

THE BMW X5 M AND BMW X6 M.

UNCOMPROMISINGLY DIFFERENT.

BMW X5 M

X5 M shown with the following equipment:

Engine: 4.4-litre, M TwinPower Turbo V-8 Power output: 555bp @ 6000 rpm Torque output: 500 lb-ft @ 1500-5650 rpm Wheels: 20" M V Spoke alloy wheels - Style 299M Exterior color: Monte Carlo Blue Metallic

Upholstery: Silverstone Full Merino Leather Interior trim: Carbon Black Leather

For complete details on equipment and specifications, please visit bmw.ca.

The X5 M and X6 M: the first M vehicles created for those seeking legendary high-performance thrills, with the stability of BMW's intelligent all-wheel drive. A highly efficient M designed turbo V-8 engine delivers pure high-performance muscle and a growl to match. A custom-tuned suspension and Dynamic Performance Control work in tandem with BMW's xDrive,[®] for all-wheel-drive traction with a sporty, responsive feel. And inside, distinctive leathers and trims, matched with compelling contours and design cues, welcome you to the M side of luxury.

Want the inside scoop on BMW? You can find us on Facebook® at facebook.com/bmwcananda.

BMW X6 M

X6 M shown with the following equipment:

Engine: 4.4-litre, M TwinPower Turbo V-8 Power output: 555hp @ 6000 rpm Torque output: 500 lb-ft @ 1500-5650 rpm

ue output: 500 lb-ft @ 1500-5650 rpm Wheels: 20" M Double Spoke alloy wheels - Style 300M

Exterior color: Melbourne Red Metallic
Upholstery: Black Full Merino Leather
Interior trim: Aluminum Shadow

For complete details on equipment and specifications, please visit bmw.ca.

Information Provided by:

We took a groundbreaking formula – the Sports Activity Coupé – and added equal parts M engineering and M design to create a captivating vehicle: the X6 M, a high-performance all-wheel-drive dream machine. Its dynamic contours fall somewhere between artwork and aircraft; a muscular stance and aggressive front end are paired with a sleek coupe roofline and the convenience of four doors. The formidable exterior is accented by a host of M-specific details, from the signature M gills and aggressive quad chrome tailpipes, down to the handsome, standard 20" light alloy wheels. Exclusive M paint colors include a head-turning Melbourne Red Metallic. Forget "attention-getting" – the X6 M demands to be seen.

The intelligent traction and spacious luxury of BMW's Sports Activity Vehicle platform meets pure M Power in the X5 M. It's endowed with the same stunning V-8 engine, customized suspension and intelligent all-wheel-drive capabilities as the X6 M, but designed with a slightly higher driving position, plenty of room to seat five comfortably, and a larger cargo area. But make no mistake: the X5 M's high-performance credentials are easy to spot. Three large air intakes, a low, sporty stance, and quad chrome tailpipes place it firmly in the realm of the trackinspired. And once you drive it, you'll need no convincing of its M heritage.

PLENTY OF SPACE FOR FIVE PEOPLE – AND ALL THEIR M FANTASIES.

What's the best way to tackle tight curves and cruise through straightaways? In comfort and style, of course – and that's where the X5 M excels. An inspiring M sportiness pervades the entire cabin, from the exquisite double stitching to sleek Carbon Black Leather trim. Upgrade to the HiFi Professional Sound System, and lose yourself in your favorite roadtrip soundtrack, delivered through 16 speakers. The Panoramic sunroof and four-zone climate control transport passengers in firstclass style. And even with its emphasis on luxury and high-performance, the X5 M also delivers practicality: with the split-folding rear seats down, there's more than 1750 litres of storage space, easily accessed via the large rear tailgate.

FROM HERE, EVERYTHING FEELS LIKE AN ADVENTURE UNDER YOUR COMMAND.

Those behind the wheel of the X5 M and X6 M are presented with nothing less than the latest and most luxurious M appointments. Grab hold of the latest-generation iDrive Controller, check your maps and set your coordinates. The M-specific Head-up Display flashes important driving data, like rpms and gear selection, all at a quick, eye-level glance. An array of controls within the driver's easy reach

operate innovative driving technologies like M Drive and Electronic Damping Control (EDC). For the ultimate in comfort, the fully adjustable M Sport front seats are clad in supple Merino Leather upholstery. The Aluminum Shadow trim and leather-covered instrument panel add an inspiring elegance to the cockpit.

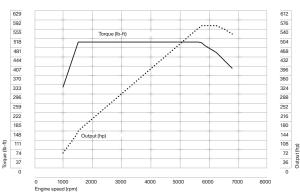

In the four-seater X6 M, the two rear passengers enjoy the comfort and convenience of a large center armrest with an integrated sliding cover.

INTERIOR MOTIVES: THE SENSUOUS CABIN OF THE X6 M.

Once you sit inside the X6 M, you'll know the meaning of "luxury performance." Every surface and corner shows signs of M-enhanced comfort – from the rich Merino Leather upholstery and striking trims, to the heated steering wheel, heated rear seats, and a ski bag for the through loading system, accessed by the fold-down rear-seat backrests. Individual rear seats with integrated headrests and side supports soothe and accommodate passengers on even the longest trips. Choose either three rear seats or two rear seats and a convenient center armrest with storage. The Comfort Access system, which provides single-touch opening of the trunk for quick and convenient loading of the amply sized cargo area.

Maximum torque is available across an extremely broad rev band, from 1500 to 5650 rpm, creating rapid responsiveness not normally associated with a turbo engine. Traction is also consistently high, even in the upper rev ranges.

THE M-DESIGNED TURBO V-8 ENGINE. BEFORE IT EARNS ITS LETTER, WE MAKE SURE IT CAN FLY.

The M designation is one we take seriously: it represents our fastest, strongest, most aggressive vehicles, especially when it comes to what's under the hood. Case in point: BMW M's latest 4.4-litre V-8 engine features one – make that two – impressive world's firsts. The twin turbos of this 555 hp engine don't merely add pavement-punishing torque; they do so in a completely revolutionary way. Each turbo is pulse-tuned to the engine, delivering

boosts of power at precisely the optimal time, for consistent and reliable bursts of M acceleration throughout the powerband. For the driver, that means there's a track-inspired 500 lb-ft of torque on hand from 1500 to 5650 rpm – more than enough for any tarmac takeoff. An ideal high-performance companion, the M Sport Automatic transmission harnesses this power with uncommonly smooth 6-gear shifting, easily accessed via the paddle shifters

on the steering wheel. M Drive adds another element of customizability: selecting either the Normal or Sport mode alters the responsiveness of various parameters – including throttle sensitivity, steering, suspension and more – to accommodate any driver's mood. Either mode can be chosen via iDrive, and then called up using the M Drive button located on the steering wheel.

The M Drive function acts as a "memory button" for key driving dynamics, including suspension, stability, steering and throttle sensitivity. Customize these driving dynamics using the iDrive Controller by selecting either Normal (default mode) or Sport mode. In addition, Dynamic Stability Control has three modes: Off, Normal and M Dynamic Mode. Once these settings are saved, just press the M Drive button, and they're recalled for driver convenience.

Like every BMW, the BMW X5 M and X6 M come with the BMW EfficientDynamics technology package as standard. With features such as High Precision Direct Injection using piezo injectors, the M TwinPower Turbo V-8 engine sets benchmarks in terms of its performance/fuel consumption ratio.

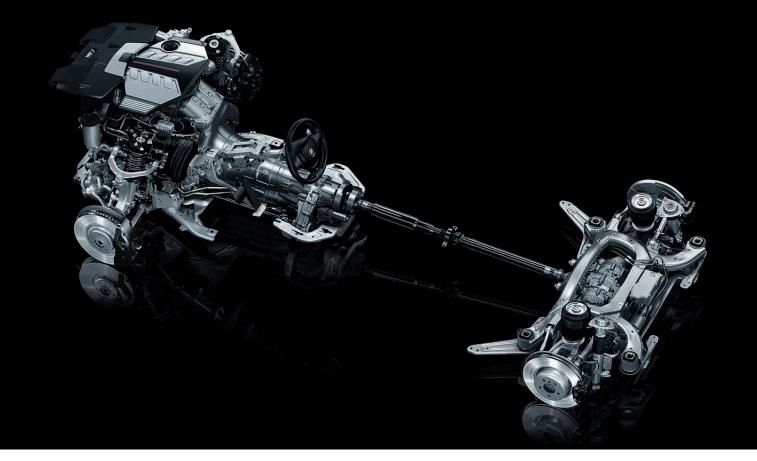

Two highly efficient Twin Scroll turbochargers form the basis of an astonishingly rapid response. A BMW-patented crossbank exhaust manifold combines the exhaust flows from each of the cylinder pairs (illustration, far left). These are then routed into a channel in the snail-shelllike turbine housings (hence "scroll"), separate from the exhaust flows of the other cylinders, thus enabling them to reach the turbine wheel unimpeded and at high speed (illustration, right).

M-specific spring-damper tuning underpins driving stability and contributes to outstandingly neutral self-steering properties. Depending on the desired tuning mode – for enhanced long-distance comfort or dynamic driving, for instance – you can choose between the two damper settings Normal and Sport by pressing a button on the gear selector lever.

The lightweight high-performance brake system is remarkable for its extremely short braking distances and high stability. Braking power can be finely applied and the system responds to brake commands with precision. Even at high speeds the deceleration values are impressive.

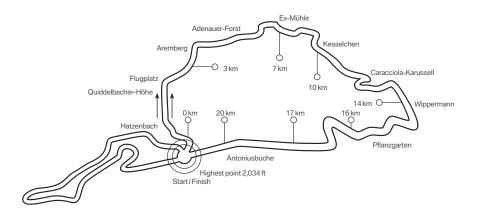

THE GROUNDWORK FOR EVERY M THRILL TO COME: A PRECISION SUSPENSION.

From exhilarating cornering to rock-solid stability, when it comes to M high performance, it all starts at ground level. The customized suspensions of the X5 M and X6 M are specially designed to withstand the rigors of track-inspired handling, while serving as a platform or xDrive, BMW's grip-enhancing all-wheel drive. The BMW'S M and X6 M models are the first M vehicles to feature BMW's xDrive intelligent All-Wheel Drive system, yet are set up specifically for a rear-wheel bias in dynamic driving situations. The advanced traction system behind this seemingly impossible feat of engineering: Dynamic Performance Control. Designed to retain the sporty,

rear-wheel-drive feel of M vehicles, Dynamic Performance Control knows precisely when and where to deliver lateral power independently to all four wheels, for the most athletic driving response in any situation. Particularly during cornering, more power is transferred to the wheels with the most traction, so that the X5 M and X6 M handle more like sports cars half their size. Another innovative addition is Adaptive Drive, which governs and adjusts, among other parameters, roll stabilization and Electronic Damping Control (EDC). Push the X5 M or X6 M to the limit, and the negative effects of g-forces associated with sharp turns, fast braking and other M-type driving actions

are minimized. Each of these systems is designed to work together seamlessly, and many settings can also be adjusted individually – for example, you can control the degree of damping via the DDC button next to the gear lever. And when it's time to really put these models through their paces, simply press the M Drive button on the steering wheel, and your preferred presets for suspension, steering, throttle sensitivity and more are instantly recalled. Discover a fully customizable driving experience that responds to your style – in fact, the control functions of Dynamic Stability Control (DSC) will intervene only in hazardous situations.

BORN IN THE MINDS OF RACING ENTHUSIASTS. PERFECTED ON THE TRACK.

M1 - became the fastest German road sports car. Since that time, BMW's philosophy of combining racetrack thrills and everyday driving execution of what we've learned on the track has been built into every M vehicle created. From advanced high-performance engines

In 1978, the first BMW M model – the legendary and sport-tuned suspensions, to luxurious handcrafted interiors and exclusive design details, each M model is a cutting-edge and what we're most passionate about. No wonder, then, that all M vehicles - including, of course, the X5 M and X6 M - are rigorously tested on tracks like the notorious Nürburgring Nordschleife. It's how we've turned highperformance dreams into reality, for more than

CRAFT YOUR OWN BMW - AT WWW.BMW.CA/BYO.

At BMW, we believe that the Ultimate Driving Experience is unique. That's why BMW offers one of the widest model ranges of any luxury automotive manufacturer. And each BMW model offers its own universe of personalizing possibilities.

Want to learn more? It's easy to get the latest information on your favorite BMW model. Simply visit **bmw.ca** and click on the BMW model of your choice. Select **Brochures** to see all the standard features and available options and packages, as well as technical specifications.

You can customize the exact BMW model that fulfills your needs by clicking on "Build Your Own." Here you'll be able to select from among the many interior and exterior colours and trims, personalizing options and value-added packages. Build a BMW model that reflects your style, then view it in 360° detail. At the press of a button, see payment and financing options, get a same-day quote, download a product brochure and even schedule a test drive. BMW makes it easier than ever to make your ultimate driving dreams come true, at www.bmw.ca/byo.

BMW DRIVER TRAINING.

Professional driving instructors. Closed course. The Ultimate Driving Experience. Since 1977, BMW Driver Training has led the world in making people safer, more assured drivers. BMW offers this unique opportunity in a variety of skill levels, ensuring all participants find the course that is right for them. BMW Driver Training is available to all licenced Canadian drivers who are dedicated to driving with the utmost confidence, whether they own a BMW or not.

Compact

This half-day introductory course is geared towards first-time BMW Driver Training participants, including 16-year-olds holding a learner's licence. Here, drivers learn about elementary vehicle dynamics and emergency response manoeuvres.

Advanced

This exciting one-day course offers a comprehensive introduction to the fundamentals of driving dynamics. Participants learn to master real-life, urban driving scenarios such as braking and avoiding and front- and rear-wheel skid control. Upon completion, graduates are ready for the Perfection course – the next level of BMW Driver Training.

Perfection

The one-day Perfection course explores a number of high-speed open-road situations, including mastering oversteer around a 180° curve. Piloting the new BMW M3 on an autocross track is the highlight of the course.

Fascination I

Upon completion of Perfection, the two-day Fascination course offers true driving enthusiasts the opportunity to engage in unique driving situations, including high-speed lane changes and ideal-line cornering, all appropriately taught on a track and in the exhilarating new BMW M3.

Fascination II

The highest level of instruction offered, this one-day course is taught exclusively in the new BMW M3 – perfect for multiple lapping sessions on the track.

www.bmw.ca/drivertraining

BMW Welt. Taking delivery of a new vehicle is a proud moment for every automotive enthusiast. Make it an even more unforgettable experience by visiting the BMW Welt, a state-of-the-art brand experience and delivery centre in Munich. Spend the day marvelling at historic BMWs on display in the Museum, learn about our engineers' newest innovations in the Technology and Design Studio, and take

a tour of our plant to experience with your own eyes the exacting methods used to create every BMW. Then get behind the wheel of your new BMW, where the fascination continues for years to come. To learn more, visit the BMW World online at www.bmw.ca/europeandelivery.

JOY IS THE FEELING OF BEING LOOKED AFTER BY THE BEST. BMW SERVICE FOR YOUR BMW.

Service. When you buy a BMW, you can look forward to superb service and comprehensive customer care, 2012 model year BMW vehicles purchased from an authorized BMW Retailer in Canada are covered by No-Charge Scheduled Maintenance for four years or 80,000 kilometres, whichever occurs first. Depending on the model you choose, your car informs you of its service requirement via the Service Interval Indicator or CBS (Condition Based Service). Then simply get in touch with your BMW Service Retailer, who will provide expert care for you and your car. Staffed by highly trained personnel, your BMW Service Retailer is also equipped with the latest computeraided information and diagnostic tools, Important data such as V.I.N. number, mileage, and current service requirements are all stored on your car key, ensuring quick assessment of your vehicle's status. This means that staff have more time to help you. All in all, quality and safety are the watchwords of BMW Service.

BMW Roadside Assistance.

One of the most extensive roadside assistance programs in Canada, As a holder of the BMW Service Card. you and any additional drivers of your registered BMW will be entitled to an extensive range of services and benefits, including

- Emergency Service Calls
- . Towing, in case of Mechanical Breakdown
- Winching
- Trip Interruption Benefits
- Traffic Accident Services
- · Emergency Message Service · Emergency Cash
- . Travel Planning Services For complete details and conditions, please refer to your BMW Warranty and Service Guide.

BMW.ca. Offering the ultimate online experience, our website is designed to offer you access to a wealth of information on BMW Service and BMW Financial Services. in an easy-to-explore format. When vou visit our website, vou will discover in-depth information on BMW Service. including details on the BMW Service Card, scheduled maintenance, warranty coverage, value service packages, and BMW SPA® services. Always up to date, our easy-to-navigate website allows you to quickly and easily find the information you require on your vehicle's servicing needs.

THE MOST EXCITING PROVING GROUNDS FOR A BMW.

Professional driving instructors. Closed course. The Ultimate Driving Experience. Since 1977, BMW Driver Training has led the world in making people safer, more assured drivers. BMW offers this unique opportunity in a variety of skill levels, ensuring all participants find the course that is right for them. BMW Driver Training is available to all licenced Canadian drivers who are dedicated to driving with the utmost confidence, whether they own a BMW or not.

Magazine. How do the designers at BMW come up with the next generation of industry-leading vehicles? Who are the people behind the brand and the product? Read about this and much more in BMW Magazine, the official publication from BMW. Not available on newsstands, BMW Magazine is just another exclusive benefit of owning a BMW.

BMW Financial Services.

BMW Financial Services offers a comprehensive portfolio of leasing and financing solutions, designed to make your transition from showroom to highway hassle-free. For information on how you can benefit from the flexibility, convenience, and expertise that only BMW Financial Services can offer, contact your local BMW Retailer or visit www.BMWfinance.ca. Our comprehensive website allows you to learn about the vast financing and leasing opportunities available. Interactive tools, including an advanced model selector/payment calculator, downloadable guides, and an online credit application, make it easy for you to interact with BMW Financial Services.

BMW Assist. Providing you with a suite of services that add confidence and convenience to your driving experience. You are just a push of a button away from emergency help, roadside assistance, and much more. When you have the BMW Assist Safety Plan, you enjoy peace of mind whenever you're behind the wheel. Speak to your preferred BMW Retailer or visit www..BMW.ca/assist for more information.

SHAPING THE FUTURE - RESPONSIBLY.

Car manufacturing requires a great deal of water, which is why we've developed an intelligent circulatory system for our factories that ensures water is reused as often as possible. The dream of a manufacturing process that does not produce any wastewater has already been made a reality at our engine plant in Steyr. In 2008, 733,500 engines were manufactured without producing a single drop of wastewater.

Sustainability is taken very seriously at the BMW Group. For this reason, we prioritize environmentally friendly methods of transport such as rail and shipping and work towards capacity optimization. Each year, we

cover around 15.8 billion tonne-kilometres transporting materials and new vehicles. Of this, 79 % of the total transported volume is delivered by sea – which benefits both road traffic and the environment.

The BMW Group has their sights set on tomorrow. Your BMW is part of a comprehensive recycling concept. Every single vehicle can be easily and economically recycled. Please contact your BMW Retailer on all matters regarding the return of your end-of-life vehicle. For more information, visit www.bmw.ca/EfficientDynamics.
