you can choose Thomas G. Jefferson, from an extended palette of stunning paint colours. Then, should you wish, you could add a set of single or twin coachlines. Each one is painted by hand using a special brush made from ox and squirrel hair, and takes around three hours to apply.

> Our meticulous approach to detail also extends inside the car.

The additional range of veneers can be enhanced with stainless steel pinstripes. Or you could have the Spirit of Ecstasy logo or Rolls-Royce monogram inlaid by hand into the veneered door cappings.

Not only can you choose from a wider range of leather colours and combinations to furnish and trim the interior, it can also be finished with seat piping and contrast stitching. Or you can create your own colour scheme using a palette of different leather colours, which can be applied in any combination you desire. You can also have the Rolls-Royce monogram or your initials embroidered into the headrests.

## THE HOME OF ROLLS-ROYCE

"The intention was to Goodwood is the modern home of Rolls-Royce Motor Cars. Set in create a finely crafted, Sir Nicholas Grimshaw, our modern day home embodies our ethos contemporary of bringing modern technology and traditional skills together.

building that works Here the Ghost family and the Phantom family are hand-built under in harmony with the same roof – one of the largest single-span 'living roofs' in Europe. Covered with thousands of sedum plants, it changes colour with the its natural setting." seasons and helps our building blend seamlessly with the surrounding countryside. As do the cedar cladding louvres, which automatically Sir Nicholas Grimshaw, adjust to shield the glare of the sun.

Architect.

Thanks to the extensive use of glass in the building's construction, the workshops are flooded with natural light, which creates the perfect environment for our craftspeople to hone their skills and transform the finest natural materials into the finest cars in the world.

### PRODUCTION

 "A Rolls-Royce feels as if somebody
made this car with skilled and caring hands just for you."
Every Rolls-Royce is built each car passes through to its owner. These belor at our Goodwood plant.
In our paint shop, it takes so clear lacquer to create the demand. Only after it has

> Jörg Bause, Manufacturing Director.

"A Rolls-Royce feels as if somebody made this car with

skilled and caring ands just for you." Jörg Bause, In our paint shop, it takes seven days and five coats of paint and high gloss clear lacquer to create the flawless finish our customers expect and we demand. Only after it has been meticulously polished by hand for over five hours is it allowed to rejoin the assembly line.

> In the meantime, our wood craftspeople will have spent up to a month shaping, sanding, lacquering and hand-polishing the separate wood parts that go into each car. In Phantom, the veneers are book-matched by eye to create a symmetrical mirror image of the grain through the centre of the dashboard.

### PRODUCTION

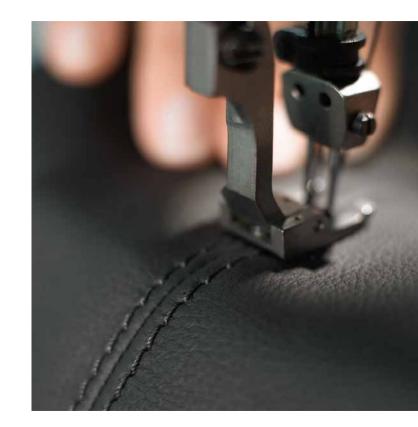

"We put the car through its paces" Inside the leathershop, the upholstery for the interior gradually takes shape. As even the slightest imperfection has no place in a Rolls-Royce, we only use A-grade bull leather. This ensures the upholstery has no and stress-test every unsightly scars or stretch marks.

aspect to ensure The hides are then drum-dyed, rather than painted, so that the colour

David Terry,

that it is perfect." permeates right through the leather. This process also imparts a natural suppleness to the leather and means it will neither squeak nor crack. Test and Finishing. Before a Rolls-Royce is deemed ready to leave Goodwood, it must

pass a series of stringent quality tests to guarantee that it is perfect. Only when we are 100% satisfied will it be handed over to its owner.

# ROLLS-ROYCE HERITAGE

"Strive for perfection Charles Rolls and Henry Royce met for the first time on 4 May 1904 in everything you do." over lunch in the Midland Hotel, Manchester. On that day, they agreed to start producing and selling cars under the name Rolls-Royce.

Sir Henry Royce.

Within three years, they launched The Silver Ghost – a car of unprecedented refinement and reliability. This was demonstrated when it was driven virtually non-stop between London and Glasgow 27 times – a staggering 14,371 miles. It led a motoring journalist to describe Rolls-Royce as producing 'the best car in the world'. A tradition we are proud to continue with Ghost and Phantom.

Indeed, we are still driven by Sir Henry Royce's inspiring words. They encourage our designers to challenge automotive conventions and produce ideas others would consider impossible. They challenge our engineers to find innovative solutions to make them possible. And spur our craftspeople to painstakingly turn them into the finished product.

It's how we've always made our cars, and it's how we always will, which is ultimately what makes a Rolls-Royce a Rolls-Royce.

#### EXPERIMENTAL CARS

explores what

"A new EX model Throughout our history, we have used experimental cars to develop new ideas and technologies that could shape the future of the marque.

> might be." EX models are not concept cars. Each one is built to be a fully functioning vehicle in its own right, and builds on a legacy which began in 1919 with lan Cameron, 1EX. And while they are not designed to go directly into production, many Chief Designer. of the ideas they inspire do.

> > Indeed, Phantom Drophead Coupé, Phantom Coupé and Ghost all started life as fully-engineered EX cars - 100EX, 101EX and 200EX, respectively.

> > With our latest EX model, 102EX, we created the world's first electric vehicle in the ultra-luxury segment. It was designed as a working test-bed to see whether a battery powered engine could deliver an authentic Rolls-Royce experience.

> > By exploring bold new technologies through living, breathing EX models we can ensure that Rolls-Royce remains at the forefront of automotive design and engineering.
