## *The Tucker '48...The Car You Have Been Waiting For*

You've waited long years for a really new car. *Here it is...* completely new, yet with engineering principles completely proved in 15 years of rigid tests.

Yes, and you've waited for a car that would give you as much for your money as before the war. The Tucker '48 does that *and more*. It's finer, more luxurious than the most expensive cars of today, yet priced in the medium field. It has a 128" wheelbase, is 5' high from road to roof, and

delivers 30 to 35 miles per gallon at moderate driving speed.

Later this very year, this exciting new car will be ready to drive... ready to give you the motoring thrill of your life. Be among the first to give it a workout. You owe it to yourself to get acquainted with a car so completely new in line and design... so completely proved in engineering principles... that it will still be a leader many years and thousands upon thousands of miles from now.
