BREATHTAKING FROM TOP TO BOTTOM

Want to share an inspiring view on a starry night? Need a cosy refuge on a chilly morning? X-TRAIL makes sure you're well taken care of.

To design their zero-gravity-inspired seats with spinal support, Nissan's engineers looked to the cosmos. They recreated the relaxed posture of astronauts floating in space by designing an articulated front seat that supports you from the pelvis to the chest optimising the blood flow, and seat cushions that provide better pressure distribution. The result is exceptional comfort and less fatigue on the long distance trips of your adventures.

More inspiration comes from the available Power Panoramic Sunroof, offering everyone aboard the most stunning theatre view of the sky and stars.

ADAPT TO RAIN OR SLEET IN THE BLINK OF AN EYE

The X-TRAIL can adapt to changing conditions 30 times faster than the blink of an eye. Whether it's snow, rain-covered pavement or a tight turn, the system will automatically send power to the wheels that need it the most. Even in ideal conditions, the X-TRAIL's Intelligent 4x4 system pays big dividends: getting a grip has never felt better.

STAND STILL ASSIST/AUTO HOLD. No rolling backwards. With Stand Still Assist, the feature will hold your X-Trail at a stationary position for up to 3 minutes, at which point the electric parking brake will be applied if there is no driver interaction. The feature works on all gradients. Only available on manual transmissions.

INTELLIGENT 4x4. With X-TRAIL's All-Mode 4x4-i, is a system that's capable on-road and off. You can choose full-time 2WD for maximum efficiency. Auto Mode constantly monitors conditions and adjusts the balance of power between front and rear.

INTELLIGENT POWER GO FURTHER WITH A CLEAR CONSCIENCE

Looking for excellent fuel economy in a roomy SUV that's lots of fun to drive? That's what you get with X-TRAIL. From exterior aerodynamics that whisper through the wind to advanced engines transmissions including the virtually gearless XTRONIC and dual clutch DCT transmissions, it takes efficiency and performance to the next level.

Powering the X-TRAIL are Nissan's advanced 1.7 litre diesel and 1.3 litre Petrol engines, providing enhanced fuel economy, lower CO₂ emissions and excellent performance. These engines feature Nissan's automatic Start/Stop technology, which automatically shuts down the engine when temporarily not in use - to save fuel, then smoothly and quickly restarts as you pull away. Nissan engines also provide up to 2000kg towing capacity for your X-Trail.

In the latest version of XTRONIC (Continuously Variable Transmission), friction is reduced up to 40% and the ratio coverage is increased greater than that of some 8-speed automatics. An Eco mode improves fuel economy at the touch of a switch. Combined with such smoothperformance, it's like riding a continuous wave of power.

For engine performance data such as CO₂ emission and fuel consumption, please refer to model technical data sheet available online and at your local dealership.
