

**MICKEY TEARS IT UP  
ON A LAKE NEAR A CITY  
WITH A FAMOUS STREET.**

Chrysler Courier 229 Hydro-Vee.

Time out for enjoyable boating action on a certain lake near a certain city (hint—the lake has a long French name). Mickey displayed his skill as a boatsman as he piloted a Chrysler Courier 229 Hydro-Vee boat around the lake. This roomy, handsome 17-foot bow-rider is powered by twin Chrysler 55-hp outboards. The forward cockpit features twin-padded bench seats, while the main cockpit includes either vinyl-upholstered back-to-back lounge seats or four pedestal-mounted swivel bucket seats. Mickey noted the smooth, safe riding characteristics of the Hydro-Vee hull—a combination of the deep-V and the hydroplane, with all the advantages of each. Its fiber glass construction means less maintenance, more fun.

Twin Chrysler 55-hp outboards power the Courier 229.

Chrysler's powerful 105-hp Magnapower outboard churns up the waters with Captain Lolich at the helm. Chrysler offers 40 beautifully styled outboards in all—from the fun-to-run 3.5 Lo-Profile fishing engines, and the Mid-Rangers, through a torrid new 135. For the name of your nearest Chrysler Marine Dealer, call 800-243-1890. It's free. (In Connecticut, call collect: 325-4336.)

Here's a hint: Mickey is a gourmet cook, and it's not likely he'd pass up a chance to visit the famous restaurants in the Crescent City. No need to worry about hotel reservations—thanks to the comfortable Dodge Travco Family Wagon. This converted Dodge station wagon is a real home away from home.

**SO THAT'S HOW IT IS DONE?  
THE LOLICHS ADMIRE WATER SKIERS  
AT A WELL-KNOWN FLORIDA GARDEN.**

Travco Model 270 Dodge Motor Home.

Mickey shows you how you can take your home right down to the water—as long as it's a Dodge Motor Home built by Travco. Shown here is a 27-foot model with all the comforts of any home. This spacious steel-reinforced fiber glass body contains tastefully furnished living, dining, and sleeping quarters for as many as 6 persons. Complete kitchen and bathroom facilities. A wide variety of options is available, even air conditioning and an electric generator. Travco also builds a new 21-foot model that has the same comfort and convenience and is available in either a twin or double bed model. All models are easy to drive, with a specially designed Dodge chassis, power steering and brakes, and automatic transmission.

Mickey and Joyce skim across the smooth water in a Chrysler Sport Fury Cathedral boat.

Travco Model 270 provides all the comforts of home—two twin beds, a complete bathroom and kitchen.
