

2019 FEDERAL GOVERNMENT PRODUCT HIGHLIGHTS

FORD FLEET

WE CAN HELP
FEDERAL AGENCIES
RUN SMOOTHLY

We're on contract with the U.S. General Services Administration (GSA), and we fully understand the diverse needs of government agencies. Offering you an extensive fleet lineup – from enviable Built Ford Tough® trucks, vans and wagons to an electric variety of law-enforcement vehicles – our aim is to help you get the job done efficiently *and done right.*

HERE'S WHAT WE
HAVE TO OFFER

Ford Electrics & Alternatives	1
Ford Co-Pilot360™ Technology	2
GSA Standard Matrix	4
New 2019 Fusion	6
New 2019 Fusion Hybrid & Fusion Energi	7
2019 Escape	8

2019 Super Duty® Pickup	30
2019 Super Duty Chassis Cab	32
2019 E-Series Cutaway & Stripped Chassis	33
Light Truck Vocational Body Line Items	34
Roadside Assistance & Maximum Trailer Weights	36

Explorer Limited Hybrid. Blue Metallic. Available equipment.

WITH FORD FLEET, YOU CAN
BE TRULY ELECTRIFYING

We give your agency the power of choice when it comes to electrified vehicles (EVs). With EVs as an integral part of your fleet mix, everyone can benefit from lower carbon emissions.

- **Our all-new 2020 Explorer 3.3L V6 Hybrid** offers you capability and performance in a fuel-efficient package. Its 3.3L hybrid powertrain is projected to produce 318 hp and bring over 5,000 lbs. of towing brawn; an EPA-estimated range of more than 500 miles between gas station fill-ups is targeted for the rear-wheel-drive model!
- **Our popular Fusion Hybrid** can operate in all-electric mode at speeds up to 85 mph, or when standing still. Electric power and gas power balances automatically.
- **Our progressive Fusion Energi Plug-In hybrid** allows you to charge the high-capacity battery to drive like an EV for short routes, or travel in conventional hybrid style over long distances.
- **Our no-trade-offs, all-new 2020 Police Interceptor Utility 3.3L V6 Hybrid** – the first-ever pursuit-rated hybrid police utility – outperformed all police utility competitors (including V8-equipped models) that participated in official testing² It comes hot on the heels of the Police Responder Hybrid Sedan and Special Service Vehicle Plug-In Hybrid Sedan.

More smart choices to help reduce your motor vehicle fleet petroleum consumption: EcoBoost® and alternative fuels.

- **Our range of EcoBoost engines³** are the standard-bearers of potential fuel-efficiency gains and reduced CO₂ emissions in gasoline-powered vehicles, thanks in no small part to turbocharging and direct fuel injection. EcoBoost technology has been used in more than 8 million engines worldwide.
- **Our flexible-fuel vehicles (FFVs)** thrive on E85, unleaded gasoline, or any blend of the two.
- **Our 6.7L Power Stroke® V8 engine** performs on B20 biodiesel, petrodiesel, or a mix of both.
- **Our CNG (compressed natural gas)/Propane Gaseous Engine Prep Package** is available for upfitting on a number of our Built Ford Tough® vehicles.⁴

¹Actual range will vary. Final EPA-estimated ratings available in the 2019 calendar year. ²Based on Michigan State Police 2019 Model Year Police Vehicle Evaluation Program results for 0-60 mph, 0-80 mph, 0-100 mph, top speed, and lap times. ³Feature availability varies by model. ⁴Upfit through a Ford Qualified Vehicle Modifier (QVM). Vehicle will be equipped with the standard factory gasoline fuel system. This package does not include CNG/propane fuel tanks and lines, etc. See your dealer for details.

INTRODUCING FORD CO-PILOT360™ TECHNOLOGY¹ TO HELP KEEP YOU IN COMMAND

In an increasingly crowded and distracted world, we can all use more confidence on the road. Our smart, advanced Ford Co-Pilot360 confidence-driving technology is there to help you.

PRE-COLLISION ASSIST WITH AUTOMATIC EMERGENCY BRAKING (AEB)^{1,2}

We should all drive defensively, but sometimes other people's lack of attention can create a hazard. This feature scans the road ahead and can alert you to potential collisions with vehicles or pedestrians detected in your path.³ If an impact becomes imminent and you don't take corrective action, the brakes can apply automatically. But don't worry – they'll only activate if they're needed.

EVASIVE STEERING ASSIST^{1,2,4}

Traffic is rolling along smoothly when suddenly there's a slow or stopped vehicle in your path. Evasive Steering Assist can help make it easier for you to avoid a collision. It doesn't steer for you, but it can provide extra steering support if the system's warning goes off and you need to maneuver around the vehicle ahead.

BLIS® (BLIND SPOT INFORMATION SYSTEM) WITH CROSS-TRAFFIC ALERT^{1,2}

How many times have you tensed up during an attempted lane change? BLIS can help detect and alert you to vehicles in your blind spots, while Cross-Traffic Alert can detect traffic behind you when you're slowly backing out of a parking space.

BLIS (BLIND SPOT INFORMATION SYSTEM) WITH TRAILER COVERAGE^{1,2}

It's rush hour. You've got a large item in tow. And you need to change lanes. The situation is a bit daunting. To help ease lane-change anxiety, this feature can alert you not only when a vehicle is spotted in your blind spot, but also when one is alongside your trailer.

REVERSE BRAKE ASSIST^{1,2}

Backing up just got a lot less stressful. Reverse Brake Assist can detect both stationary and moving objects behind your vehicle. Not only that, it can apply the brakes if you don't stop in time. The system can recognize vehicles crossing your path at up to 37 mph.

PRO TRAILER BACKUP ASSIST™^{1,2}

Whether you're a novice or a seasoned pro, backing up with a trailer can be challenging. This technology makes it as easy as turning a knob – simply rotate it in the direction you want the trailer to go, and Pro Trailer Backup Assist responds accordingly.

ACTIVE PARK ASSIST 2.0^{1,2}

Find the parking space that's just right. When engaged, Active Park Assist 2.0 can actually help locate a potential spot. Then all you have to do is brake to a complete stop, shift into neutral, and hold down the Active Park Assist button – your vehicle takes care of the rest. Park Out Assist with side-sensing capability is included so you can confidently navigate out of a spot when someone's parked too close.

LANE-KEEPING SYSTEM^{1,2}

It happens. Maybe you've wandered a little too close to the edge of your lane. The Lane-Keeping System can help, even during a moment of distraction. This feature scans your vehicle's position between the lines in the road ahead and can alert you if you're starting to edge out of your lane.⁵ Having trouble staying on track? After you've drifted a few times, you'll see a coffee cup icon letting you know it's time to take a break.

ADAPTIVE CRUISE CONTROL (ACC) WITH STOP-AND-GO AND LANE CENTERING^{1,2}

Few driving situations can feel as tedious as stop-and-go traffic. Not only does ACC help you keep pace on your journey, it also slows down your vehicle if the traffic ahead has stopped or slowed. As soon as things clear, you'll resume your set speed.⁶ Plus, the added Lane Centering feature even scans lane markings to help you keep your vehicle centered between the lines.

HILL DESCENT CONTROL™^{1,2}

Steep hills are often tricky to navigate, especially if you're towing a trailer. Hill Descent Control can help ease the situation by doing just what its name says. It helps you maintain a set speed when you're driving down an incline by automatically applying the brake when needed.

REAR VIEW CAMERA²

Between glancing in the rearview mirror and craning your neck, backing up requires a little multitasking. The Rear View Camera may not be an extra set of eyes, but it does provide a great view of what's behind your vehicle.⁷ Be sure to keep the camera lens free of debris (like dust and snow) and you can navigate Reverse with more confidence.

AUTO HIGH-BEAM HEADLAMPS^{1,2}

Now, unlit roads, dark peripheries, and other low-visibility situations don't have to catch you off guard. Auto High-Beam Headlamps can sense poor lighting conditions and switch on to light your path ahead. They can even sense oncoming headlamps and dim automatically, so you don't have to worry about blinding other drivers.

NAVIGATION^{1,2}

Whether it means missing a timed delivery or losing your cool, a wrong turn can put a dent in your day. But like a sherpa for trips large and small, the Navigation System can help you stay confidently on course. And that's not all – it can also point you to the nearest gas stations.

¹Feature availability varies by vehicle. ²Ford Co-Pilot360 technologies are supplemental and do not replace the driver's attention, judgment and need to control the vehicle. ³Pre-Collision Assist with Automatic Emergency Braking can detect pedestrians, but not in all conditions and does not replace safe driving. See owner's manual for system limitations. ⁴Evasive steering assist does not control steering. ⁵Lane-Keeping System does not control steering. ⁶If vehicle is stopped for more than 3 seconds, driver must intervene and press "RES" button or accelerator pedal to resume system operation. ⁷Camera only operates at speeds under 6 miles per hour.

¹Full-size pickups over 8,500 lbs. GVWR based on Ford segmentation. ²Final-stage manufacturer must supply control switches. ³Maximum capabilities shown are for properly configured vehicles with required equipment and a 150-lb. driver. Weight of additional options, equipment, passengers and cargo must be deducted from this weight. For additional information, see your Ford Dealer. ⁴Gooseneck rating shown. 5th-Wheel tow rating limited to 5th-Wheel hitch rating of 18,000 lbs. ⁵Gooseneck rating shown. 5th-Wheel tow rating limited to 5th-Wheel hitch rating of 27,500 lbs. ⁶Available on select models. Restrictions may apply. See your dealer for details. ⁷New for 2019.

2019 SUPER DUTY® CHASSIS CAB

Chassis Cabs Class¹
Models: XL, XLT, LARIAT
See chart for GSA Standard Item codes

EXTERIOR COLORS²

STANDARD FEATURES

7-wire-harness trailer tow (blunt-cut and labeled)	Front twin-coil monobeam suspension (F-350 4x4, F-450, F-550)
26.5-gallon (SRW)/40.0-gallon (DRW) fuel tank capacity	Front twin-I-beam with coil spring suspension (F-350 4x2)
Engine – 6.2L 2-valve VCT V8 FFV (F-350 SRW/DRW)	Manual transfer case and manual locking hubs (4x4 only)
Engine – 6.2L CNG/Propane Gaseous Engine Prep Package (optional)	Mirrors – Manually telescoping trailer tow (XL, XLT)
Engine – 6.8L Triton® SOHC 3-valve V10 (F-450/F-550 XL, XLT)	Stationary elevated idle control (SEIC)⁴
Engine – 6.7L Power Stroke® V8 Turbo Diesel (F-450/F-550 LARIAT)	SYNC® (XLT, LARIAT)
Fail-Safe Engine Cooling System (gas engines)	Transmission – TorqShift Heavy-Duty 6-speed SelectShift® automatic
Front tow hooks (2)	Upfitter switches (6)

STANDARD SAFETY & SECURITY

AdvanceTrac® with RSC® (Roll Stability Control™)
Airbags – Driver and right-front-passenger front, front-seat side, and Safety Canopy® System with roll-fold side-curtain airbags
Brakes – Power 4-wheel vented disc with Anti-Lock Brake System (ABS)
Child-safety-seat top tether anchors (Regular Cab front passenger and all rear seating positions on SuperCab and Crew Cab)

Height-adjustable front-outboard safety belts
Passenger airbag deactivation switch (Regular Cab and SuperCab)
SecuriLock® Passive Anti-Theft System (XLT, LARIAT)
Side-intrusion door beams
SOS Post-Crash Alert System™

FORD FLEET

North American Fleet, Lease & Remarketing Operations

Some features discussed may be optional. Vehicles may be shown with optional and aftermarket equipment and without standard antenna. Features may be offered only in combination with other options or subject to additional ordering requirements/limitations. Select features and packages are shown. Please visit fleet.ford.com for a complete Ordering Guide. Information in this Federal Government Product Highlights brochure was developed from Ordering Guides as of March 2019. Information is provided on an "as is" basis and could include technical, typographical or other errors. Ford makes no warranties, representations, or guarantees of any kind, express or implied, including but not limited to, accuracy, currency, or completeness, the operation of the information, materials, content, availability, and products. Ford reserves the right to change product specifications, pricing and equipment at any time without incurring obligations. All specifications and ratings based on preliminary data. Note: This brochure does not include all vehicles offered by Ford to the GSA. To view the full lineup, please visit GSA's AutoChoice website at gsa.gov/portal/content/100012. • Colors are representative only. Visit fleet.ford.com for actual paint/trim options. • For more information on AdvanceTrac® with or without RSC® visit fleet.ford.com. Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions. • Always wear your safety belt and secure children in the rear seat, if equipped, and follow airbag warning label instructions. • SYNC®: Don't drive while distracted. Use voice-operated systems when possible; don't use handheld devices while driving. Some features may be locked out while the vehicle is in gear. Not all features are compatible with all phones. Message and data rates may apply. • BANG & OLUFSEN™ and B&O™ are registered trademarks of Bang & Olufsen Group. Licensed by Harman Becker Automotive Systems Manufacturing Kft. All rights reserved. • HD Radio is a proprietary trademark of iBiquity Digital Corp. • After your trial period ends, Sirius XM audio and data services each require a subscription sold separately, or as a package, by Sirius XM Radio Inc. See SiriusXM Customer Agreement for complete terms at www.siriusxm.com. All fees and programming subject to change. Trial subscriptions not available in AK and HI. Sirius, XM, SiriusXM and all related marks and logos are trademarks of Sirius XM Radio Inc. • Sony is a registered trademark of the Sony Corporation. • The Bluetooth word mark is a trademark of the Bluetooth SIG, Inc.
