

How quickly will you be impressed by the Cadillac CTS-V? Perhaps in the 4.6 seconds the 400-hp LS6 V8 engine — the most powerful in its class* — accelerates you to 60 mph. A Tremec six-speed manual transmission, largest-in-class 14-inch Brembo brakes and a Nürburgring-tuned suspension delivers on the promise of high performance. A stainless-steel wire-mesh grille and low front and rear fascias identify CTS-V as a powerful and distinguishing presence.

¹ Official EPA estimates not yet available. Estimates based on GM testing.

² Cargo and load capacity limited by weight and distribution.

³ Call 1-888-4ONSTAR (1-888-466-7827) or visit onstar.com for system limitations and details.

⁴ XM is available only in the 48 contiguous United States. Service fees extra. Visit www.gm.xmradio.com for more details.

⁵ Always use safety belts and proper child restraints, even with air bags. Children are safer when properly secured in a rear seat. Head curtain side air bags are designed to help reduce the risk of head and neck injuries to front- and rear-seat occupants on the rear side of certain side-impact collisions. See the Owner's Manual for more safety information.

⁶ Not available at start of production.

⁷ Available at extra cost.
