mitsubishicars.com We are Mitsubishi. We build quality cars. Yet we also offer something more. Because while a car should answer your needs, it should also stir your emotions. Like it or not, cars are a window through which the world views us. Through that window we can appear dull and lifeless—sensible to the point of boring. Or we can show the world that our hearts beat strong, and our minds are quick. Mitsubishi takes pride in building cars that ignite the vital spark which often lies sleeping just beneath the surface in each of us. Cars that challenge us **to wake up and drive.**™

mitsubishicars.com/heritage For over forty years, we've put thoughtful engineering to the test on the international rally circuit. In addition to the obvious thrill of winning, competing against our peers in motor sports helps us develop and refine new ideas. Ideas that find their way to your new car. And inevitably, your heart.

Litho in USA on Recycled Paper 

mitsubishicars.com/eclipse
Forget about traveling incognito. The Eclipse is sleek and strong. And its available 200-hp, 3.0-liter V6 will effortlessly introduce the back of your head to the headrest. But the Eclipse isn't just about power. It's also about getting that rush of confidence in every turn. Four-wheel independent suspension and power-assisted rack-and-pinion steering give the Eclipse tight, accurate and very responsive steering.

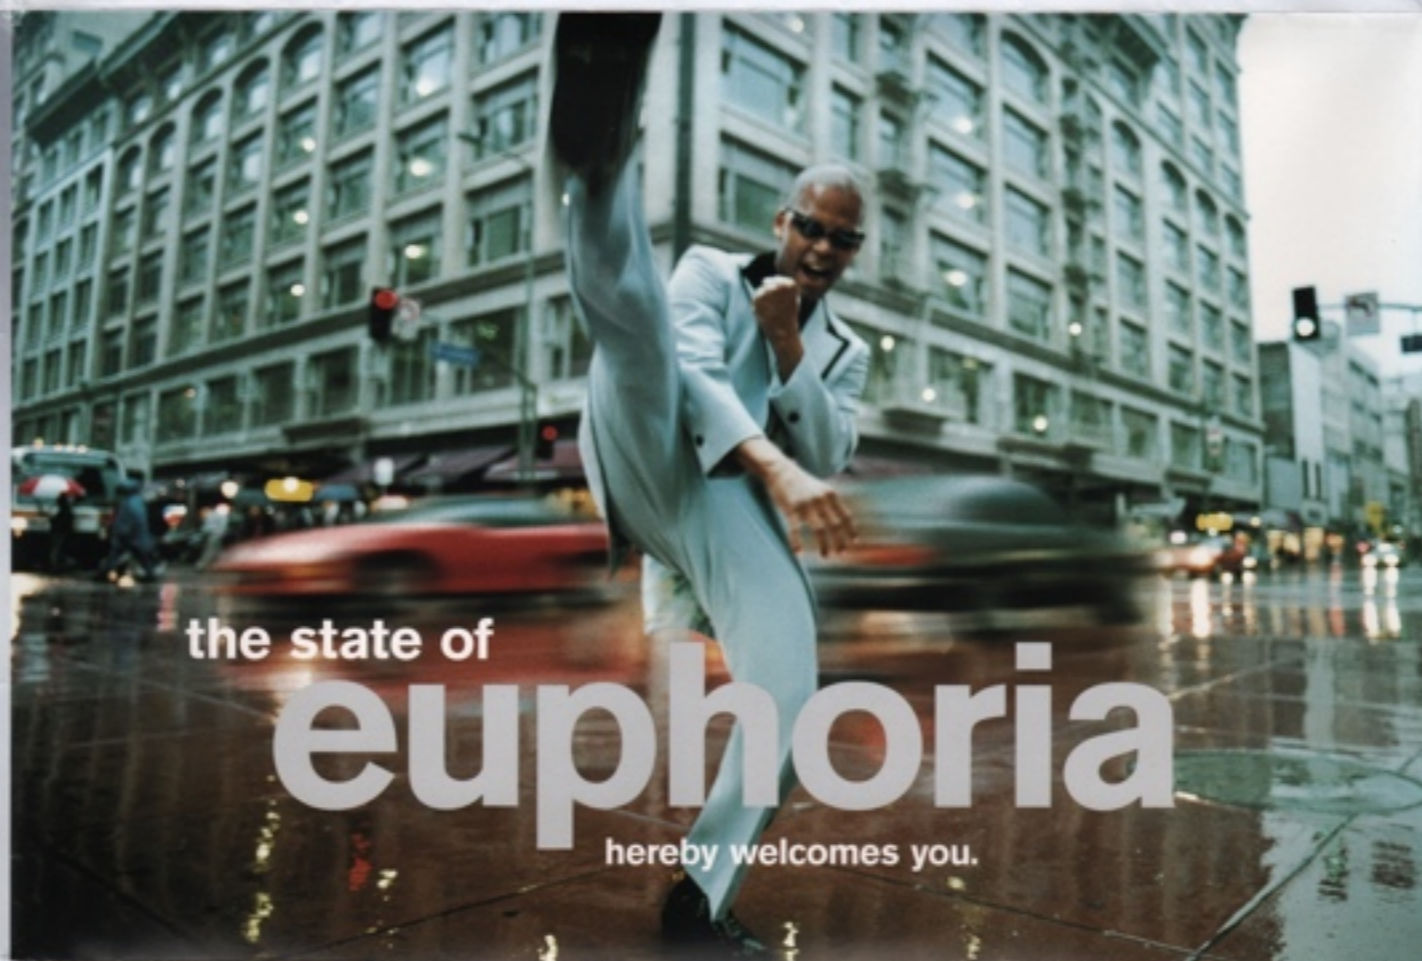

mitsubishicars.com/monterosport
The Montero Sport is a rugged SUV that performs daily chores and weekend adventures with some serious style. It's all about avoiding anonymity like the plague. This year, every 4WD model includes all-wheel drive as its default drive system. So you get a surefooted, stick-to-the-pavement ride. Feel free to humble a mountain, divide a stream, or simply teach the snow a simple lesson in traction.

mitsubishicars.com/galant
When you drive the Galant, you can't help being anything but a dashing, smart, powerful, sexy, yet downright practical individual. Oh right, humble, too. Check out the new rear. We matched the decklid trim to the body color for a bit more sophistication. And the front end has a little more of an edge, with aggressive sculpting and an aerodynamic bumper. Try and find a boring angle. There isn't one.

mitsubishicars.com/spyder
If you believe in a car that can provoke and inspire, get behind the wheel of an Eclipse Spyder. And get ready to reacquaint yourself with Mr. Moon and Mr. Sun. Just release the two roof latches and push a button—the top and all four windows lower automatically. Drive. Cruise. Get lost. Drive some more. The Spyder is a car designed to remind you of the value of having no particular place to go.

the state of
euphoria
hereby welcomes you.

mitsubishicars.com/diamante
Without boasting or bragging, the Diamante cuts an impressive swath wherever it travels. The front is more aggressive. The taillights have been redesigned. And the rear decklid is not only striking in its simplicity, but also aerodynamically smart. And its 3.5-liter V6 is designed to deliver an aggressive level of torque. Maybe you're not comfortable being the center of attention. Don't worry. It'll grow on you.

mitsubishicars.com/mirage
Mirage creates good vibes even before you get behind the wheel. Maybe it's the look—kind of sleek, a bit edgy. But once inside, you'll find creature comforts galore. It offers everything from air conditioning, power windows and door locks, and a one-touch power sunroof, to an 8-way adjustable driver seat, cruise control, power sideview mirrors, and map lights. It all adds up to one fully stocked, fully stoked machine.

mitsubishicars.com/montero
Montero is the only SUV that combines 4-wheel independent suspension and a unibody chassis, with the capabilities of a truly world-class, off-road vehicle. And the heart of its technology is the Active Trac™ drive system. That doesn't mean we won't draw your attention to a few choice design elements: an aggressive front end with taut, muscular fenders and sleek side windows. Yes, rocks will fly. Heads will turn.

mitsubishicars.com/lancer
The all-new Lancer is an affordable, roomy sedan that marches to its own beat, making it especially well-suited for those who cringe at the typical, who yawn at the mundane. Sleek headlights. Sculpted sides. And a powerful 2.0-liter, 16-valve engine at your beck and call. It's a 2,700-pound contradiction on wheels. (The contradiction being how you get so much for so little.)
