

FORD FALCON FUTURA AND GLi

HAVE YOU DRIVEN A FORD...LATELY?

TAKING AUSTRALIA'S
FAVOURITE
FAMILY CAR FURTHER.

When you cast your eyes over the new Ford Falcon Futura and GLi, you're looking at the product of thirty years' intensive and continuous development.

Three decades' worth of work dedicated to just one purpose: making successive generations of Falcons good enough to gain and hold the position of Australia's favourite family car.

Today, the competition is fiercer than ever. Which means that for continued success these Falcons have to perform at a level of automotive sophistication unimagined in Australian cars just a few years ago.

With each new Falcon, Ford has sought to set constantly improving standards for comfort, space, ride,

handling and performance in a family car. The latest models are no exception.

Along with second generation GLi sedans and wagons, today's Falcon marks the return of a distinguished name in Ford history: *Futura*. The Falcon Futura of the sixties offered distinctive style and refinement at an attractive price. The Futura sedans and wagons of the nineties will satisfy those who seek those very same qualities.

In styling, Falcon leaves the competition on the outside looking in. The exterior displays the clean and uncluttered lines that have made the current Falcon body shape so appealing to so many. While the interior is trimmed in a range of fashion co-ordinated upholstery colours and fabrics. Ride and handling continue to be both

comfortable and confidence building.

Under the bonnet, Falcon powers ahead with its acclaimed 4 litre, multipoint electronic fuel injected six cylinder engine. And the uncompromising power of Ford's famous 5 litre V8 is also available as an option. (Not available on Futura wagon.)

This Falcon provides safety features such as an inertia reel lap/sash seat belt for the centre rear passenger (sedan only), belt locker systems for front seat belts, increased roof strength and Anti-lock Braking System (ABS). (ABS is standard on Futura, available as an option on GLi).

In thirty years, a lot of drivers have come to trust Falcon to deliver everything they ask for in a family car, including value. As you will discover on the following pages, today's Falcons go even further by giving you even more.

FALCON FUTURA

WITH FUTURA, THERE'S
NO LOOKING BACK.

In the history of Falcon, the Futura name has meant performance, style and refinement. In the nineties it still stands for those distinctive and sought after qualities. But it also represents something more: exceptional value for money.

Falcon Futura is quickly identified by the very individual styling statement it makes.

The look is clean and contemporary, with standard metallic paint and body colour door handles and side mirrors. Non metallic paints are also available.

Australians have always looked to Falcon for full size room and comfort. Falcon Futura lives up to this expectation.

The feeling of comfort is enhanced by colour co-ordinated full cloth interior trim.

You also travel secure in the

knowledge that Futura is equipped with ABS brakes to provide greater control in extreme or emergency braking situations.

The driver deservedly receives

special attention, with a seat that adjusts fore and aft, has height and variable tilt adjustment. It also has adjustable lumbar support for lower back comfort.

Falcon Futura comfortably accommodates five adults. The standard 60/40 split fold rear seat backrest enables you to carry long or awkward boot loads in addition

to one or two rear seat occupants. There's ample storage space for personal items with handy centre console, door map pockets and lockable glove box.

YOUR FUTURA IS
LOOKING GOOD.

From behind the wheel of Falcon Futura we think you'll be impressed by what you see. An array of instruments and controls that add up to satisfying and rewarding driving, even over the longest distances.

The steering column is adjustable for reach and rake, enabling you to find the most comfortable driving position.

The steering wheel is sized and padded for optimum comfort and control. It contains the buttons that operate Futura's standard cruise control, a system that makes highway motoring more relaxing.

Futura has much that will appeal to the more discerning individual.

Sports instrumentation, including tachometer, supplies vital information about the car's operation and performance.

The quality Clarion stereo radio and auto reverse cassette player, with tuner scan and music search

features, has 8 speakers.

For added convenience, Futura is equipped with power door locks in conjunction with keyless entry, remote control side mirrors and a remote fuel filler door release. The ignition lock is illuminated and,

handily, the windscreen wipers may be activated for a single sweep with a touch of the control.

From the fully equipped interior to the distinctive styling touches like painted wheel covers, Futura is looking good. Very good.

4-speed automatic transmission available as an option on Futura sedan (standard on Futura wagon).

CFC-free air conditioning, effective and more environmentally friendly, available as an option.

Quality Clarion stereo radiocassette player with auto. reverse, music search and 8 speakers.

WHEN ONLY A WAGON

WILL DO.

For some families, nothing quite matches the outright spaciousness and all-round versatility of a wagon.

And no wagon quite offers all the possibilities that Futura opens up.

For here you have a wagon that is in every respect as distinctive and as fully equipped as the Futura sedan. But with the generous load capacity that has always been a Falcon strength.

How much space? With the rear seat folded down there's 2622 litres

of cargo capacity. When the rear seat is up you still have a considerable 1466 litres. Beautiful numbers by any assessment.

And there remains the option of adjusting the flexible 60/40 rear seat backrest to open up just the amount of space you need while

carrying one or two passengers in the rear.

Falcon Futura Wagon, like its sedan counterpart, is equipped with the powerful 4 litre, multipoint electronic fuel injected six cylinder engine, ABS brakes and the automatic transmission are standard.

THE FORD SAFETY EVOLUTION.

Ford has always had an ongoing commitment to continuously improving vehicle safety. Over successive generations of vehicles, Ford has incorporated an increasing number of safety features into Falcon.

Primary safety features include

to be found wanting when extra response is called for.

Steering and suspension systems that are precise and predictable. Powerful braking, that includes four wheel discs and ABS brakes (standard on Futura, available as an option on GLi). But because,

even though it may not be you or your car's fault, collisions do occur, Falcon's secondary safety features are so important.

The list includes integral vehicle crumple zones and strengthened passenger compartments, special front seat belt lockers and inertia

MAJOR ADVANCES IN VEHICLE SECURITY.

So that Falcon attracts no more than admiring looks from persons other than the owner, the latest technology has been applied in the area of vehicle security.

Smartlock keypad operates door locks by remote control.

Ford believes the best security system is the one you don't have to remember to switch on. So Ford developed Smartlock, a security system that's an integral part of your Falcon's operating systems. It works by automatically immobilising the vehicle when the ignition key is removed.

Before it will enable the engine to start, the Smartlock computer module demands a set of precise codes that are only released by the high security 'Tibbe' ignition key. So even the most determined thief would find it virtually impossible to start the car. Also, the profile and barrel of the ignition lock have been specifically

Doors, ignition and boot are all protected by high security 'Tibbe' locks.

designed to frustrate even the most sophisticated attempts at theft.

Recessed door lock buttons help to guard against unauthorised entry.

For your convenience, Smartlock also provides keyless access to the vehicle via a remote control keypad which operates the standard power door locks and boot lock.

SAFER FOR THE ENVIRONMENT TOO.

As you know, Chloro Fluoro Carbons (CFCs) have been identified as a risk to upper atmospheric ozone. The optional factory fitted air conditioning system in Falcon uses CFC-free refrigerant. This Ford initiative has resulted not only in a more environmentally friendly system but also a more effective one.

The CFC-free air conditioning system includes outlets at the back

of the centre console for the comfort of rear seat passengers.

SECURITY CODED RADIO.

Falcon's radio/cassette player is protected by another Ford anti-theft measure. A special security code renders the unit useless to thieves.

The radio and cassette player is protected by a programmed security code rendering the unit useless to thieves.

You'll discover that the security systems in Falcon represent more than the latest technology. It's technology applied in a most intelligent way. See your Ford Dealer soon for a detailed presentation and demonstration.

IDENTIFICATION CODING OF VEHICLE COMPONENTS.

Every Ford is allocated a unique Vehicle Identification Number (VIN) which distinguishes the vehicle from all others on the road.

6FPAAAJGWANL46173

The Vehicle Identification Number (VIN) distinguishes your vehicle from all others on the road.

Major vehicle components are permanently marked with the VIN as another way to help deter theft.

Falcon provides the security of inertia reel lap/sash seat belts for all occupants, including the rear centre passenger in Falcon sedans.

reel seat belts with reinforced mountings front and rear (including the centre rear seat on the sedans).

In fact, Ford takes safety so seriously that Falcon not only meets but significantly exceeds many of the safety standards laid down.

Of all the features to be found on your new Ford, the ones concerning safety are the ones we hope you never have to think about. But if you do, it's good to know that the engineers at Ford have done a lot of thinking for you. And here are some of their latest thoughts.

ANTI-LOCK BRAKING SYSTEM.

IMPROVED CONTROL FOR GREATER SAFETY.

Falcon's four sensor, three channel ABS braking system, standard

detects when a wheel is about to lock. When triggered, a system of electronically-controlled valves between the brake booster and the wheel open and close several times per second to enable maximum braking power just short of the point at which lock-up would occur, to be applied to each wheel.

Not only does ABS mean shorter braking distances in most circumstances, more importantly it

on Futura and available as an option on GLi, is designed to give you greater control over your vehicle in extreme or emergency braking situations.

To prevent your brakes from locking, sensors at each wheel are connected to a microprocessor which

means you still have full steering control so hazards can be more easily avoided by a combination of braking and steering.

The sophisticated ABS has software specially programmed for Australian road conditions, including a special 'deep pulse' program designed for gravel roads.

Demonstrates reactions of vehicle equipped with and without ABS in a potential brake lock-up situation.

The system is designed to operate effectively even when different wheels are on different types of surface; a situation frequently encountered when passing on-coming vehicles on narrow country roads.

Four sensor, three channel Anti-lock Braking System, (standard on Futura, available as an option on GLi), gives greater control in extreme or emergency braking situations.

Epoxy resin reinforcement of A and B pillars plus thicker front and side glass has strengthened the passenger compartment.

IT'S TOUGH AT THE TOP.

The passenger safety cage in Falcon has been significantly strengthened by improving its roof crush strength, upgrading the intrusion beams in the doors and by making the roof a structural member of the passenger compartment.

An epoxy resin composite has been used to reinforce both the A and B pillars of the vehicle, while the fitting of thicker front and side glass strengthens the area still further.

Falcon can withstand a force of 32 kN (over 3 tonnes) in testing for the US roof crush resistance standard FMVSS 216.

BELT UP FOR SAFETY.

Seat belts usually don't rate much attention - until you need them in an emergency.

Falcon helps to protect all occupants, including the centre rear passenger, with lap/sash inertia reel seat belts (sedan only).

The front seat belts have a special locking device that instantly minimises any seat belt webbing payout in extreme circumstances.

Also, sections of the belt have 'popable' stitches to control precisely the movement of the wearer in a collision.

Belt locker device minimises payout of seat belt webbing under extreme conditions.

THE POWER ON THE MOVE.

Power, and plenty of it, lies at the heart of what makes Falcon GLi and Falcon Futura such great family cars. And while the performance statistics impress, the fuel efficiency figures will delight anyone with an eye for economy.

4.0 MULTI-POINT EFI.

Bore & stroke mm	92.26 x 99.3
Cylinder head	OHC aluminium alloy
Displacement cc	3984
Compression ratio	8.8:1
Fuel injection	Multipoint
Fuel System	Elect. fuel inject. controlled by EEC4 Engine Management System
Fuel	Regular Unleaded
Max Power DIN kW/rpm	148/4500
Max Torque Nm/rpm	348/3750

Take your choice of either six cylinder or V8 power. Both engines offer copious amounts of energy produced under the economical control of Ford's EEC4 computerised engine management unit.

The 4 litre six cylinder engine is equipped with an alloy head, overhead camshaft and multipoint electronic fuel injection. It's designed to produce

148 kW of power at 4500 rpm and 348 Nm of torque at 3750 rpm. While this is a very powerful six cylinder engine, it's the smooth and quiet way in which the power is produced that's so impressive.

That smoothness is the result of a revised combustion chamber plus significant advances in piston and valve technology.

These developments help the engine breathe better resulting in faster, more effective gas flow.

To help keep the engine operating at peak efficiency, and with optimum fuel efficiency, Ford's EEC4 Engine Management System incorporates a single highly advanced microprocessor that controls both engine and automatic transmission. This system, known as Integrated Powertrain Control, uses a single chip to reduce electronic complexity and increase reliability. The end result is the co-ordinated monitoring and control of sixteen important engine functions, including fuel air mixture, air intake and coolant temperature, fuel flow and ignition timing.

WHEN THE PRIORITY

IS POWER.

For some situations and for some drivers there is simply no

substitute for the uncompromising power of a V8.

And Falcon drivers can add V8 performance to the long list of pleasures that come from owning and driving a Falcon.

Available as an option on Falcon Futura automatic sedans and Falcon GLi automatic sedans and wagons only, the 5 litre Falcon V8 engine is the inheritor of a proud tradition of Ford V8s. And this engine is a worthy successor to its illustrious predecessors.

Equipped with Sequential Multipoint Electronic Fuel Injection, the Falcon V8 is designed to develop a stirring 165 kW at 4500 rpm. With tremendous torque figures of 388 Nm at 3000 rpm.

Yet this engine isn't about raw power. It is a product of technical excellence that delivers its energy smoothly and effectively.

Enormous engineering efforts have been poured into making this engine one of the most fuel-efficient V8s ever.

The results will delight even those most concerned about fuel consumption.

For efficient breathing, air intake ducts have been specially

designed for low restriction. A mass air flow sensor, providing greater air flow metering accuracy, is monitored by the EEC4 Engine Management System.

Efficiency is also the watchword for the exhaust system. A semi-dual design is utilised featuring 63 mm

5.0 LITRE V8.

Bore & stroke mm	101.6 x 76.2
Cylinder head	OHC Cast iron
Displacement cc	4942
Compression ratio	90:1
Fuel injection	Sequential multipoint
Fuel System	Elect. fuel inject. controlled by EEC4 Engine Management System
Fuel	Regular Unleaded
Max Power DIN kW/rpm	165/4500
Max Torque Nm/rpm	388/3000

pipes to reduce back pressure. The system is constructed of long-lasting stainless steel and finishes with the flourish of a chrome plated tailpipe.

No other engine has the ability to seemingly shorten distances, flatten hills or make light work of a tow load like a V8. And no other car combines V8 performance with style and comfort like Falcon.

**ADVANCED FOUR-SPEED
ELECTRONIC AUTOMATIC
TRANSMISSION.**

Falcon puts its power to work through a smooth and positive feeling five-speed manual gearbox. For drivers who prefer an automatic transmission, Falcon's advanced, electronically controlled four-speed transmission is available as an option.

This silky smooth electronic transmission, designed, developed

and produced in Australia, gives outstanding fuel economy with quiet operation.

Economy features include a power/economy switch changeable by the driver to suit driving conditions and a torque converter with 'lock-up clutch'.

**STRAIGHT AND
SMOOTH.**

The latest Falcon GLi and Falcon Futura are equipped with a refined steering and suspension system

that give it both a comfortable ride and handling characteristics that inspire confidence.

Up front there's a short and long arm, long spindle (SLALS) front suspension. A sophisticated system built for strength and durability, yet one that offers smooth and confident road holding.

Falcon sedans are fitted with a proven and reliable Watts Link rear suspension that produces precise and predictable road manners and outstanding stability whilst towing.

Falcon wagons retain the renowned Hotchkiss rear suspension designed to cope with the extra loads to which wagons are subjected.

Falcon sedans and wagons feature suspensions with carefully chosen spring rates and nitrogen-charged gas shock absorbers. In

addition, upper and lower

mountings are designed to contribute towards a smooth ride and a quiet, durable suspension.

Falcon's power-assisted rack and pinion steering offers excellent 'feel' and sharp responses thanks to

carefully selected camber and castor geometry and a quick variable steering ratio.

Falcon also offers the security and stopping power of power-assisted four-wheel disc brakes.

Today's Falcons are truly delightful to handle, be they on gravel surfaces, open freeways, twisty roads or in tight city conditions.

ON THE OUTSIDE.

The sweeping lines of Falcon's exterior are at once stylish and aerodynamic, satisfying the twin objectives of form and function in a single stroke.

Falcon's designers, using the

latest in CAD/CAM technology, have shaped a car that not only is immensely pleasing to the eye but is also aerodynamically smooth and efficient to help reduce fuel consumption and wind noise.

Falcon's sleek styling is further enhanced by flush mounted window glass, and by concealed drip rails and exhaust air vents.

Special attention has been paid to reducing interior noise. To achieve this, thicker front and side glass has been used. Windscreen wipers have been lowered to operate with greater quietness and efficiency. And special mouldings and seals in the body and doors also help to reduce noise intrusion.

To pack plenty of luggage, the boot has 453 litres of useable carrying capacity while the jack and wheel brace are tucked away neatly out of sight.

Other important exterior design features include a low profile bonnet fitted with dual gas struts for ease of opening and closing, one piece body sides to reduce joints and one piece door construction for

sealing against dust and water. A wide body side moulding is fitted to protect Falcon's body from the annoying little dents and scratches that can occur at shopping centres and in parking stations.

A BRILLIANT FINISH.

To top off such a great body, four separate coating processes are applied to Falcon. The entire body is electro-chemically cleaned and

prepared for painting. The vehicle is dipped in primer, then a second primer coat is applied robotically. Both the top coat enamel and the clear coat are applied by robot to ensure the most effective coverage.

Finally, a rust-proofing wax is applied. And for the finest finish of all, prestige paint treatments are available as extra cost options.

Your Falcon GLi's paintwork does more than just look good. It also helps to protect your investment. In fact it does such a good job Ford provides a five year warranty against perforation corrosion.

FALCON GLi.

THE BIG CAR THAT'S ALSO A GREAT CAR.

Sheer space alone doesn't make a big car great; it's the way the space is used that's important. And in Falcon GLi there's enough head, shoulder and leg room to let you really stretch out.

There is much to satisfy and reward the driver. The excellent driving position owes much to the Falcon GLi's driver's seat. Covered in attractive and hard wearing *Saville* and *Tivoli* cloth, the seat adjusts fore-and-aft and for height. It has adjustable tilt and adjustable lumbar support for greater lower back comfort.

Adjustable front headrests, driver's footrest and moulded door trims with built-in armrests help take some of the strain out of a long trip. The steering column adjusts for both rake and reach.

Falcon GLi's comprehensive instrumentation and warning lights

for six functions keep you in the know and in control. For comfort and convenience, power exterior mirrors are standard.

The heater/ventilation system includes a duct at the rear of the centre console for the comfort of back seat passengers.

Falcon GLi's advanced AM/FM stereo radio with cassette player features four speakers, auto reverse, auto scan, LCD display, auto store and digital clock.

Power door locks and Ford's *Smartlock* keyless entry and security system are standard.

FALCON GLI. A LOT OF ROOM. A LOT OF COMFORT. A LOT OF WAGON.

There is a solution for families who wish to enjoy all the room and comfort of a Falcon GLi sedan but with the extra carrying space they need. Falcon GLi wagon.

Falcon GLi wagon mirrors its sedan counterpart in major equipment levels and engineering sophistication while delivering a vast amount of versatile cargo space. For example, there's room for five adults plus 1466 litres of load space in the rear. By using the 60/40 split rear seat, you can

expand that load capacity while still carrying one or two passengers in the back.

If you want maximum load space, simply fold down the rear seat and you'll open up a cavernous 2622 litres. Loading and carrying are easy thanks to a high and wide opening tailgate and a virtually flat floor with no intruding suspension towers. For a clear view behind, Falcon GLi wagon has a tailgate wiper/washer. When, the front wipers are in use and reverse gear is selected, the rear wiper is

automatically activated, proof that with Falcon GLi, wagon drivers travel first class.

**STYLING AND
SUSPENSION OPTIONS.**

Your new Falcon sedan is engineered to perform to exacting standards of ride and road holding. But for the driver who wants to equip his new car to perform with even sharper handling and quicker responses, a sports suspension option is available to enhance your Falcon sedan's touring capabilities.

Ford options are specifically made for Ford vehicles from high quality materials, and because they're installed before delivery you are assured of proper fit and compatibility. Ford options are fully covered by the Ford 24 month/50,000 km Express New Vehicle Warranty.

**FORD HANDLING OPTIONS
GIVE YOU EVEN
BETTER PERFORMANCE.**

Australia's motoring press have praised the handling of today's Falcon. With a Sports Suspension,

that handling, is improved even further. Stiffer front and rear springs, sports-tuned shock absorbers and bushes, front stabiliser bar and revised wheel alignment combine to produce razor-sharp handling and a new low stance on the road.

BODY STYLING KIT.

Includes side skirts, front and rear aprons for the bumper bars and a raised deck lid spoiler with integrated high mounted stop light.

Falcon performance handling packages include stiffer front and rear springs, new sports-tuned shock absorbers and bushes, new front stabiliser bar and revised wheel alignment.

Improves aerodynamic performance and gives your new car a sensational appearance.

MOMO STEERING

WHEEL.

Leather covered sports steering wheel designed for enhanced comfort, control and vehicle 'feel'.

16" WHEELS AND TYRES.

Aggressive 16" x 7" five spoke alloy wheels fitted with high performance Michelin 225/50 ZR 16

tyres. Designed to fully exploit the handling capabilities of the Sports Suspension, while adding a bold new style to your vehicle.

1200kg RATED

TOW PACK.

Specifically designed for Falcon. 1200 kg capacity. Includes the towbar with painted tongue, wiring harness, 7-pin connector, reinforcement brackets, and transmission oil cooler for automatic transmissions.

HEAVY DUTY

TOW PACK.

For those who already have a 2100 kg or 2300 kg Load Distributing Hitch and who want a compatible towbar on their new Ford. Features Hayman Reese Heavy Duty Tow Bar (2300 kg rated capacity), trailer

wiring kit, revised turn signal flasher, heavy duty brake pads (where not fitted as standard), transmission oil cooler for automatic transmissions, and a 1200 kg rated capacity plug-in tow ball mount.

2300 kg RATED

TOW PACK.

2300 kg rated capacity.[®] Features renowned Hayman Reese heavy duty towbar and load distributing hitch, trailer wiring kit, revised turn signal flasher, heavy duty brake pads (where not fitted as standard), and transmission oil cooler for automatic transmissions.

[®]Subject to State and Territory regulations.

SUNROOF.

Precision crafted electric glass sunroof fully imported from Germany. Operates as a tilted vent to improve ventilation or partially or fully open to increase your enjoyment of the great outdoors. Automatic pop-up wind deflector reduces wind noise and buffeting.

All dimensions are shown in (mm).

CONSIDER YOUR OPTIONS.

Further increase the level of comfort, performance or style of your Falcon by adding from this list of extra cost options.

1.

5 LITRE SEQUENTIAL MULTIPOINT EFI V8 ENGINE.

The ultimate in power and performance, developing 165 kW @ 4500 rpm, 388 Nm of torque @ 3000 rpm. Ideal for long distance towing.

2. ✓

4 SPEED ELECTRONIC AUTOMATIC TRANSMISSION.

Designed and built in Australia, featuring power/economy modes. T-Bar shift, or column change when ordered with Centafold seat (see below).

3.

LIMITED SLIP DIFFERENTIAL.

Provides more traction in wet or slippery conditions. Recommended for vehicles used for towing or travelling on unsealed roads.

4.

CRUISE CONTROL. ✓

This convenient option on Falcon GLI enables you to maintain a constant speed on the open road. Instantly disengages when either brakes, clutch or "off" switch are operated. Switches are integrated in hub of steering wheel.

5.

CENTAFOLD SEAT.

Unique to Falcon, Centafold front seat is available in place of standard bucket seats. Lift the armrest and it becomes a back rest to seat three across. (Column auto trans. mandatory with this option).

6. ✓

AIR CONDITIONING.

Factory fitted and completely integrated. Provides relief from heat and humidity and demists glass quickly.

7.

HEAVY DUTY SUSPENSION.

Heavy duty springs and shock absorbers provide a 19 mm increase in ground clearance of underbody components. Recommended for vehicles operating in rigorous conditions, eg. country travelling.

8.

SPECIAL EXTERIOR PAINT.

For that extra touch of class, choose from the impressive range of prestige paints available.

FORDCARE.

OUR COMMITMENT

TO

CUSTOMER

SATISFACTION.

Fordcare is a whole range of programs, products and services designed to make Ford owners the most satisfied motor vehicle owners in Australia.

Fordcare starts when you enter an Authorised Ford Dealer's showroom, it's there when you take delivery of your new Ford and it continues for the life of the vehicle.

That means first class service for you at all times, and nothing less than the best for your Ford from our extensive network of Authorised Ford Dealers.

As motor vehicles become more sophisticated and technically advanced, specialised care and maintenance become more vital.

Fordcare provides the technical equipment and expertise to keep your Ford operating in peak condition.

The well-being of your Ford is supported by these additional warranties:

THE FORD

24 MONTH/50,000 KM EXPRESS NEW VEHICLE WARRANTY.

Covers your Ford against defects in factory materials or workmanship for the first 24 months or 50,000 km whichever comes first.

When fitted at time of vehicle purchase, Ford Approved Accessories are also covered by the Ford 24 month/50,000 km Express New Vehicle Warranty.

FIVE YEAR PERFORATION CORROSION WARRANTY.

Covers the original vehicle's body against perforation corrosion for the first five years of its life.

LIFETIME SERVICE WARRANTY.

Covers the majority of part replacements, including labour, carried out by your Authorised Ford Dealer after the expiration of the initial Ford 24 month/50,000 km Express New Vehicle Warranty.

It means you will only ever pay once for such repairs under normal driving conditions.

LIFELONG PANEL

WARRANTY.

Covers replacement of outer body panels against perforation corrosion for the life of the vehicle. Further information on these warranties may be obtained from your Authorised Ford Dealer.

FORD CUSTOMER ASSISTANCE CENTRE.

You will find our Customer Assistance Representatives responsive to your needs. They can assist with any general enquiry about your vehicle that calls for special information beyond the scope of your Authorised Ford Dealer.

Customer Assistance Centre phone 008 333 306 (TOLL FREE), in Melbourne phone 359 7023.

FORD LEASING.

Fully maintained operating leases are available to approved applicants through Ford Credit Australia Limited. Enquire at your participating Authorised Ford Dealer.

Further increase the level of comfort, performance or style of your Falcon by adding from this list of extra cost options.

1.

AIR CONDITIONING.
Provides relief from the heat on hot days and rapid demisting in cold and damp conditions.

REAR SUNSHADE AERO PROFILE.
Made of dark grey translucent acrylic. Offers style with practicality.

FLAT SPOILER.
An aerodynamic aid that adds style too.

CARPETED DOOR BINS.
Extra, useful storage space, trimmed to colour co-ordinate with the interior of your Falcon.

AIR ADJUSTABLE SHOCK ABSORBERS.
Help maintain a level ride when carrying extra heavy loads or when towing.

ELECTRIC AERIAL.
Raise or lower the aerial from inside the vehicle.

FIRE EXTINGUISHER.
An important safety accessory. Supplied with mounting bracket.

BONNET PROTECTOR.
To help protect leading edge of bonnet from stone-chipping.

bodywork and add value. Ford factory accessories are the only accessories specifically designed for Falcon.

They're manufactured with the same care and attention to quality as the car itself, and are fully covered by the Ford 24 month/50,000 km Express New Vehicle Warranty if

VENETIAN SHADES (SEDAN.)
Helps protect rear seat passengers and interior from the sun.

INSECT SCREEN.
Helps to keep bugs out of radiator. Easily removed for cleaning.

AIR HORNS.
Produce a penetrating dual tone.

TRAILER WIRING/ACCESSORIES.
Everything you need to connect Falcon's electrical system to a caravan or trailer.

fitted prior to delivery.* Choose your accessories when you order your new Falcon and start enjoying the advantages as soon as you take delivery. Your Ford Dealer will be happy to show you the range.

*Accessories fitted after new vehicle delivery are covered by the 12 month/20,000 km Express Parts Warranty.

SUMP GUARD.
Extra protection for the underside of your vehicle when driving in rough conditions.

LOCKING FUEL CAP.
Helps guard fuel against theft or tampering.

REAR SUNSHADE TWIN BLADE.
An attractive alternative to the rear louvre for rear seat sun protection.

DISABLED DRIVER'S KIT.
An accessory which makes driving easier for those with certain disabilities.

Cruise Control. (Standard on Futura) Helps maintain a constant speed on the open road. Instantly disengages when brakes or clutch are applied.

Trip Computer. Displays fuel consumption, distance to empty and average speed.

Weathershields. Tough acrylic shields help to protect against wind and light rain. Slimline models also available.

Front Sunvisor. Adds style and protection from sun and glare.

Rear Louvre. Helps to reduce glare and shades rear seat occupants.

Car Alarm. The only car alarm approved by Ford. Integrates with the Smartlock keyless entry and immobilisation system.

Deck Lid Spoiler. Improves vehicle aerodynamics and adds more style.

Sports Road Wheels. Add the sporty good looks and performance of alloy wheels.

1200 kg rated Towbar. Specially designed for Falcon. Meets Australian Design Rules (ADR62) specifications.

Futura Wagon shown rear view (above) with styled mudflaps, wagon roof rack and venetian shades.

Falcon GLi shown rear view (above left) with acrylic rear shade, exhaust extension, carry bars and styled mudflaps.

What the best dressed Falcons are wearing. Shown left Falcon GLi (front view) carry bars, headlamp guards and slimline weathershield.

Tailored Carpet Mats. Hard wearing protection, in colours to match your Falcon's interior.

Transmission Oil Cooler. Helps avoid overheating and possible transmission damage. Essential for towing with auto transmissions.

Accessories are covered by the Ford 24 month/50,000 km Express New Vehicle Warranty if fitted prior to delivery.

SATISFACTION.**FORDcare**

Fordcare is a whole range of programs, products and services designed to make Ford owners the most satisfied motor vehicle owners in Australia.

Fordcare starts when you enter an Authorised Ford Dealer's showroom, it's there when you take delivery of your new Ford and it continues for the life of the vehicle.

That means first class service for you at all times, and nothing less than the best for your Ford from our extensive network of Authorised Ford Dealers.

As motor vehicles become more sophisticated and technically advanced, specialised care and maintenance become more vital.

Fordcare provides the technical equipment and expertise to keep your Ford operating in peak condition.

The well-being of your Ford is supported by these additional warranties:

24 MONTH/50,000KMEXPRESS NEW VEHICLEWARRANTY.

Covers your Ford against defects in factory materials or workmanship for the first 24 months or 50,000 km whichever comes first.

When fitted at time of vehicle purchase, Ford Approved Accessories are also covered by the Ford 24 month/50,000 km Express New Vehicle Warranty.

FIVE YEAR PERFORATIONCORROSION WARRANTY.

Covers the original vehicle's body against perforation corrosion for the first five years of its life.

LIFETIME SERVICEWARRANTY.

Covers the majority of part replacements, including labour, carried out by your Authorised Ford Dealer after the expiration of the initial Ford 24 month/50,000 km Express New Vehicle Warranty.

It means you will only ever pay once for such repairs under normal driving conditions.

WARRANTY.

Covers replacement of outer body panels against perforation corrosion for the life of the vehicle. Further information on these warranties may be obtained from your Authorised Ford Dealer.

FORD CUSTOMERASSISTANCE CENTRE.

You will find our Customer Assistance Representatives responsive to your needs. They can assist with any general enquiry about your vehicle that calls for special information beyond the scope of your Authorised Ford Dealer.

Customer Assistance Centre phone 008 333 306 (TOLL FREE), in Melbourne phone 359 7023.

FORD LEASING.

Fully maintained operating leases are available to approved applicants through Ford Credit Australia Limited. Enquire at your participating Authorised Ford Dealer.

This brochure is designed to provide you with a general introduction to the Ford Products (including available optional equipment) referred to, and should be read in conjunction with the latest specification sheet. Because of changes in conditions and circumstances Ford reserves the right, subject to all applicable laws, at any time, at its discretion, and without notice, to discontinue or change the features, designs, materials, colours and other specifications and the prices of their products, and to either permanently or temporarily withdraw any such products from the market without incurring any liability to any prospective purchaser or purchaser. The latest specification sheet should be referred to for information on the availability, ordering and use of optional equipment. Always consult an Authorised Ford Dealer for the latest information with respect to features, specifications, prices, optional equipment and availability before deciding to place an order. *FORD MOTOR COMPANY OF AUSTRALIA LIMITED, (A.C.N. 004 116 223) Registered Office: 1735 Sydney Road, Campbellfield, Victoria 3061, Australia. Printed July 1993.

HAVE YOU DRIVEN A FORD...LATELY?
