DRIVE COOL

THE ONLY COMPLETE LINE OF AIR CONDITIONERS FOR ALL VOLKSWAGENS

...and you'll discover that summer driving IS cooler

NOTE THESE EXCLUSIVE DPD FEATURES:

★ **DPD gives "BUG" owners a choice of air conditioners.** DPD is the only air conditioner that gives you a choice of models ... the DPD MAINLINE, the first really efficient air conditioner ... or the DPDeluxe all-across unit, featuring 4 large directional louvers. The DPDeluxe allows you to direct a set of louvers toward each passenger, insuring the fastest possible cooling for your entire car. Only DPD and NO OTHER air conditioner for Volkswagen autos offers you this choice.

★ **DPD offers you the quietest, most efficient air conditioner for your VW station wagon, transporter or camper.** Not just two but FOUR squirrel cage fans, driven by 2 powerful motors, cool your station wagon quickly and efficiently.

★ **DPD operates for less through better design.** The condenser, located underneath the car, removes the heat from your unit. DPD removes it better. Not only is your DPD condenser 100% blower cooled, but it is located up front, away from engine heat. This accomplishes your cooling job more efficiently with less power drain on your engine.

in your Volkswagen with a DPD custom air conditioner. It's amazing how much shorter the journey seems ... how much more refreshed you arrive at your destination ... when your trip is cooled by your custom made DPD air conditioner.

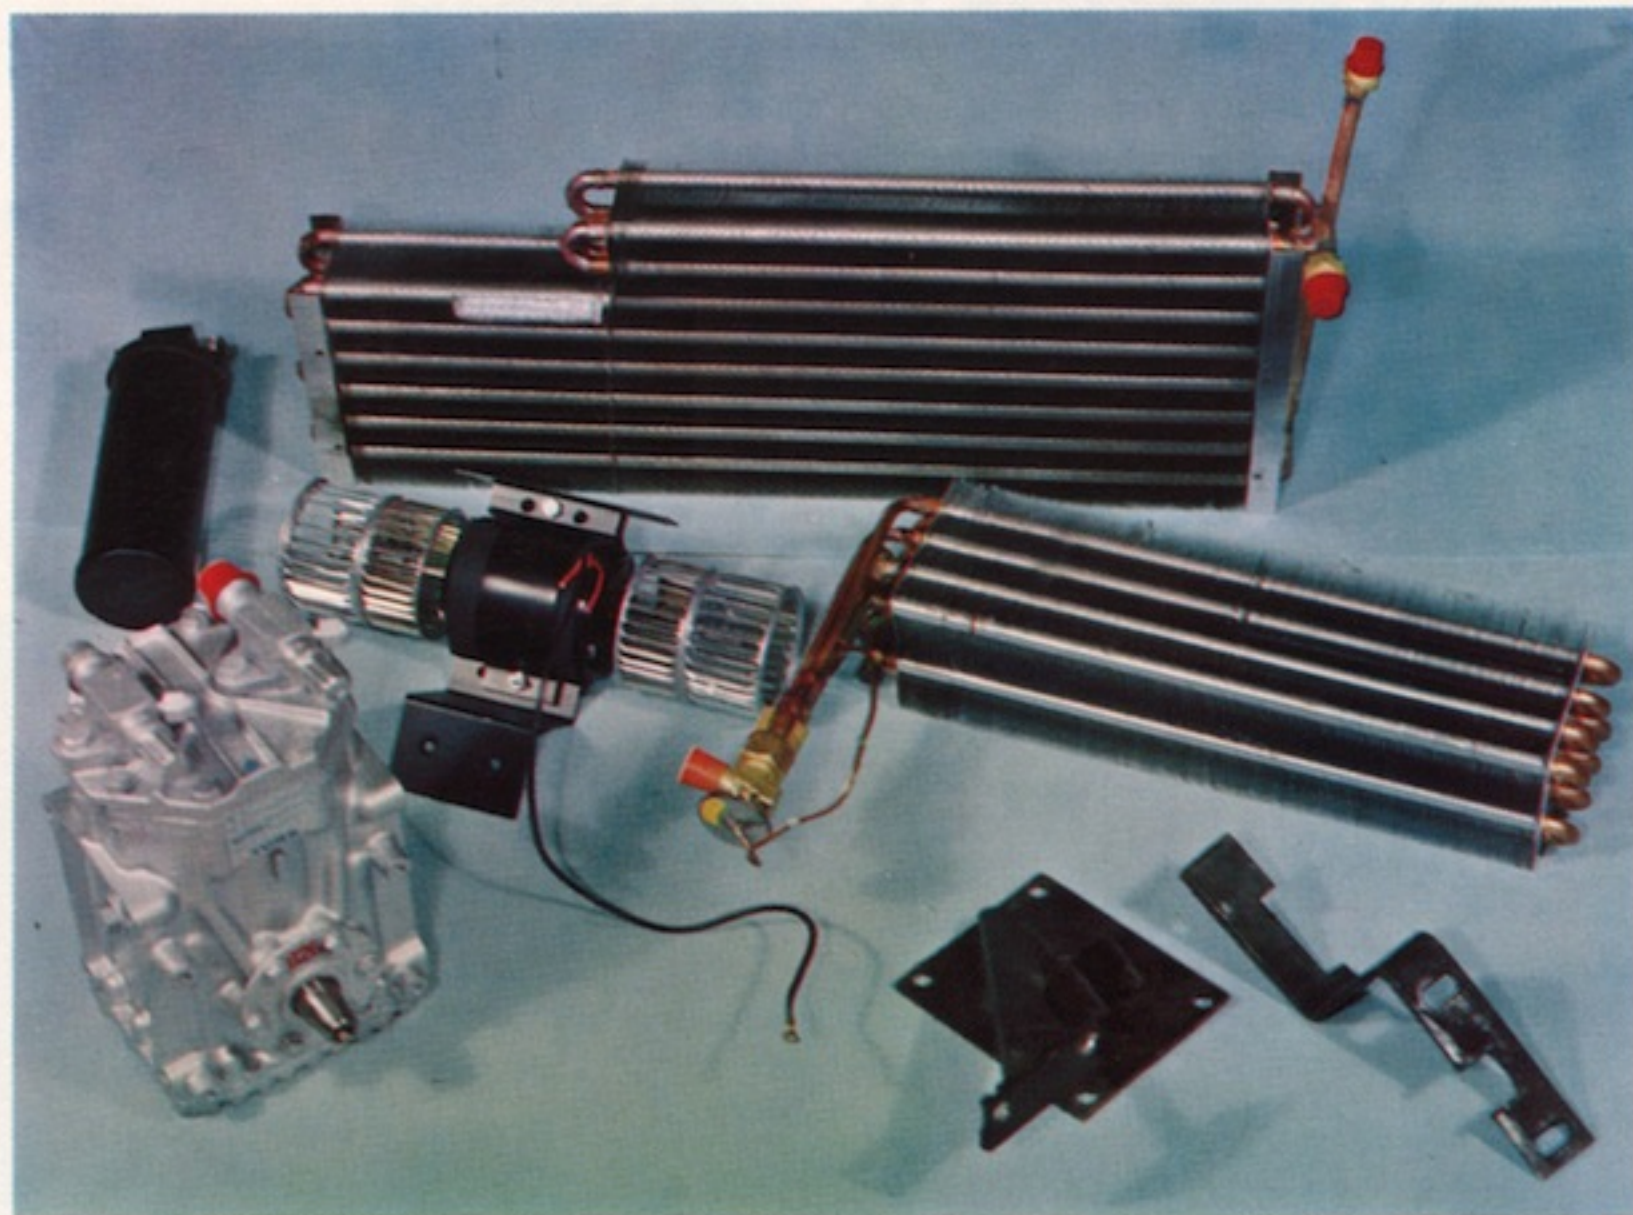

★ **DPD gives you cooling for your feet.** Science has discovered that the feet are a part of the body's thermostat. When your feet are a comfortable temperature, your entire body is more comfortable. Another exclusive feature available to you in no other air conditioner is a pair of directional Pedicoolers. With your DPD, you can direct a part of the cold air flow over the feet of your front seat passengers.

★ **Dual squirrel cage blowers make your DPD whisper-quiet.** DUAL squirrel cage blowers give you all the air movement you could ever possibly need to cool your Volkswagen. Yet, the exclusive design of your DPD air conditioner keeps its noise level so low you hardly know it's running except for the delicious feel of the cool air you enjoy as you ride.

Your DPD is engineered to operate **MORE EFFICIENTLY**

DPD was among the first companies to begin the manufacture of air conditioners for Volkswagen automobiles. This means more years of experience go into the design and manufacture of your DPD. DPD specializes in the manufacture of air conditioners for Volkswagen vehicles. DPD does not make air conditioners for ANY OTHER CAR. DPD engineers devote full time to scientific and engineering research with one goal in mind; constant improvement and updating of your DPD air conditioner.

The components pictured here are the finest available anywhere. These components are skillfully assembled and installed on your car under patented designs to last longer and give you more driving comfort. It's no wonder that DPD is the most trouble free car air conditioner on the market today.

All DPD parts are carefully designed and engineered to the exact specifications necessary to cool your car comfortably, efficiently.

WORLD'S FINEST AIR CONDITIONER FOR VOLKSWAGEN CARS

DP Deluxe

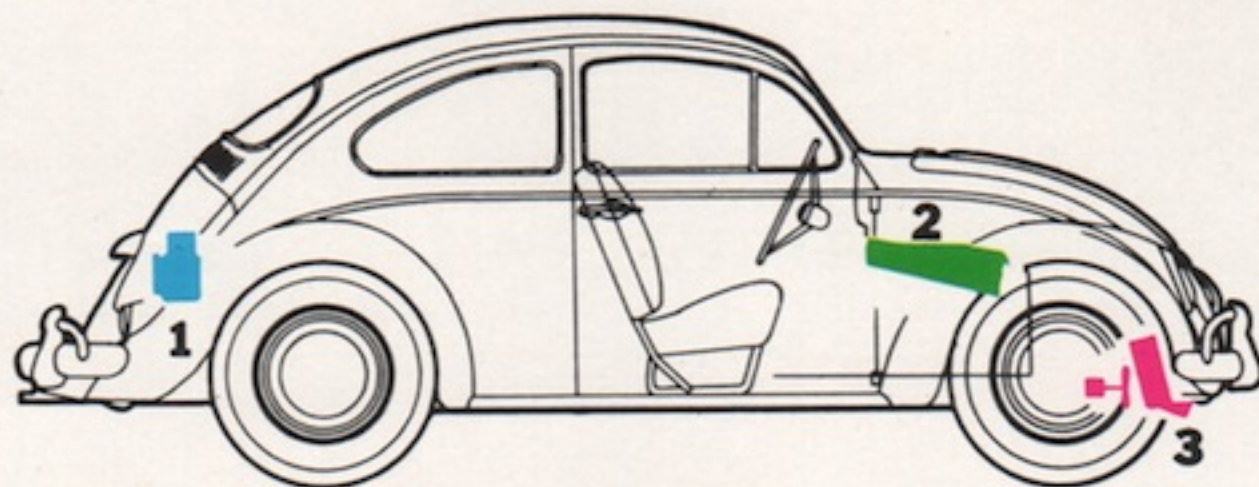

All-across design . . . door-to-door cooling.

Design and material carefully selected to exactly match your car's interior trim.

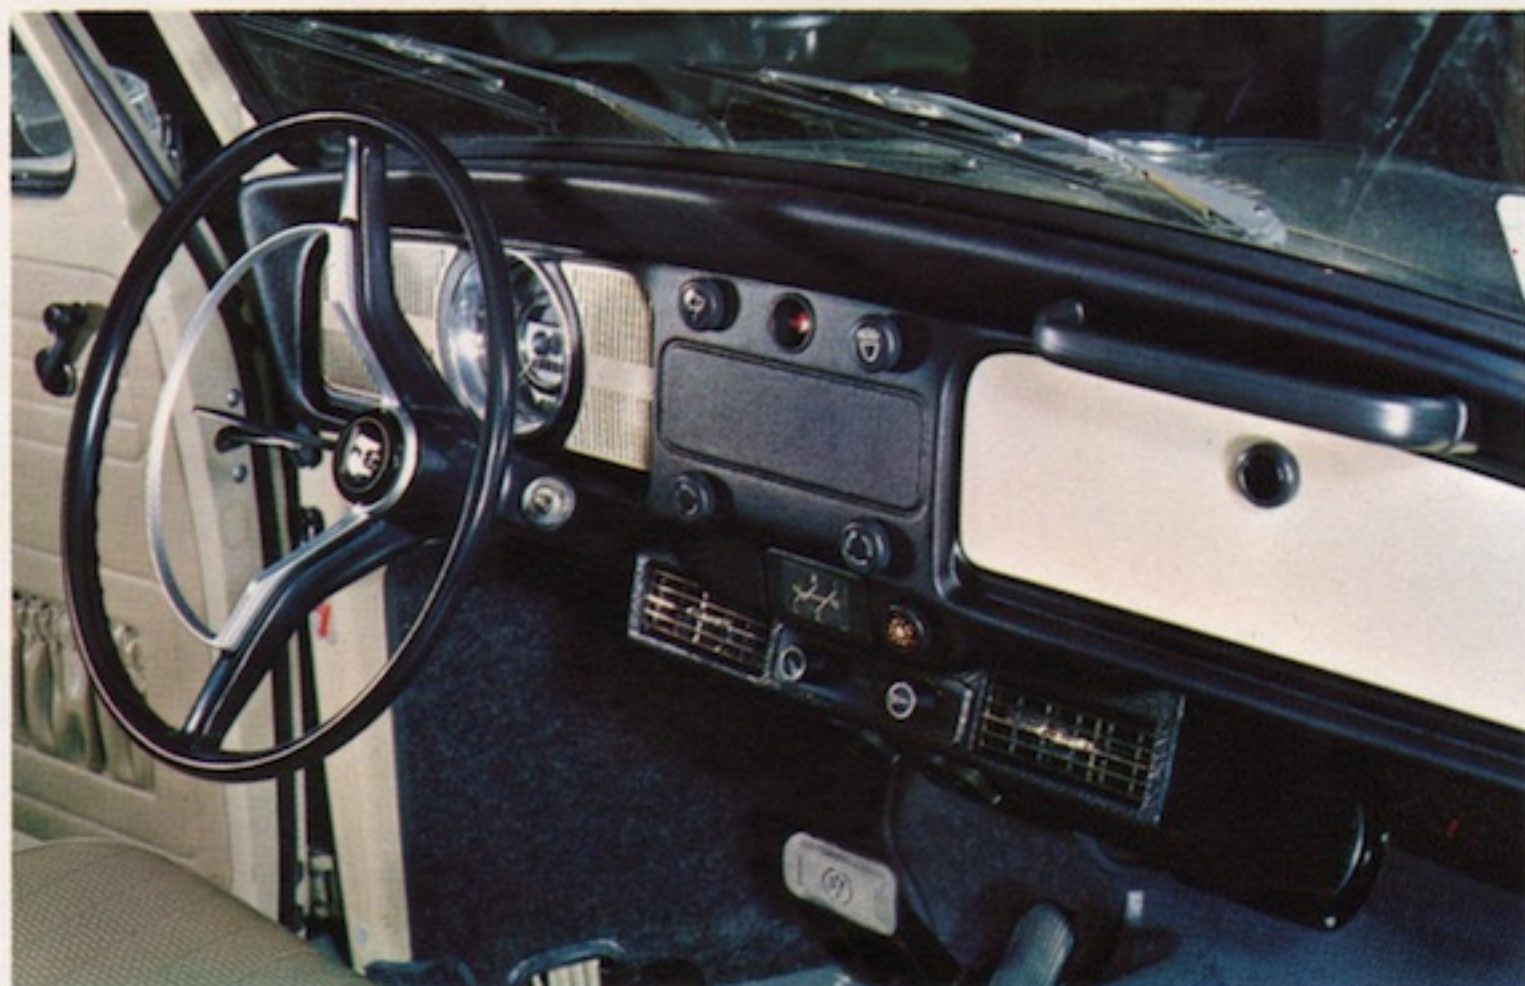

FOUR directional louvers . . . one for each passenger.

Two directional louvers to cool the feet.

Dependable DPD MAINLINE

The dependable DPD air conditioner that has been a VW auto owner's favorite since the company was founded. Its features are exclusive with DPD and no matter whether you choose the Main Line or DP Deluxe, you're assured of the coolest, most comfortable summer driving.

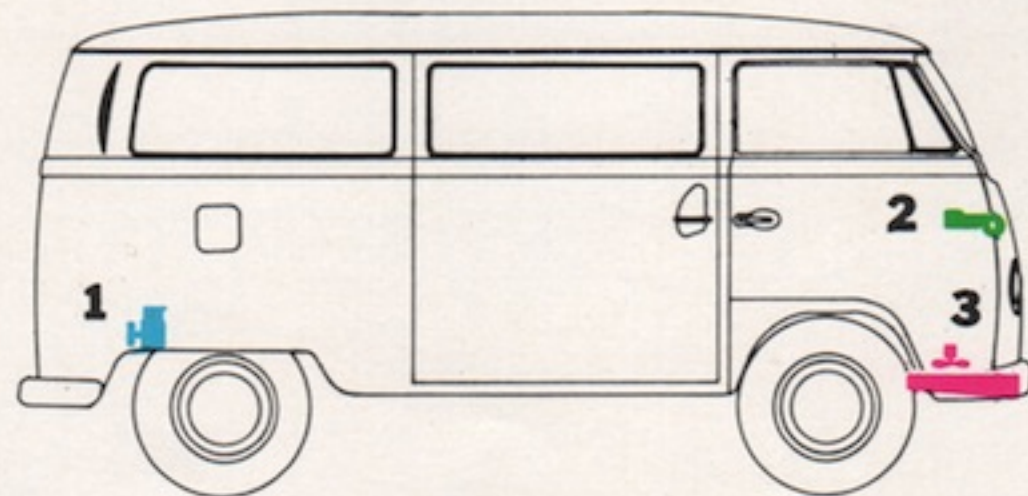

DPD I

MORE POWERFUL COOLING FOR YOUR STATION WAGON

FOUR QUIET BLOWERS, DRIVEN BY TWO MOTORS COOL EVERY INCH OF SPACE

DPD mounts the condenser up front . . . away from engine's heat . . . AND provides 100% blower cooling for the condenser to reduce the load on your engine. 4 blowers and 4 directional louvers cool your station wagon faster, more economically.

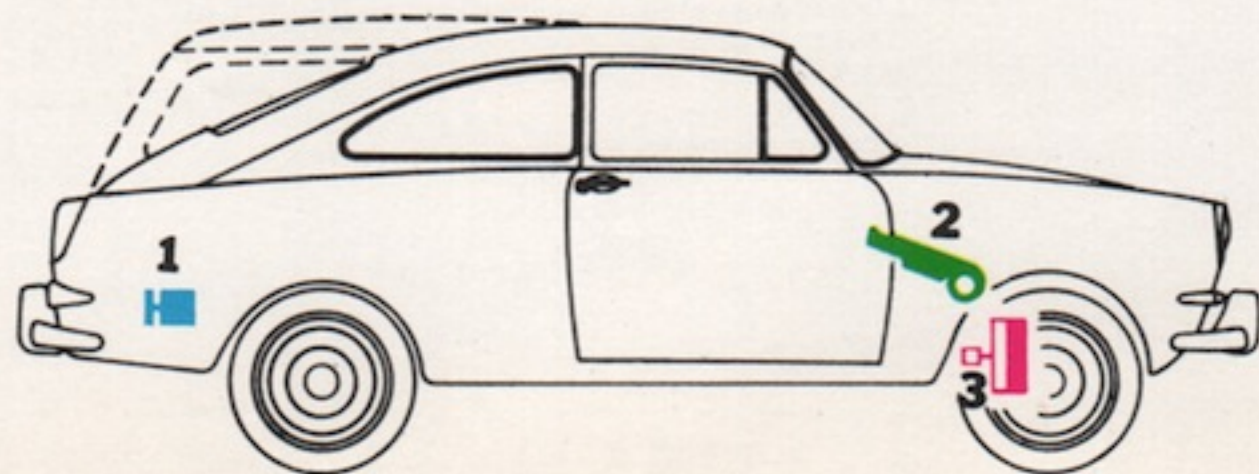

DPD II

A DPD TO FIT EVERY MODEL SQUAREBACK-FASTBACK VOLKSWAGEN

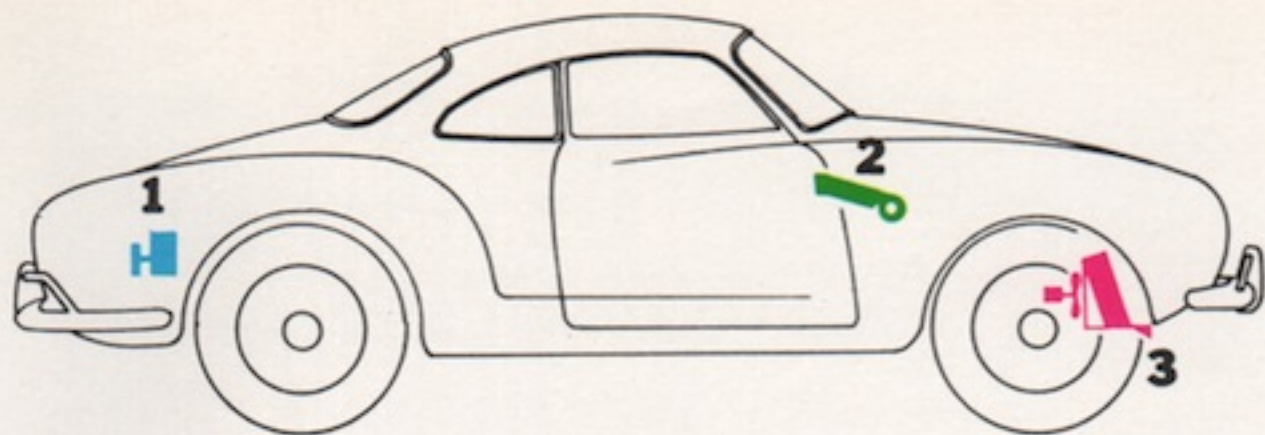

Note how the handsome DPD is carefully designed and contoured to exactly fit your dash. See how it tucks up out of the way, leaving plenty of leg and foot room. Available from 1966.

DPD III

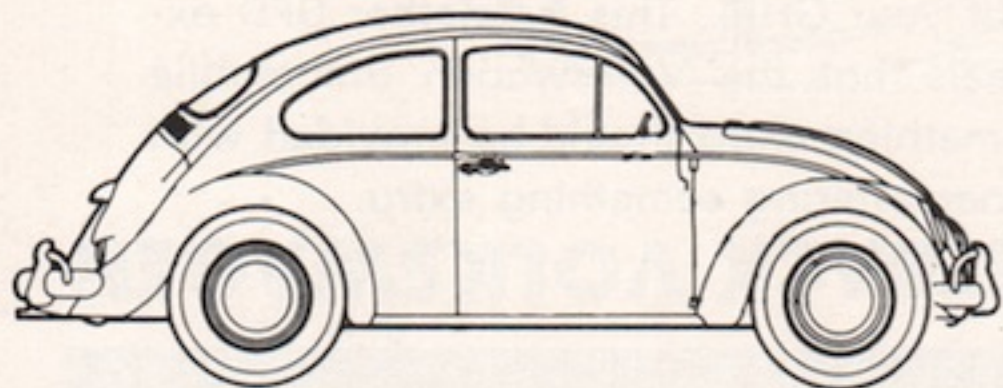

DESIGNED SPECIFICALLY TO FIT YOUR KARMANN GHIA

DPD has carefully engineered and designed this unit specifically to fit your GHIA. This is another DPD exclusive. DPD feels that the Volkswagen automobile which offers something extra should be provided with an air conditioner offering something extra.

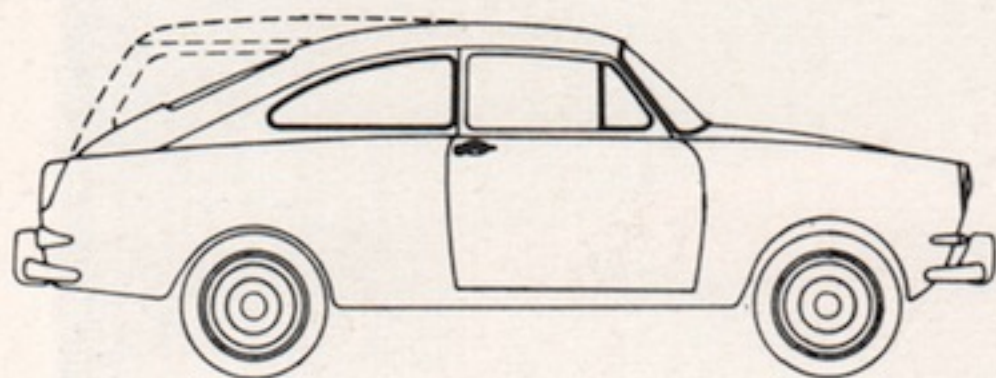

DPD KG

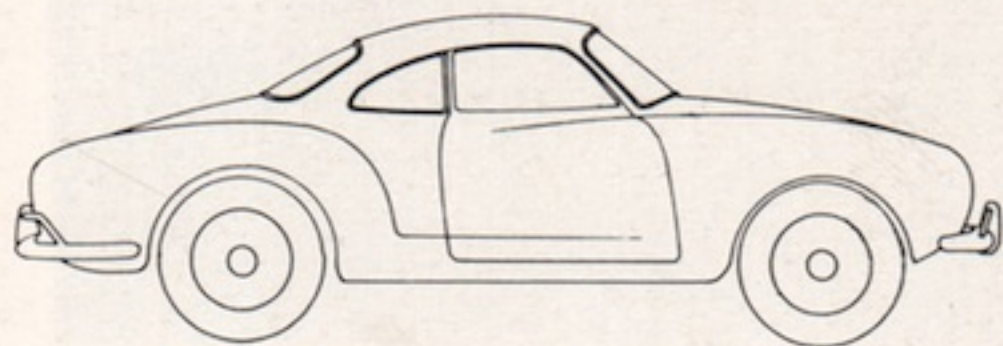

**ANOTHER DPD EXCLUSIVE!
DPD UNITS TO FIT EARLIER
MODEL VOLKSWAGENS**

DPD units to fit your earlier model "Bug" are available from your dealer. These units have been custom designed to fit your car from 1961.

All models of the "Square-back" since 1966 can be cooled by DPD. Installation is quick because DPD air conditioners are custom designed to fit the car YOU BOUGHT.

Earlier GHIA's . . . circa 1961, forward . . . may also be custom-fitted with handsome, efficient DPD air conditioners.
