

Z/Sport
Qualifier Truck Package

MAGNA
DECOMA ACCESSORIES

For everyone who knows what we mean when we say trucks are for hauling...

The world splits neatly and cleanly into two kinds of people. The ones who, upon hearing the announcement of a race series for trucks, wondered, "Why?" And the rest of us, who wondered, "Gee; how can I get one?"

Well, what goes around (banked ovals, for instance), comes around—in the form of the Z/Sport Qualifier Truck Package for full size Chevy and GMC pickups. It comes from Magna/Decoma, a major supplier of appearance and performance components to automotive manufacturers. Noting how well the truck has taken to the tracks—and how hot it looks in racing trim—we gathered a collection of some of the best features from the winningest vehicles and incorporated them into a street-legal sport-truck package.

The result is a performance/appearance transplant that includes wind-cheating/eye-catching front and rear exterior bodywork. A few elegantly engineered internal goodies that help crank extra horses out of GM's brawny 5.7 liter V-8. A selection of high-viz ID items that clearly shows racing roots. And what amounts to a 2" OE slamming kit that lets Z/Sport trucks hang low over 15" racing-style wheels and meaty BF Goodrich Radial T/A tires. It looks pretty extreme, but, it's all street legal!

Truck racing may not be the fastest form of racing, but it's the fastest growing. So it's no wonder that the sport truck look is big these days. The Z/Sport Qualifier Truck Package gets the look just right. And delivers the substance to go with it.

Happy hauling!

AIR MANAGEMENT-EXTERIOR

Incorporating race-derived aerodynamics, a Front and Rear Spoiler Kit consists of: Full front fascia cover, including bumper cover and integrated racing-style air dam - Rear roll pan - Custom rear spoiler - Single piece rear Tonneau cover.

AIR MANAGEMENT-INTERIOR

Boosting the output of the 5.7 V-8 is a matter of breathing—in and out: Z/Sport free-flow air filter - High performance stainless steel cat-back free-flow exhaust system with brushed stainless steel tip (how much of the boost is from the brushed stainless tip is one of those closely-guarded race-team secrets)

ENTERING THE DROP ZONE

Following standard race-truck procedures, a special 2-inch drop spring kit lets the Qualifier get down to business.

THE WHEEL DEAL

It all comes down to this: 15-inch racing-style wheels - P275/60-HR 15 BF Goodrich Radial T/A tires.

SHOWING THE FLAG

As you can tell from the see-me-coming bodywork, the Z/Sport Truck Qualifier Package is not what you would call a stealth operation. But just to be sure everyone gets the point, the package includes: Flying Checkered Flag body side and Tonneau cover graphics - Z/Sport decals - Special Z/Sport floor mats.

FLUID REPLENISHMENT

Enjoy the Z/Sport Hot & Cold Beverage mate. Emblazoned with Z/Sport graphics, it fits neatly on the drive train hump and keeps several cans of your favorite beverage at the ready.
