

1961 FORD *Falcon* **RANCHERO**

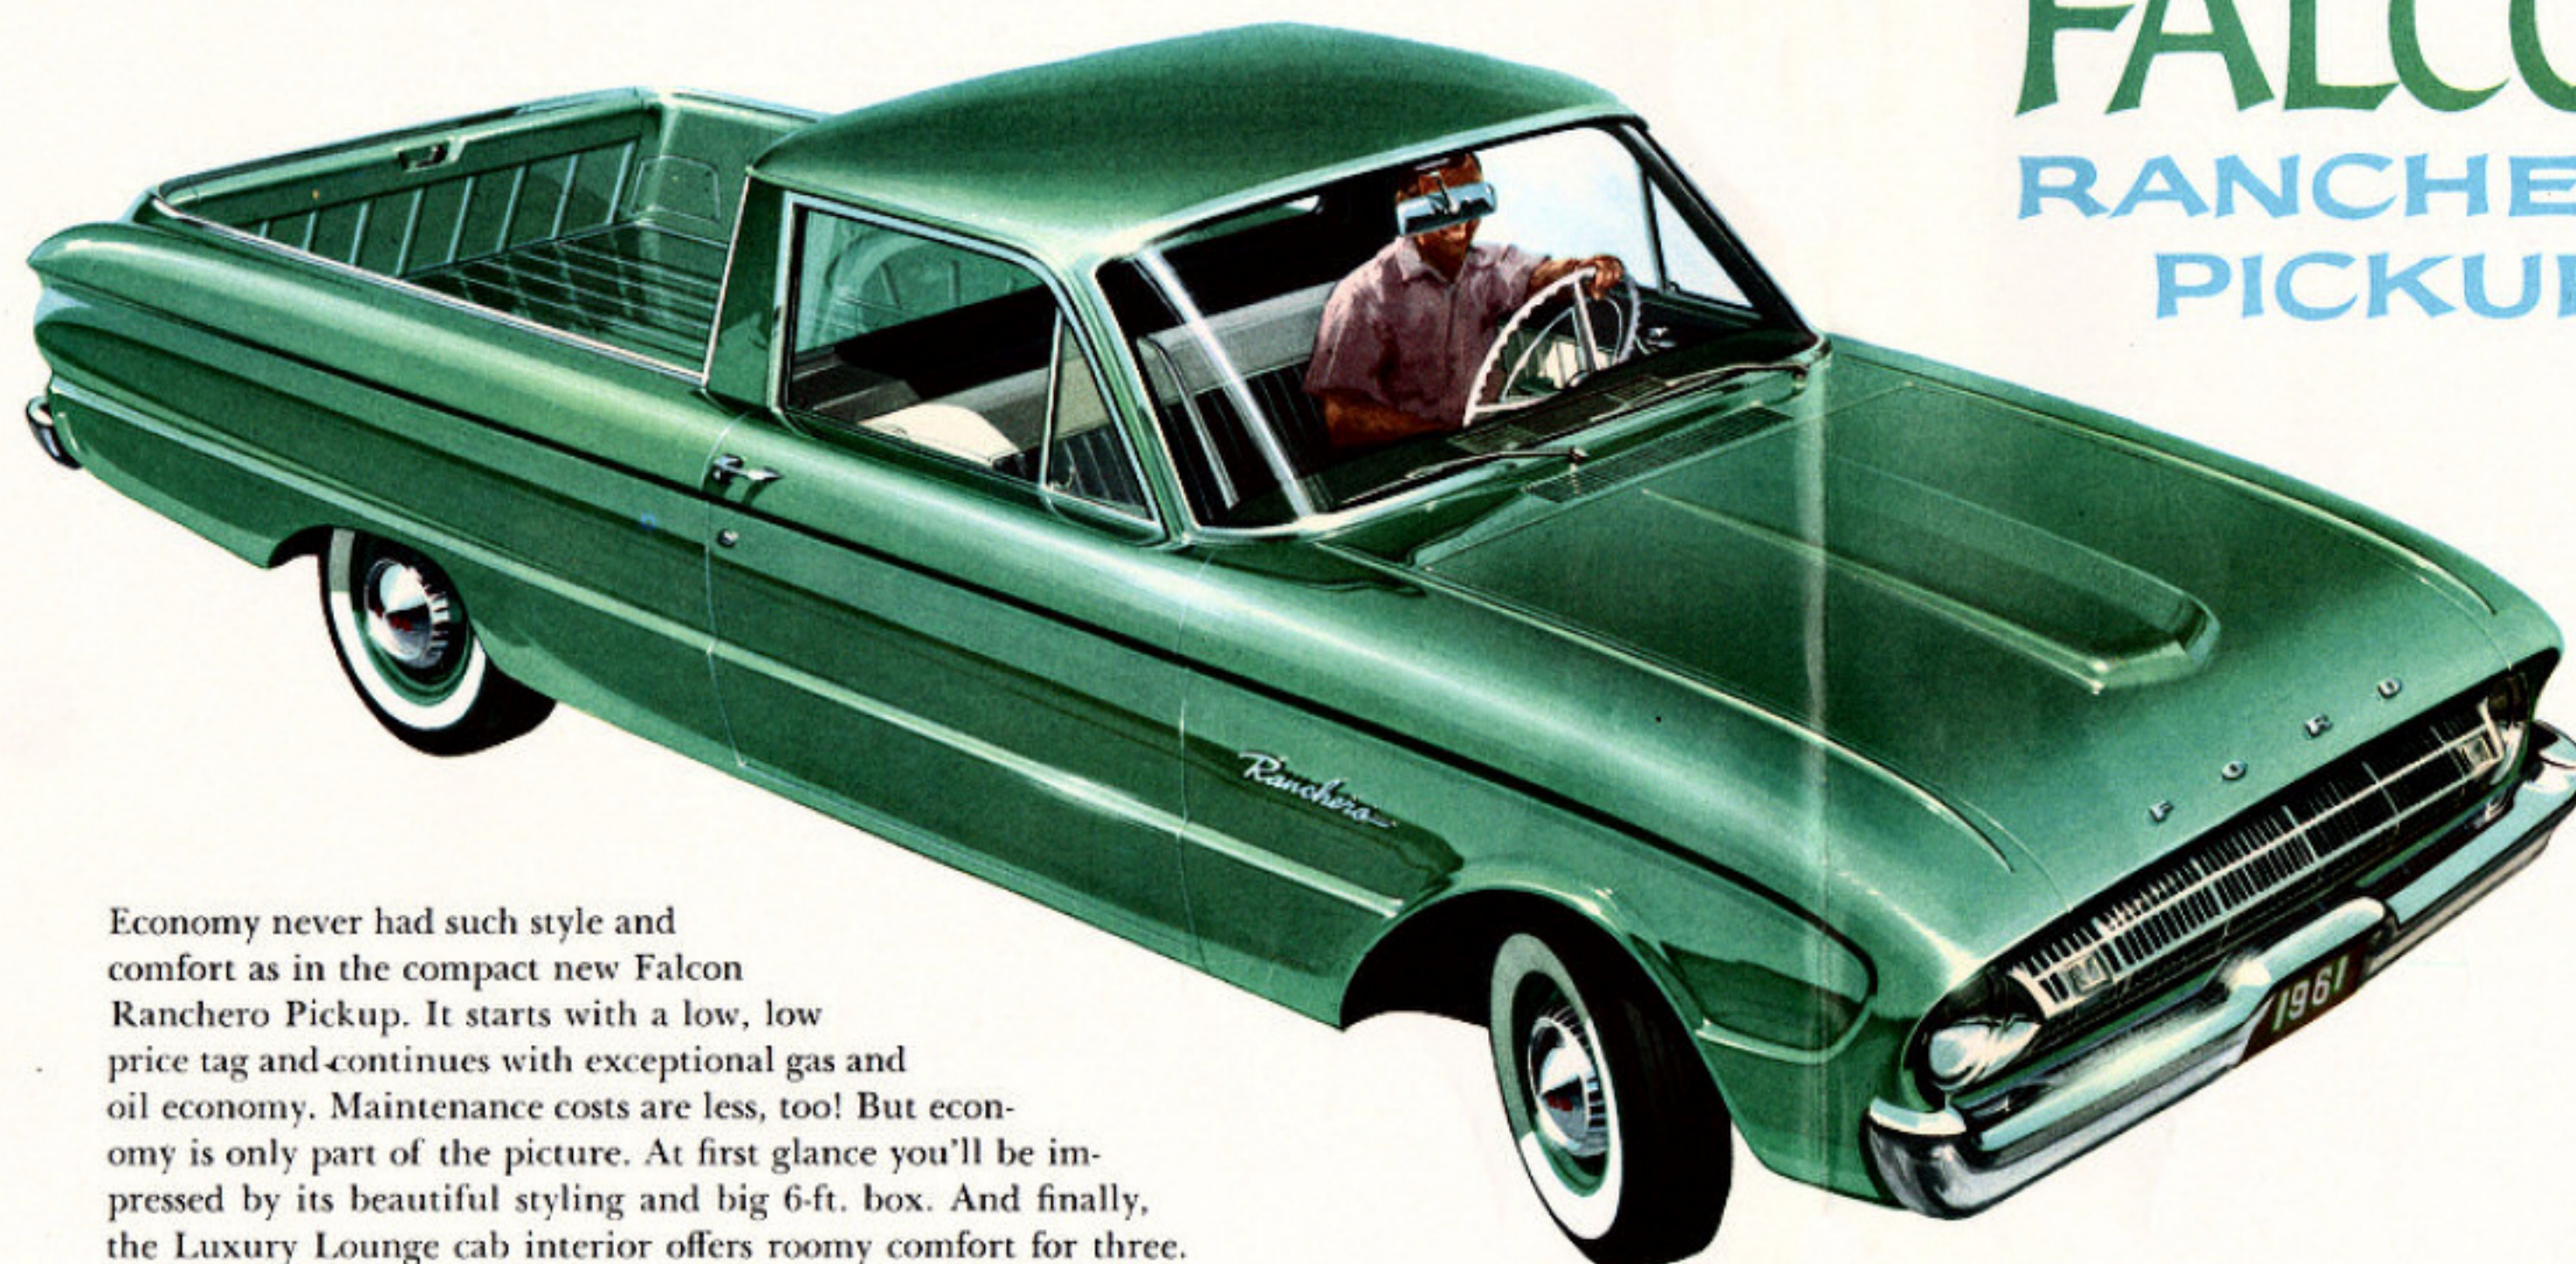

Economy never had such style

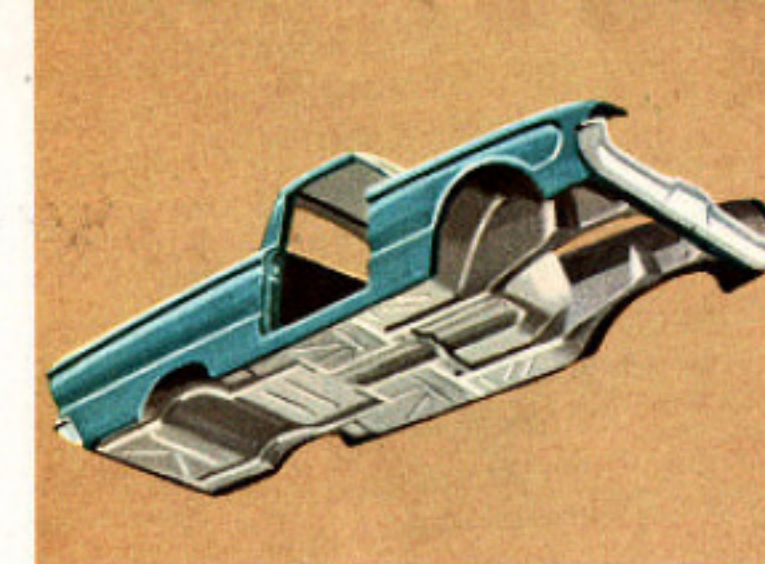

Picture yourself in the comfort, style and economy of a 1961

FALCON

RANCHERO PICKUP

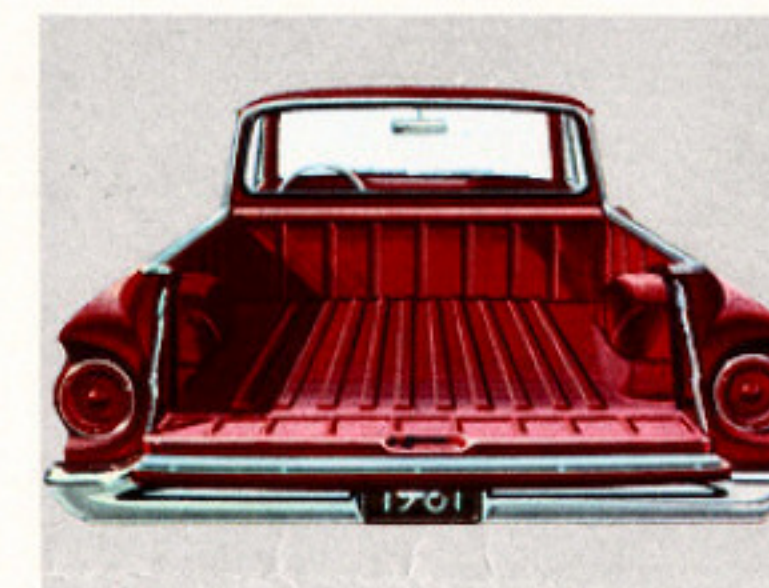

Economy never had such style and comfort as in the compact new Falcon Ranchero Pickup. It starts with a low, low price tag and continues with exceptional gas and oil economy. Maintenance costs are less, too! But economy is only part of the picture. At first glance you'll be impressed by its beautiful styling and big 6-ft. box. And finally, the Luxury Lounge cab interior offers roomy comfort for three.

PROTECTION FROM RUST

Rocker panels and all main underbody structural members are heavily zinc-coated to protect against rust and corrosion for greater durability. The Falcon Pickup's one-piece cab, body and frame provides rigid construction for longer life.

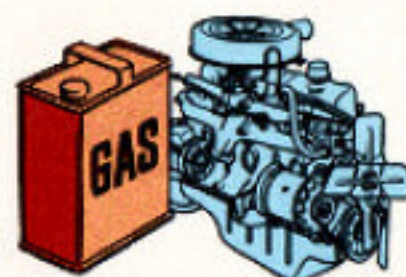

LOADS OF LOADSPACE

The Falcon Pickup's big 6-ft. box (nearly 8 ft. with tailgate down) gives over 31½ cu. ft. of usable loadspace. And that's room aplenty for most any pickup job. Over 42 in. of flat floor width between the wheelhousings.

SAVE WITH LOWER RUNNING AND MAINTENANCE COSTS

WITH THE 85-HP FALCON SIX

Here's *proven* design, *proven* economy! Durable cast iron construction, free-turning overhead valves, Short Stroke design that cuts piston travel, and wedge-type combustion chambers are a few of its advanced design features.

SIMPLICITY OF ENGINE DESIGN

There's new freedom from mechanical difficulties with simple, efficient and accessible design. For example, the intake manifold is cast integrally with the head. It's lighter, has fewer parts and provides better fuel distribution. A hot spot under the carburetor and water-heated carburetor spacer give better cold weather starts, faster warm-ups and superior fuel vaporization for improved performance and economy.

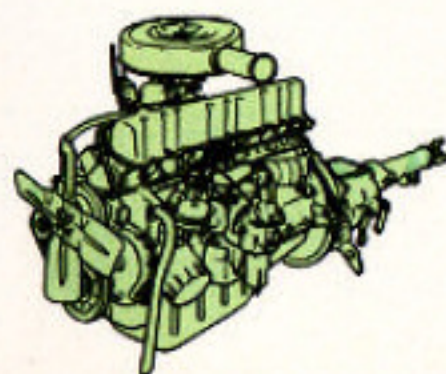

4,000 MILES BETWEEN OIL CHANGES

Save on oil change expense. A Full-Flow oil filter, standard on both Falcon Sixes, extends oil changes to a full 4,000 miles. That means the average owner has to change engine oil only three times a year.

OR THE NEW 101-HP HIGH-PERFORMANCE SIX

Here's flashing power combined with the Falcon's famous economy. This new 101-hp Six is available for more zip, ginger and go! That's because you have a full 18% more displacement for greater horsepower . . . with only 2% more engine weight.

LUXURY LOUNGE INTERIORS WITH ROOMY COMFORT FOR THREE

Here's elegance, comfort and driving pleasure everyone can afford. The full-sized passenger compartment is both attractive and practical with stretch-out room for three. And luxuriously comfortable foam seat padding is standard at no extra cost.

The seat is covered with brown "Western Motif" vinyl with beige vinyl bolsters and seat facings that are as rich looking as they are durable. Attractive, black and white (illustrated) or red and white vinyl trims are included with the Deluxe Trim Package.

Falcon Pickup Bonus Benefits

RIDING COMFORT

New, improved stabilizer bar provides a much smoother ride for '61. And there's roomy comfort for three in this compact pickup that rides and handles with the ease of a Falcon passenger car.

INSTANT-LOCK TAILGATE

No knuckle skinning or fooling with rattly chains! You can open or close the sturdy tailgate with a simple one-hand motion. And this instant-lock design also holds the *grain-tight* tailgate firmly closed.

EASY TO LOAD

The Falcon Pickup's low lines make side loading far easier . . . it's a short 38.9-inch lift from ground to top of sides with vehicle empty. Tailgate to ground height is only about 27 inches.

BOLTED-ON FRONT FENDERS

The Falcon Pickup's front fenders are simply and securely bolted on. This makes replacement far easier and less costly. It's another example of the lower maintenance costs you can expect.
