

2021  
Civic  
HATCHBACK

[honda.ca/civic\\_hatchback](https://honda.ca/civic_hatchback)

## Packs much more than a punch.

With a sporty design and innovative silhouette, the Civic Hatchback is guaranteed to get attention on the road and in your driveway. Its aggressive stance is boldly complemented by a distinctive body-coloured rear roofline spoiler and a dual centre exhaust with chrome finisher. The 18" aluminum-alloy wheels and the stylish skirt package will catch eyes and turn heads. Plus, with the available LED headlights and a standard multi-angle rearview camera<sup>1</sup> with dynamic guidelines, you can keep a closer watch on your surroundings. Step into the Civic Hatchback and you'll surely stand out.

**Key Features:** Body-coloured rear roofline spoiler, 18" aluminum-alloy wheels with dark finish, dual centre exhaust with chrome finisher, available LED headlights

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.honda.ca/disclaimers](http://www.honda.ca/disclaimers) and refer to the vehicle's Owner's Manual.

## Design

- 18" aluminum-alloy wheels (dark)
- Body-coloured rear roofline spoiler
- Dual centre exhaust with chrome finisher
- Available LED fog lights
- Power moonroof with tilt feature

## Performance

- 1.5-litre, 16-valve, Direct Injection, DOHC, turbocharged 4-cylinder engine
- 6-speed manual transmission (MT)
- Available continuously variable transmission (CVT)
- ECON mode button
- Steering wheel-mounted paddle shifters (CVT model)

# Has a sixth sense for safety.

The Honda Sensing™ technologies are designed to help make your drive safer and are standard across the Civic lineup. With intuitive technology and design, we've created a way forward that we can all feel good about. Whether you're driving or sitting in the passenger seat, feel confident in the latest in safety innovation from Honda.

**Forward Collision Warning (FCW) system**

The FCW system<sup>1</sup> is designed to detect the presence of vehicles in front of you and issue audible, visual and tactile alerts if you're approaching with too much speed. If you fail to respond, CMBS® is triggered into operation.

**Collision Mitigation Braking System™ (CMBS®)**

To help reduce the likelihood or severity of a frontal impact, CMBS®<sup>1</sup> is engineered to apply light brake pressure if you don't respond to FCW system alerts. If it still senses an imminent collision, CMBS® is designed to brake forcefully.

**Lane Departure Warning (LDW) system**

The LDW system<sup>1</sup> is designed to monitor vehicle lane position and issue visual and tactile alerts if your vehicle drifts into another detected lane without signaling.

**Lane Keeping Assist System (LKAS)**

The LKAS<sup>1</sup> is engineered to gently correct your steering if you begin to leave a detected lane without signaling, applying torque progressively to the steering to help guide you back to the centre of the lane.

**Road Departure Mitigation (RDM) system**

The RDM system<sup>1</sup> is designed to help steer and even apply the brakes if it detects that your vehicle may leave the road.

**Adaptive Cruise Control (ACC) with Low-Speed Follow†**

The ACC system<sup>1</sup> is designed to keep a constant speed and set following interval behind a vehicle detected in front of you, including the ability to start and stop the vehicle with the flow of traffic.

1. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.honda.ca/disclaimers](http://www.honda.ca/disclaimers) and refer to the vehicle's Owner's Manual.  
† Low-Speed Follow is not applicable on MT trims with Honda Sensing™ safety and driver assist features.

<p>Build &amp; Price the 2021 Civic Hatchback online at <a href="https://honda.ca/buildyourhonda">honda.ca/buildyourhonda</a></p>	

1. Horsepower and torque calculations reflect SAE net, Rev. 08/04, SAE J1349 procedures.

2. None of the features we describe are intended to replace the driver's responsibility to exercise due care while driving. Drivers should not use handheld devices or operate certain vehicle features unless it is safe and legal to do so. Some features have technological limitations. For additional feature information, limitations and restrictions, please visit [www.honda.ca/disclaimers](https://www.honda.ca/disclaimers) and refer to the vehicle's Owner's Manual.

3. Only compatible with certain devices and operating systems. Operation may be dependent upon GPS satellite signal reception and available cellular data and/or voice connection. Associated charges (incl. data plans, roaming charges or other amounts charged by your wireless carrier) may apply.

4. Operation requires wireless mobile phone to be paired with the vehicle. Operation is dependent upon cellular data and/or voice connection availability and GPS satellite signal reception.

5. Map database covers major metropolitan areas in Canada and 48 contiguous U.S. states.

6. Coverage varies by market.

7. HomeLink® can be programmed with codes of up to three remote-control devices (e.g., garage-door opener, home security system, etc.).

8. Only available in certain areas. Includes a no-charge trial of three months.
