e-PROCESS

POWER, PLEASURE AND ALL-ROADS PERFORMANCE.

The silhouette of a sleek, muscular coupé. The dynamic traction of an SAV®. The lightning-quick cornering of Dynamic Performance Control. The BMW X6 is the world's first four-door Sports Activity Coupé® – a concept where TwinPower Turbocharging, sophisticated luxury, and flexible storage and seating all support your driving ambitions.

The BMW X6

A POWERFUL PERSPECTIVE.

- 06 Design**
Grabs attention – and the road.
- 10 Dynamics**
Breaking new ground. Setting new standards.
- 16 BMW ConnectedDrive**
Connectivity that stands apart.
- 18 BMW EfficientDynamics**
Indulge your passion while protecting the environment.
- 20 Daring designs**
Dramatically different: Wally.
- 22 Interior design**
A familiar perspective inside a unique vehicle.

Technology

INNOVATIONS AND REVELATIONS.

- 26 BMW ConnectedDrive**
Intelligent networking for greater convenience, infotainment and safety.
- 30 BMW EfficientDynamics**
Vehicles that require little and give a lot.
- 32 BMW TwinPower Turbo engines**
It all revolves around you. Several thousand times per minute.
- 34 Advanced driving technologies**
Innovative systems for more driving pleasure.
- 36 Safety features**
High-tech bodyguards: active and passive safety features.

Equipment

PERSONALIZED PERFORMANCE.

- 38 Equipment combinations**
- 40 BMW Individual**
- 42 Exterior colours**
- 43 Upholstery colours and materials**
- 44 Interior trims**
- 45 Recommended colour combinations**
- 46 Equipment features and options**
- 57 Original BMW Accessories**

Overview

SPECIFICATIONS AND SERVICES.

- 58 Build Your Own**
- 59 BMW Driver Training**
- 60 Technical data**
- 62 BMW Service**
Exclusive offers for BMW customers.

Editorial

ALLURING. ELEGANT. TOTALLY UNIQUE.

The world's first Sports Activity Coupé® has inspired many would-be competitors to copy the BMW X6 concept. But not one has equalled its combination of elegant coupé style, all-road agility, five-door practicality, fuel efficiency and jaw-dropping sports car performance.

The X6 is an automotive tour de force – from the brilliant, available LED headlights to the bright thinking behind all the features, inside and out, that delight driver and passengers alike. It is perfectly at ease mastering slippery downhill drives and making sophisticated uptown scenes. It makes no compromises. And it will definitely attract attention, wherever it goes.

Information Provided by:

Equipment of model shown: BMW X6 xDrive35i

Engine:	24-valve BMW TwinPower Turbo 3.0-litre inline six-cylinder engine
Output:	300hp
Wheels:	20" Y Spoke alloy wheels - Style 336 ¹
Exterior colour:	Midnight Blue Metallic
Upholstery:	Ivory White Extended Nappa Leather ²
Interior trim:	Dark Bamboo

For technical specifications, see pages 60-61.

¹ Optional.

² Only available through special order.

**GRABS ATTENTION
– AND THE ROAD.**

TURBOCHARGED EXCITEMENT.

EXHILARATION HAS A NAME: X6.

The X6 is a born performer that will raise eyebrows and then pulse rates – especially the first time you experience curve-grabbing, acceleration-boosting Dynamic Performance Control. BMW's TwinPower Turbo engines include the award-winning in-line six-cylinder that propels the X6 xDrive35i with smooth, rapid confidence; an efficient 400hp V8 drives the X6 xDrive50i. And now, with the available BMW M Performance Editions, both X6 models harness more horses for unending thrills. Press the accelerator pedal – and hold on.

BREAKING NEW GROUND.

SETTING NEW STANDARDS.

ADAPTABLE GRIP. SMART BRAKES.

CONQUER ANY ROAD IN ANY WEATHER.

Not all roads are dry and level. That's good news for the BMW X6. It welcomes challenges, easily tackling wet or rough surfaces, tight corners, steep climbs and steeper downhill. On steep downhill grades, press the Hill Descent Control button to help keep the BMW X6 to a steady crawl without even touching the brakes. Speaking of brakes, Dynamic Stability Control includes four innovative brake-optimizing features. When stopped on a hill, **Start-off Assistant** helps keep the BMW X6 from rolling after you take your foot off the brake pedal.

When you quickly take your foot off the accelerator, **Brake Stand-by** anticipates the need for a short stop, and pre-tenses the calipers. Whenever moisture is detected, **Brake Drying** periodically and discreetly brings the brake pads into contact with the rotors to help dry them. And on long, gradual downhill slopes, BMW's **Brake Fade Compensation** helps keep your brake pedal action even, so you don't have to keep increasing brake pressure.

DRIVE ALL YOU WANT.

**YOU CAN'T THROW IT
OFF GUARD.**

In addition to inventing its own class, the BMW X6 Sports Activity Coupé® brings with it a host of innovative technologies. For example, power distribution is nominally 40% front axle, 60% rear, for balanced handling. However, BMW's xDrive intelligent All-Wheel Drive technology continuously and greater traction. And Dynamic Performance Control adds a secondary functionality of shifting power between the rear wheels. This helps maintain the sportier driving dynamics associated with rear-wheel-drive vehicles, so you get the best of both worlds: sporty road feel combined with pavement-hugging traction. It's an idea that perfectly fits the BMW X6.

BMW CONNECTED DRIVE.

CONNECTIVITY THAT STANDS APART.

Keep totally informed and in touch at all times. Everyday driving is now easier and more assured, thanks to BMW ConnectedDrive features that provide you with vital up-to-the-second information. Gain a bird's-eye view of your surroundings when parking with Rear-view and Top-view Cameras. Driver assistance systems, such as Active Cruise Control and Lane Departure Warning, help you reach your destination safely. A Head-up Display helps you keep your eyes focused on the road by streaming relevant data, such as speed, Navigation System instructions and warning messages from the driver assistance systems, directly onto the windshield. And, should something unforeseen occur while en route, BMW Assist™ will automatically make an emergency call while giving emergency services your accurate position.

BMW ConnectedDrive
In touch with your world.

Information Provided by:

INDULGE YOUR PASSION WHILE PROTECTING THE ENVIRONMENT.

BMW EfficientDynamics: innovations in sustainability. The BMW X6 makes it clear at a glance: compromise is not an option. That's why, thanks to BMW EfficientDynamics technology, the X6 is able to balance its great power with high efficiency and low emissions. The X6's in-line six and V8 TwinPower Turbo engines make use of BMW's Valvetronic variable intake engine technology that helps engines "breathe" better. This, combined with High Precision Direct Injection technology, virtually eliminates turbo lag while delivering one of the most fuel-efficient ratings in both engine classes. BMW EfficientDynamics' measures extend to the 8-speed transmission that efficiently maximizes engine power; intelligent lightweight construction that shaves fuel-consuming excess pounds; environmentally compatible manufacturing and recycling techniques; and Brake Energy Regeneration technology, which makes practical use of the kinetic energy normally wasted when braking or coasting. Add in the myriad other inspired EfficientDynamics technologies and it's no wonder BMW has been internationally recognized for industry-leading environmental sustainability, year after year.

Daring designs: futuristic boats and the BMW X6.

DRAMATICALLY DIFFERENT: MISTER WALLY.

The initial Wallypower sketch was a drawing of a Batman boat done by Bassani's children.

A bold innovator in yacht design, Milan-born Luca Bassani Antivari's seminal concepts from the early 1990s, initially derided, are now global design icons.

Ever since Luca Bassani Antivari breezed in with his first futuristic 82-foot racing vessel, there have really been only two types of ultra-exclusive yachts: the traditional and the Wally. The latter is already an icon of our time, synonymous with cool, clever modernity.

Bassani, 55, is a bold nonconformist who exudes a surprisingly quiet certainty. Every gesture says, "I'm on exactly the right track." The name of his Monaco-based company is also surprising. You have to be fairly laid back to name your business after an American comic strip character. But it all makes sense because Bassani's boats always surprise with their unusual character and technical solutions. For example, the 105-foot two-master Wallygator II has an unusually wide stern and a special anchor management system in the centre.

We meet in a north Italian boatyard, the bare structure of Bassani's third Wally standing inverted in front of us. Bassani's creations are audacious, surprising and refreshingly different. It's easy to think that Bassani is being provocative on purpose with the daring simplicity of his boats. But Wally is not different for its own sake. "Wally is a way of looking at things," he says. "A way of considering what is really needed on the water and finding new solutions."

His debut motor yacht, the 118-foot, 17,000hp Wallypower, surges from Monaco to Portofino in a short one and a half hours. Once there, you enjoy your aperitif – not on the stuffy afterdeck, but on the foredeck, cooled by the evening breeze – another of Bassani's ideas. As for the prism-shape superstructure, that was actually sketched by Bassani's children. It was their vision of a cool boat for Batman.

Clearly, Bassani likes to get to the heart of matters in his own particular way. And when this charming provocateur does anything, he does it with utter conviction. The Wallypower stands as a design icon and even became a film star in the science fiction movie, *The Island*. It also became the prototype for his motor yacht range, from the new 43-foot WallyOne to a 56-foot, four-cabin rocket capable of 40 knots.

It's easy to see why Bassani enjoys his BMW X6, with its focus on driving pleasure and strong individual presence. He can even imagine a lighter version of the vehicle – one that uses the composite-fiber technology used on his boats. "Ultimately," he says, "a car has to be like a boat: to give enjoyment, look good and drive well. Otherwise it doesn't interest me."

THE ESSENCE OF COOL AT SEA.

Bassani's boats are not different for effect. Their differences are their strengths.

PROGRESSIVE OUTLOOK?

WE'RE WITH YOU ALL THE WAY.

Tailored to your needs. With this vehicle you are always the focal point. Consider the interior of the new BMW X6 with its clear driver orientation. As soon as you get behind the sport leather steering wheel, you will find not only the multifunction buttons, but also the gearshift paddles of the 8-speed sport automatic transmission. As in motor sport, you can change gears in split seconds without taking your hands from the wheel. Furthermore, all vehicle functions are displayed on the optimally positioned Control Display. And while the raised seating position gives a clear overview, this can be increased still further by the optional BMW Head-up Display. This projects all driving information directly into your field of vision. It means you can keep your eyes on the road – and maintain a progressive outlook in every sense.

360 DEGREES OF PURE BMW LUXURY.

Luxury every day. You have to hand it to the BMW designers: they truly understand the concept of comfort. The BMW X6 offers a spacious interior that seats up to five, with a surprising amount of leg- and headroom for both the front and back seats. And while some all-wheel-drive vehicles may favour utility over luxury, the BMW X6 impresses with a wealth of premium interior features, such as supple leather upholstery and exotic Dark Bamboo trim. So no matter what the scenery outside offers, the view of the cabin is always first-rate.

BMW ConnectedDrive In touch with your world.

Every day, our world is becoming increasingly networked. Many BMW drivers, however, are better connected than the rest, obtaining information on the road, communicating by phone or email, and always updated on the latest events. BMW ConnectedDrive encompasses all these services, including traffic features that allow BMW vehicles and their occupants to network with the outside world.

Enhanced mobile networking. The BMW Vision ConnectedDrive is a visionary Roadster whose amazing design goes far deeper than its dynamic, flowing lines. Three levels in the interior each symbolize a facet of BMW ConnectedDrive – Convenience, Infotainment and Safety; accompanying functions and controls are highlighted with different coloured lights that illuminate information. An extraordinary synthesis of exterior and interior style and substance, the BMW Vision ConnectedDrive points the way to a mobile networking future.

BMW CONNECTED DRIVE – FOR MORE CONVENIENCE, INFOTAINMENT AND SAFETY.

Wherever the road may take you, you'll always be in touch, thanks to BMW ConnectedDrive. These advanced safety, convenience and infotainment capabilities make any trip easier and more pleasurable than ever before.

Active Cruise Control with Stop & Go function and Front Collision Warning System lets you preset both desired speed and following distance. When Active Cruise Control recognizes slower vehicles ahead, it reduces your speed to maintain a preset distance. Once the lane ahead becomes free, the system accelerates up to the desired speed. In slow-moving traffic, Stop & Go can bring you to a complete stop, if needed. The Front Collision Warning System alerts you if your vehicle is in danger of running into the vehicle ahead. If necessary, the brake system also prepares to engage. Even when not using the Active Cruise Control technology, the Front Collision Warning System is still active.

Top-, Side- and Rear-view Cameras around the vehicle show the surroundings on the Control Display, for enhanced visibility. The **Top-view Camera** provides a bird's-eye view of the road alongside the doors. These images, taken by cameras positioned in the exterior mirrors, help guide you when maneuvering in tight spaces. **Side-view Cameras** in the front bumpers show traffic approaching the front of the vehicle from the sides, such as when exiting a garage. The **Rear-view Camera**, located behind the BMW badge on the trunk lid, shows the area behind the vehicle. Working with Park Distance Control, interactive guidelines indicate if the vehicle can fit in a parking space, and display parking trajectories and turn angles.

BMW Head-up Display. The BMW Head-up Display allows you to always keep the traffic situation in view in the new BMW X6. Relevant information is projected onto a two-colour TFT display directly in the driver's field of vision. The BMW Head-up Display shows, for example, your speed and navigation instructions.

Please note: Speed Limit Information display not available in Canada.

Lane Departure Warning. At speeds above around 70 km/h, the optional Lane Departure Warning system registers lane markings ahead, up to a distance of 50 metres. If the vehicle threatens to move out of the lane, the system warns the driver with a slight vibration of the steering wheel. If the driver has activated the indicator – meaning that the lane change is intentional – no warning is given.

High-beam assistant. The optional High-beam assistant recognizes light sources in the car's environment and switches the high beam on and off, according to the traffic situation. When the system is active, an image sensor at the back of the interior mirror monitors the traffic and lighting conditions. Based on these sensor images, the assistant decides whether or not the high beam should be switched on. When it detects vehicles ahead, or finds that ambient light is sufficient, the high beam is switched off again.

STAY IN TOUCH WHEREVER YOU GO – WITH BMW CONNECTED DRIVE.

Whether you're far from home or just in the next town, BMW Assist™ offers convenience and peace of mind. There are new ConnectedDrive features that extend BMW's leadership in wireless communications. Marvel at an extensive array of new Mobile Office functions. Get a visual image of your callers. With BMW Assist, you enjoy all this – and more.

BMW Assist gives you peace of mind knowing that a friendly response specialist is there to help you 24/7, at the touch of a button. The Safety and Security Plan includes Advanced Automatic Collision Notification, Emergency Request (SOS), TeleService, Enhanced Roadside Assistance, Door Unlock, Stolen Vehicle Recovery, Customer Relations, Concierge and MyInfo.

Use the time you spend in your vehicle even more effectively with BMW's **Mobile Office** feature.¹ For example, when your vehicle is paired with a selected Bluetooth® interface, text messages and emails are transferred to your iDrive Display screen – and our system even reads them aloud to you.

¹ Not all mobile phones are compatible with Mobile Office, and some compatible phones support a limited number of Mobile Office functions. Please contact your local BMW Retailer for details.

What's on today's agenda? Bring up the **Calendar** and **To-do List** on your Display screen while en route, to help you stay on schedule. Need to call your 11 o'clock appointment? Use the iDrive Controller knob to click on the phone number in the Calendar – and it's ringing. Meeting with several people? Conduct conference calls; the Display screen keeps you informed of the status of incoming calls. Who's calling you? If you've uploaded photos to your on-board phonebook, you'll see the caller's picture. Even missed calls are listed on the Display screen. It's never been easier to stay in touch while in transit.

Enhanced functions for the iPod® and USB adapter add to the ease and pleasure of using your iPod or iPhone.® Want to know which CD that song comes from? The album cover is shown on your Display screen. Don't purchase additional cables – your iPod or iPhone's original USB cable connects to your BMW's USB port. Another rare feature: with BMW Assist and Bluetooth audio streaming, you can wirelessly play music through the BMW audio system from any Bluetooth compatible music player or mobile phone, from anywhere in your vehicle. In fact, the audio library appears on the Display screen, where you can use the iDrive Controller knob to make your selection.

MyInfo allows you to send locations and street addresses to your BMW from Google Maps™. Destinations and phone numbers can be accessed and exported to your Navigation System for immediate route guidance, while you can call the destination with your Bluetooth linked phone.

bmw.ca/innovation

"Whenever I'm far from home, I have peace of mind knowing that BMW Assist is right there, ready to help me should I need it."

BMW Apps lets you access Social Networks, music PlugIn and Video Playback through your iPhone, and see them on the Display screen.²

Please note: Not all features available while vehicle is in motion; see retailer for details.

Access content from your **Twitter™** and **Facebook®** accounts to stay on top of what's happening with friends and family.² The system can even read posts aloud, so you can keep your focus on the road. You can quickly post prewritten tweets that are further personalized by your BMW to let everyone know where you are and that you're enjoying the drive.

When you select **PlugIn** from the BMW Apps menu, the iPhone exports a typical iPod look and control to your BMW through the video connection.² You can then search for your favourite music by playlist, artist, album, song, genre or composer, just as you would on your iPhone.

Please note: The BMW App must be installed on your iPhone for the PlugIn to connect.

² Requires BMW Apps option and an iPhone.

BMW EfficientDynamics

Less emissions. More driving pleasure.

BMW is passionate about researching and developing systems that ensure advanced and efficient mobility. Which is why the BMW X6, like every BMW, comes with comprehensive, multi-award-winning BMW EfficientDynamics technology. BMW EfficientDynamics innovations reduce fuel consumption and CO₂ emissions while maximizing engine output and dynamic performance. Less fuel, more driving pleasure – a contradiction that BMW has resolved once and for all.

BMW EFFICIENT DYNAMICS. VEHICLES THAT REQUIRE LITTLE AND GIVE A LOT.

BMW was one of the first automotive manufacturers to pursue efficient driving technologies – one part of our award-winning sustainability strategy. BMW EfficientDynamics represents the most comprehensive package of innovative technologies currently in production for reducing fuel consumption and emissions. Our commitment to EfficientDynamics means we are continuously developing innovative systems that bring us closer to our long-term goal of emissions-free mobility. Since 1995 BMW has been able to reduce the CO₂ emissions of its entire fleet by approximately 30 percent, and intends to achieve a further 25 percent reduction by 2020. However, we remain committed to driving pleasure, which is being pursued in different ways.

Eco-friendly technology.

The development of more efficient vehicles powered by conventional diesel and gasoline engines continues. A comprehensive technology directive enables the reduction of fuel consumption and emissions while at the same time increasing power output and driving enjoyment. These advances are based on innovations such as BMW TwinPower Turbo technology, Brake Energy Regeneration, Air Curtain front apron design, and many others.

BMW ActiveHybrid.

With the BMW ActiveHybrid 7, ActiveHybrid 5 and ActiveHybrid 3, BMW has impressive hybrid production models in its line. All combine outstanding efficiency with superlative dynamic ability.

BMW i.

The BMW i brand will launch two completely new vehicle concepts for sustainable mobility in an urban environment. Key features of the BMW i3 and BMW i8 include the use of lightweight materials such as carbon-fiber-reinforced plastic (CFRP), electric drive systems, powerful battery technology and eco-friendly production methods. Both the BMW i3 and i8 launch in 2014 and are an important part of EfficientDynamics technologies.

➤ bmw.ca/innovation

➤ bmw-i.ca

THE BMW X6 SPORTS ACTIVITY COUPÉ.[®] BMW EFFICIENT DYNAMICS INNOVATIONS.

BMW TwinPower Turbo technology. Benefiting from BMW's innovative twin-scroll turbocharging technology that reclaims the energy contained in exhaust gases, the X6 engines deliver quick acceleration while virtually eliminating turbo lag.

High Precision Direct Injection. In this latest-generation direct fuel injection system, the piezo injectors are positioned very close to the spark plugs. They inject fuel at high pressure, with extreme precision, for very efficient combustion.

Double-VANOS valve timing. BMW's VANOS valve timing system "steplessly" varies the points in the combustion cycle when valves open and close. Double-VANOS refers to the fact that it operates on both the intake and exhaust camshafts. Electronically controlled in response to engine speed, temperature and load, it reduces emissions, and enhances low- to medium-speed torque, as well as fuel efficiency.

Valvetronic. BMW's Valvetronic valve control system improves engine response and refinement, while also helping to reduce fuel consumption. The system helps the engine "breathe" better by providing fully variable lift adjustment of the inlet valves.

8-speed sport automatic transmission. This transmission provides extremely fast shifting in both automatic and STEPTRONIC shift modes. By increasing the number of gears to eight, the transmission provides a more efficient shifting sequence and improved fuel economy.

Brake Energy Regeneration. With Brake Energy Regeneration, the alternator generates electricity only when the driver takes his or her foot off the accelerator. The kinetic energy that was previously unharnessed is transformed into electrical energy, which is then fed into the battery. In this way, electricity is generated without consuming fuel.

IT ALL REVOLVES AROUND YOU. SEVERAL THOUSAND TIMES PER MINUTE.

Engines that power innovation. Year after year, BMW engines have garnered accolades for their output, refinement and high-revving ability. Beneath the hood of the X6 xDrive35i and X6 xDrive50i are two of the world's most sophisticated engines. They are designed to deliver on BMW's EfficientDynamics philosophy: increased power with decreased fuel consumption and emissions. You'll enjoy the thrill of BMW performance while helping to protect the environment every day.

BMW X6 xDrive50i. BMW's 4.4-litre TwinPower Turbo V8 is the essence of an iron fist in a velvet glove. Calling on two parallel turbochargers, its robust 400hp accelerates the X6 xDrive50i smoothly from 0-100 in a scant 5.5 seconds, while the boost from 450 lb-ft of peak torque is sustained from 1750 rpm all the way to 4500 rpm. Equipped with the M Performance Edition, the output rises to 443hp and 479 lb-ft of torque. And, thanks to High Precision Direct Injection, this V8 is also extremely fuel efficient.

BMW X6 xDrive35i. BMW's universally lauded in-line six-cylinder, TwinPower Turbo engine features twin-scroll turbo technology, High Precision Direct Injection and BMW's variable valve timing technology, which helps the engine "breathe" better. The result: turbo lag is virtually eliminated, while posting one of the most fuel-efficient ratings in its class. In just 6.7 seconds, the X6 xDrive35i rushes past 100 km/h, thanks to a maximum output of 300hp at 5800 rpm; 315hp with the M Performance Edition. Adding to the excitement, 300 lb-ft of peak torque (332 lb-ft with the M Performance Edition) begins at just 1300 rpm and doesn't end until 5000 rpm.

Every BMW vehicle is engineered to provide the most thrilling and precise connection to the road. This is achieved through innovative axle technologies that increase stiffness front and rear, while reducing weight through the use of lightweight aluminum components. The BMW X6's near-perfect 50/50 weight distribution offers strikingly well-balanced road feel, with responsive characteristics virtually unmatched by any competitor on the road today.

THE FEELING OF DRIVING THE BMW X6 IS SIMPLY INCREDIBLE. LIKE THE TECHNOLOGY BEHIND IT.

The formula sounds simple: a near-perfect 50/50 weight distribution between the front and rear axles. Yet few other makes have ever been able to duplicate this balance. BMW's engineers also have conjured similar triumphs in neutral steering properties, directional stability and traction control. A lightweight multi-link integral rear suspension and wide track improve the responsiveness of the dampers, providing a more comfortable ride. Here are some more advanced technologies that combine to make the BMW X6 such a powerful presence on the road.

Active Steering. This system delivers greater driving enjoyment with even more direct steering when cornering, and greater agility on twisty sections of road. At low and moderate speeds, it takes just two turns of the steering wheel to move the front wheels from far left to far right. When the steering wheel is turned the same amount at higher speeds, the steering ratio gradually changes, providing greater directional stability and more comfortable cruising.

Dynamic Performance Control. Where xDrive All-Wheel Drive can send available power from the rear to the front, Dynamic Performance Control smoothly apportions available power between the rear wheels. When cornering, Dynamic Performance Control sends more power to the outside rear wheel, enabling the vehicle to "turn in" with less understeer. Minimizing understeer (the tendency to plow through a turn) lets you make tight turns and corner with confidence.

Adaptive Drive. The Adaptive Drive system (optional) combines the two active chassis control systems: Active Roll Stabilization (ARS) and Dynamic Damper Control (DDC). In corners, the vehicle's body tends to roll, affecting handling characteristics. ARS twists specially designed two-piece anti-roll bars to generate stronger resistance to body roll, keeping the vehicle more level and providing maximum stability and agility. DDC, on the other hand, instantly and continuously adjusts the shock absorbers from the softest to the firmest settings. The result is exceptional riding comfort and fluid handling at all times, during changes in vehicle speed, load or road and driving conditions.

Hill Descent Control (HDC). This feature helps the BMW X6 drive down steep hills without having to "ride the brake." By pressing the HDC button, the system keeps the X6's speed under control automatically.

8-speed sport automatic transmission. This transmission adjusts to your style – from comfortable cruising to very dynamic driving. To change gears, you can use the selector lever or steering wheel-mounted gear shift paddles. In Sport mode, modified clutch settings allow very quick adjustments in engine speed, for minimal shift times. The close spacing of the eight gears optimizes acceleration, while also maximizing efficiency and comfortable shifting.

xDrive. Even when driving on wet roads, over slippery leaves, snow and ice – regardless of the road surface quality – the xDrive intelligent All-Wheel Drive system and Dynamic Stability Control (DSC) give you road-gripping stability and outstanding traction. xDrive reacts immediately upon detecting over- or understeer, and employs an electronically controlled multi-plate clutch to redistribute drivepower between axles in just fractions of a second.

HIGH-TECH BODYGUARDS: ACTIVE AND PASSIVE SAFETY FEATURES.

The X6 is equipped with BMW's full range of state-of-the-art active and passive safety technologies. Active safety features, such as Xenon Adaptive Headlights, powerful engines and large brakes, help you see and respond to potentially dangerous situations. Should an accident prove unavoidable, passive safety features, such as airbags and an extremely stiff body, are designed to help protect you and your passengers. After a severe impact, a host of features spring into action: the doors automatically unlock, headlights and taillights flash, the starter cable is disconnected from the battery and the fuel supply is cut off. Should any airbags deploy, BMW Assist™ response specialists are automatically alerted and notified of your location.

Dynamic Stability Control (DSC). This system provides remarkable tenacity on slippery road surfaces. If it senses over- or understeer, it modulates engine power and can apply brakes individually to help keep the vehicle under control and going in the intended direction. Start-off Assistant, a feature of DSC, prevents the vehicle from rolling backward on a hill for 1.5 seconds after taking your foot off the brake. The system also includes Brake Fade Compensation, which lets you use the same amount of pedal force, even when the brakes are heated; Brake Stand-by, which pre-tenses the brakes for quicker action if you suddenly remove your foot from the accelerator pedal; and Brake Drying, which periodically brings the brake pads into contact with the rotors to eliminate accumulated moisture when it rains.

Tire Pressure Monitor. This feature alerts you when there is a sudden and irregular drop in tire pressure. Should the target pressure of a tire fall below 25%, both a warning light and acoustic alarm are triggered.

Run-flat tires. Thanks to reinforced sidewalls, run-flat tires maintain their shape and rim position even after suffering a complete loss of tire pressure. They allow you to continue driving at a reduced speed until you reach a safe area to change a tire or wait for Roadside Assistance.

Airbags. Six airbags are designed to deploy only as needed in the event of a collision: one front- and side-impact airbag each for the driver and front passenger, and Head Protection System (HPS) airbags at the sides of the front and rear cabin to help protect all occupants.

Active Head Restraints. Mounted in the front seats, they reduce the risk of whiplash or neck/head/spine injury. When sensors detect a rear-end collision, the headrests rapidly and automatically pivot forward, supporting the driver's and front-seat occupant's heads.

Note: These pictures of airbags are for illustrative purposes only. Depending upon the type of accident, none, some or all airbags may deploy.

Dynamic Performance Control. The X6 flexibly distributes drive force between the wheels of the rear axle. This active distribution of power increases agility in corners and makes steering even more precise. The overall result is a noticeable increase in sportiness and optimum driving dynamics.

Extremely rigid body. The BMW X6 features a protective safety cell that directs severe impact forces around the passenger compartment. Thanks to BMW's intelligent lightweight design and the use of high-strength steels, the interior passenger compartment is surrounded by a remarkably strong shell.

Impact-absorbing bumpers. These, and compressible "crush tubes" front and rear, help absorb the force of impact in collisions up to 15 km/h, minimizing damage to the vehicle's body and simplifying repairs. Only at higher impact speeds do structural supports begin to deform, dissipating impact energy to help protect occupants.

Xenon Adaptive Headlights. These low and high beams enhance illumination of the road ahead at night or in poor visibility. Four LED Corona headlight-rings, which can be used as Daytime Running Lights, also serve as parking lights. Adaptive Headlights automatically swivel to follow the curves of the road. Light distribution is automatically adapted to the road speed and steering angle.

Cornering Lights. Positioned in the two inner headlights, Cornering Lights are automatically activated by using the turn indicator or changing the steering wheel angle, even when the vehicle is at rest.

Active Steering. This system adjusts both steering ratio and steering force in relation to driving speed. At low to medium speeds, a small turn of the steering wheel translates into a big turn of the front wheels. You enjoy more agility in city driving, quicker turns on twisting roads, and easier parking manoeuvres. At higher speeds, a larger turn of the steering wheel is needed to turn the front wheels, resulting in greater straight-line stability.

ELEGANT AND SPORTY.

A BMW X6 to excite the senses: the sporty Marrakesh Brown Metallic exterior raises your emotions, while the Saddle Brown Nevada Leather upholstery, set off by Flywheel Black Aluminum trim, rewards your sense of esthetics.

The X6 xDrive35i's rich Black Sapphire Metallic paint frames the interior upholstered in elegant Beige Nevada Leather, set off by Ash Grain Wood trim.

Elegant eye-catcher: the xDrive50i lettering on the side of the vehicle.

19" Double Spoke alloy wheels - Style 424 emphasize the X6's sporty nature.

Gleaming 20" Y Spoke alloy wheels - Style 214 and an aluminum running board add visual interest to the exterior.

BMW INDIVIDUAL. THE EXCLUSIVE WAY TO DRIVE A BMW.

For those who dream of a vehicle that reflects their own unique personality, there is BMW Individual.

The BMW Individual collection of exclusive paints, leathers and trims takes the BMW X6 to greater heights of quality and exclusivity. Only the finest, perfectly matched materials are selected to create each expertly handcrafted interior.

BMW Individual exterior colours are noted for their brilliant, iridescent effects. One dramatic example is the Ruby Black Metallic paint finish. Under the light, it develops a dark red luminosity that seems to emanate from countless ruby pigments. Watching a BMW Individual X6 in Azurite Black Metallic move through light and shadow is reminiscent of being at sea, as the deep blue swells reflect and hide the sun. Citrin Black Metallic combines black-tie elegance with the warmth of golden light. And Pearl Silver Metallic evokes the shimmering, luminous beauty of pearls.

BMW Individual Full Merino Leather looks enticingly soft and velvety, and feels sumptuous. Its secret lies in a painstaking selection process: only absolutely flawless hides are approved for use. As a result, these premium leathers do not require surface treatment. By leaving the leather in its natural state, it retains its breathable, porous structure, remaining soft and supple. All the available Full Merino Leather colours in the BMW Individual X6 – Platinum, Champagne, and Criollo Brown – are designed to complement and harmonize with BMW Individual paint finishes.

BMW Individual trims have their own magic. Whether you choose Woven Leather, Eucalyptus Red Brown Wood or Piano Black Wood trim, our strict selection process and perfect finishing techniques ensure excellent quality. In creating the Piano Black Wood interior trim, for example, superior craftsmanship is an essential ingredient. In fact, its brilliant, high-gloss surface is the result of a special process usually applied only by the world's leading piano makers.

Experience BMW Individual interactive with the BMW Individual iPad® App.

BMW Individual Pearl Silver Metallic paint finish.

Sumptuous Criollo Brown Full Merino Leather adds a rich note to the interior.

A tour de force of Old World craftsmanship: Champagne Full Merino Leather upholstery.

A cabin upholstered in Platinum Full Merino Leather and trimmed with Eucalyptus Red Brown Wood creates a serene travel environment.

Equipment features and options.

Adaptive LED Headlights for both high and low beams project an intense white light that simulates daylight for excellent visibility. Convenient features that improve visibility include Automatic headlights, Adaptive turning, Cornering Lights and available High Beam Assist. All four Corona headlight-rings emit very bright LED light – unmistakable day and night.

Foglights with LED technology improve visibility while adding a distinctive nighttime look.

Xenon Adaptive Headlights help enhance nighttime road visibility. Sensors continuously monitor the steering wheel to determine the vehicle's direction. Entering a turn or corner, the outer headlights swivel up to 15 degrees left or right. **Xenon low- and high-beam headlights** illuminate the road ahead and to the side with brilliant clarity. An auto-leveling feature adjusts for varying passenger and cargo loads. **Corona headlight-rings** circle headlights and high beams and act separately as daytime running lights.

Retractable, high-intensity headlight washers help keep lights clean of ice, mud, road salt and other coatings, for maximum road lighting and enhanced driving visibility.

Redesigned **kidney grille** sits over the special intake grille, underscoring the BMW X6's rugged stance. (Kidney grille has black finish on BMW X6 xDrive35i; Titanium finish on BMW X6 xDrive50i.)

Ambiance lighting includes lights in the exterior door handles that radiate downward whenever the doors are unlocked. They illuminate the area outside the doors for approximately 20 seconds to enable safe vehicle access in the dark. Also included are rear reading lights, rear footwell illumination, and Ambiance interior lighting.

Rain sensor uses infrared light to measure the amount of rain. When the wipers are in the "intermittent" mode, the rain sensor automatically adjusts the windshield-wiping interval as needed. **Automatic headlight control**, included with rain sensor, activates headlights by means of a sensor that responds to darkness.

Body-colour, power-adjustable, folding side-view mirrors automatically dim when reflecting bright lights, helping to eliminate glare when driving at night.

Aluminum running boards with rubber inserts are designed to add to the BMW X6's overall visual appeal, while making it easy for passengers to comfortably enter and exit.

High-gloss shadowline trim gives the front and rear side-window frames and door-sill trim strips a sportier look. **Soft-close automatic doors** use small electric motors to gently close all four doors and the trunk lid. Simply close the door or trunk lid gently and then the electric mechanism draws it fully in.

Privacy glass for the rear side windows (from the B-pillar back) and taillgate. The tinted glass reduces glare and helps maintain a comfortable interior temperature when it's hot outside. (Note: Wheel style shown in image above not available.)

Adaptive Brakelights warn following vehicles by increasing in brightness when the intensity of your braking action is increased.

Dual circular-shape chrome exhaust tips, integrated into the BMW X6 xDrive35i's rear fascia, stand out and add an attractive touch to the exhaust system.

Dual rectangular-shape chrome exhaust tips are strikingly positioned in the rear fascia of the X6 xDrive50i.

Equipment features and options.

20" Y Spoke alloy wheels - Style 336 with run-flat performance tires. Front: 20 x 10.0 wheels with 275/40 tires; back: 20 x 11.0 wheels with 315/35 tires.

20" Y Spoke alloy wheels - Style 214 with run-flat performance tires. Front: 20 x 10.0 wheels with 275/40 tires; back: 20 x 11.0 wheels with 315/35 tires.

19" Double Spoke alloy wheels - Style 424 with run-flat performance tires. Front and back: 19 x 9.0 wheels with 255/50 tires.

20" Star Spoke alloy wheels - Style 259 with run-flat performance tires. Front: 20 x 10.0 wheels with 275/40 tires; back: 20 x 11.0 wheels with 315/35 tires.

Two-way power glass moonroof with remote, expanded one-touch operation, slides back or tilts up to let in as much fresh air and sky as you like, while a wind deflector helps keep the wind out. Includes a sliding interior sunshade.

Anthracite roofliner gives the interior a handsome, sporty look. Additionally all pillars, sun visors and roof grab handles are upholstered in fine Black.

Rear-view Camera with Top View is automatically activated by shifting into reverse gear, or manually by pressing the Parking Assist button. The colour Display shows a real camera image that may include "static" and "track" lines to help you when backing up or parallel parking.

Park Distance Control uses eight sensors – four in the front, four in the rear – to help you judge how close you are to other vehicles and unseen objects when parking. The warning beeps come faster as the bumper approaches the object, turning into a constant tone when the distance is less than .3 metres.

Side-view Cameras offer visual assistance when side visibility is limited, such as when exiting a parking garage or parking space. One camera is located on each front fender, just ahead of the wheel arches.

Equipment features and options.

The BMW X6 luggage compartment can comfortably transport bulky items or your sports equipment – for example, up to four golf bags. The retractable cargo area cover, when not needed, can be stored in the luggage compartment floor.

The X6's 60/40 split-folding rear seats and available pass-through maximize your hauling possibilities.

The X6 comes equipped with a storage package that adds two lashing rails with four sliding lashing eyes, as well as additional lighting, making it easy to see and secure cargo safely and quickly.

With both rear seats lowered, the BMW X6 provides almost 1.7 cubic metres of usable storage space.

Leather-wrapped multi-function sport steering wheel, featuring power tilt/telescoping adjustments, lets you keep both hands on the steering wheel while adjusting both the audio and a BMW-approved, Bluetooth® enabled mobile phone.

Three-spoke multi-function M Sport steering wheel has a thick textured rim for excellent grip, and unidirectional wheel-mounted gear shift paddles.

Heated steering wheel is a feature that, like heated seats, becomes a “must-have” once it’s experienced. The heating switch is conveniently located on the multi-function steering wheel.

Instrument cluster features four analog displays for speed, rpm, fuel level and fuel consumption, as well as the Info Display that shows, for example, the exterior temperature and the functions of the on-board computer.

8-speed sport automatic transmission provides extremely fast synchronized shifting, whether performed by the Automatic shift mode or by the race-inspired steering wheel-mounted paddle shifters.

Electromechanical parking brake with Automatic Hold keeps the vehicle stationary whenever the vehicle comes to a stop, then releases the brake when the driver steps on the accelerator pedal.

Sport button allows selection of a firmer suspension setting when equipped with Adaptive Drive.

Equipment features and options.

Active Cruise Control with Stop & Go lets you preset desired speed and following distance. When it recognizes slower vehicles ahead, it reduces your speed to maintain the preset distance. Stop & Go can bring you to a complete stop if traffic calls for it. When you press the accelerator, it resumes speed according to your presets.

Front cupholders integrated into the centre console are located within convenient reach of the driver and front passenger.

Storage space abounds throughout the cabin – in the front centre console, in door storage pockets and in the rear cabin.

NOTE: Only with 4-seater optional configuration.

Kneepads along the sides of the centre console provide greater comfort and grip for the driver and front passenger's knees – especially during quick, sharp turns.

BMW anti-theft AM/FM stereo CD/MP3 player includes Radio Data System, Auto-Store, and 3-channel FM diversity antenna; reads/displays song title.

The **automatic-dimming inside rear-view mirror** darkens in response to the bright headlights of vehicles behind you. The easy-to-read **digital compass**, integrated into the mirror, is a convenient way to constantly keep your bearings while driving.

A **three-button Universal garage-door opener** can be programmed to open garage doors and activate various remote convenience functions.

Engine Start/Stop button and remote key control the engine. First, insert the remote key into the starter switch slot. After the electronic identification system confirms that it is the correct remote, you can start (or later, turn off) the engine by pressing the Start/Stop button. (Foot must be on brake in order to start.)

Six programmable memory buttons offer convenient storage of your most frequently accessed iDrive settings, such as favourite radio stations, Navigation System addresses, phone numbers (when equipped with a BMW-approved Bluetooth® enabled mobile phone), and more.

iDrive Controller, which is conveniently located on the centre console, is the central command element for the iDrive system and can be rotated, pushed and tilted to operate various functions via the Control Display. Additionally, four frequently selected menus – CD, radio, Navigation System and telephone – can be called up using direct menu-control buttons.

Head-up Display projects important travel information, such as vehicle speed and Check Control warnings, onto the windshield directly in your field of vision. Additional information, including Lane Departure Warning messages and Navigation directional arrows and instructions, can also be displayed. Speed Limit Information display not available in Canada.

Equipment features and options.

Sirius Satellite Radio delivers the most innovative satellite radio sports, news/talk, traffic/weather, entertainment, and 100% commercial-free music – coast to coast in clear digital sound, 24/7. Select channels through the iDrive system or Voice command, and enter them into the programmable memory buttons.

Rear-seat entertainment system lets passengers in the rear cabin watch DVDs or listen to their choice of CDs through headphones or the vehicle speaker system. The system features a fold-down 8-inch colour screen and can be controlled via a wireless remote or manually by rear-seat passengers.

Premium high-fidelity sound system is a multi-channel system that outputs the surround information in the stereo signal in a 9-channel format (7 medium-high-range channels and two central bass channels). The 16-speaker system has one centre bass speaker subwoofer below each front seat; one midrange and one high-range speaker each in the door panels; one midrange and one high-range speaker each in the D-pillar; one midrange and one high-range speaker in the instrument panel (centre channel); a digital amplifier with nine channels and 600-watt output (7x50 watts + 2x125 watts). All speakers are fitted with strong, compact Neodymium drives. The system also compensates for driving noise in smooth steps by speed-dependent equalizing in the low range.

Rear cupholders are conveniently located between the two rear seats. When not in use, they can be easily covered up to form a centre armrest. Only with 4-seater optional configuration.

Automatic climate control system allows occupants to select specific cabin temperatures and fan speeds, as well as automatic or manual airflow and recirculation. The automatic recirculation control activates when certain air pollutants are detected. The system also includes defrost/defmist and MAX A/C functions.

Four-zone climate control lets occupants, both front and rear, select individual temperature and fan settings.

Rear side sunshades keep the sun's heat and glare away from the rear cabin while maintaining privacy. When not in use, these manually adjustable sunshades conveniently disappear into the side doors.

Ski bag allows for clean transport of up to four pairs of skis with up to four occupants in the vehicle. Whenever the ski bag is not in use, it remains stored conveniently and discreetly behind the rear centre armrest.

12V power outlets are included in the front and rear passenger areas, as well as in the cargo area.

Five-seat configuration is standard. It features three head restraints in the rear, three-point safety belts for all seats and integrated belt catches for the outer seats.

Ten-way power front sport seats with two-way manual thigh support adjustment and driver's seat memory system make the BMW X6 driving experience more enjoyable. Thanks to specially padded, highly contoured side bolsters, sport seats provide optimum lateral support during tight cornering, while remaining exceptionally comfortable when driving over long distances. The seats have power adjustments for seat height, backrest angle, seat bottom angle, forward/backward position and head-restraint height; includes manual adjustment for thigh support.

20-way power multi-contour front seats conform to your body to provide optimum support and exceptional comfort over long distances. In addition to horizontal, vertical and angled adjustments, seats include an articulated upper backrest, backrest width, Comfort headrest (two-way power, two-way manual "relax headrest"), and four-way power-adjustable lumbar support. Both driver's and front-passenger's seats include memory function.

Power front seat adjustments customize driver and front passenger comfort. A two-driver memory system automatically adjusts the driver's seat, side-view mirrors and the steering wheel position.

Lumbar support adds four-way power-adjustable comfort for the lower back, and can be adjusted up/down and in/out.

Front seat ventilation gently blows warm or cool air through the micro-perforations in the leather to help keep driver and front passenger comfortably dry in hot weather, and warm in colder weather.

Equipment features and options.

60/40 split-folding seats gives you the flexibility to carry any combination of cargo and passengers.

Storage package* adds practical extras: additional lighting and two lashing rails with four sliding lashing eyes.

* Available as a special order.

Retractable cargo cover keeps contents of the cargo area hidden from sight. When not in use, it can easily be removed.

Anti-theft alarm system features remote control, anti-theft device and electronic immobilizer for effective protection. In the event of an attempted break-in or unauthorized transport, the system sounds an alarm and switches on the hazard warning lights.

Comfort Access system offers an even greater degree of convenience: keyless access to your vehicle. Simply carrying the remote key in a pocket allows you to unlock the doors by touching the door handle. You can also turn the engine on or off by pressing the Start/Stop button without inserting the remote key. (Foot must be on brake in order to start.)

Original BMW Accessories.

Take your gear anywhere with the **BMW Roof Box 460** in Silver or Black, or painted to match your X6. It lets you load from either side, and includes anti-theft triple central locking for security. **21" Star Spoke chrome wheels - Style 375** make a bold statement.

Snap-in Adapter with USB interface plays stored music through your vehicle's speakers, charges your mobile phone, and accesses the vehicle's antenna for better reception.

BMW holder for Apple iPad® attaches to front headrest support bars.

Luggage compartment tray, shatterproof and acid- and impact-resistant, is designed to perfectly fit and protect the X6 cargo area.

Driving a BMW is always a special experience – and it can be enhanced even further with Original BMW Accessories. Benefit from innovative solutions that combine unique ideas, stunning design and smart functionality. Discover a wide range of Original BMW Accessories that customize, enhance and protect your X6's exterior, interior, technology and transporters. From load carriers to cargo mats, sheepskin seat covers and more, every Original BMW Accessory adheres to BMW's highest quality standards. Each is designed to fit the X6 perfectly and last just as long. For additional information on BMW Accessories, please see your authorized BMW Retailer or visit bmwshop.ca.

BUILD YOUR OWN BMW – AT BMW.CA/BYO.

At BMW, we believe that the Ultimate Driving Experience is unique. That's why BMW offers one of the widest model ranges of any luxury automotive manufacturer. And each BMW model offers its own universe of personalizing possibilities.

Want to learn more? It's easy to get the latest information on your favourite BMW model. Simply visit **bmw.ca** and click on the BMW model of your choice. Select **Downloads** to see all the standard features and available options and packages, as well as technical specifications.

You can customize the exact BMW model that fulfills your needs by clicking on **"Build Your Own."** Here you'll be able to select from among the many interior and exterior colours and trims, personalizing options and value-added packages. Build a BMW model that reflects your style, then view it in 360° detail. At the press of a button, see payment and financing options, get a same-day quote, download a product brochure and even schedule a test drive. BMW makes it easier than ever to make your ultimate driving dreams come true, at **www.bmw.ca/byo**.

BMW DRIVER TRAINING.

Professional driving instructors. Closed course. The Ultimate Driving Experience. Since 1977, BMW Driver Training has led the world in making people safer, more assured drivers. BMW offers this unique opportunity in a variety of skill levels, ensuring all participants find the course that is right for them. BMW Driver Training is available to all licenced Canadian drivers who are dedicated to driving with the utmost confidence, whether they own a BMW or not.

Compact

This half-day introductory course is geared towards first-time BMW Driver Training participants, including 16-year-olds holding a learner's licence. Here, drivers learn about elementary vehicle dynamics and emergency response manoeuvres.

Advanced

This exciting one-day course offers a comprehensive introduction to the fundamentals of driving dynamics. Participants learn to master real-life, urban driving scenarios such as braking and avoiding and front- and rear-wheel skid control. Upon completion, graduates are ready for the Perfection course – the next level of BMW Driver Training.

Perfection

The one-day Perfection course explores a number of high-speed open-road situations, including mastering oversteer around a 180° curve. Piloting the new BMW M3 on an autocross track is the highlight of the course.

Fascination I

Upon completion of Perfection, the two-day Fascination course offers true driving enthusiasts the opportunity to engage in unique driving situations, including high-speed lane changes and ideal-line cornering, all appropriately taught on a track and in the exhilarating new BMW M3.

Fascination II

The highest level of instruction offered, this one-day course is taught exclusively in the new BMW M3 – perfect for multiple lapping sessions on the track.

BMW Welt. Taking delivery of a new vehicle is a proud moment for every automotive enthusiast. Make it an even more unforgettable experience by visiting the BMW Welt, a state-of-the-art brand experience and delivery centre in Munich. Spend the day marvelling at historic BMWs on display in the Museum, learn about our engineers' newest innovations in the

Technology and Design Studio, and take a tour of our plant to experience with your own eyes the exacting methods used to create every BMW. Then get behind the wheel of your new BMW, where the fascination continues for years to come. To learn more, visit the BMW World online at www.bmw.ca/europeandelivery.

JOY IS THE FEELING OF BEING LOOKED AFTER BY THE BEST.

Service. When you buy a BMW, you can look forward to superb service and comprehensive customer care. 2012 model year BMW vehicles purchased from an authorized BMW Retailer in Canada are covered by No-Charge Scheduled Maintenance for four years or 80,000 kilometres, whichever occurs first. Depending on the model you choose, your car informs you of its service requirement via the Service Interval Indicator or CBS (Condition Based Service). Then simply get in touch with your BMW Service Retailer, who will provide expert care for you and your car. Staffed by highly trained personnel, your BMW Service Retailer is also equipped with the latest computer-aided information and diagnostic tools. Important data such as V.I.N. number, mileage, and current service requirements are all stored on your car key, ensuring quick assessment of your vehicle's status. This means that staff have more time to help you. All in all, quality and safety are the watchwords of BMW Service.

BMW Roadside Assistance.

One of the most extensive roadside assistance programs in Canada. As a holder of the BMW Service Card, you and any additional drivers of your registered BMW will be entitled to an extensive range of services and benefits, including

- Emergency Service Calls
- Towing, in case of Mechanical Breakdown
- Winching
- Trip Interruption Benefits
- Traffic Accident Services
- Emergency Message Service
- Emergency Cash
- Travel Planning Services

For complete details and conditions, please refer to your BMW Warranty and Service Guide.

BMW.ca. Offering the ultimate online experience, our website is designed to offer you access to a wealth of information on BMW Service and BMW Financial Services, in an easy-to-explore format. When you visit our website, you will discover in-depth information on BMW Service, including details on the BMW Service Card, scheduled maintenance, warranty coverage, value service packages, and BMW SPA® services. Always up to date, our easy-to-navigate website allows you to quickly and easily find the information you require on your vehicle's servicing needs.

SHAPING THE FUTURE – RESPONSIBLY.

The BMW Group has been ranked the most sustainable automotive company worldwide in the Dow Jones Sustainability Index for the seventh time in a row. Sustainability is an integral part of our value chain – it encompasses every stage from the development of fuel-saving and alternative vehicle concepts to environmentally friendly production processes and recycling. Our research and development philosophy BMW EfficientDynamics delivers tangible benefits to customers, our climate, and the environment. This is reflected in the reduction of CO₂ emissions by nearly 30% across our fleet of new cars since 1995.

JOY COMES IN MANY FORMS.

BMW Financial Services.

BMW Financial Services offers a comprehensive portfolio of Leasing and Financing solutions, designed to make your transition from showroom to highway hassle-free. For information on how you can benefit from the flexibility, convenience, and expertise that only BMW Financial Services can offer, contact your local BMW Retailer or visit www.BMWfinance.ca. Our comprehensive website allows you to learn about the vast Financing and Leasing opportunities available. Interactive tools, including an advanced model selector/payment calculator, downloadable guides, and an online credit application, make it easy for you to interact with BMW Financial Services.

Magazine: How do the designers at BMW come up with the next generation of industry-leading vehicles? Who are the people behind the brand and the product? Read about this and much more in BMW Magazine, the official publication from BMW. Not available on newsstands, BMW Magazine is just another exclusive benefit of owning a BMW.

BMW Assist. Providing you with a suite of services that add confidence and convenience to your driving experience. You are just a push of a button away from emergency help, roadside assistance, and much more. When you have the BMW Assist Safety Plan, you enjoy peace of mind whenever you're behind the wheel. Speak to your preferred BMW Retailer or visit www.BMW.ca/assist for more information.

Car manufacturing requires a great deal of water, which is why we've developed an intelligent circulatory system for our factories that ensures water is reused as often as possible. The dream of a manufacturing process that does not produce any wastewater has already been made a reality at our engine plant in Steyr. In 2008, 733,500 engines were manufactured without producing a single drop of wastewater.

Sustainability is taken very seriously at the BMW Group. For this reason, we prioritize environmentally friendly methods of transport such as rail and shipping and work towards capacity optimization. Each year, we cover around 15.8 billion

tonne-kilometres transporting materials and new vehicles. Of this, 79 % of the total transported volume is delivered by sea – which benefits both road traffic and the environment.

The BMW Group has their sights set on tomorrow. Your BMW is part of a comprehensive recycling concept. Every single vehicle can be easily and economically recycled. Please contact your BMW Retailer on all matters regarding the return of your end-of-life vehicle. For more information, visit
