

**2007 MOUNTAINEER**

**MERCURY** | NEW DOORS OPENED

[mercuryvehicles.com](http://mercuryvehicles.com)

**HIGH FUNCTION IN THE  
CONTEMPORARY FASHION.**

Mercury Mountaineer combines sophisticated mechanical systems with abundant cargo space and crisp contemporary styling. With a choice of V-6 or V-8\* powertrains and a wide range of utility, convenience and entertainment options, this midsize SUV can be configured to meet the unique needs of today's most active lifestyles.

\*Available feature.

**A WEALTH OF POSSIBILITIES MAKE  
ALMOST ANYTHING POSSIBLE.**

**MOUNTAINEER WAS DESIGNED AND ENGINEERED TO ALLOW MULTIPLE SEATING AND CARGO CONFIGURATIONS.** Seat as many as seven if you opt for the second- and third-row\* bench seats. Fold both rows down and load up. With both seats folded, Mountaineer offers a massive 83.7 cu. ft. of cargo area. Choose the standard five-passenger seating and open up 45.1 cu. ft. of cargo space behind the second row. Or select the stylish second-row bucket seats\* for six-passenger seating. While we're on the subject of style, note that the first- and second-row seats can be ordered with the available two-tone leather trim. Satin-aluminum accents throughout the cabin complement the rich leather.

\*Available feature.

## **SOPHISTICATED STRATEGIES TO KEEP YOU ON THE MOVE.**

**MOUNTAINEER CHOICES INCLUDE BOTH 4x2 AND AWD DRIVETRAINS, ALONG WITH V-8\* AND V-6 POWERTRAINS.** The 4.6-liter three-valve V-8 is teamed with a smooth-shifting six-speed automatic transmission that helps keep the engine in its optimum rpm range.

**TO HELP MAINTAIN VEHICLE STABILITY UNDER A VARIETY OF CONDITIONS,** Mountaineer is equipped with AdvanceTrac® with Roll Stability Control. This advanced system collects data from a variety of sensors and takes corrective measures to help reduce the chance of rollover if an unstable situation should arise.\*\*

**TO THAT COMFORTING THOUGHT, ADD THE FURTHER REASSURANCE OF AN INTELLIGENT SAFETY SYSTEM.†** This network uses an advanced crash-sensing computer to interpret information from various sources, then determines which restraint system or combination of systems will provide the appropriate protection for each front-seat occupant. Still more peace of mind is provided in the form of standard front-seat-mounted side airbags\*\*\* and first- and second-row side-curtain airbags\*\*\*

\*Available feature. \*\*Remember that even advanced technology cannot overcome the laws of physics. It's always possible to lose control of a vehicle due to inappropriate driver input for the conditions.

\*\*\*Always wear your safety belt and secure children in the rear seat.

## MORE OF THOSE THINGS YOU WANT MOST.

Keep everyone happy with Mountaineer's **Rear-Seat Entertainment System\*** Play DVDs or video games on an eight-inch, flip-down LCD screen. Two sets of wireless headphones are provided for quiet listening.

**PowerFold™ 50/50 third-row seats\*** make it easy to switch from people-hauling duties to cargo transport or vice versa.\*\*

Find your way to almost anywhere with turn-by-turn guidance, courtesy of Mountaineer's **DVD-based Navigation System.\*** At the touch of a button, the Navigation System screen becomes a control panel for the **290-watt Audiophile® Sound System.\*** **SIRIUS Satellite Radio** offers commercial-free music, quality talk and exclusive sports coverage.\*\*

**Power-deployable running boards\*** can be programmed at the message center to extend for entry and exit assistance when the door is opened. Alternately, they can be locked in either out or retracted position.

\*Available feature.

\*\*Requires SIRIUS subscription. Additional charges apply. Not available in Alaska or Hawaii. "SIRIUS" is a registered trademark of SIRIUS Satellite Radio Inc.

\*\*\*Cargo and load capacity limited by weight distribution.
