## ECONOCARGO® DELIVERS PROTECTION

## INTERIOR SYSTEMS PROTECT VEHICLE CARGO

EconoCargo Interior Systems by Masterack help protect cargo and interior sidewalls of the vehicle with durable panels, molded to fit the interior contours of E-Series Cargo Vans.

### ECONOCARGO INTERIOR SYSTEM FEATURES:

- **High-Density Polyethylene (HDPE) panels** cover the interior sidewalls from floor to ceiling, internal wheel well and fuel-filler housings and all door panels in the cargo area; the same style panels are also used to cover all swing-out cargo doors
- **Molded-in ribbing** provides rigidity and the convenience of a raised rub rail, while an E-Track on each side panel provides a quick and secure way to tie down large items. Each EconoCargo Interior System comes with one cargo strap for each side (2 provided)
- **Thermal insulation**, an aluminum and polyethylene film composite insulating material that covers the interior sidewalls, ceiling and door panels. Helps EconoCargo equipped E-Series Cargo Vans warm up fast in the winter and cool down quickly in the summer
- **Roof and cargo door material** is constructed of water-resistant laminated fiberboard with an aluminum foil facer to help with controlling cargo temperature
- **EconoCargo Interior Systems** include a full-width steel partition – now with an additional 3” setback for additional driver comfort

ECONOCARGO INTERIOR SYSTEMS INCLUDE HIGH DENSITY POLYETHYLENE PANELS WHICH COVER THE INTERIOR SIDEWALLS FROM FLOOR TO CEILING, AND A FULL-WIDTH STEEL PARTITION
