North America's success car

## Granada

### Our new 1976 Ford Granada.

With the success that Granada achieved in its first year, you know it has what many people like and want. Efficient design for the use of space, fuel and money. There are four attractive models: 2- and 4-Door Granada Sedans; 2- and 4-Door Granada Ghia Sedans. Each has the same number of Ford Safety Design Features built into our cars.

**Well-built.** Granada is built durably. With galvanized sections, zinc-treated parts and a 6-step process to fight rust. Extra care taken in assembly gives you good body fits and handsomely tailored interiors.

**Good mileage.** Granada is EPA-rated at 29 mpg highway, 22 mpg city,\* equipped with standard engine and manual transmission. See your Ford Dealer for details on all EPA mileage results.

**Ford means value.** Wide acceptance and competitive pricing will help keep trade-in value high. See impressive standard features list on back cover.

### Designed for your efficient use.

Roomy Granada seats five in a car about two feet shorter, half a ton lighter than most standard-size cars. It is a well-crafted car about the same size as a Mercedes 280.

Thrifty standards include a 250 CID 6-cyl. engine with solid state ignition, 3-speed manual transmission, radial ply tires, front disc brakes, and more.

You can customize from many options like fingertip speed control, power door locks, and others listed on back cover.

**Granada Interior, right,** shows optional Interior Decor Group, with Flight Bench seats in White vinyl (Code EN). Black, Red, Silver Blue or Tan also available. Lower door panels are carpeted except with White trim. Red, Silver Blue or Tan vinyl with cloth seat inserts also available.

**Sporty Granada 2-Door Sedan, below,** in Dark Red (Code 2M) blends nimble handling with refreshing quickness. Options shown: Accent stripes, vinyl insert bodyside and rocker panel moldings, Deluxe Bumper Group, WSW tires.

## Granada

What many will like is the efficient way Granada combines features people look for today. Family room for five. The high roofline that gives you excellent headroom. A trunk that holds vacation loads. The comfort of a smooth, quiet ride with precise, sure handling. Good cornering. And roadholding. Even in crosswinds.

Then there's distinctive styling. Tasteful touches like bright moldings, hood ornament, full wheel covers. Quality touches like door frame moldings with mitered corners. Thoughtful touches like rear door hinges on the 4-Door Sedan that tip up for easy entry, easy exit.

Best of all, economy. Trim design to help reduce needless weight and excessive fuel consumption. Gas-saving radials that give excellent tread wear. The small appetite of a standard 250 CID Six. With solid state ignition for simpler, inexpensive tune-ups. Granada is built to keep cost of ownership low.

**Granada 4-Door Sedan**, in large illustration below, is distinctively styled in Slate Blue Metallic (Code 1H). Note classic chrome-plated grille with surround molding, and headlamps in bright, rectangular frames. Deep-dish, finned-design wheel covers are standard. **Standard Granada Interior**, right, presents deep-cushioned bench seats tastefully trimmed in Silver Blue vinyl (Code JE). Red or Tan also available. SelectShift shown is optional. See interior on page 2.
