

# 2015 RANGER

Go Further

Travel smart, not hard.

Ranger Wildtrak will be the most advanced truck ever seen in Australia.

Ranger Wildtrak 4x4 shown in Pride Orange.

Technology that puts you in command.

Ranger's new interior is more innovative and functional than ever.

Ranger 4x4 XLT Double Cab interior shown with optional pack and auto transmission. Overseas model shown.

#### Keeps your distance

It can be frustrating when the car in front of you constantly changes speed. Adaptive Cruise Control<sup>#</sup> uses radar to sense what lies ahead, and can adjust your speed to maintain a set distance from the car in front.

Ranger 4x4 XLT Double Cab shown in Metropolitan Grey.

#### The smarts

We've made this our best Ranger yet, offering innovations like Forward Collision Warning,<sup>#</sup> which can help detect potential collisions giving you a visual warning, while pre-charging your brakes. While Lane Keeping Aid<sup>\*\*</sup> can detect if you're drifting from your lane, giving you a warning before gently applying steering torque to help guide you back.

#### Stay Connected

When you're on the road, the world doesn't stop. With your phone connected, you can ask SYNC2<sup>\*</sup> to make calls or even read text messages to you.<sup>^</sup> SYNC2<sup>\*</sup> also allows you to control your Sat Nav, set cabin temperature, even change the music you're listening to, all using the power of your voice.

#### Never miss a thing

Whether reversing into a tight parking spot or hitching up a trailer, the Rear Camera<sup>#</sup> gives you the ability to position yourself exactly where you want it. Parking Sensors<sup>#</sup> also give an audible warning to nearby objects within 1.8 metres.

<sup>#</sup>Feature included with optional pack available on XLT and Wildtrak models. Driver-assistance features are supplemental and do not replace the driver's judgement. Function may not operate in some driving and road conditions or adverse weather. <sup>^</sup> May help avoid or minimise impact of a collision. <sup>\*</sup>Uses sensors. Operates at speeds over 65km/h on multi-lane roads with clearly visible lane markings.

<sup>\*</sup>SYNC2<sup>\*</sup> standard on XLT and Wildtrak, SYNC<sup>™</sup> standard on all other models. For SYNC<sup>™</sup> compatibility, visit [www.ford.com.au/sync](http://www.ford.com.au/sync) <sup>^</sup>Local laws may prohibit the use of this feature while driving. Check your local road rules. <sup>#</sup>Feature included within optional pack on XLT models and standard on Wildtrak models.

## Take your Ranger to the next level.

From extra protection to boosting your storage – customise your Ranger to make it even greater.

### Bed Liner

Designed specifically for the Ranger, this integrated bed liner helps protect the load box sheet metal and paint work from dents and scratches.

### Mats

Protect your floors with these stylish, hard wearing mats that easily remove for a quick clean. The driver's mat includes anchor points to fix it securely in place.

### Snorkel

A must-have for off-road adventurers with a passion for deep river crossings, the snorkel's high air intake position also delivers cooler, cleaner air to your engine.

### Bonnet Protector

Give your Ranger an added touch of style that also protects the leading edge from stone chips and incidental scratching.

### Steel Bull Bar

Designed specifically for the Ranger, this Bull Bar is designed to integrate with the vehicle's air bag and sensor systems to help protect the front end of your vehicle in an accident.

### Nudge Bar

Protect the front of your Ranger from small bumps and scratches with the nudge bar tested to Ford's stringent engineering and safety standards.

### Aeroklas Canopy\*

This rear hatch canopy increases your storage space and provides secure storage for your valuables such as equipment and tools.

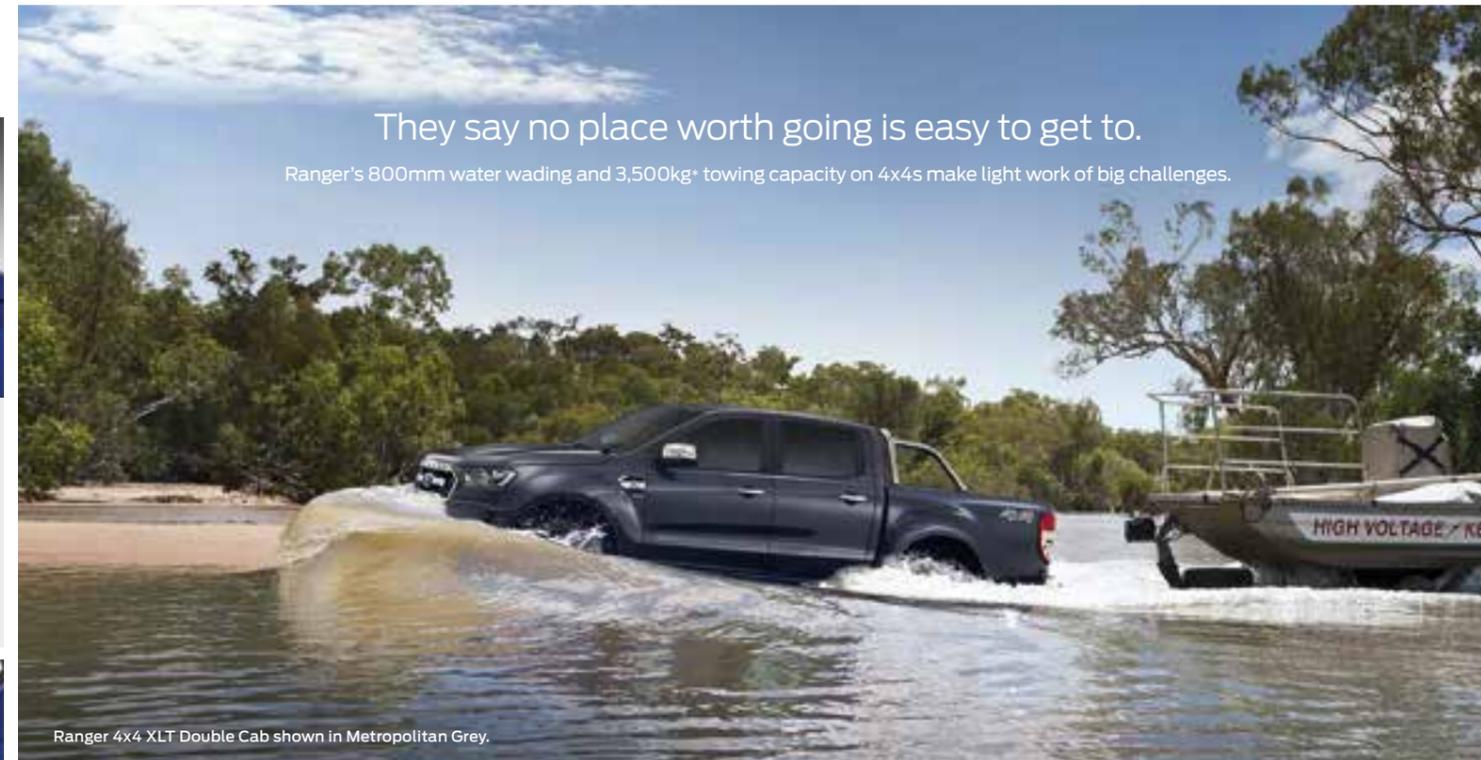

### EGR Hard Tonneau Cover\*

Give your Ranger a secure, lockable environment for storing tools and other valuable equipment. Includes single, push-button release for easy handling.

### Tow Pack

The Genuine Ford tow pack makes towing a breeze, whether it's for work or a weekend getaway.

They say no place worth going is easy to get to.

Ranger's 800mm water wading and 3,500kg\* towing capacity on 4x4s make light work of big challenges.

Ranger 4x4 XLT Double Cab shown in Metropolitan Grey.

Ranger 4x4 XLT Double Cab shown in Metropolitan Grey.

### The Ranger holds on tight

With Locking Rear Differential<sup>1</sup> you can lock the left and right axles together with a press of a button. Which is perfect when there's little traction to be found in rough 4x4 terrain.

Ranger 4x4 XLT Double Cab shown in Metropolitan Grey.

### Master of any terrain

With driver assist features like Dynamic Stability Control, Traction Control and Hill Descent Control,<sup>#</sup> the Ranger is as sure footed on tight corners as it is working its way down the face of a mountain.

Please note: Some accessories are not available across all Ranger models. Please contact your authorised Ford Dealer for availability details specific to your model of interest. \*This accessory is a Supplier Branded Accessory and is not manufactured or warranted by Ford. The warranty is provided by the manufacturer of the accessory. Contact your authorised Ford Dealer for the details of the manufacturer's warranty applicable to this accessory.

\*Braked towing capacity on 4x2 Hi-Rider and 4x4 models when fitted with a Genuine Ford Tow Pack and Tow Ball. Subject to state and territory towing regulations. <sup>1</sup>Standard on 4x2 Hi-Rider and 4x4 models only. <sup>#</sup>Standard on 4x4 models only.

Ranger 4x4 XLT Double Cab shown in Metropolitan Grey.

### Tows tonnes of stuff

The Ranger's built tough and designed smart. The chassis, drive train and suspension have been precisely engineered to achieve a towing capacity of up to 3,500kg\* unsurpassed in its class.

On the open road, weather, tight roads, even passing other drivers can cause what you're towing to sway. Trailer Sway Mitigation detects these deviations and in such an emergency, applies precise pressure to the Ranger's brakes and, if necessary reduces engine power.

Ranger Wildtrak 4x4 shown in Pride Orange.

### Keep moving forward

Negotiating a steep incline can be tricky. Hill Launch Assist can prevent your Ranger from rolling backward when you move your foot from the brake to the accelerator by applying brake pressure.

### Don't let low light stop you

Life doesn't stop for early mornings or late nights and with Load Box Lighting, you don't have to either. Whether it's work or play, the Load Box Lighting provides your rear tray with a clear source of illumination when you need it.

Overseas model shown.

### Your off-road outlet

No extra plug-ins, no converters, no adapters. The Ranger's 230v power converter<sup>^</sup> makes charging simple.

XL in Black Mica\*

XLT in Aurora Blue\*<sup>^</sup>

XLT in Aluminum Silver\*

XLT in Metropolitan Grey\*

XLT in Cool White

XLS in True Red<sup>^</sup>
