

## 2007 SATURN ION

The ION's designers accounted for almost everything but compromise. It's nimble, yet strong. Modern, but inviting. Sporty, yet safe and sound. Featuring the U.S. Government's highest possible front crash-test rating — five stars.\* For added power and punch, the ION•3 is available with a 175-hp, ECOTEC 2.4L VVT engine, which we've paired with antilock brakes and a sport-tuned suspension. Meanwhile, the Quad Coupe's rear access doors, split-folding rear seatbacks and fold-flat front passenger seat keep it committed to style yet flexible on function. Visit [saturn.com](http://saturn.com).

\*Five-star rating is for the driver and passenger in the frontal crash test. Government star ratings are part of the National Highway Traffic Safety Administration's (NHTSA's) New Car Assessment Program ([safercar.gov](http://safercar.gov)).
