

Sprinter Cab Chassis

Takes what you throw on it.

The Mercedes-Benz Sprinter Cab Chassis means business without limitations. With two wheelbases, up to 11,030 lbs. GVWR, and a powerful 3.0 liter V6 turbo diesel engine¹, it tackles almost any job you throw at it. Packed with plenty of “body builder friendly” features like flat unobstructed frame rails and plenty of wiring options, you can create the exact vehicle to fit your needs.² Powered by BlueTEC SCR diesel technology, the Sprinter provides incredible fuel economy and impressive power from one of the world’s cleanest diesel engines.¹

More miles to the gallon as well as more miles between Sprinter Authorized Service provides a very appealing cost of ownership. A number of standard safety features like Adaptive ESP^{®3} make it the most technologically advanced commercial vehicle on the market. With financing available for your Cab Chassis through Mercedes-Benz Financial, expect nothing but the best from the world’s leader in commercial vehicles.

To find a Sprinter dealer near you, go to **MBSprinterUSA.com**.

Powertrain Specifications

BlueTEC SCR Diesel engine with AdBlue ^{®1}
EPA / CARB 2010 Compliant
6-cylinder, V 72°
4 valves per cylinder
Displacement 2,987 cc
188 hp at 3,800 rpm
Rated torque 325 lb-ft at 1,400–2,400 rpm
Rear-wheel drive
5-speed automatic transmission
Fuel type: Ultra low sulfur diesel
Tank capacity 26.4 gallons
Electronically controlled direct injection with common rail
Turbocharger and intercooler function
Battery 12 V/100 Ah, alternator 220 A

Optional Equipment Packages

Accessory Package
Additional Battery Package
Cold Climate Package
Contractor Package
Front Bench Seat Package
Front Heating Packages I & II
Heavy Duty Front Axle Package
High Idle Fixed Package
High Idle Variable Package
Multi-function Wheel/Display Package
Premium Package
Suspension Packages
Suspension Seating Package
Trailer Hitch Package
Window and Mirror Package

Driver and Front Passenger Window Air Bags ⁴
Reversing Warning System
Two Additional Master Keys

Some specifications and features shown or mentioned on this data sheet are optional and only available upon request at extra cost. Specifications are subject to change without notice.

¹ Requires the use of ultra low sulfur diesel fuel. Mercedes-Benz Sprinters are approved to use B5 biodiesel (approved diesel fuel with a maximum 5% biodiesel content) in all BlueTEC engines. The only approved biodiesel content is one that meets ASTM D6751 specifications and has the oxidation stability necessary to prevent deposit-/corrosion-related damages to the system (min. 6h, proven by EN14112 method). Please see your service station for further information. If the B5 biodiesel blend does not clearly indicate that it meets the above standards, please do not use it. The Mercedes-Benz New Vehicle Limited Warranty does not cover damage caused by non-Mercedes-Benz approved fuel standards.

² Please see your dealer for warranty information for accessories and upfitted equipment.

³ No system, regardless of how advanced, can overcome the laws of physics or correct careless driving. Please always wear your seat belt. Performance is limited by available traction, which snow, ice and other conditions can affect. Always drive carefully, consistent with conditions. Best performance in snow is obtained with winter tires. Read Operator's Manual before towing. In some states, aftermarket trailer brakes are required. See dealer for details.

⁴ Warning: the forces of a deploying air bag can cause serious or fatal injuries to a child under age 13. See Operator's Manual for additional warnings and information on air bags, seat belts and child seats.
