CARGO VANS

SAFARI CARGO VAN

Safari is the new-size van with a dual personality: it can be a hard-working commercial delivery vehicle, or a fun-loving recreational vehicle. And while Safari has handled these jobs very well in the past, the '87 version should do them even better. There's more power under the hood with both the standard and available engines for increased performance, along with other improvements in the engine area; new higher-capacity Delco Freedom batteries; and new paint color selections.

Try One For Size...And Strength

Although it's slightly shorter and narrower than a full-size GMC Vandura, Safari has a surprisingly spacious interior — up to 189.9 cu ft of space for commercial cargo, or for conversion to a recreational vehicle or travel van. Payload ratings of 1000, 1350 or 1700 lb offer the muscle for your requirements; includes passengers, cargo, and equipment.

Easy To Live With

Safari stands only 74.5" high, so it can be stored in an average-sized garage. Outside rearview mirrors can be folded flat against the body to permit access to narrow spaces. Low door step heights allow convenient entry and exit. And Safari's short turning circle helps make it easy to get around on city streets and parking lots.

Equip It To Suit You

Safari comes only in standard trim, but a large selection of paint colors, moldings, striping and other dress-up trim is available. A vinyl-trimmed low-back driver seat, insulated front compartment headliner and black rubber floor covering in the driver area are standard. Available seating includes a matching low-back passenger seat, and arrangements of two or four high-back bucket seats. Interiors offer a choice of four colors, depending on your selection of seats and upholstery fabric.

Vocational racks, partitions and other special equipment are available from aftermarket suppliers. Ask your GMC Dealer for details.

High-tech instrument cluster; gauges and warning lights identified by international graphics.

COMMITMENT PLUS

Commitment Plus is one of the most complete joint sales and service customer satisfaction programs available on light-duty trucks today. It offers the following benefits:

- ☐ A thorough new-vehicle inspection
- ☐ One full tank of fuel
- ☐ Complementary 3000-mile maintenance service including oil change and oil filter at no extra charge.

GMC Truck and GMC Dealerships are truly committed to making GMC Light Duty Trucks easy to live with. Our customers' total satisfaction is indeed our goal.

Applies to retail sales only, but not to any Series 3500 model described in this catalog.

ENGINES

2.5 Liter Tech IV engine with new long-life, single-belt accessory drive

2.5 Liter Tech IV Gasoline Engine. The standard powerplant for Safari Cargo Vans, this peppy 4-cylinder engine continues with Electronic Fuel Injection and features extra horsepower for '87.

4.3 Liter Vortec V6 Gasoline Engine. Improvements to this available engine add extra horsepower for '87. Features include Electronic Fuel Injection; Vortec swirl-port induction system for good fuel/air mix; and the new single-belt accessory drive system.

New GM-CAMS Maintenance System represents a computerized automotive maintenance system, with emphasis on diagnostics. Your

WINDOW COMBINATIONS

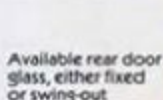

Standard glass

Available glass for sliding door, side panel opposite door, and rear doors

Available complete body glass

Available rear door glass, either fixed or swing-out

Additional window combinations are available, including clear, tinted or deep-tinted glass. Ask your dealer for details.

participating GMC Truck Dealer's terminal is connected to your gasoline-powered vehicle's on-board computer and interacts with a comprehensive computer network. That, in turn, is supported by the continuously updated master data base of repair procedures at the GM Information Center. In effect, GM's total diagnostic and repair resources stand ready to help with your individual vehicle problems, should they occur.

A WORD ABOUT ENGINES

Some GMC Light Duty Trucks are equipped with engines produced by other GM divisions, subsidiaries, or affiliated companies worldwide. See your dealer for details.

SAE Net Torque (lb/ft) @ RPM	135 @ 3000	230 @ 2400

Safari Cargo Van shown with available equipment.

High-back bucket seats are available with Standard Vinyl and Custom Cloth (shown) or Custom Vinyl upholstery.

Safari helps simplify cargo loading with a wide-opening, easy-sliding side door.

Panel-type rear doors can be swung open almost 180°. Flat load floor only 24.8" from ground level makes loading easy.

GMC

TRUCK

VANDURA

Here's our full-size business van for the dollar-wise businessman. It's built to be big on space and easy on expenses. Choose a gasoline engine model for '87, and you'll get the added performance of computer-controlled Electronic Fuel Injection. It replaces the conventional carburetor and fuel pump, helping reliability.

Other improvements include new single-belt accessory drive for all gasoline engines; it replaces multiple V-belts, is designed for long life, and does not require adjustment for the life of the belt. Standard gasoline engine generator capacity has been increased with a new compact, high-efficiency Delcotron. New lightweight, flat-top design Delco Freedom batteries also feature greater capacity in gasoline engine applications for '87.

Two Wheelbase Selections

Vandura is available in 110" and 125" wheelbases, both with large cargo areas that can be fitted out, if necessary, with aftermarket racks and bins to suit professional needs. All models have side and rear doors that open wide for easy cargo loading.

Comfortable Interiors

Vandura is driver-oriented. A deep-foam cushioned low-back driver seat, covered in a durable new vinyl material, is standard. Other standard features include door-operated dome lamp switches and a column-mounted multifunction switch.

ENGINES

4.3 Liter Vortec V6 Gasoline. This high-compression V6 features Vortec swirl inlet ports for good fuel/air mix, fast-burn combustion chambers and new roller hydraulic valve lifters for improved operation.

5.0 Liter V8 Gasoline. A job-proven engine that provides impressive performance for a wide range of commercial applications.

Instruments are arranged and identified for easy reading.

5.7 Liter V8 Gasoline. This big-displacement V8 provides the horsepower and torque recommended for towing medium and heavyweight trailers.

6.2 Liter V8 Diesel. With its impressive performance and rugged dependability, this truck-tough diesel is an ideal engine for stop-and-go driving, city delivery work and other demanding applications. High torque output makes it a solid choice for heavy-load hauling. It's standard on Vandura diesel models.

New GM-CAMS Maintenance System.

GM-CAMS represents a computerized automotive maintenance system, with emphasis on diagnostics. Your participating GMC Truck Dealer's terminal is connected to your gasoline-powered vehicle's on-board computer and interacts with a comprehensive computer network. That, in turn, is supported by the continuously updated master data base of repair procedures at the GM Information Center. In effect, GM's total diagnostic and repair resources stand ready to help with your individual vehicle problems, should they occur.

A WORD ABOUT ENGINES

Some GMC Light Duty Trucks are equipped with engines produced by other GM divisions, subsidiaries, or affiliated companies worldwide. See your dealer for details.

PAINT SCHEMES

Vandura models offer a choice of 10 standard solid paint colors (see back cover) plus available two-tone schemes as illustrated below.

Special Two-Tone Paint Scheme

Deluxe Two-Tone Paint Scheme

AVAILABLE WINDOW ARRANGEMENTS

Shown below are some of the window arrangements available for Vandura. Ask your dealer about others, including those with tinted and deep-tinted glass.

Right side body glass

Fixed side door glass

All-around glass with swing-out side door glass

Swing-out glass in rear doors

Rear doors open wide for easy loading. Positive-stop feature is available.

Series 1500 Vandura shown with Special Two-Tone paint scheme and other available equipment.

60/40 panel side doors are available at no extra charge to replace standard sliding door.

Easy-sliding side cargo door with wide opening is standard.

Available high-back bucket seats come in new Standard Vinyl material (shown) in two colors or available Custom Vinyl in five colors.

GMC SAFARI CARGO VAN ACCESSORIES

TRUCK

Available equipment from GMC Truck enables Safari to tow large trailers.

Comfortilt steering wheel

Delco radios

Your Safari can be equipped with a wide range of factory- or dealer-installed options to add to your satisfaction. See back cover for equipment available in addition to options shown here.

Trailer. Properly equipped, a Safari Cargo Van can move up to 10,000 lb Gross Combination Weight...that includes everything going down the road (truck, trailer, passengers, cargo, and equipment on truck and trailer). The chart below shows the maximum allowable Gross

Combination Weight Rating (GCWR) based on all standard and available engines and rear axle ratios with automatic transmissions.

Safari Cargo Van can be ordered with available Trailing Special Equipment packages to help you properly equip it for trailering. See your GMC Truck Dealer for package content, and ask him for the '87 GMC Truck Trailering Guide which gives complete details on trailering requirements and recommendations.

IMPORTANT! A WORD ABOUT THIS CATALOG: We have tried to make this catalog as comprehensive and factual as possible and we hope you find it helpful. However, since the time of printing, some of the information you'll find here may have been updated. Also, some of the equipment shown or described throughout this catalog is available as factory-installed options, as dealer accessories, and as specialized equipment from various independent suppliers at extra cost. Your dealer has details and, before ordering, you should ask him to bring you up to date.

The right is reserved to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, and models. Check with your GMC Dealer for complete information.

A WORD ABOUT ASSEMBLY, COMPONENTS, AND OPTIONAL EQUIPMENT IN THESE GMC PRODUCTS: The GMC Trucks described in this catalog are assembled at facilities operated by General Motors. These vehicles incorporate thousands of different components produced by car and truck groups and various component divisions of GM and by various suppliers worldwide to General Motors. From time to time during the manufacturing process, it may be necessary, in order to meet public demand for particular vehicles or equipment, or to meet federally mandated emissions, safety and fuel economy requirements, or for other reasons, to

produce GMC products with different components or differently sourced components than initially scheduled. All such components have been approved for use in GMC products and will provide the quality performance associated with the GMC name.

With respect to extra-cost optional equipment, make certain you specify the type of equipment you desire on your vehicle when ordering it from your dealer. Some options may be unavailable when your truck is built. Your dealer receives advice regarding the current availability of options. You may ask the dealer for this information. GM also requests the dealer to advise you if an option you ordered is unavailable. We suggest that you verify that your truck includes the optional equipment you ordered, or, if there are changes, that they are acceptable to you.

These vehicles also are available under the Chevrolet nameplate as the Astro Cargo Van and Series 10/20/30 Chevy Van.

A WORD ABOUT UPDATED SERVICE INFORMATION: GMC Truck and Coach Operation regularly sends its dealers useful service bulletins about GMC Truck products. GMC Truck and Coach Operation monitors product information in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll free 1-800-551-4123.
