

SUBURBAN CELEBRATES 75 YEARS

Chevy Suburban continues to set industry milestones: the world's first SUV is now celebrating its 75th Anniversary. For 2010, this iconic American utility vehicle stays true to its roots by delivering maximum room for people and cargo, authentic capability — and a style befitting the active families who depend on it every day. There are two models to choose from — half-ton and three-quarter-ton — so there is a Suburban to fit every family — even if you need reservations for nine.¹ With the help of Active Fuel Management technology, Suburban half-ton 2WD has better fuel economy than any of its competitors, including Ford Expedition, Toyota Sequoia and Nissan Armada.² Not only does it win at the pumps, Suburban also beats competitors with 137.4 cubic feet of maximum cargo capacity.³
