Family

Owning a Volkswagen means plenty of fun under the sun. It also means you're family. And where better for a family reunion than DriversFest, where you'll probably meet more than a few siblings you never even knew existed. There are test drives to enjoy, as well as car shows and live concerts. More you fancy? You might enjoy the perks of membership

Ain't that the truth. Especially if you're behind the wheel of one of the liveliest hatchbacks in the world. Be warned, though – once you get in it's hard to get out. Of course, that's not necessarily a bad thing. It simply goes to show there's something positively addictive about this energetic car. For some, **it's all about the German engineering.** For others, the shapely design. For others still, the endless trunk space. At the end of the day, it's all pretty subjective. But most drivers would agree it's the whole shebang. Maybe you can't have everything in this world, but you sure can come close.

3 Something special

Other than "It's got a cool name," what can be said about the Golf? More than you could imagine. But the one thing that stands out is the space. Whoever said looks can be deceiving must have been talking about the Golf, because for a car its size, it's got space galore. You might wonder to yourself where all of this space comes from. It matters not. What matters is that you can fit all your friends in the back. Or you can drive around with one good friend and pick up a smelly green chair together and put it back there. It's been known to happen. Just don't try to put your friends back there with the chair. It's not safe. And your friends will pick up a funky aroma.
