

The Government fuel figures do not express or imply any guarantee of the fuel consumption of any particular car. The cars themselves have not been tested and there are inevitably differences between individual cars of the same model. In addition, a car may incorporate particular modifications. Furthermore, the driver's style and road and traffic conditions, as well as the extent to which the car has been driven and the standard of maintenance, will affect its fuel consumption. **Insurance groups** are only as recommended by the Association of British Insurers. You should always consult your insurance adviser for confirmation. **Illustrations, descriptions and specifications.** This catalogue was correct at the time of going to print. However, Ford policy is one of continuous product development. The right is reserved to change specifications, colours and prices of the models and items illustrated and described in this publication at any time. For the latest details always consult your Ford Dealer. **Optional equipment.** Throughout this publication, wherever a feature is described as being an 'Option' or 'Optional Fitment/Pack', etc., you should assume that it will be at extra cost to the base vehicle, unless specifically stated to the contrary. All models and colour combinations are subject to availability. ***Ford Information Service.** Calls are charged at national rate and may be recorded for training purposes.

The British Allergy Foundation Seal of Approval is a European Community registered trademark.

The British Allergy Foundation considers that these products may, in proper use, reduce exposure to chromium, nickel, latex, grass pollen and, as part of additional tests by TÜV, other sensitising substances and volatile organic compounds. Assessment carried out by BAF indicates that an individual's exposure can be reduced but this does not mean that an individual's allergic symptoms will necessarily diminish. BAF's opinion applies only to the products and allergen stated. The product should be used only for its intended purpose and strictly in accordance with the manufacturer's instructions at all times. Exposure to allergen can be dangerous. If you believe that you may suffer from an allergy, you should seek medical advice. The British Allergy Foundation is a national charity (Charity Reg. No. 1094231) founded in 1991 with the aim of improving awareness, prevention and treatment of allergy. The Foundation encompasses all types of allergy and is managed by medical specialists from a variety of disciplines, including dermatology, ENT surgery, respiratory medicine, paediatrics, ophthalmology, immunology and gastroenterology. The Foundation is continuously striving to help sufferers to help themselves, often seeking ways to avoid, or reduce exposure to, relevant allergens. The Seal of Approval Scheme forms a part of this initiative and tests have been carried out on bedding covers, vacuum cleaners and carpets that are likely to benefit allergy and asthma sufferers. A full list of Seal of Approval holders is available by contacting: The British Allergy Foundation Helpline UK 44 (0) 20-8303-8583.

Because life can never have too much style

The Ford Focus C-MAX is a car that reflects the pace and diversity of contemporary living. Its design is as stylish as it is flexible, as contemporary as it is spacious. With maximum comfort, maximum confidence and maximum control, the Ford Focus C-MAX sets new standards across the board. Outstanding handling, premium quality craftsmanship, superlative performance and dynamic styling fuse with unique interior space and versatility. So wherever life takes you this week – from a client meeting to a party in town, the garden centre to the great outdoors – the Ford Focus C-MAX is ready and capable.

Some of the vehicle images in this brochure are of a pre-production model and/or are computer generated, therefore, the design/features on the final version may differ in various respects. In addition, some of the features shown on the vehicle may be optional.

Confidence at every turn, exhilaration on every drive

Maximum control and superb handling through Control Blade rear suspension system and Electronic Hydraulic Power-Assisted Steering* (EHPAS).

* Available on all engines except 1.6 Duratec and 1.6 Duratec Ti-VCT.

7

The versatility you want, the dynamic ability you desire

You've always loved driving. But now you have more than one love in your life. So you choose the Ford Focus C-MAX – the practical solution to an emotional need.

Precision technology makes for total control

Ford Focus C-MAX. Maximum quality that you would not expect to find in a compact MPV.

Comfort Seat System

Here's the inside story. Before we built the Ford Focus C-MAX, we studied the way hundreds of different people sit in a car. Then we came up with a revolutionary design that allows the rear seat to slide away and enable the outer seats to converge diagonally, creating even more leg and shoulder room for two people.

Smart thinking adds to your comfort

5-way Comfort Seat System with tip, tumble and removable seats.

Seating versatility

Versatile seating and a spacious interior mean the Ford Focus C-MAX can accommodate up to five people and larger luggage items.

1. Carrying capacity

The versatile 5-seat system of the Ford Focus C-MAX gives you both space and comfort with no compromise on driving quality or style. There is more than enough space for two bicycles, securely held on the internal bike rack. (Accessory)

2. Rear seat stowage box

The stowage box fits between the rear seats for greater comfort and versatility. As well as being ideal for storing items on long trips, the lid doubles-up as a comfortable armrest for rear seat passengers. For use with the Comfort Seat System. (Accessory)

3. Centre console stowage

Perfect for drinks or other items you may need while on the move. Holds one 1.5-litre bottle plus nine 33 cl cans. May also be equipped with optional cooling function. (Available only with Electric Parking Brake, standard on Ghia, optional on Zetec)

4. Rear underfloor stowage

Useful underfloor stowage compartments, positioned in front of the rear seats.

5. Glovebox and carpet mat set

The glovebox provides 10.5 litres of practical stowage space. Carpet floor mats are smart and durable. (Front floor mats standard on Ghia, optional on all other series)

6. Facia-top stowage

Lidded compartment on the front passenger side for safe keeping of maps, licences, passports and papers.

7. Sunglasses holder

Handy driver's-side stowage for your sunglasses. (Standard on LX, Zetec and Ghia)

8. Child observation mirror

The child observation mirror allows you to keep an eye on tiny passengers while on the move. (Standard on LX, Zetec and Ghia. Not available if a sunroof is specified)

Built to fit around you and your life

Whatever's on your 'to do' list today, with Ford Focus C-MAX, it's 'can do'. Whether you're carrying sports equipment to the great outdoors or bringing back that special piece of furniture, Ford Focus C-MAX is impressively adaptable. Its intelligent interior design is the key to this enhanced luxury.

Rear seat versatility also provides an array of load- and people-carrying possibilities. All models accommodate five people, with three comfortably seated in the rear. The unique Comfort Seat System (standard on LX, Zetec and Ghia) incorporates an adjustable rear centre seat. This seat slides neatly away, enabling the outer seats to converge diagonally, increasing space for two people. The centre rear seatback also folds forward to reveal a handy flat table for work or play.

For maximum flexibility, the Ford Focus C-MAX offers a range of smart and functional stowage solutions, including a sunglasses holder (standard on LX, Zetec and Ghia) and lidded underfloor compartments in front of the rear seats.

Advanced technology, better drive

KeyFree System

The new KeyFree System enables the doors and boot to be locked and unlocked without removing the keys from your pocket or handbag. The engine can even be started without using a key. (Optional on Zetec or Ghia)

Stay in control with the Ford Focus C-MAX. The advanced Control Blade independent rear suspension enables you to enjoy superb driving dynamics without compromising on safety or comfort. It enhances vehicle stability and ride comfort, particularly during cornering, accelerating and braking. Smooth, responsive power comes from a choice of petrol or diesel engines, matched to a 5-speed or 6-speed manual gearbox, a Durashift CVT or a 4-speed automatic transmission – all operated via a gearshift lever mounted on the instrument panel. And, to make sure your Ford Focus C-MAX is safe from unwanted attention, every model comes with an engine immobiliser as standard.

Contemporary design and technology merged with premium quality performance. That's the Ford Focus C-MAX.

1. Electric Parking Brake (EPB)

The Electric Parking Brake can be applied at the flick of a switch. The smartly designed switch, along with the integrated ashtray, allows for greater stowage in the centre console. (Standard on Ghia, optional on Zetec)

2. Bluetooth® technology

Bluetooth® with voice control technology provides voice recognition control for audio, phone, automatic climate control and navigation systems. (Optional - Voice Control System functionality is linked to compatible options at extra cost)

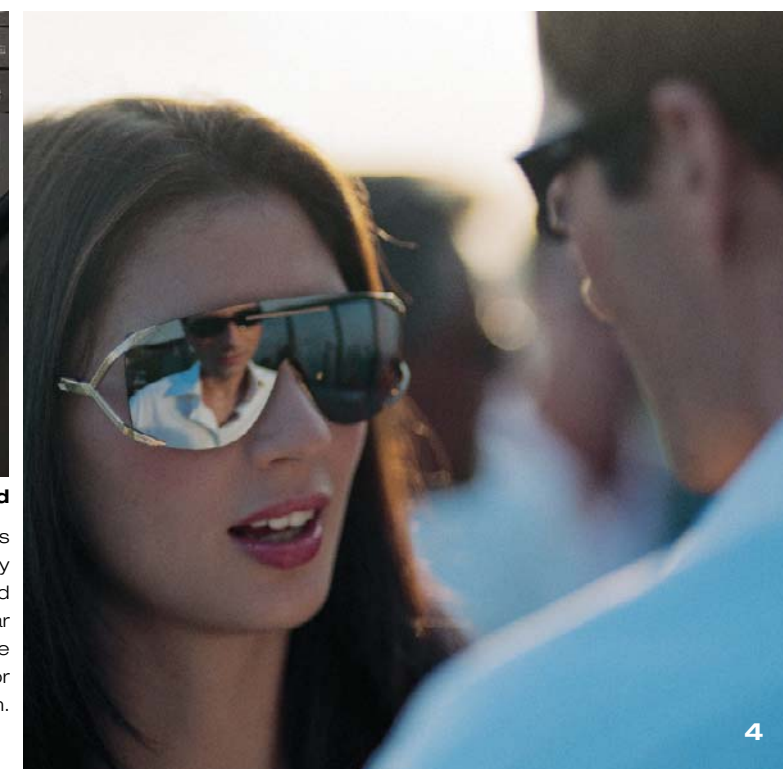

4. Solar Reflect Windshield

The Solar Reflect Windshield reflects the sun's infrared rays, reducing the cabin temperature by up to 10%, increasing fuel economy and improving occupant comfort levels. The Solar Reflect Windshield can be combined with the 'Quickclear' heated front windscreen for maximum visibility, whatever the season.

3. Durashift CVT transmission

The Durashift CVT transmission lets you switch between an automatic and manual mode. In manual mode you can tip up and down between the seven forward sequential gears, simulating a manual transmission.

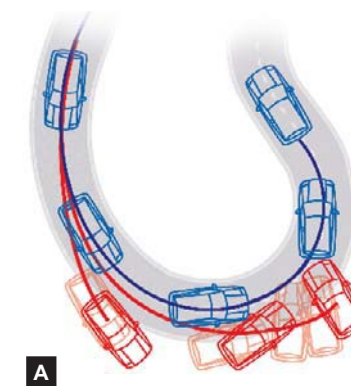

Balanced suspension, smoother drive

The Ford Focus C-MAX uses the acclaimed Control Blade independent rear suspension system that is found on the Ford Focus. The Control Blade is a light, yet strong, one-piece pressed steel component that greatly improves stability and active safety. This system also uses specially designed suspension bushes so the wheels can move forwards and back as well as up and down, to absorb bumps and cushion impact harshness.

Dynamic Bi-Xenon headlights

For full illumination of the road ahead. (Optional on Zetec and Ghia)

Electronic Stability Programme

Anti-lock braking system (ABS) incorporating Electronic Stability Programme (ESP) delivers optimum control and stability. (Option)

- Vehicle with ESP.
- Without ESP.

A Vehicle experiences understeer on approach.

B Vehicle experiences oversteer on exit to bend.

More peace of mind thanks to more protection

The Ford Focus C-MAX delivers an uncompromising attitude to safety. This high level of safety can all be put down to the car's Intelligent Protection System (IPS) – Ford's holistic approach to integration of restraint systems. This includes six airbags*, a load-limiting steering column, front seat belt pyrotechnic pre-tensioners and a tougher body structure optimised for crash-worthiness. It incorporates full-size driver's and front passenger's airbags*, side airbags and front/rear side curtain airbags. And now, to protect your most precious cargo, the Ford Focus C-MAX is the first car in its class to achieve a 4-star Euro NCAP rating for child protection* with its exceptional child safety levels. The car has also been considered a 'Best Pick' for Whiplash Injury Protection by the independent Swedish insurance company Folksam, an industry-leading group in whiplash research and testing. For further peace of mind, the interior of the car has been fully allergy tested.

***Note: A child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag. The safest place for children is properly restrained on the rear seat.**

*Tested in conjunction with a forward-facing Britax Romer Duo Plus and a rear-facing Britax Romer BabySafe Plus child seat.

Child restraint system

Ford Focus C-MAX has ISOFIX mounting provision as standard. ISOFIX is an internationally standardised attachment system for child seats in cars, and has been developed to reduce the possibility of incorrect installation of child seats. Direct connection of the child seat with the car body, independent of the seat belts, makes it easy to use and provides improved protection for the child.

Allergy-friendly environment

All passenger compartment materials in Ford Focus C-MAX were selected to ensure minimal allergy and health risk, and underwent rigorous testing by Ford, the German TÜV and the British Allergy Foundation to ensure that allergic reaction potential was minimised. As a result, Ford Focus C-MAX is the first vehicle worldwide ever to receive the endorsement of TÜV, the accredited international testing organisation, and to be awarded the British Allergy Foundation's 'Seal of Approval', for its allergy-friendly properties.

Added choice adds to the reasons why

Ford Focus C-MAX brings outstanding new levels of versatility to the Ford Focus range. Available in Ambiente, Gen-X and Ghia derivatives, it also gives you more choice. The details differ, but the broad thinking is the same. The Ford Focus C-MAX is designed to provide cutting-edge versatility and style for today's modern living. Whichever model you choose, you'll find the space, flexibility and touches of luxury to perfectly suit your individual needs.

2640 mm

4333 mm

2022 mm

Attention to detail defines the whole range and this is clear from the LX. Touches like electrically-operated front windows with one-shot lowering, fully reclining front seats and central double locking all combine to create a car that is extremely comfortable as well as being practical and versatile.

LX

- Black bodyside mouldings
- Load compartment tonneau cover
- Manual air conditioning
- Intermittent rear wash/wipe
- Electrically-operated and heated body-coloured door mirrors
- Front seatback storage pockets
- Front seat valance storage
- Three adjustable rear head restraints
- Driver's seat manual height and lumbar adjustment
- Driver's armrest
- Comfort Seat System incorporating three 40/20/40 split-fold rear seats with individual tip, tumble and remove facility plus sliding outer rear seats
- Electrically-operated front windows with one-shot lowering on the driver's side
- Intelligent Protection System with
 - driver and front passenger's airbags•
 - driver and front passenger's side airbags
 - side curtain airbags for both front and rear
- Anti-lock braking system with Emergency Brake Assist (EBA) and electronic brake-force distribution (EBD)
- Immobiliser - Passive Anti-Theft System (PATS)
- 6000 stereo radio/CD, with remote column-mounted controls and six speakers
- Trip/fuel Computer
- Remote control central double locking
- Overhead console with child observation Mirror
- 16" steel wheels with 8-spoke covers

***Note: A child seat should never be placed in the front passenger seat when the Ford vehicle is equipped with an operational front passenger's airbag. The safest place for children is properly restrained on the rear seat.**

Side airbags

The Ford Focus C-MAX is equipped with front seat side airbags designed to provide optimum passenger protection in the event of a side impact.

Stereo radio/CD

6000 stereo radio/CD with remote column-mounted controls and six speakers for a genuine sound experience.

From the moment you enter the new Zetec, you'll be impressed by the contemporary elegance of the flexible interior. Whether it's the first-class materials, the impeccable fit and finish or the aluminium-effect elements and instrument panel, every detail adds to the impression of timeless quality and style.

Zetec

Additional to LX

- 16" 5x2-spoke alloy wheels
- Front fog lights
- 'Quickclear' heated front windscreen with heated washer jets
- Body colour bodyside mouldings
- Silver finish centre facia surround, gearshift gaiter, deco strip and air vent surrounds
- Privacy glass on rear windows
- Leather-trimmed steering wheel
- Perimeter Alarm
- Chrome grille surround
- Rear reading lights
- Front map lights
- Illuminated vanity mirrors
- Folding seatback trays

16" 5x2-spoke alloy wheels

Classy-looking, they bring extra dash to the outstanding profile of the car.

Roof-mounted spoiler

With integrated, high visibility brake light, this spoiler blends perfectly with the car's design, whilst adding a real touch of flair.

If you are looking for more luxury, Ghia brings it in abundance. Features like cruise control, an Electric Parking Brake and rain-sensing windscreen wipers and cruise control all combine to take this car to a new level of refinement.

Ghia

Additional to Zetec

- 16" 7x2-spoke alloy wheels
- Premium centre console with Electric Parking Brake (EPB)
- Cruise control
- Electrically-operated front and rear windows with one-touch lowering/closing, 'bounce back' anti-trap features and global opening/closing
- Driver's seat power height adjustment
- Passenger's seat manual height adjustment and adjustable lumbar support
- Footwell illumination
- Door mirrors incorporating turn indicators and puddle lights
- Thatcham Cat 1 volume sensing Alarm
- Auto-dimming rear-view mirror
- Leather gearshift knob
- Front carpet slip mats
- Autowipers, with rain sensor
- Automatic headlights

Electric Parking Brake (EPB)

The Electric Parking Brake can be applied at the flick of a switch. The smartly designed switch, along with the integrated ashtray, allows for greater stowage in the centre console.

Door mirrors

Incorporating turn indicators and puddle lights, they're both a safety feature and design element.

5

1. Becker navigation system 'Indianapolis Pro'

Single DIN-sized navigation system, known for its brilliant sound and superior navigation abilities within most European countries. TMC and speed signal feature provide dependable navigation even in areas with poor GPS signal reception. Also plays MP3. DIN adaptor with optional CD box is available separately as well as an additional 6-CD changer. (Accessory)

2. DVD navigation system

DVD navigation system with touch-screen. Provides detailed audio-visual directions to your destination and incorporates a 7" full-colour screen. (Option)

3. Sony audio system

The Sony 6CD RDS EON stereo radio/6-disc in-dash CD autochanger for premium sound quality features a 'Keycode' for security. It is also available with a single CD player. (Option)

4. CD navigation system

Features 4" monochrome display, stereo radio/CD/MP3 and allows CD audio listening whilst using the satellite navigation system. (Option)

5. CD player

Model 6000N RDS EON radio/CD player with remote column-mounted controls, removable control panel and 'Keycode' anti-theft coding. (Standard)

Your choice of audio, entertainment and hands-free phone systems

Ford Focus C-MAX is available with a range of premium audio, information and entertainment options.

Audio systems include a 6000 CD radio/single-CD player, a Sony single-CD player with MP3 capability, and a Sony 6CD with in-dash CD autochanger. Sony units include an external AUX jack located in the glovebox. All units incorporate a Radio Data System (RDS), which informs you of the name of your selected radio station. A DVD navigation system, with colour touch-screen is also available, to help you find your way to even the most remote destinations.

Standard = Standard on your vehicle.

Option = Can be ordered only together with your new vehicle.

Accessory = Available from your Ford Dealer.

Note It is an offence for drivers to use a hand-held mobile phone or similar device while driving.

Mobile phone hands-free equipment

A selection of hands-free kits enables you to keep in touch on the move. There is a choice of two Bluetooth® Hands-Free Phone systems (Advanced and Premium). Ask your Ford Dealer for more information regarding phone compatibility and cradle availability. (Option)

Rear seat audio system

Independent audio controls and headphone sockets for rear seat passengers. Requires Sony audio system or DVD navigation system with touch screen. (Option)

Styled for you, by you

The Ford Focus C-MAX is designed to fit perfectly into your lifestyle. You can choose from a range of options and accessories to make sure that you get the right mix of enhanced enjoyment, exclusive style and additional practicality. There's a wide range of sporty, stylish alloy wheels and a choice of functional interior and exterior accessories to give your car that personal touch.

Standard = Standard on your vehicle.
Option = Can be ordered only together with your new vehicle.
Accessory = Available from your Ford Dealer.

1 & 2. Full styling kit

Give your car a purposeful stance with the full styling kit. The kit consists of unique fog light housings, unique front grille with body colour surround, body colour front bumper skirt, door claddings and rear bumper skirt (shown in conjunction with 18" alloy wheels). (Option and accessory)

3. Rear spoiler

This body-coloured rear spoiler adds both a dynamic look and style to your Ford Focus C-MAX. (Option and accessory)

4. Eibach suspension-lowering kit

The Eibach suspension-lowering kit gives your car a sportier appearance. Lowers the car by 30 mm. (Accessory)

5 & 6. Interior styling kit

Featuring luxury velour carpet mats, polished stainless steel scuff plates with recessed Focus nameplate, gear knob and handbrake cover with crafted aluminium-effect inserts. (Option; all parts also available separately as accessories)

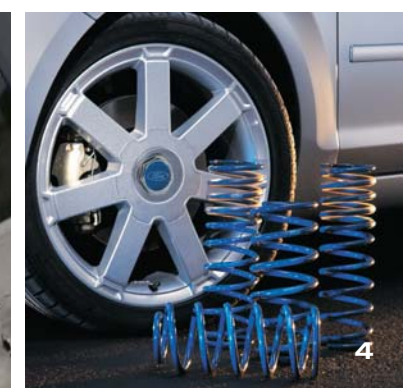

1

2

3

4

6

Re-invent the wheel

Attractive 18" 7-spoke 'silver-effect/machined' alloy wheel guaranteed to get attention. (Option and accessory)

Choose from a selection of stylish wheels to suit you. The alloy wheels show different finishes like machined surfaces, silver effect or grey painted and brightly chromed. All give your car a distinctive look that will make heads turn.

Standard = Standard on your vehicle.
Option = Can be ordered only together with your new vehicle.
Accessory = Available from your Ford Dealer.

Traveller Pack

Includes a load barrier retention net (meets ECE-R17 safety requirements), a floor net and a reversible luggage compartment carpet floor mat to keep items secure while you're on the move. (Option, all items also available separately as accessories)

Take it with you when you go

There's a whole raft of transportation accessories to help you get even more out of your Ford Focus C-MAX. Internal bike racks enable you to transport up to three bikes inside the vehicle. The Traveller Pack helps keep items safe and secure in the load area while you're on the move. And a dog guard, luggage compartment mat and loadspace liner help to keep the inside clean, tidy and safely organised.

Standard = Standard on your vehicle.
Option = Can be ordered only together with your new vehicle.
Accessory = Available from your Ford Dealer.

Mont Blanc 'Barracuda' bicycle carrier

Easy to fit, easy to use bicycle carrier, specially designed to carry all kinds of bikes. Adjustable to suit frames from 20-80 mm diameter. Also features integral locks to help keep bikes safe and secure. (Accessory)

Tow bar

For extra transport and stowage capability, the tow bar can tow up to 1,500 kg depending on engine. Available as fixed and detachable versions. (Option and accessory)

Thule roof box

Made by the most respected name in rooftop transportation. Designed to carry a wide variety of loads and protect them from weather and theft. (Accessory, available in various sizes)

Base load carrier with ski carrier attachment

This lockable base carrier is compatible with a wide range of attachments, such as roof boxes, bike carriers and ski racks. (Accessory)

Ski carrier

Elegant, fully-lockable ski carrier. Suitable for up to six pairs of skis or four snowboards. (Accessory)

Modular dog guard system

Half-height, full-height or full-height with luggage divider, this modular system keeps dogs or items of luggage safely in the luggage compartment. (Accessory)

Anti-slip compartment mat

Luggage compartment protection, moulded to fit perfectly into the vehicle. Incorporates anti-slip surface. (Accessory)

Internal bike rack and securing strap

Enables you to securely transport your bike inside Ford Focus C-MAX. The securing strap is useful for securing luggage or other items in the luggage compartment, and uses four tie-down provisions on the loadspace floor. (Accessory)

Loadspace liner

Durable liner, designed to keep the luggage compartment tidy, ideal for transporting wet or dirty items. The removable partition bars provide variable spacing for luggage. (Accessory)

Protection and safety

Give your new Ford Focus C-MAX the finishing touch with a choice of high-quality accessories. From child seats and emergency equipment to protective mudflaps and floor mats, you are sure to find just what you need.

ClimAir wind deflector

The wind deflector reduces turbulence and so allows you to enjoy your drive with the front windows down, even when it's raining. (Accessory)

Armrest stowage box

The stowage box fits between the rear seats for greater comfort and versatility, providing both storage and an armrest. For use with the Comfort Seat System. (Accessory)

Britax child safety seat

The safest way for a child to travel is on the rear seat, in a specially-designed child safety seat. The seat can be fixed with an ISOFIX system or seat belts. Various seats are available, covering from birth up to 11 years. (Accessory)

FordBoutique bikes

For those shorter excursions and trips choose a FordBoutique bike, available with or without gear change facility. Also available is the FordBoutique mountain bike with 18-speed Shimano shift, 26" frame and removable Ford logo.

Contour rubber mats

Equipped with the Focus nameplate, the driver's mat is fixed to prevent slippage and interference with pedals. Available as a kit for front or rear. (Accessory)

Luxury velour floor mats

Featuring an aluminium-effect Focus nameplate. Made to perfectly complement your chosen interior with a touch of luxury. Driver's mat is fixed to prevent slippage and interference with pedals. (Option and accessory)

Reversible luggage compartment mat

Full-length mat provides luggage compartment protection even with rear seats folded forward. Reversible design offers choice of carpet with Focus C-MAX logo, or durable rubber surface ideal for carrying wet or dirty items. Incorporates a flap to protect rear bumper during loading. (Accessory)

FordBoutique model Ford Focus C-MAX

Minichamps 1:43 scale die-cast metal model of the Ford Focus C-MAX. Order code F05-45-13

FordBoutique watch

Gent's multi-dial bracelet watch with hour, day and date dials. 50 metres water resistant. Order code F03-11-4

FordBoutique backpack

Stylish and practical. Order code F03-12-5

To us, environmental care comes naturally

Care for the environment is one of Ford's oldest concerns. Long before it became fashionable or required by law, we were questioning established practices and searching for better, more efficient alternatives. Like so much of our philosophy, the concept of sustainability dates right back to our founder, Henry Ford, a man who could not abide unnecessary waste.

Driving into the future

Lighter, quieter, and using less fuel with lower emissions, today's Ford engines create less impact on the environment than ever before. Our smooth, quiet and economical passenger car diesel engines comply with the strict Euro IV-emissions regulations while, at the same time, improve the overall performance. Indeed, our new Galaxy 2.0 Duratorq TDCi 140 PS diesel engine develops higher torque than its predecessor, while producing even less carbon dioxide (CO₂) emissions.

A natural approach to alternative fuel

Imagine a car that runs on renewable fuel derived from sugar beet, cereal or wood shavings. Impossible? Then think again. Ford has been successfully selling the Focus Flexi-Fuel in Sweden since 2001, where sales now account for 80% of all Focus models sold. The 1.8-litre car, which can run on petrol, bioethanol, or a mixture of the two, offers a 70% reduction in carbon dioxide emissions compared to a petrol model, without any loss in performance. Because bioethanol fuel is plant-based, the CO₂ emitted at the tailpipe is broadly equal to the CO₂ absorbed while the plants were growing.

Recycling for good

Legend has it that Henry Ford used timber from old packing cases to build floors for the Model T. Today, the average Ford vehicle includes more recycled material than ever. Across our European vehicle range, more than 300 parts are made from recycled non-metallic materials. This helps to safeguard raw materials and diverts unwanted waste from landfill sites. Combined, our use of parts manufactured from recycled and renewable materials kept almost 35,000 tonnes* of waste out of landfills.

A breath of fresh air

In our bid to provide the healthiest car interiors possible, the Ford Focus and Focus C-MAX, along with the new Ford S-MAX and Galaxy, were the first cars worldwide to receive the 'Allergy-Tested Interior' seal of approval from the TÜV; the German independent testing and assessment organisation. Not only that, but the certification has also been confirmed by the British Allergy Foundation. By combining materials that are free from harmful emissions, together with pollen and dust filters, the interiors provide the perfect allergy-friendly environment for sufferers of asthma, hay fever or contact allergies, such as eczema.

When less means more

What impact does a new vehicle have on air quality over its lifetime? How much noise will it produce when it drives down the street? Using a new tool called the Product Sustainability Index, Ford is taking a leading role by addressing the environmental, social and economic impact of its vehicles from the early stages of their development. As one of the key issues facing society in the 21st century, sustainable development presents an enormous global challenge and reinforces our message that 'business as usual' is not an option.

Finance and services

Across the UK, a dedicated network of Ford Dealers is equipped and trained to meet the needs of today's drivers. Because of our coveted reputation for quality and reliability, from the moment your new vehicle leaves the showroom, you are assured of lasting, attentive service in many ways. Ford not only cares through Dealers, we also offer a variety of finance and leasing schemes to suit the needs of both the private and business customer. With our wide choice of plans and services no one is more committed to delivering complete motoring confidence and total peace of mind than Ford.

Ford Credit

As part of Ford Motor Company Limited, Ford Credit offers convenient and competitive financial services to Ford customers. Choose, try, finance and insure your Ford – without having to leave the showroom.

Ford Options

Ford Options is the flexible way to finance your Ford. If you are looking to renew your vehicle more often, this is the ideal plan. At the end of the agreement, choose which option suits you best – own the vehicle, return it or choose a new one

Ford Acquire

Ford Acquire is a simple method of vehicle finance for private customers and business users. Convenient to arrange, and with flexible terms to suit your needs, owning your Ford has never been so easy.

Ford Business Partner

As a specialist division of Ford Credit dedicated to partnering businesses, Ford Business Partner will work with you to achieve a complete Contract Hire transport solution.

Ford Insure

Ford Insure offers a wide range of products for you and your Ford including Comprehensive Motor Insurance, Payment Protection Plan* and Guaranteed Asset Protection**. When you purchase a Ford from a Ford Dealer, you will receive 7 days' Driveaway cover*** free when you call Ford Insure for a no-obligation annual quotation.

What's the next step?

Your local Ford Dealer will be pleased to help if you have any further queries and advise you of current special promotions. Your Dealer can also supply a personalised quotation for the finance plan and vehicle of your choice. To find your local Ford Dealer, please call 0845 7111 888.

Services

Ford Protect

Every new Ford car sold is protected by a 3-year/60,000 miles Ford Protect Classic Plan Warranty. In addition it will also come with Ford Assistance for 1 year, providing roadside assistance in the UK and throughout Europe. You can also upgrade to a Ford Protect Premium Plan, giving you the option of scheduled servicing and extended Ford Assistance.

Ford Rapid Fit

The national fast-fit network backed by Ford, offering you the convenience of a 'no-appointment-necessary, while-you-wait' service covering tyres, exhausts, brakes, batteries and much more. There are over 260 sites nationwide.

Ford Accident Repair Centres

If your Ford is involved in an accident, your Ford Dealer is best placed to return it to its pre-accident condition. Dealerships displaying the Ford Accident Repair Centre sign all meet the rigorous customer service and repair quality standards laid down by Ford, and offer a 3-year repair guarantee.

Specification

Ford Focus C-MAX lives up to its name – delivering maximum comfort with an array of premium quality options and features. In addition to head-turning looks and superior levels of flexible space, Ford Focus C-MAX delivers all the comfort and convenience you’d expect from a Ford Focus... and much, much more. The innovative ‘Comfort Seat System’ and numerous functional stowage options are just the start. Across the entire range, equipment levels are extremely generous to complement the most demanding modern lifestyle. There are distinctive alloy wheels, state-of-the-art Sony audio units and a choice of bright and distinctive body colours.

ⁱIn 4th gear. ^{oo}All CO₂ emissions figures in g/km and fuel consumption figures in L/100 km (mpg) are from officially approved tests in accordance with EEC Directive 1999/100/EC. The CO₂ emissions and fuel consumption test figures shown in the chart do not express or imply any guarantee of the emissions or fuel consumption of a car of the class in question. ^oFord test figures. All vehicles are 5-speed manual unless 6-speed manual or auto stated. **DPF** = Diesel Particulate Filter. **ⁱFlexi-fuel** engine can run on both bio-ethanol (E85) as well as petrol and in any combination. **CVT** = Constantly Variable automatic Transmission. All the figures are based on tests conducted on vehicles with core equipment level and with standard wheels and tyres; optional or accessory wheels and tyres may have an effect on the emissions and fuel consumption. **Urban** An engine started from cold in laboratory conditions operated at varying speeds, maximum 31 mph, average 12 mph over a theoretical distance of 2.5 miles (4 km). **Extra Urban** Conducted immediately after the urban cycle, it consists of half steady speed driving and half varying speed driving, maximum 75 mph over a distance of 4.3 miles (7 km). **Combined** This is an average of the two parts of the test, weighted by the distances covered in each part.

1.6 Duratec Ti-VCT petrol engine

Ford’s twin VCT engine sports a variable camshaft-timing device that allows the engine control unit (ECU) to continuously vary the timing of the camshafts, for optimal airflow. This device not only allows increased power generation, but does so without impacting negatively on the engine’s fuel consumption.

Durashift CVT transmission

The Durashift CVT transmission lets you switch between an automatic and manual mode. In manual mode you can tip up and down between the forward sequential gears, simulating a manual transmission.

Model availability, weights and loads

Control Blade independent rear suspension

This system absorbs both horizontal and vertical rear wheel movement and provides passive rear wheel steering for increased cornering stability. Control Blade independent rear suspension is more effective at cushioning impacts than torsion beam suspensions.

Brake technology

The standard anti-lock braking system (ABS) uses sensors on each wheel **(1)** that work with the onboard computer **(2)** to monitor wheel lock-up. The system includes electronic brake-force distribution (EBD), and Emergency Brake Assist (EBA). Together, these features contribute to a safe and stable driving experience.

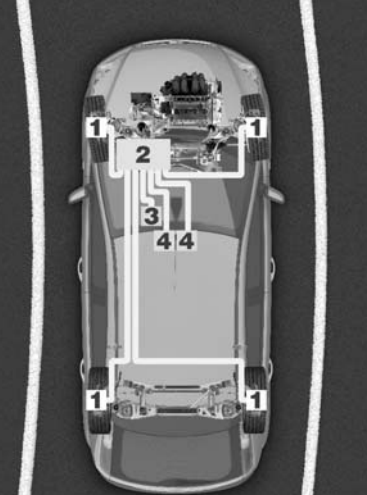

Emergency Brake Assist (EBA)

EBA monitors the amount of brake pressure being applied to the pedal during an emergency stop. If the force being applied to the pedal is sufficient, the EBA system will automatically apply the brakes to their maximum pressure. This assistance, in conjunction with ABS, can reduce the stopping distance of the vehicle greatly.

Electronic Stability Programme (ESP)

Sensors monitor front and rear wheel rotation **(1)**, steering wheel angle **(3)**, yaw angle and lateral acceleration **(4)**. If they detect oversteer or understeer, the onboard computer **(2)** can modulate engine power and apply the brakes to individual wheels to keep them under control and heading in the right direction.

Pre-tensioners and all-round airbags

Pre-tensioners and all-round airbags 5-10 milliseconds before the airbags inflate, the pre-tensioner takes up any slack in the seat belt, keeping occupants tight in their seat to avoid impact with the inside of the vehicle.

The Ford Focus C-MAX has full-size driver and front passenger airbags, side airbags and side curtain airbags. When inflated, these combine to give a high level of protection for all occupants,

helping to reduce upper body injuries.

Adjustable pedals

People come in different shapes and sizes. So adjustable brake, accelerator and clutch pedals are available as an option, allowing you to move them electrically to precisely the right position for your optimum comfort and safety. (Option on Ghia)

‘Guide-me-home’ delay switch-off headlights

Headlights have a delay switch, which means they stay on at night until you reach your front door.
