

1976 Chevrolet Truck Accessories Catalog

Foreword

This 1976 Chevrolet Truck Accessories Catalog is designed to help you equip your Chevrolet Truck, El Camino or Van in a way that best suits your personal driving needs. But reading this catalog is just the beginning. Be sure to check with your Chevrolet Truck salesman. Better than anyone else, he knows which accessories are available for, and compatible with, your vehicle. He can also tell you about accessories that may not be shown in this catalog. And he can help insure that you get the items you want in the shortest possible time. Get to know him—and these 1976 Chevrolet Truck accessories—today.

All vehicles shown in this publication contain production and/or dealer installed accessories which are not included in the base vehicle price. All illustrations and specifications in this brochure are based on the latest product information available at the time of printing. The right is reserved to make changes at any time without notice as to colors, materials, equipment, specifications and models and also to discontinue items or models.

Wheel Cover

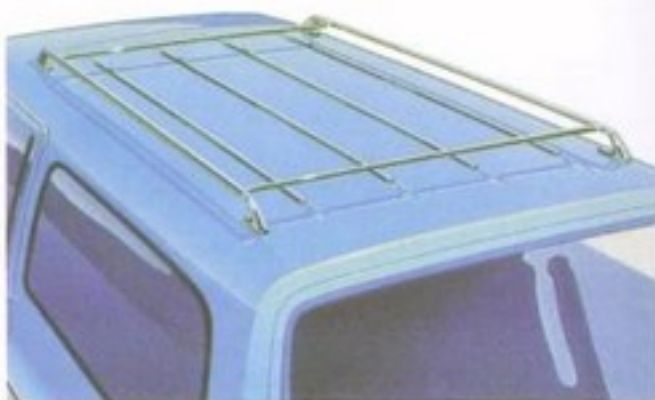

Dress up your truck, Blazer or van with this handsome 15" wheel cover. Stainless steel construction means it will keep looking good even after years of rugged use.

Rear Window Air Deflectors

Specially designed for Suburbans and Blazers, these deflectors help keep your rear window clean when it's up and reduce air turbulence when the window is down. Choose from stainless steel and wood-grained styles.

Luggage Carriers

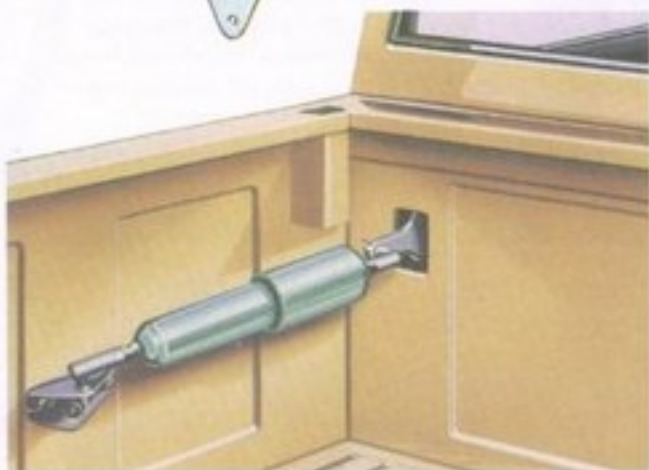

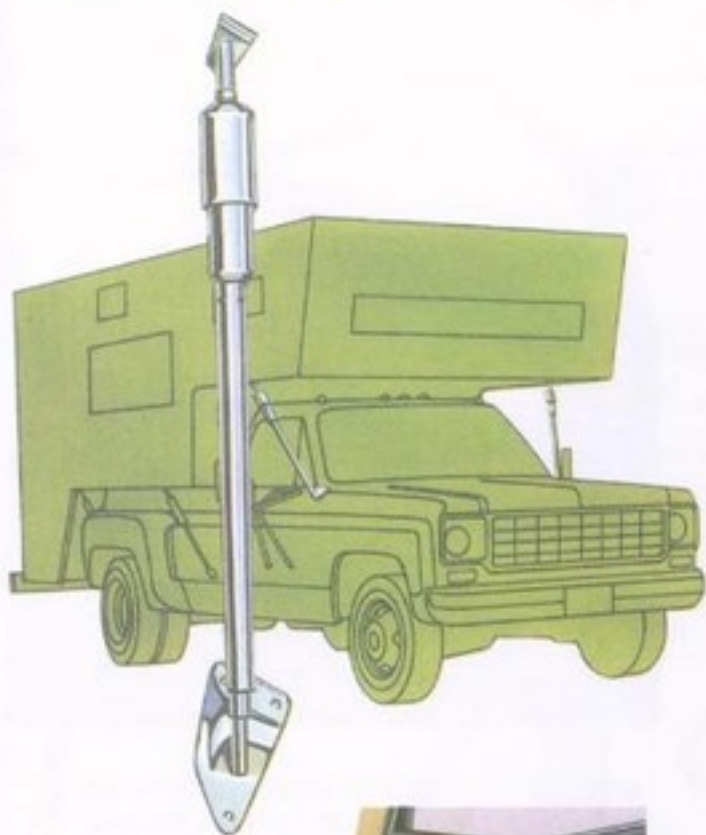

Getting away doesn't mean going without . . . not when you can take along just about everything you need with a heavy-duty Chevrolet truck luggage carrier. They're good looking and strong with stainless steel straps and welded steel tubing. Rubber mountings prevent metal-to-metal contact between the carrier and the roof panel, so there's no danger of scratching your vehicle's finish.

Luggage Carrier Cover

Keep luggage clean and dry with this rugged, weather-resistant luggage carrier cover. Tie-down straps make for easy mounting. Loading is easy, too, via zipper openings on the side. This cover is designed to match your Chevrolet Suburban rooftop luggage carrier and—most important—it's made of sturdy, fabric-backed, waterproof vinyl to help protect your luggage and gear.

Camper Shock Absorbers

Hauling heavy campers can make a truck balky and hard to handle. These vertical and horizontal shocks go a long way towards remedying that situation, helping to give a more stable ride with less pitch and sway. They're easy to install, too.

Weight Distributing Trailer Hitch Platform (Class II and III)

Engineered specifically for Chevrolet trucks, this heavy-duty platform is built to handle the really big loads—up to 6,000 pounds with a 750-pound tongue weight. Installation is easy, with no welding required.

Dead Weight Trailer Hitch (Class I)

For light utility and boat trailers—up to 2,000 pounds with a 200-pound tongue weight. This rugged hitch is compatible with regular production equipment.
