

## Police Vehicle Special Order (VSO)

Providing law enforcement with exclusive paint and equipment.

**More standout:** 2015 Ford Police Interceptor® Sedan and Utility equipped with VSO lighting options.

Fire Engine Red

Sheriff Tan

Forest Green

Silver-Gray

**Current VSO paint and equipment availability.** VSO offers a variety of unique paint finishes; featured above are samples of popular VSO colors. In addition, VSO lighting packages offer a distinctive appearance and help ensure adherence to state law requirements. VSO wraps are also available for a custom look. To view the most current VSO paint and equipment options, have your dealer representative access the VSO Order Guide via [fleet.ford.com](http://fleet.ford.com). This guide is live and options are always up to date.

**Customized paint, wrap and lighting options – VSO inquiries.** New options are initiated by a customer request called a “VSO inquiry” that your dealer representative submits. All requests are received and reviewed by the VSO department to ensure the end product is compatible with regular and limited production operations. The approved end product must also meet Ford Motor Company standards for quality, durability, safety and performance.

**VSO production timing.** Vehicles produced with existing VSO options take 60-90 days to go from order receipt to production. For vehicles with newly developed VSO options, please take into account the development timing provided in response to your VSO inquiry. For your fleet planning purposes, VSO production typically begins a month after Job One and balances out a month prior to Job Last.

**For additional assistance, contact VSO directly at 1.800.34.FLEET.** Select “2” for the Fleet Customer Information Center and then “1” for VSO.
