## *A passion fueled at finish lines*

Born in Milan, Italy, the unique spirit that is Alfa Romeo is over one-hundred years in the making. The reverence people hold for Alfa Romeo started at race tracks and is apparent on streets and in cultures the world over. And now, the Alfa Romeo 4C Coupe and 4C Spider, with their captivating mix of progressive technology, race-inspired performance and seductive styling, are here to thrill performance car enthusiasts. While each vehicle is a statement in itself, owners have the opportunity to further personalize the 4C Coupe and 4C Spider with a wide portfolio of original Alfa Romeo accessories. It's all that's needed to transform an owner into an *Alfisto*.

# *Gain performance and design traction*

If there's one thing Alfa Romeo has learned from years of victory on the race tracks, it's that balance is key. The mid-engine layout, rear-wheel drive (RWD) and monocoque chassis give each 4C model ideal weight distribution, with amazing handling and control. Its groundbreaking, centrally mounted aluminum engine significantly reduces weight as it optimizes weight distribution by concentrating mass near the center of the vehicle.

With its RWD, 4C makes full use of the dynamic advantages afforded by this configuration. RWD allows better grip under acceleration when engine power throws weight toward the rear of the car. RWD also lets you enter curves at higher speeds, delivering a far more intense and rewarding driving experience.

## ALFA ROMEO RACING WHEELS

Designed specifically for 4C models, these wheels are ideal on all types of roads. Wheels are available in the following sizes and designs:

- 18-inch Matte Black alloy [68261628AA]
- 19-inch Matte Black alloy [68261627AA]
- 18- and 19-inch Gray alloy (shown) [68261630AA]
- 17- and 18-inch 10-spoke Black alloy with chrome accents [68261629AA]

## MIRROR COVERS

Reflect your personal sense of style with these custom covers. Available in carbon fiber, polished chrome and satin chrome.

#### REAR SPOILER

For those looking for sportiness and grit, even in the tiniest detail. [55Q3ITZZAA]

#### PERFORMANCE SUSPENSION KIT

The suspension kit adopts race-derived technical solutions to optimize performance and deliver unrivaled driving pleasure. At the front, the Alfa Romeo 4C Coupe and 4C Spider feature a double-wishbone configuration that gives direct and unfiltered feedback from the road. At the rear, the advanced MacPherson suspension ensures superb road holding and driving fun, even in the most extreme maneuvers. Both front and rear suspension systems are made from aluminum and high-strength steel. [68266512AA]

#### RACING DUAL-EXHAUST SYSTEM

This free-flow system produces a distinctive, deep tone — even at idle. Features stainless steel construction and polished tips. [68261646AA]

# *A command performance*

The spirit of the Alfa Romeo winning race history comes to life in both the 4C Coupe and 4C Spider cockpit — their driver-centric designs ensure there's easy access to all essential data and controls. To further highlight the character of the 4C Coupe and 4C Spider, opt for enhanced designs and accents that are as at-home on spins around the track as they are on boulevards during your commute.
