

GMC SAFARI

TRUCK 1991

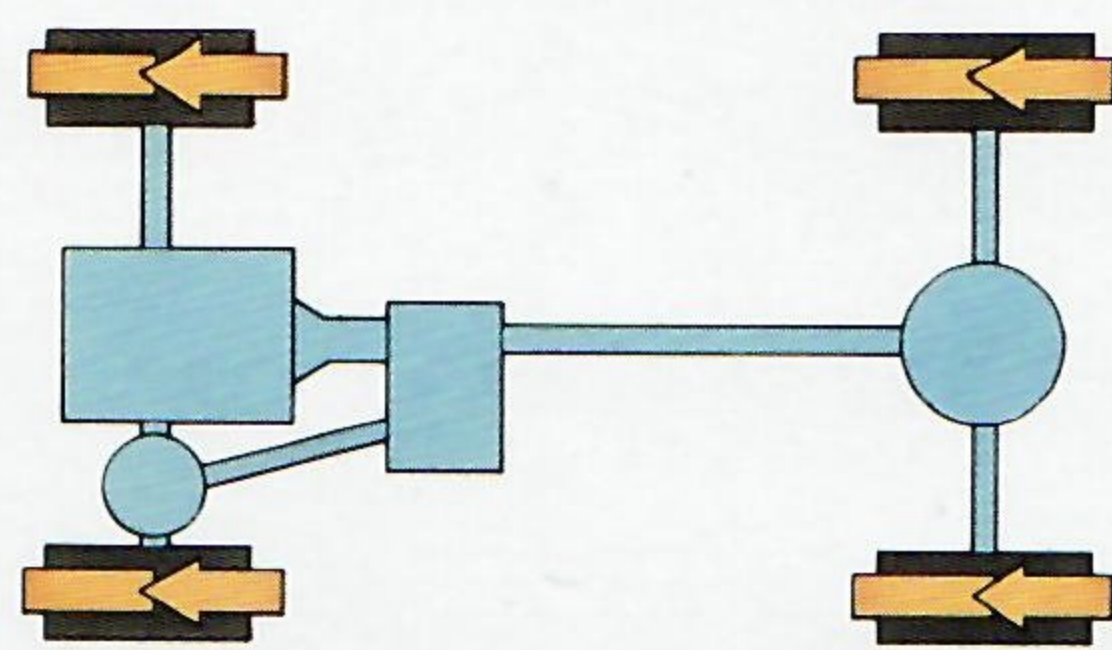

GMC TRUCK
It's not just a truck anymore..

THE LUXURY OF FOUR-SEASON LIVING

NO OTHER MID-SIZE VAN OFFERS MORE ADVANTAGES... WINTER, SUMMER, SPRING OR FALL.

Safari offers some of the most advanced features in its class. For example: All Wheel Drive Models that grip the road with four driving wheels instead of two. That means improved traction on roads slick with rain, snow, sleet or ice. And because it's a full-time all wheel drive system, it delivers maximum traction automatically, with no levers to shift or buttons to push.

XT extended body models with an extra 18.6 cu ft of cargo volume let you carry more luggage and other gear on vacation trips or weekend outings.

Standard 4-wheel anti-lock brake system adds to driving confidence under all weather and road conditions (see page 9 for details).

More trailering muscle than any non-GM mid-size van — up to 6000 lb for properly equipped models.

SLT

Highest V6 power in its class with standard or available 4.3 Liter Vortec V6 engines.

Plus, all these standard features: ☐ 4-speed automatic overdrive transmission ☐ Power brakes ☐ Variable-ratio power steering ☐ Independent front suspension ☐ Integral body-frame construction ☐ Swing-out rear doors ☐ Payloads up to 1935 lbs on 4x2 XT models ☐ Steel-belted, radial-ply All Season tires ☐ Truck-size maximum cargo area: 151.8 cu ft for regular models, 170.4 cu ft for XT models ☐ Base coat/clear coat exterior paint ☐ Tinted glass all around (deep-tinted on Safari SLT) ☐ Halogen headlamps ☐ 27-gallon fuel tank ☐ Heavy-duty 630 CCA battery ☐ Remote-controlled fuel filler door ☐ Intermit-tent windshield wipers ☐ Headlamp warning chimes ☐ Gage-type instru-ment cluster ☐ Electronically-tuned

AM/FM stereo radio with seek-scan, digital clock and premium speakers ☐ Cigarette lighter with ashtray illumina-tion ☐ Convenience tray ☐ Energy-absorbing steering column ☐ Lap and shoulder safety belts at all outboard seating positions ☐ Deluxe heater/ventilation system with windshield and side window defoggers.

THE ULTIMATE IN SAFARI ELEGANCE. From its striking exterior paint to its luxurious interior decor, SLT is the most lavishly appointed model in the Safari lineup.

For the exterior, choose one of two special solid paint colors — Catalina Blue Metallic or new Slate Metallic. Rally wheels are painted to comple-ment the exterior color scheme. Other distinctive touches include deep-tinted window glass, swing-out rear door glass, black body side moldings with bright trim and an air dam with fog lamps.

The spacious SLT interior features special bench and bucket seats with folding armrests. Bucket seat backs recline and have adjustable headrests. All seats are covered with rich Velour Cloth upholstery in Blue or Gray. Adding to the elegance are padded interior trim panels which match the seat upholstery, sport steering wheel, left hand rear compartment sidewall storage pouch with zipper and net-type storage pockets at rear of front seat backs.

"WEATHER" OR NOT, ALL WHEEL DRIVE IS ALWAYS READY TO GO

Safari's full-time all wheel drive grips the road with all four wheels for added traction in all kinds of weather. Features include automatic wheel slip control: If a wheel starts to lose trac-tion, power is transferred to the other wheels to help keep you moving. **Note: All Wheel Drive models are not intended for off-road usage.**

Instrument panel for all models features full-gage instrumentation, spacious storage box and convenience tray.

Safari SLT interior with available 8-person seating arrangement (rear seat center backrests shown folded down)

XT All Wheel Drive model with SLT trim and other available equipment

A GREAT WAY TO GET CARRIED AWAY

HOW TO MOVE A FAMILY IN STYLE AND COMFORT.

The mid-level SLE treatment is an attractive step up from standard models in interior luxury and exterior styling. It's available with either regular or XT extended body Safari models.

On the outside, SLE offers a tasteful balance of appearance features. These include a black and argent deluxe grille, Rally wheels, black wheel opening moldings, black body side moldings with bright trim, air dam with fog lamps and painted bumpers with color-keyed end caps and bright-trimmed black rub strips. Choose from 10 standard solid exterior colors, including new Fieldstone Gray Metallic.

You can add to all of this with a variety of available items, such as Custom or Deluxe two-tone paint scheme, deep-tinted glass and color-coordinated cast aluminum wheels. SLE 4x2 models can be ordered with a special GT sport package consisting of distinctive appearance items plus selected chassis equipment for high-performance ride and handling (see page 8 for additional details).

PLENTY OF SPACE PACKED WITH VALUE.

The handsome color-keyed interior is highlighted by rich Custom Vinyl or Custom Cloth seat trim in your choice of Blue, Saddle, Garnet or Gray. And there's exceptional value and comfort to match the luxury. High-back front bucket seats are included, along with a 3-passenger center bench seat.

Other tasteful touches include color-keyed floor carpeting and carpet trim

SLE

throughout, full-length headliner, front door storage pockets, custom steering wheel and interior trim panels with decorative cloth inserts.

A long list of standard conveniences includes a gage-type instrument cluster with trip odometer and electric speedometer, headlamp warning

chimes, retractable coat hooks, cigarette lighter with ashtray illumination, convenience tray and stepwell lamps.

SLE also comes with swing-out rear door glass, tinted window glass all around, color-keyed floor mats, illuminated right-hand visor mirror and combination front dome/dual reading lamps.

Want even more comfort and luxury? Select from a wide array of available options like reclining high-back bucket seats with armrests, new front passenger underseat storage compartment, Delco radio equipment, air conditioning and overhead storage console with dome and reading lamps.

SLE interior shown with Custom Cloth seat trim and available 8-person seating. See page 11 for available seating arrangements.

Every Safari model has a standard 4-wheel anti-lock brake system teamed with power front disc/rear drum brakes. See page 9 for details.

XT All Wheel Drive model with SLE trim and other available equipment.

A VAN LOAD OF STANDARD VALUE

IF YOU THINK IT JUST LOOKS GOOD,
BETTER TAKE A SECOND LOOK.

That's because this smartly-styled Safari comes with a wide array of features and equipment you might not expect in a standard model. For example: ☐ Full-gage instrumentation ☐ Intermittent windshield wiper system ☐ Tinted glass all around ☐ Electronically-tuned AM/FM stereo radio with seek-scan, digital clock and premium speakers ☐ Front door storage pockets ☐ Deluxe heater/ventilation system with side window defoggers ☐ Remote fuel filler door release ☐ Winch-type spare tire carrier ☐ Halogen headlamps ☐ Heavy-duty battery.

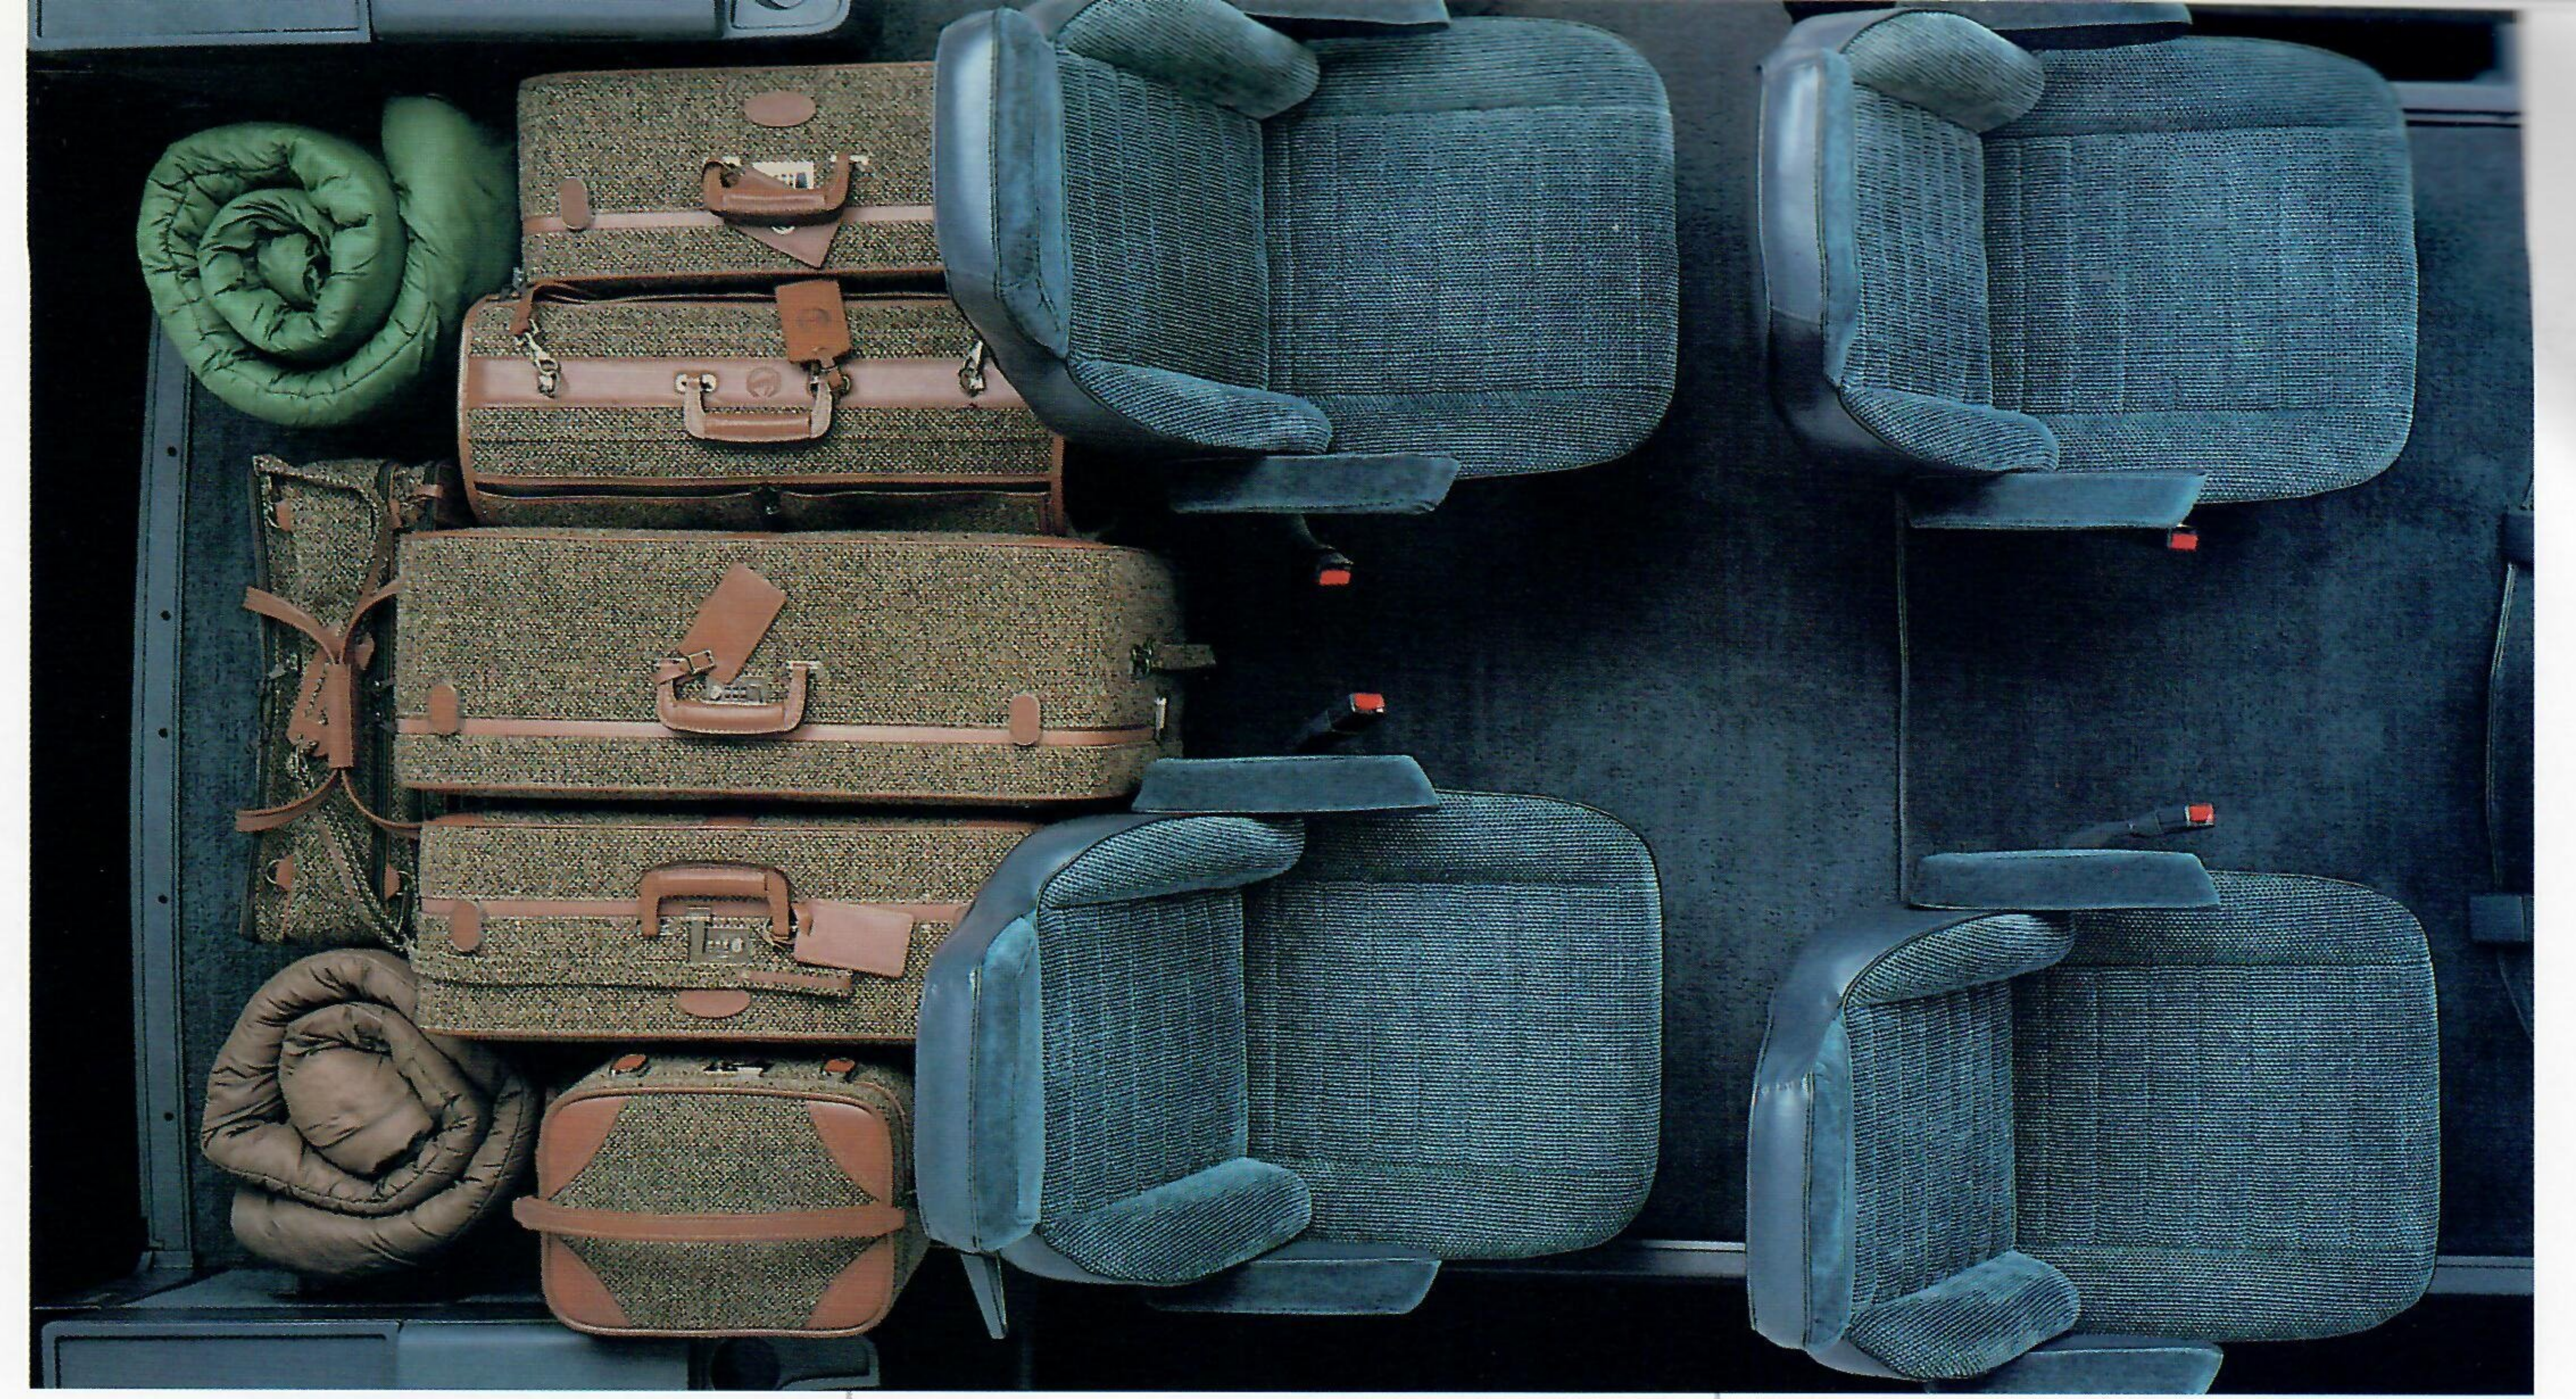

SLX

Interior comfort begins with high-back front bucket seats and a 3-passenger center bench seat, all with practical Vinyl upholstery in your choice of Blue, Saddle, Garnet or Gray. Or select available Custom Vinyl or Custom Cloth seat trim in the same colors. (See page 11 for available seating arrangements.) Adding to the decor are a full-

length cloth headliner and color-keyed carpeting for the floor and wheel-housings.

Outside, SLX is distinguished by such sporty touches as a black grille, black rearview mirrors and blackout paint on body and door areas between the windows. Black plastic front bumper guards are included on All Wheel Drive models. Choose from 10 standard solid paint colors, including new Fieldstone Gray. Painted bumpers are keyed to the exterior color scheme.

SLX trim is available in the full range of Safari model choices: rear wheel drive, all wheel drive, regular or extended (XT) body length.

New available slide-out compartment provides convenient storage space under the front passenger seat. This handy addition can be ordered for all Safari models.

SLX interior with Custom Cloth seat trim. With 7-person seating, this Safari provides 83.7 cu ft of cargo space. Or remove the bench seat, as shown, and cargo space increases to 102.3 cu ft.

XT All Wheel Drive model with SLX trim and other available equipment

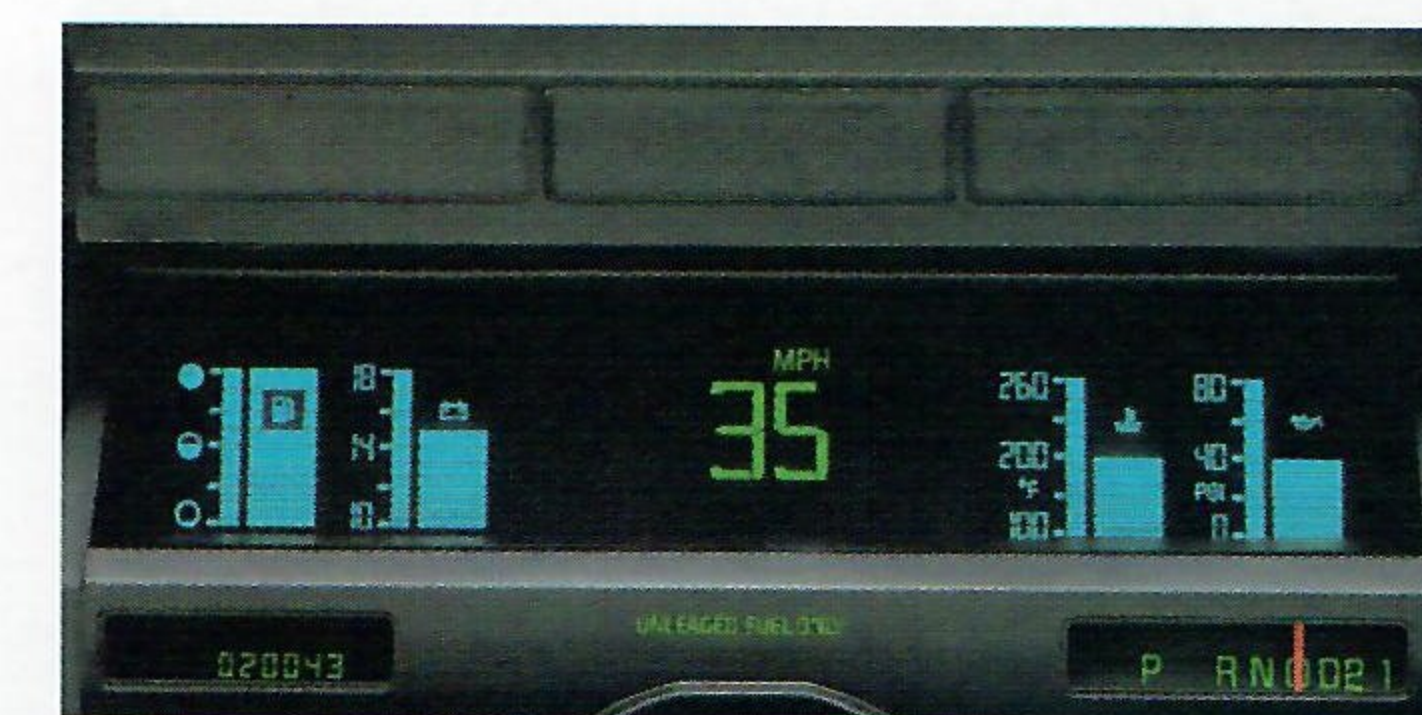

Stretch your cargo capacity with a Safari XT extended body model. It adds 10 inches in body length to open up an extra 18.6 cu ft of space for luggage and other gear.

QUALITY ADDITIONS

EXTRA STYLE AND PLEASURE.

Safari can be ordered with a variety of available options, some of which are described on this page and on page 10.

Appearance and convenience equipment includes: ☐ New underseat storage compartment for front passenger seat ☐ Electronic instrumentation ☐ Electronic speed control/tilt steering wheel package ☐ 6-way power adjuster for driver's seat ☐ Black roof-mounted luggage carrier ☐ Chromed front and rear bumpers ☐ Interior roof console.

Electronic instrumentation

Front air conditioning

Aluminum wheels

Rally wheels

Delco full-feature AM stereo*/FM stereo radio

OPTIONS

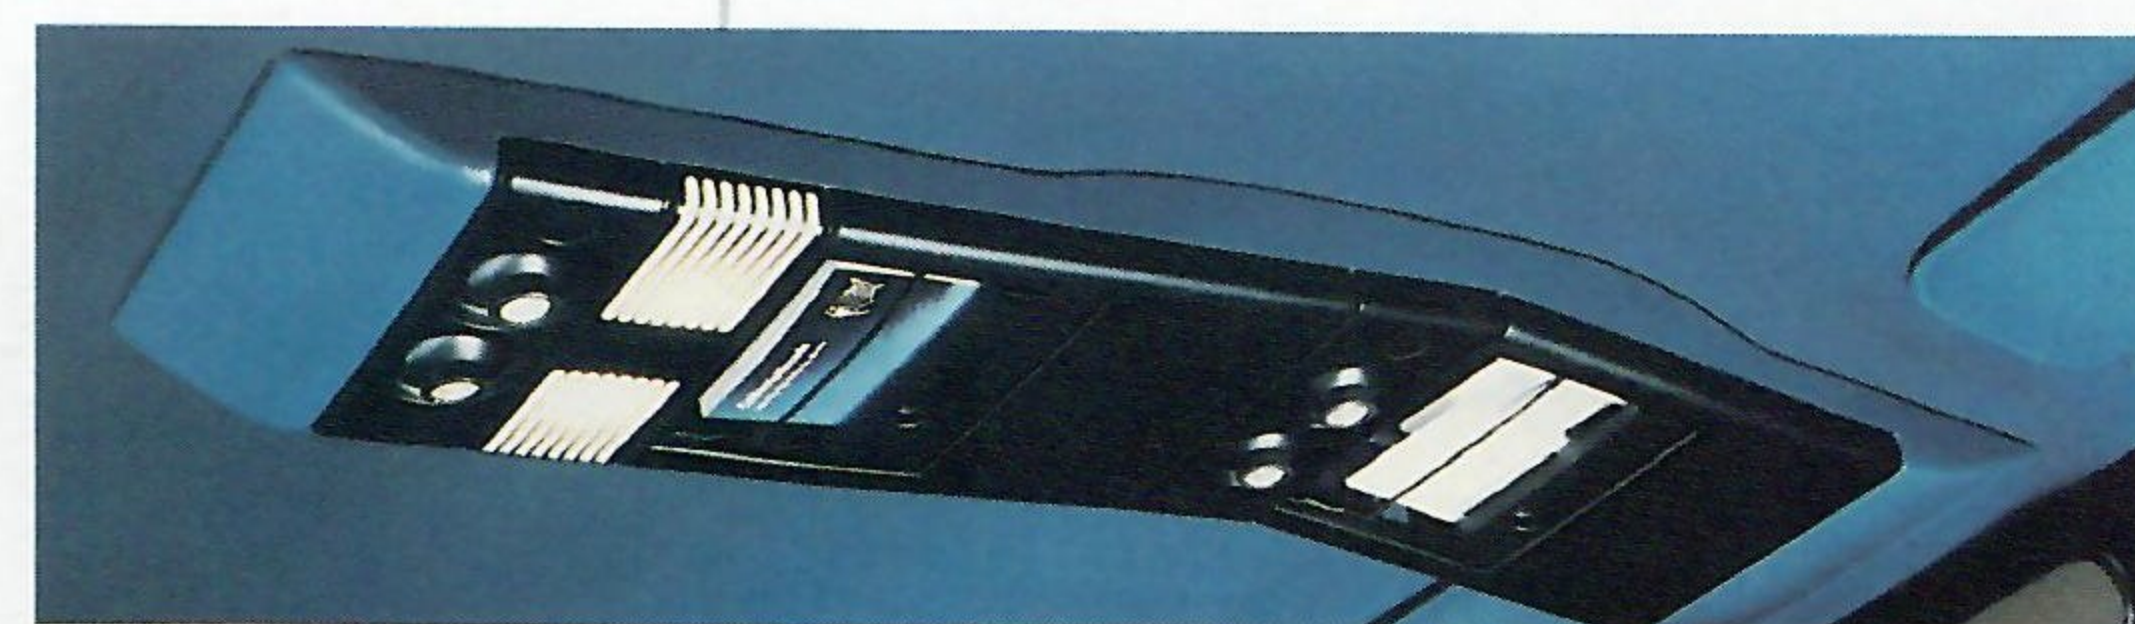

Delco radio equipment (electronically-tuned) includes: ☐ AM/FM stereo radio with stereo cassette tape, seek-scan, digital clock and premium speakers ☐ Full-feature AM stereo*/FM stereo radio with seek-scan, stereo cassette

Tilt steering wheel**

6-way power adjuster for driver's seat

Roof storage console with dome and reading lamps

Safari GT package for 2-WD models adds a sporty touch, plus a special road-hugging suspension. Exterior features include a blacked-out grille, window and bumper treatment with gold accent striping. Plus front bumper rub strips and body side and rear moldings with gold color accents, simulated air exhaust louvers (except XT models), air dam with fog lamps and Rally wheels. Shown with available Special Two-Tone paint and aluminum wheels.

*Receives C-Quam® AM stereo broadcasts. Most AM stations across the country broadcast in C-Quam, but some do not. Check with your local stations for compatibility in your area.

tape with search & repeat, graphic equalizer, digital clock and premium speakers.

Chassis equipment includes: ☐ Locking differential rear axle ☐ Engine oil cooler ☐ HD radiator with transmission oil cooler ☐ Sport suspension.

**Part of a convenience package. Consult your GMC Truck dealer for details.

SOLID VALUE FOR THE MONEY

BUILT FOR PERFORMANCE AND DEPENDABILITY.

Here are just a few of the features that make Safari a pleasure to own:

Four-wheel anti-lock brake system is designed to improve a driver's ability to stop without skidding, by allowing the wheels to keep turning as the vehicle slows.

Electric speedometer provides accurate readings; there's no cable to break or make noise.

FEATURES

27-gallon fuel tank allows plenty of miles between fill-ups.

Power steering helps make Safari easy to drive.

Advanced suspension components like computer-selected front coil springs (2-WD) or torsion bars (AWD), help

provide a quality ride.

Swing-out rear doors are a big convenience. Unlike vans with rear lift-gates, Safari's double rear doors don't interfere with access to roof-mounted luggage.

Integral body-frame construction adds to structural rigidity and helps reduce body noise.

Anti-corrosion protection includes the use of 2-side galvanized steel for all body panels except the roof.

A POWERFUL STATEMENT OF PERFORMANCE

HIGHEST V6 POWER IN SAFARI'S CLASS.

The standard 4.3 Liter Vortec V6 pumps out 150 SAE net horsepower at 4000 RPM for impressive performance and towing ability.

If you want the ultimate in 2-WD Safari performance, specify the available high-output 4.3 Liter H.O. Vortec V6. Equipped with high-lift camshaft, dual tail pipes and low-restriction sport muffler, this aggressive engine delivers a whopping 170 SAE net HP at 4600 RPM. It's an ideal power choice for big loads and heavy towing (not available on All Wheel Drive models).

Both engines are improved for '91 with new spark plugs for enhanced cold

ENGINES

starting and driveability. A new starter motor plus fuel system revisions add to reliability. Other features include: ☐ Electronic Fuel Injection for quick starts and smooth performance ☐

Electronic Spark Control to help control spark knock while maintaining optimum advance firing characteristics ☐ Anti-friction hydraulic valve lifters for operating efficiency ☐ Single-belt accessory drive designed for automatic adjustment and long service life.

Both engines are teamed with a 4-speed automatic transmission with overdrive. You get the convenience of an automatic plus the advantages of overdrive.

VORTEC V6 ENGINE SPECIFICATIONS

DISPLACEMENT/CONFIGURATION	4.3L (262 CID) V6	
Engine Ordering Code	LB4	LU2 (1)

SAE Net Torque (lb-ft) @ RPM	230 @ 2400	225 @ 2800

1 - High-output version, available for 2-WD models only.

TOPS IN ITS CLASS FOR TOWING.

A properly equipped Safari can tow gross trailer weights up to 6000 lbs. That's more pull than any non-GM van in its class. Gross trailer weight includes trailer, passengers and cargo in the trailer and equipment on the trailer.

To put it another way, a properly equipped Safari can move up to 10,000 lb Gross Combination Weight, which includes the weight of everything going down the road. The chart at right shows the maximum allowable Gross Combination Weight Rating (GCWR) based on all standard and available engines and rear axle ratios.

Light- and heavy-duty trailering equipment packages are available to help you properly outfit your Safari for towing a

TRAILERING

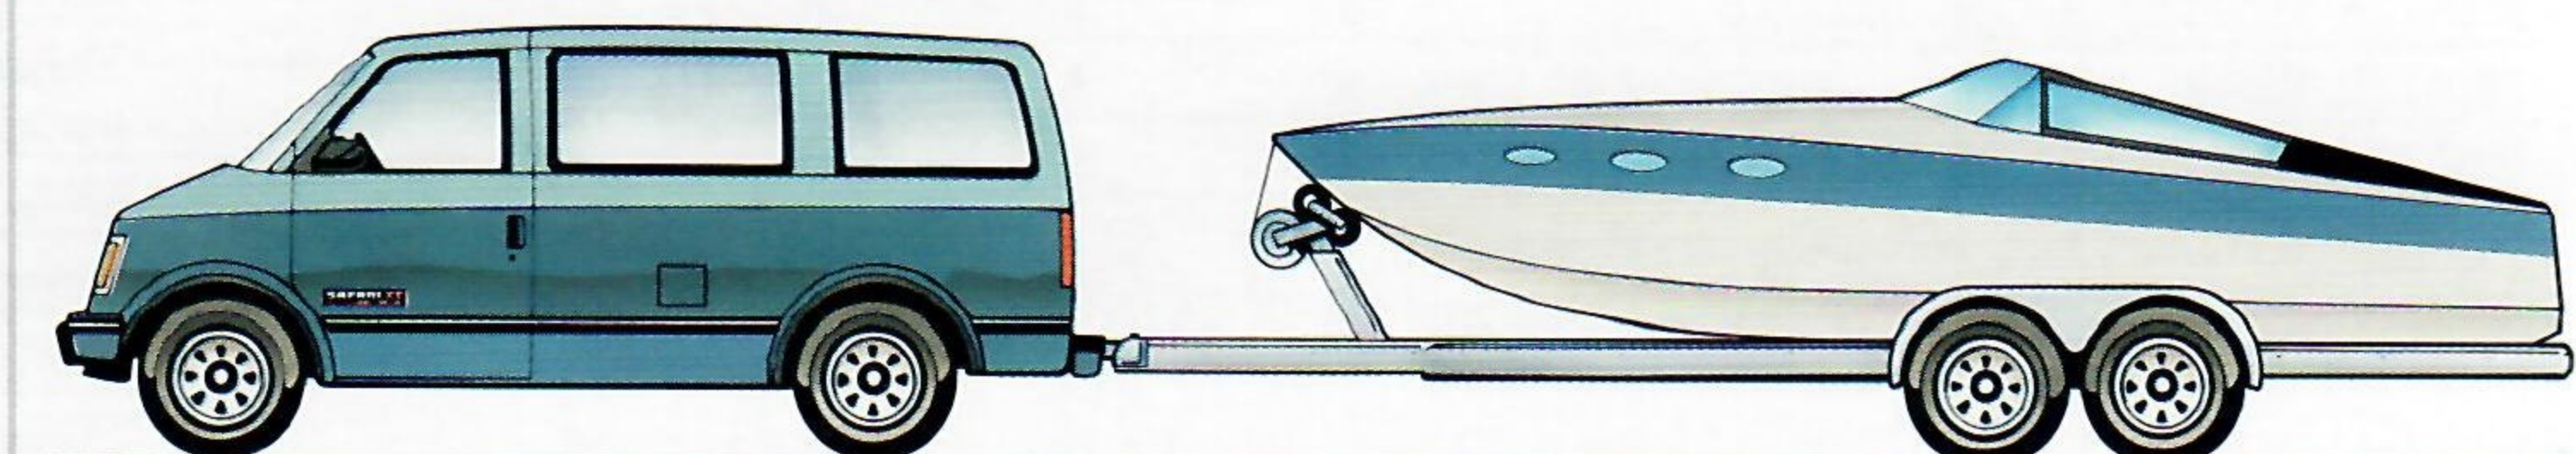

trailer. See your GMC Truck dealer for package content.

For complete details about recommendations and requirements for trailering, ask your dealer for the 1991 Trailering Guide.

GROSS COMBINATION WEIGHT RATING (GCWR) (1) BY ENGINE AND AXLE RATIO

ENGINE/AXLE RATIO	GCWR (lb)
4.3L Vortec V6/3.23	9000
4.3L Vortec V6/3.42	9500
4.3L Vortec V6/3.73 (2)	10,000
4.3L H.O. Vortec V6/4.10 (2) (3)	10,000

1 - Includes truck, trailer, passengers, cargo and equipment on truck and trailer.
2 - Requires available heavy-duty trailering equipment.
3 - 2-WD models only.

Safari can be equipped to pull big trailer loads

THE REASSURANCE OF GMC TRUCK VALUE

VEHICLE WARRANTY

The GM 3-year/50,000-mile BUMPER TO BUMPER PLUS WARRANTY covers repairs for any new GMC Truck model, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. The complete vehicle (except tires, which are covered by their manufacturer) will be covered for 3 years or 50,000 miles, whichever comes first. After the first year or 12,000 miles, there is a \$100 deductible per repair visit. Body sheet metal rust-through from corrosion is covered for 6 years or 100,000 miles, whichever comes first. There is no deductible for rust-through repairs. See your GMC Truck dealer for terms of this limited warranty.

DEALER SERVICE

Commitment Plus is one of the most complete joint sales and service customer satisfaction programs available on trucks today (retail sales only). It offers the following benefits:

- A thorough pre-delivery vehicle inspection

- One full tank of fuel
 - Complimentary 3000-mile maintenance service including oil change and oil filter
- GMC Truck and GMC Truck Dealerships are truly committed to making our trucks easy to live with. Our customers' total satisfaction is indeed our goal!

1991 GMC TRUCK SAFETY FEATURES

OCCUPANT PROTECTION: ☐ Manual lap/shoulder safety belts, outboard front and rear seat positions ☐ Manual lap safety belts, center rear seat positions ☐ Energy absorbing steering column ☐ Energy absorbing instrument panel ☐ Energy absorbing seat back tops, front ☐ Interlocking door latches ☐ Locking seat backs, front and rear ☐ Safety armrests ☐ Break-away inside rear view mirror ☐ Security door locks and door retention components.

ACCIDENT AVOIDANCE: ☐ Side marker lamps and reflectors ☐ Parking lamps that illuminate with headlamps ☐ Four-way hazard warning flashers ☐ Back-up lamps ☐ Directional signal control with lane change feature ☐ Windshield defroster, washer and multi-speed wipers ☐ Outside left and right rearview mirrors ☐ Brake system with dual master cylinder and warning light ☐ Starter safety switch ☐ Dual action hood latch ☐ Low glare finish on inside windshield moldings, wiper arms and blades, metallic steering wheel surfaces ☐ Illuminated heater and

defroster controls ☐ Tires with built-in tread wear indicators ☐ Four-wheel anti-lock brake system.

IMPORTANT: A WORD ABOUT THIS CATALOG.

We have tried to make this catalog as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment, specifications, models and availability. Also, tires shown in illustrations are supplied by various manufacturers. Since some information may have been updated since the time of printing, please check with your GMC Truck dealer for complete details.

A WORD ABOUT ENGINES.

GMC Truck models are equipped with engines produced by the GM Engine Division, its subsidiaries or suppliers to GM worldwide.

A WORD ABOUT ASSEMBLY OF GMC TRUCK MODELS.

GMC Truck models are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. GMC Truck models incorporate thousands of components produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce GMC Truck models with different or differently sourced components than originally scheduled. All such components have been approved for use in GMC Truck models and will provide the quality performance associated with the GMC Truck name. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered or, if there are changes, that they are acceptable to you.

A WORD ABOUT UPDATED SERVICE INFORMATION.

GMC Truck Division regularly sends its dealers useful service bulletins about GMC Truck products. GMC Truck Division monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call 1-800-551-4123.

A WORD ABOUT CORROSION PROTECTION.

GMC Truck models are designed and built to resist corrosion. All body sheet metal components are warranted against rust-through corrosion for 6 years/100,000 miles. Application of additional rust inhibiting materials is not required under the corrosion coverage.
