SE V6 [shown in Salsa Red Pearl with available power moonroof.

PROMISE TO SHARE YOUR GOOD FORTUNE WITH OTHERS. OFFER THEM A RIDE.

When you own a 2004 Toyota Camry, thank your lucky stars. After all, everyone should be this fortunate. Take the top-of-the-line Camry XLE. With an interior highlighted by wood-grain-style trim and available leather seats, you may feel a bit guilty. Then there's the fun-to-drive Camry SE featuring a sport-tuned suspension, power moonroof and available 3.3-liter VVT-i V6 that's always raring to go, while the value-packed Camry LE will surprise you with standard features like a power driver's seat and remote keyless entry. Sure, you've had it better — in your dreams. Oh, and don't forget about the new Limited Edition Camry¹ featuring a distinctive exterior color, badging, grille, wheels, unique interior seat fabric and leather-trimmed shift knob and steering wheel. So go ahead, take your friends for a spin. This is one promise you shouldn't have any trouble keeping. Remember, you still get to drive.

¹Available mid-August 2003.

⁶The Toyota touch-screen DVD navigation system is designed to assist in locating an address or point of interest. Discrepancies may be encountered

between the system and your actual location. Changes in street names, road closures, traffic flow or other road system changes may affect the accuracy of the mapping software. Rely upon your common sense to decide whether or not to follow a specified route. Detailed coverage not available in every city. Optional periodic geographical updates available at an additional cost. See your Navigation System Owner's Manual and your Toyota dealer for further details.

⁸The Toyota driver, front passenger, front seat-mounted side airbags and side curtain airbags are Supplemental Restraint Systems (SRS). The driver and front passenger airbags are designed to deploy in severe (usually frontal) collisions where the magnitude and duration of the forward deceleration of the vehicle exceeds the design threshold level. The side airbags and side curtain airbags are designed to inflate in severe side-impact collisions. In all other accidents, the airbags will not inflate. To decrease the risk of injury from a deploying airbag, always wear seatbelts, sit upright in the middle of the seat as far back as possible from the airbag modules and do not lean against the door.

Do not put objects in front of an airbag or around the seatback. Do not use rearward-facing child seats in any front passenger seat. The force of a deploying SRS airbag may cause serious injury or death. Please see your Owner's Manual for further instructions.

¹⁰Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions.
