2010
ESCALADE

“GOOD ENOUGH” IS
NEVER GOOD ENOUGH.

At Cadillac, we design and engineer our vehicles to one standard and one standard only: excellence. Case in point: the Escalade family of full-size luxury SUVs. Few vehicles of any type generate such powerful feelings of desire. Escalade stands for A-list style. Thrilling yet effortless performance. Advanced luxury. Technology that's on the leading edge of the industry. And for those of you who expect and demand the best of the best, Cadillac is taking the Escalade concept to new heights in 2010 with Escalade Hybrid Platinum Edition. With the fuel efficiency of a high-tech Two-Mode Hybrid drive system combined with the most luxurious, most comprehensively equipped cabin ever found in an Escalade, it redefines what a luxury SUV can be. Escalade for 2010. You never settle. Neither do we.

Cadillac

STAR POWER.

Why is it that whenever you see celebrities, spotlights and red carpets, there's so often an Escalade in the shot? The answers are many, but style definitely tops the list. With its powerful lines and confident stance, your Escalade will turn heads wherever you go. Artfully framed by jewel-like Xenon headlights, the signature Cadillac grille goes beyond bold all the way to audacious. A steeply raked windshield signals impressive performance capability. Layer upon layer of chrome gleams from roof to road, including available 22-inch chromed aluminum wheels. Escalade looks stunning in closeup, too, with precision-fitted body panels that demonstrate exquisite quality, improve aerodynamics and reduce wind noise in the cabin.

Cadillac

ESCALADE HYBRID:
EFFICIENCY WITHOUT COMPROMISE.

The only hybrid-powered full-size luxury SUV you can buy, Escalade Hybrid is a revolutionary step forward for the entire segment. No other vehicle combines style, space, performance, luxury, fuel efficiency and reduced emissions quite like it. This is a vehicle that can seat as many as eight occupants in sumptuous comfort and tow up to

2540 kilograms. Yet in city driving its fuel efficiency represents a remarkable 32 percent* improvement over its non-hybrid stablemate. Escalade Hybrid. Say good-bye to compromise, and hello to a whole new world of Cadillac technology.

*Based on comparison of Escalade AWD with Vortec 6.2L V8 engine and Escalade Hybrid 4WD with Vortec 6.0L V8 engine. Your actual fuel consumption may vary.

Cadillac

BREAKTHROUGH ENGINEERING.

The first hybrid vehicle sophisticated enough to wear the Cadillac wreath and crest, Escalade Hybrid represents a remarkable technological achievement. Its powertrain includes a 332-horsepower Vortec 6.0-litre V8 engine with Late Intake Valve Closing (LIVC), a 300-volt nickel-metal hydride Energy Storage System (ESS) and an advanced Electronically Variable Transmission (EVT). Not only is this powertrain capable of powering Escalade Hybrid at low speeds on electricity alone, it maximizes efficiency at higher speeds by allowing the gasoline engine to operate for long periods in fuel-saving four-cylinder mode. There's also a regenerative braking system that captures the energy produced in braking so it can be used later to help re-accelerate the vehicle. Even Escalade Hybrid's electric power steering system helps reduce fuel consumption. It eliminates the energy-draining belts and hydraulic fluids normally found in conventional steering systems.

FIG. 1: AUTO STOP

While at a stop, Escalade Hybrid's engine shuts off to conserve fuel, then seamlessly restarts, if required, when you accelerate.

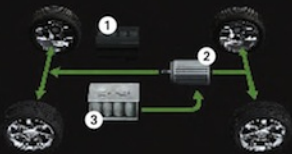

FIG. 2: ELECTRIC POWER

While driving at low speeds or in stop-and-go traffic, Escalade Hybrid may operate in zero-emission full-electric mode. It also runs solely on electric power any time the transmission is in "Reverse."

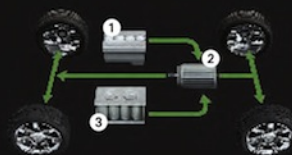

FIG. 3: HYBRID POWER

As power demands increase, the electric motors and engine may operate simultaneously to provide added performance. The additional torque provided by the electric motors also allows earlier engagement of the Active Fuel Management[®] system which deactivates 4 of the engine's cylinders, giving you even better fuel efficiency.

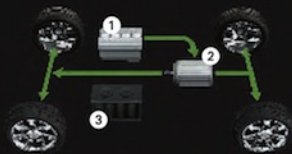

FIG. 4: ENGINE POWER

When hauling heavy loads at higher speeds, engine-only power can actually be more efficient than operating in gasoline-electric hybrid mode. When such a situation arises, Escalade Hybrid's electronic Hybrid Optimizing System can disengage the electric motors and power the vehicle exclusively with the gasoline engine.

HYBRID

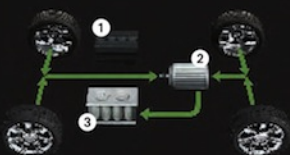

FIG. 5: REGENERATIVE BRAKING

A regenerative braking system supplements Escalade Hybrid's conventional hydraulic braking system. It captures some of the energy normally lost during braking and coasting and returns it to the 300-volt nickel-metal hydride Energy Storage System for future use.

Cadillac

ESCALADE: THE ICON OF COOL.

The full-size luxury SUV that started it all, Escalade takes visual drama to previously untold heights with muscular lines and bold details. Escalade also packs as much substance as it does style. Think outstanding performance, refined road manners and a controlled, comfortable ride. On the inside, Escalade is loaded with first-class amenities, including

heated and cooled front seats and a finely-tuned Bose® 5.1 Cabin Surround® sound system. There's also an available Ultra Luxury Collection Package that takes the Escalade experience to an even more extraordinary level with a heated steering wheel, a power sunroof, Magnetic Ride Control® suspension and much more. Escalade. Indulge yourself in style.

Cadillac

ESV: LARGE AS LIFE.

The largest and most spacious vehicle in the Cadillac portfolio, Escalade ESV combines a compelling presence with outstanding passenger room and the most cargo capacity in the luxury SUV class.* Escalade ESV rides on a wheelbase that's 356 mm longer than Escalade. The result is a vehicle that seats up to eight people and still has space behind the third-row

seat to accommodate up to 1297 litres of luggage, shopping bags, golf clubs or whatever you wish. Escalade ESV passengers ride in luxurious comfort, too. There's genuine stretch-out legroom for the occupants of both rear seating rows, and the extended wheelbase and advanced suspension geometry work together to produce a ride that's nothing less than sublime.

*Based on 2009 GM Large Luxury SUV segment and latest available information at time of printing.

Cadillac

EXT: PART SUV. PART PICKUP. ALL ESCALADE.

To the distinctive style, state-of-the-art technology, tremendous power and sheer luxury of Escalade, EXT adds a level of versatility that no other vehicle in the class can match. One minute, Escalade EXT is a five-passenger luxury SUV with a vast, enclosed storage compartment. The next, with the innovative Midgate™ lowered, the rear seats folded and the

hard tonneau cover removed, it's a sumptuously equipped two-passenger pickup with an open-air cargo bed intelligently designed for two-tier loading. Best of all, the transformation from one mode to another takes place in seconds and no tools are required. Put it all together and you have a vehicle that combines luxury and capability unlike anything else.

Cadillac

SURROUND YOURSELF WITH LUXURY.

In a turbulent, unpredictable world, the Escalade cabin is a welcoming oasis equipped for uncompromising comfort. The supportive front bucket seats are trimmed in supple leathers and finished with double-stitched French seams. They also offer integrated heaters and the extraordinary convenience of power 14-way adjustments. Escalade also provides first-class

accommodations for your second-row passengers, with heated leather-trimmed second-row bucket seats* featuring a relaxed seatback angle for a greater sense of individual passenger comfort. Even the tri-zone climate control system is designed for individualized comfort. It allows the driver and front passenger to select separate settings that differ by up to 17°C.

*Escalade and Escalade ESV only.

Cadillac

AESTHETICS AND ERGONOMICS,
SEAMLESSLY COMBINED.

On entering Escalade's supremely comfortable driver's seat, your first impression is one of sophisticated forms highlighted by clever accents. In short, high style. Allow us to point out, though, that this environment is also extremely functional. Those stylish, chrome-trimmed analogue gauges, for instance, are continuously backlit by white LEDs to help you read them in an instant, even in varying light conditions. For another example, consider Escalade's beautiful leather-wrapped steering wheel with genuine wood accents. It includes a power tilt adjustment with memory, to help you find and store precisely the right driving position, along with switches that allow you to control a range of secondary functions without ever taking your eyes off the road. For an even higher level of comfort on cold winter mornings, a heated steering wheel is also available.

Cadillac

50/50 THIRD-ROW DIVIDED BENCH SEAT

On Escalade and Escalade ESV, the standard 3-passenger 50/50 split third-row bench seat sections can be folded or tilted forward. The seat is also designed to be easily removed when necessary.

POWER RELEASE FOLD-AND-TUMBLE SEATS

The power release fold-and-tumble system allows you to tuck the second-row seats neatly out of the way with just the touch of a button. It's included on Escalade and Escalade ESV models when either the Platinum Edition or the Ultra Luxury Collection Package is specified.

DO IT ALL. DO IT IN STYLE.

When you drive an Escalade, the thoughtful design of the highly reconfigurable interior makes it easy to accomplish tasks that might otherwise be difficult, or even impossible, in other vehicles. Escalade and Escalade ESV's standard 50/50 divided three-passenger third-row seat flips and folds forward when you require more cargo space and can be removed entirely when necessary. The second-row seats also flip and fold with the touch of a single lever to make room for bulky items. For even more convenience, there's an available power release fold-and-tumble system. It allows you to fold the second-row seats forward at the touch of a button without ever leaving the comfort of your Escalade's driver's seat.

Cadillac

NEW DIMENSIONS IN ON-BOARD ENTERTAINMENT.

Extensive sound-deadening measures virtually eliminate road and wind noise in the Escalade cabin. As a result, Escalade is both the perfect place to escape the uproar of the outside world and the ideal listening environment for your favourite music. To exploit this opportunity to the fullest, every Escalade features a 6-disc CD player complemented by the stunning ten-speaker Bose 5.1 Cabin Surround sound system. It provides six distinct channels of concert-quality sound, and the system

BOSE 5.1 SURROUND SOUND

The standard Bose 5.1 Cabin Surround sound system includes no fewer than 10 speakers (8 speakers on EXT), each one carefully placed to create the kind of listening experience usually reserved for cinemas and high-end home theatres.

REAR DVD ENTERTAINMENT SYSTEM

With the available rear-seat entertainment system, your rear passengers can watch their favourite DVDs on a flip-down overhead 203 mm LCD screen.

XM SATELLITE RADIO™

Your listening preferences are very personal. XM Satellite Radio gives you access to the largest playlist on the planet and the most commercial-free music in digital-quality sound. That's on top of news, talk, comedy and sports channels - including more than 1000 NHL games. It all adds up to 130 channels to choose from, coast to coast. Why offer so much choice? XM Satellite Radio has to appeal to a wide range of tastes, with more than 9 million subscribers. And it's included on all Escalade models.* Ask your dealer for more information.

*Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period.

also includes Bose's remarkable AudioPilot® noise compensation technology. Should you so desire, you can supplement this system with an available DVD entertainment system that's just the thing for keeping rear passengers content on long journeys. And while the exceptional sound quality of your Escalade's audio system may make it easy for you to get lost in the music, its standard voice-activated DVD Navigation System will always be there to help you find your way to your destination.

Cadillac

ESCALADE PLATINUM EDITION:
BEYOND YOUR WILDEST EXPECTATIONS.

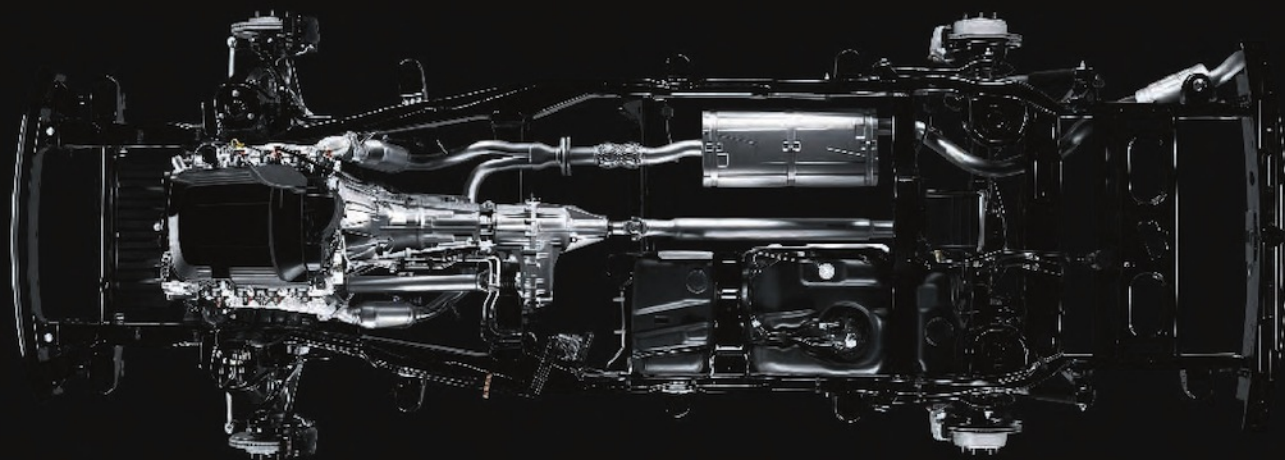

Escalade Platinum Edition takes the full-size luxury SUV concept to new and delightful heights. Available exclusively on Escalade, Escalade Hybrid and Escalade ESV models, Platinum Edition models are stylistically unique inside and out, with design highlights including a distinctive front grille treatment and glittering 22-inch chromed aluminum wheels. It also incorporates some of the most sophisticated technology ever seen on Escalade, including such segment-exclusive* systems as LED headlights, Magnetic Ride Control suspension and IntelliBeam™ automatic high-beam/low-beam control. Entry and exit

are made easier and more graceful by power assist steps that glide into place automatically whenever a door is opened. In the cabin, virtually every amenity imaginable is standard equipment. Genuine olive ash and burled walnut wood trim accents the instrument panel. Not only are the front seats internally heated and cooled, but so are the cupholders. Rear passengers enjoy their own entertainment system, complete with DVD players and LCD monitors mounted in the front head restraints. Even the steering wheel is heated for your comfort. Escalade Platinum Edition. Prepare to have your expectations raised.

*Based on 2009 GM Large Luxury SUV segment and latest available information at time of printing.

POWER IS JUST THE BEGINNING.

6-SPEED TRANSMISSION

Escalade's heavy-duty 6-speed automatic transmission contributes to both performance and fuel efficiency. Thanks to its electronic controls, it delivers smooth, precise gear changes at all operating speeds.

MAGNETIC RIDE CONTROL

As often as 1000 times per second, Escalade's available Magnetic Ride Control suspension adjusts shock absorber damping to match road and driving conditions. The result: a smooth, controlled ride and surprisingly agile handling.

Smooth, quiet and highly refined, Escalade's aluminum-block Vortec 6.2L V8 VVT engine is a true luxury-class powerplant. It also generates the most power of any vehicle in Escalade's class* – a tremendous 403 horsepower. It puts out vast amounts of torque, too – 417 pounds-feet of it, to be exact, enough to tow trailers weighing up to a very substantial 3674 kg (8100 lb.). Yet, thanks to

premium features like race-inspired high-flow aluminum cylinder heads, Variable Valve Timing (VVT) and new-for-2010 Active Fuel Management, Escalade delivers excellent fuel efficiency for its class of vehicle, and it does so on regular gasoline. The Escalade V8 is also a FlexFuel engine capable of running on E85 ethanol – an important consideration with today's rising fuel prices.

*Based on 2009 GM Large Luxury SUV segment and latest available information at time of printing.

Cadillac

A COMPREHENSIVE APPROACH TO RISK REDUCTION.

SIDE BLIND ZONE ALERT

Escalade's available Side Blind Zone Alert system uses radar beams to detect vehicles travelling in your blind zone. When a vehicle is present, the system alerts you via an amber signal in the appropriate exterior rear-view mirror.

AIR BAGS

Every Escalade guards its driver and front passenger against injury with dual-stage frontal air bags and seat-mounted thorax air bags. Standard head curtain air bags protect occupants in all rows in side impacts.

REARVIEW CAMERA SYSTEM

The standard Rearview Camera System takes much of the uncertainty out of parking in tight spaces. It also makes it a breeze to hook up a trailer. When appropriately configured, the camera activates automatically when the transmission is in "Reverse" and sends a clear, full-frame image to the DVD Navigation System screen.

ONSTAR

Does your vehicle have a help button? If you have OnStar, you can get the help you need at the push of a button. If you're in a collision, you don't even need to ask for help - sensors around your vehicle can automatically alert an OnStar Advisor. If your vehicle's stolen, we can use GPS technology to help police find it. OnStar and 1 year of the Directions & Connections Plan are included on Escalade,[†] along with Turn-by-Turn Navigation.^{**} It's the simplest and smartest navigation system available. Just push the OnStar button and tell the Advisor where you want to go, and turn-by-turn directions are downloaded to your vehicle. No one offers more ways to help on the road. Learn more at onstar.ca

[†]OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Ability to locate stolen vehicles varies with conditions. Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.ca for OnStar's Terms and Conditions, Privacy Statement and details and system limitations.

^{**}Turn-by-Turn Navigation not available in certain areas. Visit onstar.ca for coverage map.

The best strategy for improving safety is to prevent collisions from taking place. To that end, Escalade is equipped with a host of advanced systems that help you avoid a crash whenever possible. Some of these, like the standard rear-view camera and the available Side Blind Zone Alert system, are designed to increase your awareness of the surrounding driving conditions. Others help make the most of the available traction and assist you in steering around potential hazards. Foremost among these features is Escalade's standard electronic stability control system, called StabiliTrak[®], which has been proven to reduce

the risk of a light truck being involved in a fatal single-vehicle crash by a remarkable 63 percent.* Should a situation arise in which a crash simply can't be avoided, Escalade comes to your aid with advanced occupant-protection technologies. A 360-degree sensing system monitors for impacts at the front, sides and rear of the vehicle and sends appropriate signals to the front-seat safety belt pre-tensioners and all air bags.** Should air bag deployment take place, your Escalade will automatically signal advisors at the OnStar[®] Centre,[†] who can then dispatch emergency services to your precise location.

*According to information published by the U.S. Department of Transportation's National Highway Traffic Safety Administration, July 2007.

**A NOTE ON CHILD SAFETY: Always use safety belts and proper child restraints, even in vehicles with air bags.

FINISHING TOUCHES.

Show your unique style and endow your new Escalade with an even higher level of luxury by adding carefully chosen quality accessories. Genuine Cadillac Accessories are designed especially for your Escalade and engineered to the highest standards, ensuring excellent fit, finish and functionality. They're covered under the 4-year/80,000 km New Vehicle Limited Warranty.* They can also be included in your new-vehicle finance agreement through GMAC. Ask your dealer for a complete list of the Cadillac Accessories available for your Escalade. Or visit cadillac.ca

*Whichever comes first, when permanently installed by the dealer at the time you purchase your new vehicle, or for the remainder of the New Vehicle Limited Warranty if installed after the time of your vehicle purchase, but no less than 12 months.

22-INCH WHEELS

These beautiful 22-inch aluminum wheels feature faceted forms and a lustrous chrome finish. Cadillac accessory 22-inch wheels are available with a choice of matching Cadillac wreath and crest centre caps and chrome lug nuts. These wheels require specific tires. Please see your dealer for further details.

CHROME FUEL DOOR

Personalize the exterior of your Escalade with this attractive chrome fuel door. It features a magnetic release mechanism for a sleek appearance.

LCD VIDEO SCREENS

Make time fly for your 2nd-row passengers with a DVD rear entertainment system. The LCD monitors and DVD player are mounted on the rear of the front-seat head restraints. Wireless headphones allow your rear passengers to enjoy their preferred audio program without disturbing you or your other passengers.

CADILLAC OWNER PRIVILEGES

All luxury vehicle ownership experiences are not created equal. When you choose a new Escalade, you enjoy an exclusive suite of Cadillac Owner Privileges which add to your safety and convenience and help to reduce your overall cost of ownership. You'll regard them as an extra measure of confidence in an uncertain world. For the first 4 years or 80,000 km of ownership, No-Charge Scheduled Maintenance will cover all regularly scheduled maintenance required by your Cadillac. During the same period, the New Vehicle Limited Warranty will cover all parts and labour costs* that may be incurred to correct defects in material or workmanship. You are also covered by GM's Powertrain Component Limited Warranty, which is in effect for the first 5 years or 160,000 km of ownership.** While the Powertrain Component Limited Warranty is in effect, you enjoy the support of Cadillac Roadside Assistance* throughout Canada and the United States should you require towing, fuel delivery, a jump start or help with a flat tire or lock-out situation. On Escalade Hybrid you also have the protection of a special Hybrid Component Warranty which covers specific hybrid components for the first 8 years or 160,000 km of ownership.** In addition, Courtesy Transportation* provides you with shuttle transportation for daily service and an alternate car (or reimbursement for rental or other transportation expenses) for overnight service, whenever your Cadillac requires scheduled maintenance or repairs covered under the New Vehicle Limited Warranty. Other Cadillac owner privileges include Trip Planning* assistance and Trip Interruption Protection,* and you may be reimbursed by General Motors of Canada for reasonable hotel, meal and alternative transportation expenses incurred should your trip be interrupted by a repair covered under the New Vehicle Limited Warranty. See your Cadillac dealer for complete details on all Cadillac Owner Privileges.

*Program in effect for the first 4 years or 80,000 km (whichever comes first) of ownership. Conditions and limitations apply.

**Whichever comes first, conditions and limitations apply.

ACQUISITION OPTIONS

In addition to the many exclusive privileges of Cadillac ownership, General Motors of Canada has created a range of supplementary support programs to enhance your ownership experience. Some of these programs assist you in purchasing the Cadillac of your choice. Others help protect you and your new Cadillac over the long term.

Purchasing:

- **GMAC Express Credit Application** – a convenient way to get pre-approved credit towards the purchase of your next GM vehicle
- **GMAC Purchase Financing** – on-the-spot financing at your GM dealership¹
- **The GM Card** – eligible cardholders may be able to redeem up to \$3500 in GM Card® Earnings toward the Total Purchase Price on selected vehicles.¹ For more information on The GM Card please call 1-800-461-3279.

Additional Ownership Programs:

- **GM Protection Plan (GMPP)** – the only extended service plan backed by the resources and commitment of General Motors, GMPP may be purchased at the time of sale or subsequently during the New Vehicle Limited Warranty period.¹

¹Subject to eligibility. ²Conditions and limitations apply.

Information Resources:

A word about this brochure

Some of the equipment shown or described throughout this brochure may be available at extra cost. We have tried to make this brochure comprehensive and factual. We reserve the right, however, to make changes at any time, without notice, in prices, colours, materials, equipment, specifications, models and availability. Specifications, dimensions, measurements, ratings and other numbers in this brochure and other printed materials provided at the dealership or affixed to vehicles are approximates based upon design and engineering drawings and prototypes and laboratory tests. Your vehicle may differ due to variations in manufacture and equipment. Since some information may have been adapted since the time of the printing, please check with your Cadillac dealer for complete details. General Motors of Canada Limited reserves the right to lengthen or shorten the model year for any product, for any reason, or to start and end model years at different times.

A word about assembly

Cadillac vehicles are equipped with engines and components produced and assembled by different operating units of General Motors, its subsidiaries and suppliers and these engines and components may change or be obtained from different sources from time to time. All such engines and components are approved for use in Cadillac vehicles. Certain equipment ordered may be unavailable at the time of assembly and we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

A word about corrosion

Cadillacs are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for 6 years. There is no deductible for rust-through repairs. Application of additional rust-inhibiting materials is not required under the corrosion coverage and none is recommended.

Trademarks

The marks appearing in this Cadillac brochure including, but not limited to: General Motors, GM, the GM Canada emblem, Cadillac, the Cadillac badge, Cadillac Owner Privileges, Cadillac Roadside Service, Escalade, Escalade Hybrid and their respective logos, emblems, slogans and vehicle model names and body designs; and other marks such as Active Fuel Management, Autotrac, IntelliBeam, Magnetic Ride Control, Midgate, Solar-Ray, StabiliTrak and Twilight Sentinel are trademarks of General Motors and/or General Motors of Canada Limited, its subsidiaries, affiliates or licensors.

* OnStar services require vehicle electrical system (including battery), wireless service and GPS satellite signals to be available and operating for features to function properly. OnStar acts as a link to existing emergency service providers. Subscription Service Agreement required. Ability to locate stolen vehicles varies with conditions. Call 1.888.4.ONSTAR (1.888.466.7827) or visit onstar.ca for OnStar Terms and Conditions, Privacy Statement and details and system limitations.
** Turn-by-Turn Navigation not available in certain areas. Visit onstar.ca for coverage map.
† Available in 10 Canadian provinces and the 48 contiguous United States. Subscription sold separately after trial period.
†† All-season tires may not satisfy winter tire requirements in all regions of the country. Tires specifically designed for severe winter conditions and marked with the "winter tire" symbol  may be required during certain months or in certain regions. Contact your Provincial, Municipal or local road authority for information regarding which tires are required in your particular area.

TRAILERING

ESCALADE	
Maximum payload/trailer weight [‡]	714/3674 kg (1575/8100 lb.)
ESCALADE HYBRID	
Maximum payload/trailer weight [‡]	623/2540 kg (1373/5600 lb.)
ESCALADE ESV	
Maximum payload/trailer weight [‡]	642/3538 kg (1415/7800 lb.)
ESCALADE EXT	
Maximum payload/trailer weight [‡]	522/3402 kg (1150/7500 lb.)

[‡]Maximum trailer-weight ratings are calculated assuming a base vehicle (except for any options) necessary to achieve the rating, plus driver. The weight of other optional equipment, passengers and cargo will reduce the maximum trailer weight your vehicle can tow. See your Cadillac dealer for additional details.

CAPABILITIES AND DIMENSIONS

ESCALADE/ESCALADE HYBRID	
Cargo volume behind 3rd-row seat: ^{‡‡}	479 L (16.9 cu. ft.)
Cargo volume behind 2nd-row seats with 3rd-row seats removed: ^{‡‡}	1708 L (60.3 cu. ft.)
Cargo volume with 2nd-row seats stowed and 3rd-row removed: ^{‡‡}	3084 L (108.9 cu. ft.)
ESCALADE ESV	
Cargo volume behind 3rd-row seat: ^{‡‡}	1297 L (45.8 cu. ft.)
Cargo volume behind 2nd-row seats with 3rd-row seats removed: ^{‡‡}	2557 L (90.3 cu. ft.)
Cargo volume with 2nd-row seats stowed and 3rd-row removed: ^{‡‡}	3891 L (137.4 cu. ft.)
ESCALADE EXT	
Bed height:	635 mm (25.0 in.)
Bed length with Midgate up:	1600 mm (63.0 in.)
Bed length with Midgate down:	2479 mm (97.6 in.)
Bed width:	1270 mm (50.0 in.)

^{‡‡}Cargo and load capacity limited by weight and distribution. See your Cadillac dealer for more information.

PLATINUM EDITION INTERIOR

EXTERIOR/INTERIOR COLOUR COMPATIBILITY

Exterior Colours	Interior Colours	Ebony with Ebony Accents	Cashmere with Cocoa Accents	Cocoa with Light Linen Accents ¹
41 - Black Raven		•	•	•
46 - Stealth Gray ^{2,3}		•	•	•
51 - Gold Mist ^{2,4}		•	•	•
80 - InfraRed Tintcoat ^{*2,5}		•	•	•
98 - White Diamond Tricoat ^{*6}		•	•	•
GGW - Galaxy Gray ^{2,3}		•	•	•
GGZ - Silver Lining		•	•	•

*Available at extra cost.
1 - Available with Platinum Edition Package only.
2 - Not available on Escalade EXT.
3 - Not available with Platinum Edition Package.
4 - Not available on Escalade Hybrid.
5 - Tintcoat is a premium two-layer paint application with the addition of a tinted clearcoat, lending the finish an extra depth and brightness.
6 - Tricoat is a meticulous three-layer process that results in a dramatic hue-shifting colour reminiscent of a show-car finish.

EXTERIOR COLOURS

The interior and exterior colours are as close to the actual vehicle production colours as the printing process allows. For more accurate colour samples, ask your Cadillac sales consultant to see the dealer showroom vehicle colour display.
*Available at extra cost.

WE'LL TAKE YOU EXACTLY WHERE YOU WANT TO GO.

You demand more from a vehicle than ever before. Exactly the same can be said of Cadillac. For starters, you're looking for greener driving choices – Cadillac offers a range of vehicles powered by hybrid technology or alternative fuels. And many incorporate technology that helps reduce fuel consumption and emissions, like Active Fuel Management®, Variable Valve Timing and Direct Injection. Down the road, there are plug-in electric vehicles and other emerging technologies that point the way to a future of zero-emissions driving.

At Cadillac, we take pride in more than the quality of our vehicles. We are also proud to be the Official Vehicle Supplier of the Vancouver 2010 Olympic and Paralympic Winter Games. To help create a more sustainable 2010 Winter Games, we are committed to providing the most environmentally friendly fleet of all time through the supply of hybrid, alternate fuel, and other advanced green technology vehicles. The Drive is On.
