Durango R/T

2015 DODGE VIPER SRT® //

Hand-crafted in Detroit, the Dodge Viper SRT delivers world-class performance with everyday accessibility. It starts with a potent V10 engine that effortlessly produces 645 horsepower at 6,150 rpm and 600 glorious pound-feet of torque at 4,950 rpm — the most of any naturally aspirated sports car engine in the world.^{[1]*} A frame constructed with high-strength steel and magnesium and body panels of carbon fiber and superformed aluminum bring a top-shelf power-to-weight ratio for optimum on-track performance. The driver-oriented, race-inspired, high-performance interior features touches like hand-sewn premium Nappa leather-wrapped materials, while hand-painted body panels and stripes offer exterior exclusivity. Dodge Viper SRT is truly a rare, one-of-a-kind vehicle.

Dodge Viper GTS shown in Billet Silver Metallic.

BORN  DODGE

BORN DODGE // We've been making cars for 100 years. We started with two brothers. They tinkered, experimented and sweated the details. They had energy and conviction that were impossible to ignore. They set the standard for us and for those who come after us.

Dodge means doing things for a reason and being proud of the things we do. We want people to actually use their car for what the car is built to do. We think the car has been commoditized and that America's drivers have been abandoned. We want to bring back America's passion for driving. We will do this one Dodge at a time. This is what it means to be "Born Dodge."
