

The Aussie Ute

The Aussie Ute has become a tradition in country areas. And rightly so. Because nothing else matches a Falcon Ute's twin personalities: Tough when it's time to work. And smart when it's time to relax.

New Falcon Ute is available in either a standard or GL model with an 'S' pack option available for the GL. Whichever model you choose, you'll find it's more comfortable and better appointed than ever before - sporting many of the features found in Falcon sedans and wagons.

Features such as integrated head and driving lights, AM/FM stereo radio, deflectable exterior mirrors, intermittent wipers, glovebox light, ignition switch light and trip odometer. On the GL model you'll find an AM/FM radio stereo cassette player.

New Ford Falcon Utes - They stand alone.

New Ford Falcon Utes

Under the bonnet

The standard ute has Ford's advanced Alloy Head II 3.3 litre 6 cylinder engine, incorporating the latest in lean burn technology. More performance and torque but with better fuel economy in town or out. Three speed manual transmission on the column is standard.

The GL model is powered by Ford's 4.1 litre 6 cylinder Alloy Head II engine combined with a 4 on the floor transmission.

In the cab

Once behind the wheel, you almost forget you're driving a hard working utility - so closely does it resemble a sedan. Well appointed, spacious - in fact the standard model incorporates a vinyl faced Centafold seat that turns 2 seats into 3 seats at the flip of an arm rest. While the GL model has the same cloth faced bucket seats as the sedan.

The console of the GL attractively matches the interior colours and an AM/FM radio cassette player is provided to keep you company on long runs.

At the working end

But your Falcon ute also has to work hard. There's plenty of carrying room. The floor panels are corrugated and reinforced. And the sides are doubled panelled - ready for the tough jobs.

Interior of Standard Ute featuring Centafold seat.

Interior of GL Ute featuring cloth covered seats and centre console.

S Pack

An optional sporty S pack is available on the GL model to add even more style and excitement to your driving. Special sports cloth seat facings. Adjustable lumbar support and tilt for the driver. Rake adjustable steering wheel. The

comprehensive instrumentation includes a digital clock and tachometer. Outside there are S pack stripes and other special appearance items including sporty styled wheels and trim rings. And for clear vision in mist, there is a pair of powerful fog lamps.

About this brochure. This brochure is designed to provide you with a general introduction to the Ford Products (including available optional equipment) referred to, and should be read in conjunction with the latest specification sheets. Because of changes in conditions and circumstances Ford reserves the right, subject to all applicable laws, at any time, at their discretion, and without notice to discontinue or change the features, designs, materials, colours and other specifications and the prices of their products, and to either permanently or temporarily withdraw any such products from the market without incurring any liability to any prospective purchaser or purchaser.

The latest specification sheet should be referred to for information on the

availability, ordering and use of optional equipment. Always consult an Authorised Ford Dealer for the latest information with respect to features, specifications, prices, optional equipment and availability before deciding to place an order.

About this specification sheet. This sheet is designed to provide you with selected specification data for the Ford Products which have been described in a general way in the relevant brochure. Because of changes in conditions and circumstances Ford* reserves the right, subject to all applicable laws, at any time, at their discretion, and without notice to discontinue or change the features, designs, materials, colours and other specifications and the prices of their products, and to either permanently or temporarily withdraw any such products from the market without incurring any liability to any prospective purchaser or purchaser.

Because of variations which occur in manufactured products, all capacities, measurements, dimensions and weights quoted in the relevant brochure and this specification sheet should be taken as approximate only.

Always consult an Authorised Ford Dealer for the latest information with respect to features, specifications, prices, optional equipment and availability before deciding to place an order.

Footnotes

- (a) Centafold front seat is standard on Falcon Ute which is fitted with a column shift transmission. Falcon GL Ute is fitted with bucket seats and a 4-speed manual floor shift as standard. Centafold is not available with floor shift transmission or when the S-Pack option is specified.
- (b) Power steering is not available with a three-speed manual column shift transmission.
- (c) The S-Pack option is only available with floor shift transmission and includes:
- Fog lamps
 - Styled steel wheels with chrome trim rings
 - ER70H14 steel belted radial tyres
 - Sports instrumentation, consisting of analogue display tachometer and speedometer and a pair of dual function electronic vacuum fluorescent minor gauges. The bar graph type minor gauges provide water temperature and fuel level, or, at the touch of a button, the display will indicate battery voltage and oil pressure. If a critical situation develops, the display will automatically revert to that function
 - Checked tweed cloth seat facings
 - Steering column rake adjustment
 - Adjustable lumbar support and seat tilt for the driver
 - Driver's footrest
 - Distinctive paint/stripes treatment
- (d) The Heavy Duty Suspension option consists of heavy duty springs and heavy duty shock absorbers.
- (e) The Towing Pack is a factory-fitted option and provides a towing capacity of 1200 kgs for 4.1 litre vehicles, or 1000 kgs for 3.3 litre vehicles, when used in conjunction with a suitable caravan or trailer braking system and towing equipment. This pack consists of:
- Tow bar
 - Gooseneck
 - Wiring harness with 7 pin electrical connector
 - Transmission oil cooler (automatic transmissions only).
- Note: The caravan or trailer braking system and any other items (such as the tow ball and safety chains) required for the attachment of a trailer, caravan or the like to the vehicle are not supplied as part of the Pack, and must be purchased at extra cost or be supplied by the purchaser of the vehicle. The Towing Pack is designed to be incorporated in the vehicle during the assembly of the vehicle. The actual towing capability and performance of a vehicle will depend upon many factors including the suitability of the caravan, trailer etc., the condition of the vehicle, the vehicle load, the vehicle specifications (including engine capacity, transmission type, axle ratio, tyre type and size), weather conditions, road gradient, terrain and other prevailing conditions. A towing accessory is also available for fitment from your Authorised Ford Dealer. A Ford-approved transmission oil cooler must be fitted in conjunction with any towing accessory fitted to automatic vehicles and used to tow a gross weight of more than 500 kgs. Consult your Authorised Ford Dealer for the latest information with respect to the specifications and the availability of this accessory towing pack.
- (f) This pack comprises a radiator shroud (unless already fitted as part of the Air Conditioning option), and an increased capacity radiator. It is only available on 4.1 litre automatics.
- (g) Some colours are not available in metallic paint or prestige paint. Consult the Ford colour selector or your Authorised Ford Dealer to determine which colours are available in metallic paint or prestige paint.
